

Vision	<i>Global leaders in redefining and advancing health and human science</i>
---------------	---

Mission	<p style="text-align: center;"><i>Our mission is to provide an innovative and supportive environment for learning, teaching and discovery</i></p> <ul style="list-style-type: none"> • Our Research addresses health and human science at all levels – from molecular to global. It encompasses basic to applied and theory to practice. Our research builds on both disciplinary depth and inter-disciplinary breadth. • Our Education includes a full spectrum of lifelong learning opportunities from undergraduate and graduate through to continuing professional development and community-based education. • Our Service activities engage and support the broader University, local, regional and national communities, and global partners.

Strategic Directions

A. Enhancing the Student Experience	B. Generating Innovative Research that Makes a Difference	C. Connecting with Communities – Local to Global	D. Developing our Faculty & Staff	E. Building Key Support Resources
A1. Develop new experiential education opportunities, including ways for students to work in communities and to experience future professions A2. Improve educational quality and delivery of teaching A3. Provide enhanced support for students, including career and graduate school counselling and financial support A4. Explore new modes of program and course delivery A5. Create defining experiences for all Faculty of Health students A6. Enable more formal and informal student-faculty interaction A7. Enhance the student voice in the Faculty	B1. Enhance research infrastructure and support within the Faculty – in cooperation with the University's Office of Research Services B2. Build specialized research partnerships with local and provincial organizations B3. Enhance innovative inter-disciplinary and discipline-specific research that addresses priority local and global needs B4. Explore new approaches to knowledge exchange, transfer, dissemination and mobilization B5. Identify emerging trends and research opportunities, and support responses to them B6. Expand the range of research funders and partnerships	C1. Develop new and innovative partnerships with a diverse array of communities and special populations C2. Build on linkages within the Faculty, with York's existing Centres, and with research partners in other Faculties C3. Enhance external communications and marketing efforts C4. Develop international partnerships in strategic locations for enhancing our research and education C5. Sustain and extend existing community partnerships C6. Develop and maintain connections with our alumni	D1. Support ongoing professional development and growth for full and part-time faculty and staff D2. Create new means of enabling intellectual exchange among faculty members D3. Address concerns related to equitable workload within and across Units D4. Enhance internal communications and cooperation D5. Develop a mentorship program for new faculty members and staff	E1. Develop expanded and improved space for research and teaching E2. Lay the groundwork for the development of a new building E3. Expand our alternate revenue streams E4. Access appropriate equipment and technology E5. Review and enhance our organizational structures and processes to support strategic directions E6. Develop a comprehensive advancement strategy E7. Develop a communications strategy for broad-based understanding of the Faculty's vision, mission, values and strategic directions
