FINANCE ANNOUNCES CHANGES TO ORIGINAL RECEIPT SUBMISSION REQUIREMENTS FOR CONCUR EXPENSE CLAIMS

January, 2016

In the summer of 2014 the Finance department introduced Concur Expense (York's electronic expense reporting system). We are pleased to report that over 85% of faculty claims and 95% of staff claims are currently being submitted and processed through Concur.

As part of our ongoing efforts to improve services to faculty and staff and to streamline processes, Finance continues to pursue opportunities to improve the configuration and design of the Concur system.

Some of the changes that have been made or are in progress include:

1. The frequency of direct deposit payments for expense claims has increased, from two to three times per week.
2. A review is currently in progress to further streamline the approval process.

Today, we are announcing a further efficiency. The University has investigated the technical requirements of both the Canada Revenue Agency and the Federal Tri Council Agencies, to accept electronic receipts. This technical review and evaluation by an external expert has now been completed and the University has met the standard to eliminate the requirement to retain paper receipts when they are stored electronically in the Concur Expense System.

*Effective immediately, faculty and staff who submit expense claims in Concur are no longer required to send their original receipts to Finance.*

Original receipts will still be required for expense claims submitted using the manual (or paper) forms.

For further details on the new receipt submission guidelines, please refer to the chart below:
