A Message of Welcome from the School of Nursing

Welcome to our learning community!

The School of Nursing offers you an innovative teaching approach that goes beyond a purely medical model to focus on the development of the theoretical, scientific and philosophical knowledge of human caring.

Today, society is calling for fundamental changes to our understanding of the meaning of health, the role of health care practitioners, and the purpose of health care systems. This has resulted in an increasing demand for health care services and practitioners that focus on the experiences of human beings in a way that respects patients’ values and choices about health and quality of life.

PROGRAM INFORMATION AND REQUIREMENTS

Mission Statement

The mission of the School of Nursing is to create a culture of caring that fosters lifelong learning and the development of human science-based nursing knowledge, research and practice. We honour and respect the unique lived experience of all people and their inner wisdom in terms of the processes of health, healing and quality of life. The partnerships seek to offer innovative, open and flexible programs that are responsive to societal needs in diverse communities and to the current and future directions of the nursing profession.

Philosophy of the BScN Program

The philosophy of the bachelor of science in nursing program is broadly based in the human sciences. It draws upon multiple nursing theoretical perspectives that are consistent with the human sciences, such as those of Newman, Parse, Paterson and Zderad, Rogers, and Watson. Human science focuses on human experiences and the meanings, patterns and themes that emerge in human living.

The school’s programs are rooted in Nightingale and build on the Em Bevis and Jean Watson’s Caring Curriculum (2000), which sees nursing as the knowledge and practice of human caring. Caring praxis is seen as practice that is informed by an ethos of caring.

This philosophy is lived within all aspects of the curriculum in terms of both process and content. What emerges is a curriculum that embraces individual uniqueness, multiple ways of knowing, creative expressions of nursing scholarship and global consciousness. This is a distinct departure from conventional nursing curricula, in which an emphasis is placed, both implicitly and explicitly, on the biomedical model, differential power relationships between nurses and patients (nurses as experts, patients as the receivers of the expertise) and objective, measurable forms of knowledge as the exclusive source of knowing.

The key aspects of the philosophy are the relationship of human beings and their world, health and healing, nursing as a unique body of knowledge and the teaching-learning process. These aspects of the philosophy will be discussed in the following sections.

Human Beings and Their World

Nursing as a discipline is concerned with human beings who live as individuals, families, groups, communities and organizations in diverse, multicultural societies. The school’s philosophy focuses on the idea that humans live intersubjectively in relation with others and the world. Humans are meaning-makers and interpreters of their experiences. All humans have the capacity and right to make choices about their ways of living, their ways of learning and their health. We believe in the necessity of understanding and critiquing the social, cultural and political context of individual, group, community and global health. This stance is needed to challenge systemic values, assumptions and structures that limit possibilities for human health and healing. Humans live in and with the world, evolving in continuous mutual process. They experience living and create meaning from those experiences in unique ways. The experience of being human is expressed in holistic ways.

Health and Healing

Health and healing are constantly changing human expressions of ways of being that are lived and defined by those who are experiencing them. From this perspective, health and healing exist within all phases and circumstances of living, including illness and dying. Health and healing are unique expressions of harmony, balance and wholeness within and between human beings and the world in which they live. This world view includes respect for our planet, which gives forth and sustains all life. The processes of living health and healing are opportunities for transcendence, transformation and expanding consciousness of human beings and the world. Human health and healing are co-created through intentional caring-healing relationships between nurses and people.
Nursing

Nursing’s mission is the betterment of human and planetary life, both locally and globally, now and for the future. This mission is based on nursing as a unique body of theoretical, philosophical and personal knowledge that is expressed through ways of being with humans as they journey through processes of living health and healing. The practice of nursing, based on this philosophy and informed by nursing science, is lived in caring relationships with persons, families and communities. These relationships support and enhance health, healing and quality of life. Nursing scholarship focuses on inquiry into the human experiences of health and healing, as well as the creative, integrative and expressive forms of caring-healing enacted in nursing practice. Nursing knowledge and practice inform and shape each other. The synergistic effect enables nurses to understand and significantly contribute to persons’ experiences of health and healing.

Sources of knowing in nursing are unbounded; that is, as unitary beings in relation, nurses draw on multiple sources of knowing including the rational, empirical, theoretical, philosophical, personal, moral and ethical, intuitive and transcendent. Caring nurses utilize these multiple sources of knowing to be with, witness and co-create quality of life with clients, their families and the community they serve.

Nursing is a self-regulated profession. Nurses are responsible and accountable for providing competent and ethical practice to their clients, the public, their colleagues and themselves. Nurses have a professional responsibility to seek continuously to improve their practice through critical self-reflection, scholarship, research and innovation.

Nurses have a professional and ethical responsibility to influence, advocate for and support healthy public policy, institutional practices that promote quality of working life, and legislation that contributes to the health of nurses and humankind.

Teaching-Learning

Nurses value the limitless possibilities of learning. Learning is a lifelong, often mysterious, dynamic process of personal and professional growth. It builds on experience, stimulates critical reflection and fosters the (re)formulation of the meaning of experience through the creativity of imagining. It contributes to self-esteem, self-knowledge and choosing our possibilities. Teachers and learners as co-learners become partners in a collaborative learning process. A community of learners brings valuable knowledge and experience that is respected in the learning environment. Adults are capable of and have the right and responsibility to be self-directing learners.

Teaching/learning is a dynamic process of discovery through interaction and engagement, which occurs in both formal and informal contexts that acknowledge multiple ways of knowing. Authentic caring through transpersonal relationships is vital to teaching/learning. Courageous teachers/learners embody the caring curriculum by supporting, encouraging and valuing learners by believing in them and truly present with them, thereby promoting trust, honesty, creativity, innovation and meaning-making. With this in mind, approaches to teaching/learning include dialogue, modelling, practice, reflective thinking and experiential group process. Formal learning is based on the principles of cooperative, anticipatory-innovative learning. These principles are designed to create a learning community that supports the strengths and learning needs of all learners. Teaching and learning processes enhance learners’ ability to think critically and reflectively while finding pathways to new knowledge, freedom and connectedness with one another. This may occur from both intended and unintended learning. A shared learning journey enables each person to find his or her own voice, nourish his or her soul, and be committed to lifelong learning.
How to Use This Supplemental Calendar

This supplemental calendar has been produced to remind students of important details contained in the University Calendar—the official document of the University (http://calendars.registrar.yorku.ca/calendars/). It is also intended to supplement the information in the University Calendar by providing specific Nursing program information. A copy of the School of Nursing Supplemental Calendar is also available online at www.yorku.ca/health/nurs/.

This supplemental calendar is divided into four main sections that include many sub-sections. The Program Information and Requirements section provides an overview of general program information about the School of Nursing, such as contact information, advising, scholarships, awards and bursaries and faculty interests. In addition, it includes the programs of study (York-Seneca-Georgian Collaborative BScN program, Second Entry BScN program, Post-RN IEN BScN program, and practicum information).

The second section of the supplemental calendar contains information on academic standing, policies and procedures, which includes university policies such as the student code of conduct, academic honesty and academic integrity, letters of permission, the grading system, honours progression and graduation requirements, examinations, academic penalties, departmental policies and petitions.

The third section contains information about courses and their description.

The last section is Resources and Student Life. This section provides information on resources provided by the School of Nursing and York University, such as Clubs and Organizations, the Nursing Resources Centre and Lab, the Nursing Library, building acronyms and useful and important Web sites for students.

Contact Information for Faculty and Staff in the School of Nursing

Faculty and staff contact information can be found on the Current Students Web site:
http://mocha.yorku.ca/atlas/servlet/atlas

For the complete list of faculty and staff, type in School of Nursing in the department field and click search.

Academic Advising Support

The Faculty of Health, Office of Student and Academic Services (HH OSAS) provides student advising on an appointment basis and by flexible drop-in advising hours.

Contact information:
Health, Nursing and Environmental Studies, Rm. 019
Tel: 416-736-5299
E-mail: hhadvise@yorku.ca

Office hours:
Monday to Wednesday, Friday*: 8:30am to 4:15pm
Thursday: 8:30am to 5:45pm
* For the months of June, July and August, Fridays 8:30am to 3:15pm

Faculty Interests

The list of faculty members and their research and teaching areas can be found on the Faculty of Health Web site: www.yorku.ca/health/people.

Scholarships, Awards and Bursaries

York University offers a number of scholarships, awards and bursaries to assist students with financial need or to reward academic and personal achievements.

Scholarships

Scholarships recognize exceptional talent/promise or academic excellence, as defined by

1) a minimum grade of 80% for students entering from secondary school or

2) a minimum undergraduate grade point average of 7.50 or

3) a minimum A average for graduate studies or

4) top academic/artistic performance, when an award evaluates students’ marks in comparison with their peers.

In some cases, scholarships may also include non-academic criteria, e.g. financial need,
residency etc. All scholarships will appear on a student's transcript.

Awards

Awards combine academic criteria (minimum grade of 70% for students entering from secondary school, undergraduate grade point average of 6.00 or graduate average of B) and non-academic criteria, e.g. talent, promise, community service, leadership, financial need. Awards with an academic component appear on a student's transcript.

Bursaries

Bursaries are primarily designed to assist students with financial need. Recipients must be in good academic standing. Bursaries do not appear on the student's transcript.

Information on York University scholarships and bursaries, including a searchable database, is available online at http://sfs.yorku.ca/scholarships/index.htm.

Student Financial Profile (SFP)

The Student Financial Profile is a multi-purpose online application form that is used to apply for scholarships, bursaries and on-campus employment programs such as Research at York (RAY) and Work/Study. Students should complete the SFP at the start of each academic session to be considered for a variety of programs. The SFP is available online at http://sfs.yorku.ca/services/sfp/index.htm.

Faculty of Health and University Awards and Bursaries for Students in the BScN Programs

Students in the Faculty of Health are eligible to apply for Faculty of Health-specific awards, as well as pan-University awards that are open to students in all faculties. Please search the awards online via the awards search and follow the application procedure for each award. The deadline for the fall/winter pan-university awards is usually mid-October.

