Course Text / Readings / Materials: A variety of recorded repertoire and jazz scores/transcriptions will be suggested for listening and analysis.

3. **LEARNING OUTCOMES WITH EXAMPLES**

1) Brief statement of purpose:

These courses are designed to give the students the practical means to be become jazz improvisers within the dynamic of a small ensemble setting. As a repertoire course the student will come to understand more deeply the evolution of the jazz through the music of the greatest post-war saxophonists. These courses also offer the students an opportunity to apply the skills that they are concurrently studying in their respective co-requisite theory classes (FA/MUSI 1059, 2059, 3059, and 4059) and their optional individual instruction courses (FA/MUSI 1054, 2054, 3054, and 4054). There is an additional opportunity to apply transcription and arranging skills if this is an area of study for the student.

(2) Brief list of specific learning objectives:

- awareness of the history and tradition of the music as well as contemporary directions
- developing melodic, harmonic, and rhythmic skills as an improviser
- practical experience in performing different styles (standard repertoire, bebop, modal, latin, etc.)
- repertoire development
- live performance experience (mandatory concert performances occur at the end of each term)
- developing increased ability to listen to the other musicians during performance and to communicate within the dynamics of a group. The latter point is an invaluable skill that is transferable to any other aspect of group dynamics, musical or otherwise. All of the objectives described above offer the students important tools for their musical development regardless of the genre of music they may eventually choose to pursue.

4. **GRADED ASSESSMENT**

The final grade will be based on the following breakdown:
Fall Term Performance 30%
Winter Term Performance 40%
Attendance and Participation 30%
TOTAL 100%
