Dear Student,

Course evaluations provide an opportunity for you to give your instructors feedback about your courses. Rather than using cumbersome paper forms, electronic forms are now available on-line and can be filled out at any time from home, at a university computer or on your wireless PC!

At anytime between November 14th and December 4th, go to the URL below and click on the links for your courses. Complete the brief evaluation survey simply by clicking on rating buttons and writing comments!

http://courseevaluations.yorku.ca

There are four sections to your course evaluation:

A. Overall Evaluation of the Course (Written Comments)
B. Evaluation of the Lecture
C. Evaluation of your Tutorial (if applicable)
D. Evaluation of your Lab (if applicable)

You can be assured that the process is entirely confidential. Your instructors only receive the summary tabulated results of the on-line survey; your written comments are merged under the appropriate heading with those of others and then, following the official end of the academic term and after grades have been submitted by the course director, the summary comments are forwarded to the instructor.

Please take the time to fill out this on-line course evaluation. Your input is very valuable to us and it is taken seriously. It will help improve and enhance student experience and satisfaction in courses.

If you have any problems accessing your online evaluation, please email: helpdesk@yorku.ca or phone 416-736-2100 ext. 55800.

Make a difference! Participate! Share your opinion!