<th>Application Process</th>
</tr>
</thead>
<tbody>
<tr>
<td>Colin Ramsay Bursary</td>
<td>The Colin Ramsay Bursary is to be awarded yearly to a mature student enrolling in the Post-RN Bachelor of Science in Nursing (Honours) program, Health Policy and Management at York University. The award will be given to a student currently employed in the field of nursing and holding a current RN certificate of competency from the College of Nurses of Ontario, with preference given to students who have had their studies interrupted and are returning to school to further her/his education. Preference will be given to students who demonstrate financial need.</td>
<td>To apply for this award, please submit a Fall/Winter Student Financial Profile.</td>
</tr>
<tr>
<td>Frances &amp; Frederic Robinson IEN Bursary</td>
<td>The Frances &amp; Frederic Robinson IEN Bursary will be awarded annually to students who are enrolled in the first term of the Bachelor of Science in Nursing Internationally Educated Nurses (IEN) Post-RN program. Recipients must be Canadian citizens, permanent residents or protected persons and Ontario residents who demonstrate financial need.</td>
<td>To receive consideration for this award, students must submit a Student Financial Profile available at: <a href="http://www.yorku.ca/osfs/bursaries.shtml">www.yorku.ca/osfs/bursaries.shtml</a> by the fall deadline date. Students with disabilities have the option of submitting a paper application. Paper copies of the application are available at any of the disabilities service providers on campus.</td>
</tr>
<tr>
<td>Frances &amp; Frederic Robinson Nursing Award</td>
<td>The Frances &amp; Frederic Robinson Nursing Award will be awarded annually to two students who have completed at least 90 credits of the bachelor of science in nursing degree (with the highest cumulative grade point average among eligible candidates). One recipient will be selected from the Collaborative BScN program and one from the 2nd Degree Entry BScN program. If there is no eligible recipient in one of the programs, both awards will be given to eligible recipients in the other program. Recipients must be Canadian citizens, permanent residents or protected persons, residents of Ontario and demonstrate financial need.</td>
<td>To receive consideration for this award, students must submit a Student Financial Profile available at: <a href="http://www.yorku.ca/osfs/bursaries.shtml">www.yorku.ca/osfs/bursaries.shtml</a> by the fall deadline date. Students with disabilities have the option of submitting a paper application. Paper copies of the application are available at any of the disabilities service providers on campus.</td>
</tr>
<tr>
<td>Mary McCann Bursary</td>
<td>Awarded annually to students enrolled in the BScN program (Post-RN and Collaborative streams) in the Faculty of Health, who are Canadian citizens, permanent residents or protected persons or protected persons, are Ontario residents and demonstrate financial need. Preference will be given to students who are single parents.</td>
<td>To apply, please submit a Student Financial Profile by reviewing the Fall/Winter Undergraduate Bursaries and Awards Program information available at <a href="http://www.yorku.ca/osfs/bursaries.shtml">www.yorku.ca/osfs/bursaries.shtml</a> .</td>

</table>
School of Nursing Awards

(Check with the School of Nursing for nomination information or details about application processes.)

Each year the School of Nursing offers a number of awards to nursing students in the BScN programs. Nursing students will be nominated by the Faculty of Health, School of Nursing. Here are the criteria of these awards:

Praxis Award
Excellence in integrating the human science paradigm in being/becoming, knowing and doing within nursing practice; in further recognition of being a reflective practitioner orally and in written work and the enactment of caring as a moral way of being.

School Spirit Award
Demonstrated student leadership, student advocacy and commitment to health and well-being of the School of Nursing.

Exceptional Scholar Award
Outstanding academic achievement in the graduating year, excellence in written work and consistent contribution to classroom relationships.

June Awrey Award
Demonstrated commitment to the profession of nursing, academic achievement and demonstrated leadership potential.

The Caolinn Carter Children & Families Award
Enacted caring connectedness with children and family in authentic ways, demonstrated excellence in theory and praxis in being with children and families, and committed to future practice with children and families.

The Karen Passley Courageous Caring Award
Outstanding compassion for clients, families and peers; demonstrated commitment to the profession and courageous caring praxis while living with severe health challenges and/or life circumstances.

External Awards
In addition to York University awards, students in the BScN degree program may also be eligible for a number of external awards; see below for a list of some of these awards. Look for announcements about these and other awards from the School of Nursing:

- RN Foundation Award
- Oncology Education Award
- Hospital for Sick Children Education Award
- Evelyn Cameron Memorial Bursary
- Canadian Nurses Foundation Award
- Bloorview Children’s Hospital (Undergraduate) Award
Programs of Study

Bachelor of Science in Nursing (BScN) Honours Degree Programs

The bachelor of science in nursing (BScN Honours) program focuses on the development of the theoretical, scientific and philosophical knowledge of human caring. The role of nurses, through caring relationships, in promoting and preserving health and healing is emphasized through both theory and self-reflective practice. Graduates will be prepared to practise collaboratively in a variety of settings to enhance individual, family, community and global health.

There are three ways to obtain a BScN at York University.

1. York-Seneca-Georgian Collaborative BScN program
   This program is offered collaboratively with Seneca College and Georgian College. The first two years of the program will be completed at one of the college sites of your choice; the final two years will be completed at York University, Keele campus site.

2. 2nd Entry BScN program
   For students with at least 60 university credits or a completed university degree with a cumulative grade point average of at least 5.00 (C+) and a 6.00 (B) in the last 30 credits with specific required courses.

3. Post-RN IEN BScN program
   This is a program specifically designed for students who have nursing qualifications in their home jurisdictions. Applicants must have a letter of direction from the College of Nurses of Ontario stating they need a BScN to be eligible for the licensure process.

York-Seneca-Georgian Collaborative BScN Program

In collaboration with Seneca and Georgian Colleges of Applied Arts and Technology, the first two years of the four-year curriculum are completed at one of the college partner sites, and year 3 and 4 are completed at York University, Keele campus site. Graduates receive a bachelor of science in nursing (BScN) degree from York University and will be eligible to write the certification examinations from the College of Nurses of Ontario.

Program Statement

This program statement builds on and expands the York University School of Nursing philosophy to express the uniqueness of the York-Seneca-Georgian Collaborative BScN program. In addition to the philosophy’s tenets, we hold the following beliefs and assumptions:

- The program is broadly based in the human sciences, which focus on human experiences and the meanings and patterns that emerge in human living.

- Nurses use knowledge from nursing and other disciplines, including health and life sciences, to inform their caring practice.

- Human beings are irreducibly whole, manifesting dimensions of mind-body-spirit.
• Social, economic, physical and political environments significantly influence human health and healing through what are commonly called “determinants of health.”

• Health and healing are integral to all aspects of human living, including the presence of disease, suffering, dying.

• Nursing practice involves the promotion of health and facilitation of healing through intentional caring-healing relationships with other human beings.

• Nursing practice is grounded in unique disciplinary knowledge that includes multiple ways of knowing, such as empirical, aesthetic, ethical, personal and emancipatory.

• Nursing scholarship focuses on inquiry into the human experiences of health and healing, as well as the expression of caring-healing enacted in nursing practice. Nursing knowledge and practice inform and shape each other in a synergistic expression of nursing praxis.

• Varied and diverse participative-learning approaches to teaching/learning support the strengths and learning needs of all learners. A shared learning journey enables each person to find his or her own voice, nourish his or her soul and embrace lifelong learning.

By embracing the tenets of the caring curriculum in classroom and practicum settings, we commit to supporting the professional growth necessary for attainment of the program’s goals and successful entry into the nursing workforce.
Program Level Goals

**NOTE:** The program level goals indicate the desired level students should have achieved by the end of years 1, 2, 3 and 4 of the program. The level goals are cumulative. Each succeeding year builds on and incorporates the goals of previous levels.

Program Requirements

Students in the four-year Collaborative BScN program select one of two collaborative partner sites (Seneca College or Georgian College) for Years 1 and 2 of their degree followed by Years 3 and 4 at York University.

Program Requirements for Students Entering Year 3 at York University for the Fall/Winter 2009-2010 or Fall/Winter 2010-2011 Session

Residency requirement: A minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: All graduates must complete a total of at least 120 credits with a minimum overall cumulative grade point average of 5.00 (C+), including a minimum grade of 4.00 (C) in all major courses.

120 credits including:
- 60 credits for successful completion of the first two years of the program at an approved collaborative program partner College of Applied Arts and Technology.

Major credits: Students must complete a minimum of 51 major credits in nursing, as follows:
- HH/NURS 2300 3.00
- HH/NURS 3040 3.00
- HH/NURS 3050 3.00
- HH/NURS 3300 3.00
- HH/NURS 3400 3.00
- HH/NURS 3410 3.00
- HH/NURS 4100 3.00
- HH/NURS 4110 9.00
- HH/NURS 4111 3.00
- HH/NURS 4120 6.00
- HH/NURS 4130 6.00
At least six additional nursing (NURS) credits at the 3000 level or 4000 level

Upper-level requirement: A minimum of 57 credits must be taken at the 3000 level or 4000 level, including at least 27 credits at the 4000 level.

Electives: A minimum of nine credits outside nursing at the 3000 level or 4000 level.

Note: HH/NURS 4110 9.00, HH/NURS 4111 3.00, HH/NURS 4120 6.00 and HH/NURS 4130 6.00 have a practicum component. If the grade for the practicum component is “fail” then the overall final course grade will be “F”.

The Undergraduate Calendar can be found on the Registrar’s Office Web site at http://calendars.registrar.yorku.ca/calendars/.

Program Requirements for Students Entering Year 3 at York University Effective the Fall/Winter 2011-2012 Session

Residency requirement: A minimum of 30 course credits and at least half (50 per cent) of the course credits required in the major must be taken at York University.

Graduation: All graduates must complete a total of at least 120 credits with a minimum overall cumulative grade point average of 5.00 (C+), including a minimum grade of 4.00 (C) in all nursing (NURS) courses.

120 credits including:
- 60 credits for successful completion of the first two years of the program at an approved collaborative program partner College of Applied Arts and Technology.

NOTE: Students who have been granted 60 credits for successful completion of the first two years of the program at an approved collaborative program partner College of Applied Arts and Technology will be deemed to have fulfilled the following general education requirements for the Collaborative BScN program.

General education requirements: A minimum of 12 credits, as follows:
- Six credits in humanities (HUMA) at the 1000 or 2000 level
- Six credits in social science (SOSC) at the 1000 or 2000 level or modes of reasoning (MODR) at the 1000 level

It is strongly recommended that students complete the general education requirements within their first 54 credits.
Year 3 and 4 (Completed at York University)

60 credits, including:

**Major requirements:** A minimum of 48 major credits in nursing, as follows:

- HH/NURS 3514 3.00
- HH/NURS 3515 3.00
- HH/NURS 3524 6.00
- HH/NURS 4516 3.00
- HH/NURS 4525 6.00
- HH/NURS 4526 6.00
- HH/NURS 4527 9.00
- HH/NURS 4528 3.00
- HH/NURS 4546 3.00

And six nursing (NURS) credits at the 3000 level or higher

In addition, students must complete a minimum of six credits as follows:

Either HH/PSYC 2021 3.00 or HH/KINE 2050 3.00, plus SC/BIOL 2900 3.00.

**NOTE:** HH/NURS 3524 6.00, HH/NURS 4525 6.00, HH/NURS 4526 6.00, and HH/NURS 4527 9.00 have a practicum component. Students need to pass both the classroom and practical components in order to pass the course. If the grade for the practicum component is “fail” then the overall final course grade will be “F”.

