

If you are a current or potential graduate student at York University with an interest in public health

Welcome to the Graduate Research Association of Students in Public Health.

Our goal at GRASP is to strengthen and expand public health studies at York University. To do so, we organize events that bring together students from across the university facilitating thought-provoking discussion and the sharing of our research areas.

This year, we hope to bring together a truly interdisciplinary executive team. We would love for Nursing graduate students to be involved with GRASP. All executive positions are open and descriptions can be found on our website: www.yorku.ca/grasp. Please email nominations to: grasp@yorku.ca.

Our elections are THIS MONDAY, so please do come out!

Date: Monday September 26th, 2011

Time: 3:30-5:00pm

Room: 320 Bethune College

We hope to see you there!