**Required courses outside the major:** A minimum of six credits outside nursing at the 3000 level or higher.

**Upper-level requirement:** A minimum of 54 credits must be taken at the 3000 level or above, including at least 30 credits at the 4000 level.
York-Seneca-Georgian Collaborative BScN Program—Course Sequence

| Year 1 – Students complete 30.00 York University credits at either Georgian/Seneca College site (Note: HH/NURS 1000 30.00 will appear on your York University transcript.) |
| HH/NURS 1000 30.00 | Collaborative Nursing – Georgian/Seneca |

| Year 2 – Students complete 30.00 York University credits at either Georgian/Seneca College site (Note: HH/NURS 2000 30.00 will appear on your York University transcript.) |
| HH/NURS 2000 30.00 | Collaborative Nursing – Georgian/Seneca |

| Year 3 – Term 1 (fall) – at the York University, Keele campus site |
| HH/NURS 2300 3.00 | Development of Self as Nurse: Understanding and Interpreting Quantitative Data Analysis in Nursing Research |
| HH/NURS 3040 3.00 | Development of Self as Nurse: Knowledge of Nursing |
| HH/NURS 3300 3.00 | Development of Self as Nurse: Research and Inquiry |
| HH/NURS 3400 3.00 | Development of Self as Nurse: Ethical Ways of Knowing and Caring in Nursing |
| HH/NURS 3410 3.00 | Health and Healing: Enacting Caring Through Competence in Nursing Praxis |

| Year 3 – Term 2 (winter) – at the York University, Keele campus site |
| HH/NURS elective 3.00 at the 3000 level or higher | An elective course 3.00 in nursing at the 3000 level or higher |
| HH/NURS 3050 3.00 | Development of Self as Nurse: Leadership and Change for Professional Practice |
| *Non-nursing elective 3.00 at the 3000 level or higher | An elective course 3.00 outside nursing at the 3000 level or higher |
| HH/NURS 4120 6.00 | Health and Healing: Community as Partner |
| OR | |
| HH/NURS 4130 6.00 | Health and Healing: Living Client-Centred Care |

<p>| Year 3 – Term 3 (summer) – at the York University, Keele campus site |
| HH/NURS elective 3.00 at the 3000 level or higher | An elective course 3.00 in nursing at the 3000 level or higher |
| *Non-nursing elective(s) 3.00 or 6.00 at the 3000 level or higher | Elective course(s) 3.00 or up to 6.00 outside nursing at the 3000 level or higher |
| Note: The York-Seneca-Georgian Collaborative BScN program requires a total of 9.00 non-nursing electives. Students may take up to 6.00 elective credits in the summer session. |</p>

* Prerequisites are courses that must be successfully completed before another course can be taken. Read course descriptions carefully and ensure you meet all prerequisites before enrolling. Students may seek advising from the Office of Students and Academic Services, Faculty of Health, for help in selecting non-nursing electives at the 3000 level or higher.
2nd Entry BScN Program

Program Statement

The 2nd Entry BScN program has been developed in response to an increasing demand for nursing programs that build on prior university learning. It is designed and intended for students with no previous nursing experience. It is available to students who have completed a minimum of 60 credits toward any university degree and who meet the program prerequisites. As with other programs in the School of Nursing, the 2nd Entry program reflects a unique teaching approach that focuses on cultivating human relationships. This patient-centred approach answers a growing demand for nurses who respect patients’ values and choices about health and quality of life. It recognizes that every patient has a personal story.

Within the program, teachers and students are partners in a dynamic and responsive collaborative process of discovery. Through dialogue, modelling, practice, reflective thinking and experiential group process, we create a diverse community of learners that encourages each student to find his or her own voice. We encourage you to question and think critically about conventional assumptions and practices to help you gain the insights and skills that will prepare you to contribute to the evolution of health care in Canada.

Program Goals

The graduate of the program will demonstrate leadership in nursing by
1. committing to professional self-regulation and accountability to the public through the provision of competent, safe and ethical nursing practice, which is consistent with professional standards.
2. synthesizing new knowledge from nursing science and other relevant fields with previous learning, and combining both with an understanding of the lived experience of individuals, families, groups and communities to enhance health and healing.
3. incorporating multiple ways of knowing, evidence-based practice, reflective thinking and critical inquiry to inform clinical decision-making in partnership with clients and interdisciplinary health care team members.
4. committing to excellence in professional practice through lifelong learning and service to the public.
5. facilitating collaborative relationships with clients (including individuals, families, groups and communities), nursing colleagues and the interdisciplinary health care team.
6. advocating for and supporting healthy organizational and public policy to promote health of individuals, families, groups, communities and global populations.
7. supporting the advancement of the nursing profession in various domains of practice.
8. providing culturally sensitive nursing care that honours human dignity, respects diversity, and embraces different ways of being.
9. communicating effectively with client populations, nursing colleagues and members of the interdisciplinary health care team to provide relationship-centred nursing care.

Level Goals

Following completion of term 3, the student will
1. understand professional self-regulation, and demonstrate accountability and responsibility with clients and others within the educational and practice settings.
2. enhance health and healing by applying and integrating knowledge from nursing science and other relevant fields with previous learning, and combining both with an understanding of the lived experience of self and others.
3. understand and incorporate multiple ways of knowing, reflective thinking and critical inquiry to inform practice and decision-making in partnership with clients and interdisciplinary health care team members.
4. demonstrate the ability to act on a personal-professional learning plan through the practice of critical and reflective thinking.
5. establish and engage in collaborative interdisciplinary relationships with clients (including individuals, families, groups and communities), nursing colleagues and the interdisciplinary health care team.
6. appreciate the need and advocate for healthy organizational and public policy to promote health of individuals, families, groups, communities and global populations.

7. recognize and appreciate the need to advance the nursing profession in various domains of practice.

8. demonstrate an understanding and awareness of cultural and other forms of diversity using a client-centred approach and apply knowledge of culturally sensitive nursing care that honours human dignity, respects diversity and embraces different ways of being.

9. understand communication in complex situations and apply effective communication skills and strategies with client populations, nursing colleagues and members of the interdisciplinary health care team to provide relationship-centred nursing care.

Program Requirements

This is a concentrated six-semester program, requiring students to study in fall, winter and summer terms over two years.

Residency requirement: A minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: All graduates must complete a total of at least 150 credits with a minimum overall cumulative grade point average of 5.00 (C+), including a minimum grade of 4.00 (C) in all major courses.

150 credits including:

- 60 credits completed at a recognized university prior to admission.

Major credits: students must complete a minimum of 90 credits, as follows:

- HH/NURS 1900 6.00
- HH/NURS 1950 3.00
- HH/NURS 1960 3.00
- HH/NURS 2900 6.00
- HH/NURS 2930 3.00
- HH/NURS 2950 3.00
- HH/NURS 2960 3.00
- HH/NURS 3300 3.00
- HH/NURS 3400 3.00
- HH/NURS 3410 3.00
- HH/NURS 3900 6.00
- HH/NURS 3910 6.00
- HH/NURS 3950 3.00
- HH/NURS 3960 3.00
- HH/NURS 4000 3.00
- HH/NURS 4100 3.00
- HH/NURS 4120 6.00
- HH/NURS 4900 9.00
- HH/NURS 4901 3.00

Required major courses outside of nursing: SC/CHEM 1550 3.00 and SC/CHEM 2550 3.00

Upper-level requirement: A minimum of 57 credits must be taken at the 3000 level or 4000 level, including at least 24 credits at the 4000 level.

Electives: A minimum of six elective credits in nursing at the 3000 level or higher.

Note: HH/NURS 1900 6.00, HH/NURS 2900 6.00, HH/NURS 3900 6.00, HH/NURS 3910 6.00, HH/NURS 4120 6.00, HH/NURS 4900 9.00, and HH/NURS 4901 3.00 have a practicum component. If the grade for the practicum component is “fail” then the overall final course grade will be “F”.

The Undergraduate Calendar can be found on the Registrar’s Office Web site at http://calendars.registrar.yorku.ca/calendars/
2nd Entry BScN—Course Sequence

First Year

Content in year 1 of the program focuses on foundational studies/topics in nursing practice. Students begin with studies in the areas of health and assessment skills, professional development and issues, knowledge of nursing, thinking, communicating and relating in the context of nursing, applied pathophysiology, complexities of communicating and ethical ways of knowing.

Students will examine these areas across the developmental life space, from infant to adult to elder. Students will also explore these concepts in relation to the individual and varying levels of groups (family, intra- and interdisciplinary, community, global). In addition to these courses, students will also complete courses in biochemistry and pharmacology.

Clinical practice in the first year will help students develop their praxis throughout the continuum of health experiences that persons may face. Students begin with nursing praxis in the context of wellness across the lifespan and partner with clients to maintain and enhance wellness. They then continue on to examining and enacting client-centred care within the context of caring for individuals and families in their homes and rehabilitative settings as they strive to achieve or re-establish personal health states. Last, students will engage in praxis in complex care settings as persons and families deal with acute and chronic health challenges.

First year is divided into terms 1, 2 and 3, as follows:

| Term 1 (fall) | HH/NURS 1900 6.00 | Health & Healing: Nursing in the Context of Wellness |
| HH/NURS 1950 3.00 | Development of Self as Nurse: Foundations of Nursing: Thinking, Communicating and Relating |
| HH/NURS 1960 3.00 | Development of Self as Nurse: Introduction to Nursing |
| HH/NURS 2930 3.00 | Health & Healing: Health Assessment |
| SC/CHEM 1550 3.00 | Introductory Biochemistry for Nurses |

| Term 2 (winter) | HH/NURS 2900 6.00 | Health & Healing: Nursing in the Context of Client Centered Care |
| HH/NURS 2950 3.00 | Development of Self as Nurse: Foundations of Nursing: Introduction to Professional Issues |
| HH/NURS 2960 3.00 | Health & Healing: Applied Pathophysiology – Elementary Concepts |
| SC/CHEM 2550 3.00 | Pharmacology for Health Sciences |

| Term 3 (summer) | HH/NURS 3400 3.00 | Development of Self as Nurse: Ethical Ways of Knowing & Caring in Nursing |
| HH/NURS 3410 3.00 | Health & Healing: Caring Through Competence in Nursing Praxis |
| HH/NURS 3900 6.00 | Health & Healing: Nursing in the Context of Health Challenges |
| HH/NURS 3950 3.00 | Development of Self as Nurse: Communicating and Relating in Complex Situations |
Second Year

In the second year of the program, students will further their professional development and begin to explore additional layers of complexity in nursing practice with courses focusing on nursing research and inquiry, the use of evidence as it relates to practice, nursing in a global context and nurses as change agents and innovators.

Clinical praxis will continue with the exploration of nursing in the context of human vulnerability and diversity. Student will focus on partnering with and integrating client-centredness in community settings. In preparation for independent practice after graduating, students will undertake 12 continuous weeks of clinical practice that offers them the opportunity to integrate learning from all nursing courses and engage in deliberate praxis.

Second year is divided into terms 4, 5 and 6, as follows:

Post-RN IEN BScN Program

Program Statement

This program statement uniquely articulates the York University School of Nursing philosophy as it relates to the IEN program. The program is rooted in Nightingale and the Bevis-Watson Caring Curriculum (2000), which holds that the knowledge and practice of nursing is caring from a human science perspective. These underpinnings manifest themselves in a curriculum that embraces individual uniqueness and diversity, multiple ways of knowing, creative expressions of scholarship and global consciousness. In addition to the tenets of the school’s philosophy, we hold the following beliefs and assumptions:

- The program is broadly based in the human sciences, which focus on human experiences and the meanings and patterns that emerge in human living.
- Nurses use knowledge from nursing and other disciplines, including health and life sciences, to inform their caring practice.
- Human beings are irreducibly whole, manifesting dimensions of mind-body-spirit.
- Social, economic, physical and political environments significantly influence human health and healing through what are commonly called “determinants of health.”
- Health and healing are integral to all aspects of human living, including the presence of disease, suffering, dying.
- Nursing practice involves the promotion of health and the facilitation of healing through intentional caring-healing relationships with other human beings.
- Nursing practice is grounded in unique disciplinary knowledge that includes multiple ways of knowing, such as empirical, aesthetic, ethical, personal and emancipatory knowing.
- Nursing scholarship focuses on inquiry into the human experiences of health and healing, as well as the expression of caring-healing enacted in nursing practice. Nursing knowledge and practice inform and shape each other in a synergistic expression of nursing praxis.
- Varied and diverse participative-learning approaches to teaching/learning support the strengths and learning needs of all learners. A shared learning journey enables each person to find his or her own voice, nourish his or her soul and embrace lifelong learning.
- By embracing the tenets of the caring curriculum in classroom and practicum settings, we commit to supporting the professional growth necessary for attainment of the program’s goals and successful entry into the nursing workforce.

Program Goals

The graduate of the program will demonstrate leadership in nursing by

1. committing to professional self-regulation and accountability to the public through the provision of competent, safe and ethical nursing practice, which is consistent with professional standards.
2. synthesizing new knowledge from nursing science and other relevant fields with previous learning, and combining both with an understanding of the lived experience of individuals, families, groups and communities to enhance health and healing.
3. incorporating multiple ways of knowing, evidence-based practice, reflective thinking and critical inquiry to inform clinical decision-making in partnership with clients and interdisciplinary health care team members.
4. committing to excellence in professional practice through lifelong learning and service to the public.
5. facilitating collaborative relationships with clients (including individuals, families, groups and communities), nursing colleagues and the interdisciplinary health care team.
6. advocating for and supporting healthy organizational and public policy to promote
health of individuals, families, groups, communities and global populations.

7. supporting the advancement of the nursing profession in various domains of practice.

8. providing culturally sensitive nursing care that honours human dignity, respects diversity, and embraces different ways of being.

9. communicating effectively with client populations, nursing colleagues and members of the interdisciplinary health care team to provide relationship-centred nursing care.

Level Goals

Following completion of term 3, the student will

1. understand professional self-regulation, and demonstrate accountability and responsibility with clients and others within the educational and practice settings.

2. enhance health and healing by applying and integrating knowledge from nursing science and other relevant fields with previous learning, and combining both with an understanding of the lived experience of self and others.

3. understand and incorporate multiple ways of knowing, reflective thinking and critical inquiry to inform practice and decision-making in partnership with clients and interdisciplinary health care team members.

4. demonstrate the ability to act on a personal-professional learning plan through the practice of critical and reflective thinking.

5. establish and engage in collaborative interdisciplinary relationships with clients (including individuals, families, groups and communities), nursing colleagues, and the interdisciplinary health care team.

6. appreciate the need and advocate for healthy organizational and public policy to promote health of individuals, families, groups, communities, and global populations.

7. recognize and appreciate the need to advance the nursing profession in various domains of practice.

8. demonstrate an understanding and awareness of cultural and other forms of diversity using a client-centred approach, and apply knowledge of culturally sensitive nursing care that honours human dignity, respects diversity and embraces different ways of being.

9. understand communication in complex situations and apply effective communication skills and strategies with client populations, nursing colleagues and members of the interdisciplinary health care team to provide relationship-centred nursing care.

Program Requirements

These requirements are for students in the Internationally Educated Nurses (IEN) program.

Admission requirements: Entry procedures include the following academic and professional criteria:

A) International education assessed by the College of Nurses of Ontario as “diploma equivalent.”

B) Minimum overall average of C+ in previous nursing studies,

C) Proof of language proficiency for applicants who do not meet one of the following criteria:

1. Their first language is English or

2. They have completed at least one year of full-time study at an accredited university in a country (or institution) where English is the official language of instruction. Proficiency in English is demonstrated by a minimum TOEFL score of computer: 230, paper: 573, iBT: 88 or equivalent.
Qualifying period: Once admitted, the students will enter a conditional qualifying period comprised of the following York University degree level courses:

A) AP/WRIT 3900 3.00 – three credits
   University 3000-level course - Essentials of Professional Writing

B) HH/NURS 3902 3.00 – three credits
   University 3000-level course - Providing Culturally Competent Care

C) HH/NURS 3901 3.00 – three credits
   University 3000-level course - Pharmacotherapeutics

Successful completion of the qualifying period requires a minimum overall average of 5.00 (C+) at the end of each session to be eligible to continue in the Post-RN IEN BScN program.

Residency requirement: A minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: All graduates must complete a total of at least 120 credits with a minimum overall cumulative grade point average of 5.00 (C+), including a minimum grade of 4.00 (C) in all major courses.

120 credits including:
- 60 transfer credits for recognition of diploma equivalent education and successful completion of nine credits from the pre-qualifying session.

Major credits: students must complete a minimum of 51 major credits, as follows:

HH/NURS 2300 3.00
HH/NURS 2731 6.00
HH/NURS 3010 3.00
HH/NURS 3130 3.00
HH/NURS 3300 3.00
HH/NURS 3400 3.00
AP/ADMS 3740 3.00
HH/NURS 3770 3.00
HH/NURS 4120 6.00
HH/NURS 4131 6.00
HH/NURS 4150 6.00
HH/NURS 4710 3.00
HH/NURS 4910 3.00

Upper-level requirement: A minimum of 51 credits must be taken at the 3000 level or 4000 level, including at least 24 credits at the 4000 level.

NOTE: HH/NURS 2731 6.00, HH/NURS 4120 6.00 and HH/NURS 4131 6.00 have practicum components. If the grade for the practicum component is “fail” then the overall final course grade will be “F”. HH/NURS 4150 6.00 is graded as “credit/no credit.” Successful completion of the practicum course, as indicated by achieving a credit, is a requirement in the BScN program.

The Undergraduate Calendar can be found on the Registrar's Office Web site at http://calendars.registrar.yorku.ca/calendars/.
Post RN IEN BScN—Course Sequence

Students start in January each year and are admitted to the program conditionally. In order for the student to be eligible to continue in the program beyond the first term, successful completion of the qualifying period requires a minimum overall grade point average of 5.00 (C+) at the end of the session.

After successfully completing the qualifying period, students will continue in the Post-RN BScN program spanning four more terms of full-time study. Over the course of this program, students will have the opportunity to learn more about nursing and health care in Canada through lectures, laboratory work and clinical practicum experiences. To learn more about each term, please see the timetables below.

Guidelines for Practicum Experiences at York’s School of Nursing

The practicum experience is designed to give students the opportunity for praxis, the supervised practical application of theoretical knowledge that has been previously, or is being concurrently, acquired.

Overall Roles and Responsibilities of Students

- Arrange to meet with the preceptor and/or faculty member to identify the focus of the practicum experience.
- Prepare an individual practicum learning plan in collaboration with the preceptor and/or faculty member.
- Meet with the preceptor and/or faculty member weekly to discuss progress and concerns, and to obtain guidance and resources that best support learning.
- Actively participate in the activities at the practicum site.
- Write and submit assignments as per course requirements.
- Develop and submit a self-evaluation at the middle and end of each semester, and as required within each course.
- Adhere to the College of Nurses of Ontario’s Practice Standard: Ethics (2009).
- Act in accordance with the practicum centre’s regulations, rules, policies and procedures, including appropriate provincial acts as they apply to nursing student activities at the practicum site.

A. Before You Attend Practicum

1. Clinical Preparedness Permit (CPP)

Each nursing student is provided with a clinical preparedness permit. This is a booklet in which each student is to record his or her immunization history, as well as the other requirements for the practicum experience. It is the student’s responsibility to maintain this booklet. A Nursing Practicum Coordination Office (NPCO) representative will stamp the clinical preparedness permit (CPP) before each term to indicate that the required documents for admission to the practicum site have been seen and validated.

In order to attend clinical practicum, the CPP must be stamped by the following deadlines:
- April 1 for the summer term.
- August 1 for the fall term.
- December 1 for the winter term.

Students cannot enter the clinical practicum site until the CPP has been updated by the student and stamped by the NPCO. An invalid CPP may jeopardize completion of a clinical course.

The following documents are required to attend clinical practicum:

a) Immunization records.

b) Valid Cardiopulmonary Resuscitation Certification (CPR) BCLS Level C for Health Care Professionals (HCP).

c) Vulnerable sector screen police check.

d) Respirator fit testing card.

Note: All the above required documents must be valid and may not expire at any time during the clinical practicum.

a) Immunization

It is very important that students maintain up-to-date immunization information, and that they provide this information to the NPCO before each practicum. The NPCO does not keep track of the specific immunization records for any student.

It is highly recommended that all students receive the influenza vaccine annually, when available. Some practicum sites may require students to have the influenza vaccine. Students must provide proof to the NPCO of influenza immunization or an exclusionary note from a health care practitioner. In the event of a flu outbreak at a practicum site, students who have not received the influenza vaccine may be excluded from the site and jeopardize completion of their practicum experience.

Proof of a negative two-step tuberculosis (Mantoux) skin test (or its equivalent, i.e. a
negative chest X-ray), must be provided to the NPCO. Yearly skin tests are required; however, a repeat two-step test is required only if more than 12 months have elapsed between skin tests.

The following is the Pre-practicum Tuberculosis Surveillance Protocol for Ontario Hospitals. Ontario MOHLTC (1998):

(a) Individuals whose tuberculin status is unknown, and those previously identified as tuberculin-negative, require a baseline two-step Mantoux skin test with PPP/5TU, unless there is documentation of a negative PPD test during the preceding 12 months; in that case, a single-step may be given.

(b) Individuals who have had previous Bacille Calmette-Guerin (BCG) vaccine may still be at risk of infection and should be assessed as in (a) above. Individuals with a history of BCG vaccine who are tuberculin skin-test negative, or who have not had a Mantoux test in the last several years, should also be evaluated with a two-step skin test. (A history of BCG vaccine is not a contraindication to tuberculin testing unless there is a history of severe reaction with blistering following a test.)

For individuals who are known to be tuberculin positive, or for those who are tuberculin skin-test positive when tested in (a) or (b) above, further assessment should be done by their primary care provider. Chest X-rays should be taken for individuals who have
- never been evaluated for a positive Mantoux skin test or for tuberculosis;
- had a previous diagnosis of tuberculosis but have never received adequate treatment for tuberculosis; or
- pulmonary symptoms that may be due to tuberculosis.

If the X-ray suggests pulmonary TB, the individual should be evaluated to rule out the possibility of active disease, and documentation of the results of this evaluation should be in place before he or she is cleared for a practicum.

All tuberculin-positive individuals should be managed by their primary care providers, following current guidelines.

Certain medical conditions predispose persons infected with Mycobacterium tuberculosis to develop active disease. Chemoprophylaxis should be considered for individuals with these conditions who are skin-test positive.

Active cases of tuberculosis and tuberculin skin-test converters are reportable to the Medical Officer of Health.

NOTE: Pregnancy is NOT a contraindication for performance of a Mantoux skin test.

b) Basic Cardiac Life Support Certification (BCLS Level C for Health Care Providers [HCP])

The School of Nursing requires recertification every two years. Your certificate must not expire during the term. This means that your certification must be valid before you start your practicum experience and must be valid until the end of the practicum experience. Proof of this certification is required before starting the term.

Depending on where you take your course, recertification may be called by various names. If you are unsure whether a course meets the Basic Cardiac Life Support Certification (BCLS Level C for Health Care Providers [HCP]) criteria, please contact the NPCO.

c) Vulnerable Sector Screen Police Check

Police checks are done to protect clientele who are considered “vulnerable persons.” “Vulnerable person” means a person who, because of their age, disability or other circumstance, whether temporary or permanent, is (a) in a position of dependence on others or (b) is otherwise at greater risk than the general population of being harmed by a person in a position of authority or trust relative to him or her.

A vulnerable sector screen police check is required by the School of Nursing and the practicum sites. This is done at the student’s expense. The check must specifically state that it includes vulnerable persons. It is the student’s responsibility to have this completed before the commencement of the practicum.
experience and to have this documented on the CPP and validated by the NPCO. Police checks can take up to 12 weeks to complete and, in most cases, are valid for one year; therefore, the process needs to be started early and repeated at least each year. Students are at risk of jeopardizing completion of their clinical course hours if this process is not completed before the commencement of the practicum experience.

In order to acquire a vulnerable sector screen police check, students may go through the OPP or the local police department.

Please be aware that each of these organizations will have a different wait time and a different cost for this service. This is something that the student should inquire about before initiating the process for obtaining a vulnerable sector screen police check.

d) Respirator Fit Testing

Respirator fit testing is required before entering a practicum site. Documentation of both the size and type of mask is required. Respirator fit testing is valid for two years and must not expire during your practicum experience. Respirator fit testing sessions are offered at the school, usually in September. Dates of testing will be posted on the school Web site.

2. Additional Requirements for a Practicum

- Official York University name tag (available from the NPCO).
- Watch with a second hand.
- Stethoscope with bell and diaphragm, as required by acute care sites.
- Uniform as appropriate to the practicum site. Where there are no policies, then appropriate, professional dress is required.
- Comfortable white shoes (no sandals or open-toed shoes), or as required by the practicum site.

3. Other Policies Relating to Preparation for the Practicum Experience

a) Eligibility Criteria for Requesting a Specialty Area Student Practicum

A specialty area student practicum is one in which a student is placed in a site that is beyond the general adult medical/surgical focus of nursing. The opportunity to complete our BScN programs in specialty areas is supported for students who have demonstrated academic and clinical strengths. The following eligibility criteria will assist students in requesting a specialty area practicum. This policy applies to an integrated practicum (IP) and/or advanced nursing science practicum (ANSP).

Specialty area practicum policy overview:

1. Students must have successfully completed all of the prerequisites for IP/ANSP.
2. Students must have a B+ average overall in their nursing program, and a B+ average in all clinical courses at the time of request. Students failing to continue to meet these academic requirements may jeopardize any offer of a specialty area practicum.

b) Out-of-Boundary Student Practicum Placements Within Canada

An out-of-boundary (OOB) placement is one in which a student is placed in a site that is beyond the usual geographic catchment area (see Appendix 1) used by the School of Nursing. A student is placed in an out-of-boundary placement only at his or her request. The opportunity to complete our BScN programs in communities beyond our catchment area is a privilege for a limited number of students that is supported for students who have demonstrated academic and clinical strengths. This policy applies to integrated practicum (IP) or advanced nursing science practicum placement (ANSP).

Out-of-boundary practicum policy overview:

1. Students must have successfully completed all of the prerequisites for IP/ANSP.
2. Students must have a B+ average overall in their nursing program, and a B+ average in all clinical courses at the time of the request.
3. Students must complete a proposal to request an out-of-boundary placement. Because many sites are requesting a resume and a cover letter, these must be included with the proposal. Completing and submitting a request for OOB does not guarantee the requested placement.
4. Students are responsible for demonstrating evidence of meeting all requirements of the placement agency and any regulatory and legal requirements, e.g. work permits, clinical preparedness permits etc., and financial obligations arising from the out-of-boundary placement, e.g. teleconference costs.

5. Students must meet all course requirements. This will require negotiation with the Course Director and additional work and/or effort by the student.

6. If issues arise that cannot be resolved, whether related to student performance (see Involuntary Withdrawal Policy) or site complexities, the placement may be terminated. This may involve the student repeating the course.

Student proposal to request an out-of-boundary placement:
A proposal must include
- a rationale for requesting such a placement.
- a copy of the Summary of Practicum Performance from the student’s clinical CCD.
- a resume and a cover letter.
- A disclaimer form.

Out-of-boundary placement process:
1. Students will submit all required documentation to the NPCO by the deadline date: Oct. 15 for courses starting in January, Feb. 18 for courses starting in May, and June 16 for courses starting in September. No requests will be considered after the deadline.
2. The NPCO will communicate with prospective contact sites to facilitate the placement. Students do not contact a prospective site or preceptor directly.
3. Eligibility for consideration of an OOB placement will be jeopardized if the process is not followed as outlined.

Geographical catchment area:
Far North – Simcoe County
GTA North – York Region
East includes Durham and Northumberland Regions
West includes Peel, Dufferin-Wellington and Halton regions
City of Toronto includes North York, Scarborough, Downtown, Etobicoke

B. During Your Practicum Experience

1. Practicum Attendance

The student shall inform the practicum site’s preceptor and/or clinical course director of absenteeism and/or lateness, at least one hour before the practicum starts.

Please note:
- Each clinical course has a set number of required hours that students must attain.
- Some courses have clinical time for assignments or praxis seminars.
- In community practicum placements, students are encouraged to take at least a 30-minute lunch break. Time counted for practicum may include breaks but does not include lunchtime.
- Travel time to and from sites may be variable and should be negotiated with the clinical course director.
- If you are ill, you may be asked to submit a valid health practitioner’s note for missed hours.
- Any other missed hours, e.g. illness of a dependent, inclement weather, must be made up by the student, at the convenience of the practicum centre, the preceptor and clinical course director.

2. Professional Appearance, Dress Code and Name Tags

All students must maintain a professional appearance when attending any practicum site. Students are expected to follow the specific uniform policies of the practicum site. Where there are no policies, then appropriate professional dress is required. Students are required to wear their York University name tags and any additional identification provided by the practicum site. Unique considerations that are specific to individual community settings can be discussed.
with the clinical course director. If the student is not appropriately attired or is unkempt, the faculty or the practicum site may refuse admission of the student. Any missed clinical hours resulting from such action must be made up at the convenience of the practicum agency and the clinical course director.

3. Documentation

Students must sign client/practicum site documents legibly indicating full name and York Nursing Student (YNS).

4. Expenses

Students are responsible for all expenses related to a practicum, e.g. uniforms, travel costs including transit costs, meals and accommodation. Students are not permitted to accept financial remuneration from the practicum site or clients.

The practicum site is not responsible for any expenses related to the affiliation agreement that may be incurred by either the University or the student, including but not limited to travel costs.

5. Transportation

All students are responsible for their transportation to and from the practicum site and to all meetings pertaining to the practicum.

Under no circumstances should students transport clients in their vehicles. York University will not provide insurance coverage for this purpose. Should a student be asked to transport a client or clients, he or she must notify the clinical course director or NPCO immediately.

In some cases, where there is an agency policy on transportation, the agency may permit the preceptor to transport a student. York University does not accept liability for the preceptor in transporting clients.

Any student NOT following the above guidelines is at risk for involuntary withdrawal from the course, and course failure.

6. Strikes

Should a strike or staff walkout occur at a practicum site, students must contact the clinical course director and the NPCO immediately. A decision must be made by the School of Nursing about whether the student can remain at that site until the dispute is settled or if another site must be negotiated.

Under no circumstances is a student to cross a picket line or to perform the work of striking site employees.

7. Pandemic Protocol

In the event of a pandemic outbreak, please refer to the York University Web site for University-wide policies. The details are listed at http://www.yorku.ca/h1n1/.

8. York University Incident/Accident Report Form

A York University Incident/Accident Report form must be filled out by the student and the clinical course director for any of the following reasons:

- A clinical incident involving a student’s client who suffers an incident/fall/injury/error while under the student’s care.
- Any occurrence that requires a site incident form to be completed on any client under the student’s care, or one he or she was involved with, at the time it occurred.
- Any medication error of omission or commission (including delayed administration and intravenous management).
- Any reason that a practicum activity is not completed, such as the student’s feeling unsafe in the area due to potential abuse and/or violence.
9. Sexual Harassment

The ethics governing behaviour in a professional relationship between a student and a preceptor should be the same as those in a worker-client relationship. Students are especially vulnerable because of perceived authority and power at the practicum site. If a student feels uncomfortable or under pressure, he or she should consult the clinical course director and course director as soon as possible. The NPCO will be notified as well.

The Centre for Human Rights assists individuals and groups in addressing and resolving allegations of discrimination and harassment, as defined by the Ontario Human Rights Code. They are here to listen to students’ concerns, issues and complaints. Then they will assist the student in exploring options and solutions to human rights concerns.

They can be contacted by phone at 416-736-5682 or in person at Ross Building South, Suite 327.

10. Dealing with Prejudice and Discrimination

Issues relating to oppression and marginalization of minority groups with respect to race, class, colour, gender, culture, age, sexual orientation, language or disability will not be tolerated by the School of Nursing. If the practicum site reports that a student is engaging in this behaviour, the student will be removed from the practicum site, and appropriate action will be taken by the school.

Moreover, should a student become aware of anyone in the practicum site engaging in prejudicial behaviour toward a client, he or she should discuss the matter with the clinical course director immediately.

Agreements

Affiliation Agreement

York University has a signed affiliation agreement with the practicum agencies where all our students are placed. This affiliation agreement describes the obligations and responsibilities of the School of Nursing and the practicum agencies. Once signed, the agency is listed in the University’s liability insurance policy, which covers bodily injury, property damage and malpractice to specific limits outlined by the policy.

Students acknowledge and undertake to function within the limits of their role and are expected to have signed their portion of this agreement called the “Obligations of the Practicum Student.” All students will sign the appropriate form at the start of each specific clinical course—generally at the orientation to the clinical placement.

Forms must be signed by the second week of practicum and returned to the NPCO.

Work/Education Placement Agreement

The language of this section reflects terms used in the forms to be completed at practicum orientation. “Unpaid placement” refers to the practicum agency. “Training participant” refers to the student, and the training agency is York University.

This form is to cover the student in case of injuries related to placement. The coverage comes from the Ministry of Education and Training. This agreement MUST BE COMPLETED before the beginning of the unpaid placement by
1. the work placement employer;
2. the training participant;
3. a representative of the University (clinical course director).

After all participants have signed the forms, the copies are to be distributed as follows:
1. White copy to the training participant.
2. Canary copy to the work placement employer.
3. Pink copy to the NPCO (Rm. 301E HNES, 416-736-2100 ext.33174).
Students must report any injuries promptly, however minor, to
1. the preceptor at the practicum site;
2. the clinical course director by phone;
3. the placement employer;
4. the NPCO;
5. York University’s contact person in the Employee Well-Being Office, Human Resources.

An incident/accident report (please refer to the nursing Web site) must be filled out for any accident/injury requiring or resulting in
1. health care by a medical practitioner for which there is a fee for service.
2. lost time from the University beyond the date of the accident.
3. exposure to a communicable disease.

C. Guidelines for Performance in a Practicum

1. Performance Review Process

The performance review process is an ongoing review of the student’s progress during the practicum. The student will meet with the practicum preceptor or the clinical course director (CCD) at the beginning of each practicum experience to initiate the process. For some of the clinical courses, i.e. NURS 4110, NURS 4150, NURS 4900, the performance review process consists of regular meetings between the student, preceptor and CCD. This three-way relationship is at the heart of nursing education within the School of Nursing’s human science-based curriculum and is a required component of both professional nursing practice and achieving praxis. For courses with direct CCD supervision, the performance evaluation is an ongoing, mid-term and final evaluation meeting between the student and CCD. All courses require completion of a written formal evaluation form to be kept in the student file, and each student should receive a copy for his or her own portfolio. Performance evaluations must be signed by the student and the CCD/preceptor. The student may make comments on the evaluation. His or her signature indicates the he or she has read the evaluation, but does not necessarily mean agreement with all comments made. Student submits all evaluation forms to CCD. The CCD will submit the form to the CD, who in turn will submit the forms to the NPCO for file maintenance.

Basis for Review

The student is expected to be accountable and responsible at all times. Accountability is being answerable for behaviour, actions and activities. Responsibility implies that the student is reliable, conscientiously completes duties and honestly reports his or her actions. Although students are learners and not regulated graduates, they are expected to know and practice within the Standards of the College of Nurses of Ontario. As students in a professional program, professional behaviour can be an expectation in both classroom and clinical environments. All course objectives include elements of the CNO Entry to Practice Competencies in order to meet the program goals and graduate expectations.

To ensure safety for the client, the nursing student’s activities must provide for a safe physical and psychosocial environment. Safety in the physical environment includes the competent practice of nursing assessments and interventions, knowledge of policies and procedures and knowledge of the client’s experience and the physical set-up of the environment. Safety in the psychosocial environment includes maintenance of confidentiality, and freedom from racism, sexism, discrimination, harassment and other non-caring behaviours. Safety also includes coming to the practicum prepared to give care to clients.

During the practicum, progress toward achieving the course learning outcomes and the practice concepts is reviewed on an ongoing basis. If the student is not progressing satisfactorily, a practicum progression plan will be developed with specific expectations and strategies. In order to facilitate achieving the outcomes of the practicum progression plan, peer tutoring, mentoring, consultation with faculty, practice in psychomotor skills, counselling and crisis intervention etc. may be suggested. The practicum progression plan may be shared with the course director, the undergraduate program director and the director of the School of Nursing.
2. Protocol for Issues Related to a Practicum

The practicum progression plan will be used for problems such as not meeting the learning outcomes of the practicum, and difficulty with the application of skills or knowledge in the practicum. It is completed collaboratively by the student and the clinical course director.

When a problem is identified by the student and/or the clinical course director and/or the preceptor, every effort will be made to ensure the success of the student through the practicum progression plan. The intent is to help identify areas of difficulty and to review the options available such as peer tutoring, mentoring, consultation with other faculty, practice in psychomotor skills, counselling and/or crisis intervention etc. This plan will help the student to clarify responsibilities and direct the learning effort. The student is expected to play an active role in planning and implementing the practicum progression plan.

The intent of the practicum progression plan is to:
- identify strengths and areas of difficulty.
- develop minimum expectations.
- outline strategies for success.
- set a timeline for accomplishment.
- indicate evidence(s) of accomplishment.
- indicate date(s) for reviewing the plan and make modifications, if necessary.

When concerns are raised about student performance, a meeting may be called at which the student, CCD, course director and/or UPD can help guide the student toward resolution of issues. The student may receive a copy of the minutes if he or she wishes. Success in meeting outcomes normally requires development of a contract for resolution of identified concerns within a specific time frame.

The student must also practise and behave within the following College of Nurses of Ontario Practice Standards and Practice Guidelines—please refer to documents at http://www.cno.org/pubs/compendium.html—as well as all applicable legislation and regulations.

In addition, students are expected to follow best practice guidelines, available at www.rnao.org/bestpractices/ or at www.rnao.org/Page.asp?PageID=1212&SiteNodeID=155&BL_ExpandID=.

Students are to review the College of Nurses of Ontario practice standards, including the RHPA: Scope of Practice, Controlled Acts Model.

Whenever in doubt about the performance of a clinical procedure, the student must follow all the steps below:
- Review York University’s guidelines.
- Review the practicum site’s policy.
- Review the College of Nurses of Ontario’s Practice Standard: Decisions About Procedures and Authority, Revised 2006.
- Consult the clinical course director.

3. Progression

A successful practicum experience is assessed using the following criteria:
- All course outcomes have been met by the final evaluation date.
- The allotted number of hours have been fulfilled, i.e. 144 hours for each of HH/NURS 4120 and HH/NURS 4130, 432 hours for HH/NURS 4110, 240 hours for HH/NURS 4150 etc.

4. Unsafe Practice in a Practicum

Unsafe practice in a practicum is defined as work, performed by the student while caring for the patient, which (1) displays a lack of knowledge, skill or judgment or (2) displays disregard for the welfare of the client or (3) is of a nature or extent that indicates that the student is unfit to continue in the practicum and (4) displays a lack of adherence to College of Nurses of Ontario Standards of Practice.
School of Nursing: Policy on Involuntary Withdrawal

A student may be required to withdraw involuntarily from a course with a practicum component if

1. the student fails to meet the requirements of the course with a practicum component, either through unsatisfactory attendance and/or participation in class or practicum settings, or through unprofessional behaviour in fulfilling course requirements, or

2. the student’s performance is judged to disrupt the functioning of the practicum site and/or to jeopardize the well-being of clients of the practicum site, and/or to demonstrate failure to meet professional standards for practice currently mandated by the College of Nurses of Ontario.

Following a meeting with the student, the decision to require the student to withdraw will be taken by the director of the School of Nursing on the recommendation of the course director and/or the practicum coordinator.

Students have access to the usual appeal procedures in such instances.

York University Bachelor of Science in Nursing (BScN) Student Professional Behaviour Policy

PREAMBLE

The Bachelor of Science in nursing (BScN) degree is an important determinant of eligibility for registration with the College of Nurses of Ontario. Given the professional trajectory of the BScN degree, a professional standard of behaviour is expected from nursing students. At issue in this policy is the protection of the public and the University’s role in graduating competent professionals. The policy recognizes the general responsibility of the faculty members of the School of Nursing to foster acceptable standards of professional behaviour, and of the student to be mindful of and abide by such standards.

Progression through the BScN program at the School of Nursing at York University is contingent on students’ behaviour meeting the ethical and behavioural standards set forth in the Canadian Nurses Association Code of Ethics for Registered Nurses, the College of Nurses of Ontario Professional Standards, including the Ethics Practice Standard, the York University Student Code of Conduct and other relevant York University policies including, but not limited to, the Sexual Harassment Policy and the Policy Concerning Racism.

POLICY

A. Behaviour that May Result in Withdrawal from the BScN Program

A student may be withdrawn from the BScN program if he or she:

1. commits any breach of the CNA Code of Ethics, the CNO Professional Standards, the CNO Ethics Practice Standards and/or any York University policy that relates to student behaviour, such as the York University Student Code of Conduct or the Senate Policy on Academic Honesty, that would breach the behavioural and ethical standards of the profession;

2. engages in any proscribed behaviour in a practicum agency, as detailed in the School of Nursing’s Handbook;

3. acquires a criminal conviction after being admitted to the program (or has one that was acquired before admission but which became known only after admission to the program), which jeopardizes the student’s ability to gain registration as a nurse or

4. engages in behaviour that impairs the performance of professional responsibilities.

B. Jurisdiction

Allegations of a breach of professional behavioural or ethical standards by a student enrolled in the BScN degree program offered by the School of Nursing, York University, shall be dealt with by the School of Nursing, York University, in accordance with the procedures outlined below.
C. Procedures for review of whether a student has met the standard of professional behaviour

1. Any breach of professional behaviour that is deemed so serious that it may warrant requiring a student to withdraw from the program will initiate a student professional behaviour review.

2. **Non-practicum courses:** In instances where a course director of a non-practicum nursing course has concerns about student behaviour that he or she has not been able to resolve through discussion with the student, he or she will consult with the undergraduate program director. The undergraduate program director, the course director and the student will normally meet to discuss the concerns in the hope of determining a resolution. If no resolution is achieved or if conditions agreed to by the student as part of the resolution are not fulfilled, the matter may be referred for a student professional behaviour review.

3. **Practicum courses:** In the event that a course director or the clinical course director has concerns about a student enrolled in a NURS practicum course, he or she will follow policies detailed in the School of Nursing’s Handbook. Where the matter concerns the possible outcome of denying the student an opportunity to complete the practicum requirement, the matter may be referred for a student professional behaviour review.

4. When allegations of a breach of professional behaviour standards by a student enrolled in the BScN program are reported to have occurred in a venue other than a BScN course or practicum, the matter will be investigated by the undergraduate program director or designate. Normally this investigation will include meeting with the student to discuss the allegation in the hope of determining a resolution. If no resolution is achieved, or if conditions agreed to by the student are not fulfilled, the matter may be referred for a student professional behaviour review.

D. Student Professional Behaviour Review

1. Once notified of a potential breach of professional behaviour standards by student in the Bachelor of Science in Nursing Honours degree program, the designated Faculty of Health office shall post a block on enrolment activity in the concerned course or courses. The student may not drop or be deregistered from the course for any reason, or withdraw from the University; nor may transcripts be released to the student until a final decision is reached.

2. The director of the school or his or her designate convenes a committee consisting of three members. The review committee will consist of the associate dean of the Faculty, or his or her designate, the director of the School of Nursing and one other member of the BScN program who has not been party to earlier proceedings. The undergraduate program director of the school or his or her designate, the manager of the Nursing Practicum Coordination Office or designate, course directors of courses in which the student’s behaviour has become an issue, a student (possibly in the MScN program) and, if necessary, the student’s preceptor and other representatives of the profession, may be called to serve as witnesses. When the alleged breach of professional or ethical standards occurs in a non-course or practicum setting, other persons may be called to appear as witnesses.

3. The student is notified in writing by e-mail and by priority commercial post of the intention to hold a student professional behaviour review and provided with suggested times and dates. It is the student’s responsibility to provide the school with current e-mail, postal and telephone contact information. Failure to do so may result in shorter or no notice being received. In such a case the meeting may take place without the student. The letter notifying the student of the meeting shall include a summary of the alleged breach of professional standards and an outline of the procedures to be followed at a student professional behaviour review. If the student wishes to file a written response to the allegation, it must be received within 14 calendar days of the date on which the notification of the review was sent to the student. All parties are required to inform
the School of Nursing Review Committee of their intention to call witnesses and the names of these witnesses at least seven calendar days before the review.

4. The student has seven days to respond so that the time and date for the meeting can be set. If the student does not respond in a timely way, the review may take place without the student.

5. The student may be accompanied by a representative. In such a case, the representative’s name and relationship to the student must be provided to the director in advance of the review.

6. The director or designate chairs the review and a school staff person takes notes. The representatives of the school first present their concerns. If witnesses are present, they are called to present their information concerning the alleged behaviour of the student. The student is then given an opportunity to ask questions about the concerns and evidence presented and to respond to them. Finally, the representatives of the school have an opportunity to comment on any issues or information that has been presented by the student. The School of Nursing Review Committee is not bound by formal rules of evidence applicable in courts of law.

7. When all available relevant evidence and witnesses have been heard and both the school and the student have had an opportunity to provide comment, the School of Nursing Review Committee shall then enter into a closed session to determine whether a breach of professional standards or ethics has occurred and, if so, what actions will be taken. The decision is made by a majority vote of the School of Nursing Review Committee.

8. A student professional behaviour review will result in one of four outcomes:

   i) A finding that no breach of professional standards or ethics has occurred. No records will be retained.

   ii) A finding that a breach of professional standards or ethics has occurred, but it is determined that no action other than remedial educative measures will be taken.

   iii) A finding that a breach of professional standards or ethics has occurred that warrants the imposition of conditions on the student as a requirement for continuation in the program.

   iv) A finding that a breach of professional or ethical standards has occurred that warrants either or both assigning a grade of F in the course and withdrawal of the student from the Bachelor of Science in Nursing Honours degree program.

9. The decision of the committee must be communicated to the student in writing, delivered by hand or by mail. A record of the decision will be retained in the Office of the Director of the School of Nursing, regardless of the severity of the penalty, and will be held for a time consistent with the University’s records retention guidelines. This record is for internal academic purposes only. A note shall be placed on the student information system (SIS) to bar withdrawal from the course.

E. Appeals

1. Students may appeal to the York University Senate Appeals Committee a decision rendered from a student professional behaviour review on the grounds permitted by the procedures of that committee. Information on the Senate Appeals Committee procedures can be found at www.yorku.ca/secretariat/senate_cte_main_pages/sac.htm.
ACADEMIC STANDING, POLICIES AND PROCEDURES

Student Code of Conduct

York University is a place of research, teaching and learning where people value civility, diversity, equity and respect in their interactions with one another. Freedom of speech, freedom of association, freedom to study and to learn, freedom to engage in research and the freedom to write and to publish are all recognized as central to the mission of the institution. These values can be meaningful, and these freedoms fully realized, only in an atmosphere of safety and security.

Since their inception, universities have been recognized as clearly distinguishable communities within the larger community and have dealt with issues of misconduct internally. Under the York University Act, 1965, paragraph 13(2) (c), the president has the power to formulate and implement regulations governing students and student activities. The president has assigned to the vice-president students, through the Office of Student Conduct & Dispute Resolution, the responsibility for the administration of this Code of Student Conduct.

This code has been developed through extensive consultation with students, staff and faculty, and affirms their stated values of equity and respect. It is based on a model that supports a progressive discipline approach that encourages appropriate conduct.

The process the code outlines for dealing with transgressions is designed to be perceptibly fair, easy to understand and transparent. In addition, the sanctions it proposes have been developed through community consultation and are understood to be reasonable and suitable for a wide variety of misconduct. Wherever possible and appropriate, sanctions will be instructive rather than punitive.

Students are required to familiarize themselves with the student code of conduct online at www.yorku.ca/scdr/codeofconduct.html.

Academic Honesty and Integrity

Academic Honesty

A central purpose of the University is to teach students to think independently and critically. Cheating and other forms of academic dishonesty run counter to this purpose and violate the ethical and intellectual principles of the University; they are therefore subject to severe penalties. For more information, refer to the Senate Policy on Academic Honesty (www.yorku.ca/secretariat/policies/).

Academic Integrity

Students are encouraged to familiarize themselves with issues of academic integrity, and with positive strategies to improve academic efforts and avoid committing an academic offence. An academic integrity tutorial, including a self-test, is located at http://www.yorku.ca/tutorial/academic_integrity/.
Letters of Permission (LOP)

Letters of permission allow Faculty of Health students to receive credit at York for courses taken at other universities. In order to receive credit for such courses, a letter of permission must be obtained prior to enrolling. Application forms for letters of permission are available at Student Client Services or from the Current Students Web site (www.yorku.ca/yorkweb/cs.htm).

Courses that students propose to take on a letter of permission (LOP) must be acceptable to the Faculty of Health teaching unit best able to judge their academic merit. The Faculty is under no obligation to accept courses taken without its permission.

**NOTE for BScN students**: All core courses, including practicum courses, must be taken at York University. Electives may be taken at another university on a LOP.

Students must be in good academic standing to be eligible for a letter of permission; students on academic warning, debarment warning or academic probation are not eligible.

In order to receive credit for courses taken on a letter of permission, students must arrange for the host institution to submit an official transcript to the Registrar’s Office. A minimum grade of C, as understood at York University, is required for credit to be granted. Grades earned in courses taken at other postsecondary institutions are not part of the student’s York transcript and are not incorporated into the student’s grade point average in the Faculty of Health.

Grading System

Except for courses taken under the pass/fail option, courses in the undergraduate faculties represented in this publication are graded according to the following scale. The grade point values are used to compute averages. For information on the pass/fail option regulations, refer to the grading information available in your Faculty’s section of the Undergraduate Calendar.

_Note: Only courses taken at York University are included in grade point averages. The percentages indicated are not part of the official grading scheme and are meant to be used only as guidelines. The letter-grade system is the fundamental system of assessment of performance in undergraduate programs at York University._

</tbody>
</table>

**NOTE**: All of the above-noted grades are used to calculate averages and credits.

For BScN students: Students must achieve a grade of C (60%) or above in all major courses, and a “pass” grade in the clinical component of all practicum courses in order to be eligible to enrol in nursing courses in subsequent terms (based on prerequisites).

Students who receive a grade below C (60%) in a major course or a “fail” grade in the clinical component of a practicum course will be required to repeat the course.

Calculation of Averages

Two types of averages are calculated and reported to students: sessional and cumulative. All averages calculated for purposes such as determining eligibility to proceed and graduate are credit-weighted.

**Sessional grade point average**: This average reflects a student’s grades for a particular academic session, e.g. Fall/Winter 2010-2011 Session.

**Cumulative grade point average**: This average reflects a student’s grades over the entire undergraduate career in a student’s particular degree program.
Calculate Your GPA

Averages are calculated on the basis of the point value assigned to each letter grade, as well as the credit value associated with that grade point value. To calculate your grade point average, type in the credit weight and enter the correct grade for the courses you have taken. If a course has not been completed and a final grade has not been assigned, do not include the course in your calculations.

**NOTE:** Repeated courses—only the second time the course was taken should be used in the calculation for credits and averages. A course can be credited only once toward satisfaction of the degree requirement.

GPA Calculator

The GPA calculator is available as a tool to assist you with calculating your grade point average. It can be found on the Web site www.yorku.ca/health/current_students/gpa.html.

Progression and Graduation for BScN Degree Programs

Students must achieve a grade of C (60%) or above in all nursing (NURS) courses. Students must receive a “pass” for the clinical component of all practicum courses in order to be eligible to enrol in nursing courses in subsequent terms.

Students who receive a grade below C (60%) in a NURS course or a “fail” grade in the clinical component of a practicum course will be required to repeat the course.

Grades Distribution Adjustments

Your final grade in a course may not correspond to a straightforward tally of the marks or grades you received on individual course components. At times, the instructor may curve or adjust course grades in order to achieve a required or more equitable course grade distribution profile.

A final course grade is not necessarily confined to a compilation of marks earned on individual course components. Final course grades may be adjusted to conform to program or Faculty grades distribution profiles.

Credit/No Credit

The notations “credit” and “no credit” will be used when an entire course is being offered on an ungraded basis. “No Credit” will count as an earned failing grade of F in the grade point average. Some Faculty of Health Nursing practicum courses are offered on a “credit/no credit” basis.

Release of Final Grades

Final grades for courses completed become available on the grade report starting three weeks after the last day of classes.

A final grade report for the academic session includes list of all courses taken, the associated grades, grade point averages and academic decisions. **Academic decisions** are recorded only when all final grades have been reported and are officially released by the Office of Registrar. The academic decision informs you of your academic standing and eligibility to proceed in your program of study.

Academic decisions on grade reports are generally released as follows:
- Fall/Winter session — mid-May
- Summer session — early to mid-September

The notification that grades have been officially released will be posted in the My Student Records section on the Current Students Web site at http://www.yorku.ca/yorkweb/cs.htm.

To understand your Undergraduate Grade Report, view the multimedia presentation at: www.registrar.yorku.ca/multimedia/GradesReport

Grade Report Legends are available online at www.registrar.yorku.ca/services/grades
Senate Policy on Repeating Passed or Failed Courses for Academic Credit

1. a) Students are allowed to repeat a passed or a failed course once for academic degree or certificate credit. Students should note that course availability and space considerations may preclude the possibility of repeating a course in the session they choose.

b) When a student is allowed to repeat a course for academic degree or certificate credit, the second grade will be the grade of record and the only grade calculated in the student’s grade point average (major, cumulative, sessional and overall). A course can be credited only once towards satisfaction of degree or certificate academic credit requirements.

c) The record of both the first and second time the course was taken will appear on the student's transcript, with the first course designated as “No Credit Retained”.

d) The restrictions regarding repeating a passed or failed course also apply to cross-listed courses and course credit exclusions.

2. The above items do not apply to graduate degree or diploma programs, the BEd degree programs of the Faculty of Education or the JD degree program of Osgoode Hall Law School.

3. The above items do not apply to practicum courses offered in the Bachelor of Social Work degree program or practicum courses offered in the Bachelor of Science in Nursing (BScN) degree program.

It should be noted that when a course is repeated, the first instance of the course being taken and the grade that was awarded will continue to appear on the transcript with the designation NCR (No Credit Retained) added as a qualification beside the grade. The transcript legend will explain that the NCR designation means that neither the course credit nor grade have been included in the calculation of the student’s grade point average.

Academic Standing Requirements for BScN Honours Degree Programs

Students who have completed less than 120 credits and maintain a cumulative grade point average of at least 5.00 may proceed in Honours.

Students at the point of completing 120 credits who have at least a cumulative grade point average of 5.00 and have a minimum grade of C (4.00) in all courses used in the major may apply to graduate or continue in the BScN Honours if requirements are not met.

Entry/re-entry: Students who attain the 5.00 cumulative grade point average prior to completion of 90 credits and have fulfilled the entry requirements may apply for entry/re-entry to the program. Students who have not attained the 5.00 cumulative grade point average at the point of completing 90 credits will be ineligible for the program. No extra courses may be taken in a subsequent session in an effort to raise the grade point average. All requests for re-entry to the BScN are subject to School of Nursing approval. Some programs may have limited entry. Students may submit a Change My Program Request form to enter/re-enter the program to the School of Nursing. All students who enter/re-enter the BScN program must follow the requirements of the program in place at the time of entry/re-entry.

Faculty transfers: Students from other faculties may submit a Change of Program Request form to enter the program to Student Client Services.

Failure to maintain academic standing
Advising is recommended. Please refer to the Academic Penalties section, which contains information on program warning, program warning conditions, required withdrawal, reactivation after required withdrawal, debarment warning and debarment warning conditions.
Academic Penalties

Honours Bachelor of Science in Nursing - Honours BScN (All Streams)

Program Warning for Honours BScN:
BScN students who have completed less than 120 credits will be placed on a program warning if the cumulative grade point average is at least 4.00 but is below 5.00.

Students may continue in BScN providing they meet the program warning conditions outlined below.

Program warning conditions for BScN:
BScN students on program warning, within the next 24 credits taken, must have a cumulative grade point average of at least 5.00. At no time may the cumulative grade point average fall below 4.00. At no time may the cumulative grade point average fall below 2.50 upon completion of at least 24 York credits.

Upon completion of 120 credits BScN students who do not have a cumulative grade point average of at least 5.00 including a minimum grade of C (4.00) in all courses used in the major will be ineligible to proceed in the program or graduate.

Failure to meet the above program warning conditions:
Students whose cumulative grade point average on at least 24 York credits is below 2.50 must withdraw for 12 months (required withdrawal).

Students who do not meet the program warning conditions for their program as listed above will not be eligible to continue in the program and must declare a new degree program to be eligible to continue with their studies.

Students with less than a 4.00 cumulative grade point average who have completed less than 90 credits must declare a new degree program and will proceed in the new degree program on academic warning.

Required Withdrawal:
Students whose academic record shows marked weakness may be required to withdraw from their studies for 12 months, during which they are encouraged to identify and remedy any problems which may have contributed materially to their failure to perform up to their potential and to reflect on their reasons for pursuing a university education. The following regulations apply to required withdrawals.

Grade point average below 4.00 and equal to or greater than 2.50:
Students who have received an academic warning for a cumulative grade point average below 4.00 (C) must achieve a cumulative grade point average of at least 4.00 (C) within their next 24 credits taken or earn a sessional grade point average of at least 5.00 (C+) in the session in which that 24th credit is completed and in each subsequent session until the cumulative grade point average reaches 4.00 (C); otherwise, they must withdraw for 12 months. Students will be required to withdraw for 12 months should their cumulative grade point average fall below 2.50 at any time after completion of 24 York credits.

Grade point average below 2.50:
Students whose cumulative grade point average on at least 24 York credits is below 2.50 must withdraw for 12 months.

Petition to continue without interruption:
Students who have been required to withdraw may submit a petition to the Faculty of Health Petitions Committee requesting permission to continue their studies without interruption. Students granted such a petition would be allowed to continue their studies on debarment warning.

Reactivation after required withdrawal:
Students who have been required to withdraw may apply for reactivation after the requisite period of absence by submitting a form obtainable from Student Client Services. Students who return to their studies after such a required withdrawal (as well as those who have been allowed to continue their studies by virtue of a petition to the Petitions Committee) receive a debarment warning.
Debarment Warning:
Students who have been required to withdraw receive a debarment warning upon continuing their studies in the Faculty.

Debarment warning conditions:
Students on debarment warning must achieve a cumulative grade point average of at least 4.00 (C) within the next 24 credits taken or earn a sessional grade point average of at least 5.00 (C+) in the session in which the 24th credit is completed and in each subsequent session until the cumulative average reaches 4.00 (C), and must then maintain this average. Students who do not fulfill these conditions will be debarred from the University. Students whose cumulative grade point average falls below 2.50 at any time while on debarment warning will be debarred.

Debarment:
Students who fail to meet the debarment warning conditions outlined above will be debarred from the University. Debarment, the minimum period for which is normally two years, means that the student is no longer a student at York University.

Petition to continue without interruption:
Students who have been debarred may submit a petition to the Faculty of Health Petitions Committee requesting permission to continue their studies without interruption. Students granted such a petition would be allowed to continue their studies on academic probation.

Reapplying after debarment:
Students who have been debarred and who wish to resume their studies must apply for re-admission through the Admissions Office, and must provide persuasive evidence that they are ready and able to complete a degree program. Students who are re-admitted (as well as those who have been allowed to continue their studies by virtue of a petition to the Petitions Committee) receive an academic probation.

Academic Probation:
Students who have been debarred and who subsequently resume their studies in the Faculty whether by petitioning to continue without interruption or by applying for re-admission, receive an academic probation. Students on academic probation must meet the debarment warning conditions outlined above; otherwise, they will be debarred. Students who have completed 120 credits or greater who do not have the required cumulative grade point average of at least 5.00 and/or a minimum grade of C (4.00) in all courses used in the major will be ineligible to proceed or graduate.

Examinations
Examinations are important components of the educational process. Examinations are usually written tests, although some may have practical components. Examinations vary greatly in structure and content, depending on the subject area. Additional information on examinations is listed on the Web site: https://w2prod.sis.yorku.ca/Apps/WebObjects/cdm.woa/wa/curexam.

Reviewing Graded Examinations
Under properly controlled conditions, you may review your graded tests and examinations. Used final examination booklets, however, remain the property of the University and are retained by the teaching unit for a certain length of time before they are destroyed. More information and procedures for reviewing examinations may be obtained from the academic unit offering the course.

Missed/Unable to Write an Examination
(Requests for Deferred Standing)
You may be granted deferred standing if you miss or are unable to write your final examination at the scheduled time, or submit your final assignment on the last day of classes. In order to apply for deferred standing, you must complete a Deferred Standing Agreement Form and reach an agreement directly with your course director for an alternate final examination date or for an extension to the deadline. The Deferred Standing Agreement Form facilitates the setting of an alternate date for writing a final examination or submitting a final assignment before Faculty deadlines. More information can be obtained from the Current Students Web site.
NOTE: When you do not or cannot write a mid-term examination (not held during the formal examination period), alternate arrangements to write the mid-term examination should be made within the duration of the course by the course director and you, at the discretion of the course director. The Deferred Standing Agreement does not apply.

Rewriting of an Examination

There is no provision for rewriting a final examination to improve a final grade.

Requesting a Grade Reappraisal

The information on the grade reappraisal policies is available on the Web site at www.registrar.yorku.ca/services/grades/policy.htm.

You need to be aware that a request for a grade reappraisal may result in the original grade being raised, lowered or confirmed. More information may be obtained from the Current Students Web site or from the academic unit offering the course.

Petitions for Exemptions from Regulations

Academic regulations allow you to develop your interests and talents to the fullest in ways consistent with the philosophy and standards of the Faculty. In establishing academic regulations, the Faculty also recognizes that instances will arise in which it makes sense, in the context of a student’s academic career, to waive regulations that would otherwise apply.

Petitions Committee

The Faculty of Health Petitions Committee considers requests for exceptions to all Faculty regulations, including petitions to continue studies without interruption from students who have been required to withdraw or debarred. The committee will give due consideration to transition difficulties documented by students in their first university session. The guidelines for consideration of petitions/appeals by Faculty committees are located at: yorku.ca/univsec/senate/committees/sac/petguid.htm.

Right to Petition

Students in the Faculty of Health have the right to petition for special consideration. A petition is a request for the waiver of a regulation: it cannot be used to create legislation (e.g. a degree program) that does not exist. Normally, petitions will not be considered by the Faculty of Health Petitions Committee more than one year beyond the date of the release of grades for the session to which the petition relates.

Petitions Procedures

Petitions are held in the strictest confidence and are presented anonymously to the committee. The committee considers the petition itself, any supporting documentation from professors or medical practitioners and other relevant information contained in the student’s record. Students may not appear in person.

Petition Deadlines

A petition must be submitted within thirty days of the last day of classes of the relevant course. Requests for deferred standing must be communicated within one week following a missed examination or the last day to submit course work.

Delayed Petitions

Should a petition submission be delayed due to extenuating circumstances a student may submit a complete petitions package with an additional written request for late consideration. Such petitions may be considered for a period of up to one year provided they include all supporting documentation and are based on special circumstances. There are no guarantees that any petition will be resolved in time for course enrolment in a subsequent academic session, thus, one should plan accordingly.

Initiating a Petition

To initiate a petition, you may obtain a petitions package on the Current Students Web site at: http://www.registrar.yorku.ca/services/petitions/.

Petitions must be mailed or hand delivered to:
Faculty of Health Petitions Committee
c/o Registrar’s Office, Bennett Centre for Student Services
The drop box is located in the front lobby and is available 24 hours a day, 7 days a week.

More information on petitioning is available from the Faculty of Health Office of Student and Academic Services, 019 Health, Nursing and Environmental Studies Building.

**Departmental Policy from the School of Nursing**

**Withdrawing from Courses**

Students in all undergraduate programs are full-time students; therefore, courses—both nursing courses and those outside nursing—must be completed within the appropriate academic year. If a student is experiencing difficulty in an HH/NURS course, he or she should make an appointment with the course director, followed by the undergraduate program director, to discuss options. Students are advised NOT to drop the course before having this discussion. While assisting a student to continue in a non-standard program may be possible in exceptional circumstances, this can be done only if a formal process is followed. Students who choose to drop a course without advisement may jeopardize their progression in the program.

Students enrolled in practicum courses MAY NOT withdraw from the course without the approval of the undergraduate program director. Likewise, students in alternate programs may not enrol in a clinical course without the permission of the undergraduate program director. Students who are experiencing issues in clinical practice must follow clinical progression guidelines, as outlined on page 40.

Not attending classes does NOT qualify as a withdrawal. Students are considered to have withdrawn from a course only when they de-enrol the course through the York Registration and Enrolment (REM) system. The Registrar’s Office has the ability to check the exact date and time of all transactions or attempts to use the enrolment system.

Please refer to the Current Students Web site for the important dates for academic and financial deadlines:

[www.registrar.yorku.ca/importantdates](http://www.registrar.yorku.ca/importantdates)

**Guidelines for a Leave of Absence**

A leave of absence from the nursing program may be granted for extenuating circumstances, such as serious illness/injury/life events. Application for a leave of absence is made to the undergraduate program director for consideration by the Student Affairs Committee.

As the end of the leave term approaches, the student must indicate to the undergraduate program director his or her plans to return to the School of Nursing, as agreed in the conditions of the leave.
COURSE DESCRIPTIONS

HH/NURS 1000G 30.00 Collaborative Nursing - Georgian

First year Nursing completed at Georgian College.

HH/NURS 1000S 30.00 Collaborative Nursing - Seneca

First year Nursing completed at Seneca College.

HH/NURS 1511 2.00 Development of Self as Nurse: Professionhood and Knowledge of Nursing I

Socialization into the profession and discipline of nursing. Exploration of professional organizations and standards. Introduction to nursing theory with emphasis on human science theories and multiple ways of knowing. Initiation into information literacy and its application to nursing/health care. Open to: Students in the York-Seneca-Georgian Collaborative BScN Program registered at the campus on which the course is offered. Not open to: BScN students in other York University programs and BScN students enrolled in the collaborative program at campuses other than where the course is being offered.

HH/NURS 1521 4.00 Health and Healing: Client Centred Care for Individuals in Gerontology and Maternal Infant Settings

Emphasizes planning and implementing caring/healing and health promotion activities with culturally diverse individuals and families in gerontological and maternal-infant settings. A selected human science theory informs the construction and interpretation of client-centred approaches to care. Prerequisite: HH/NURS 1541 2.00, HH/NURS 1542 2.00, HH/NURS 1511 2.00, HH/NURS 1531 3.00. Corequisite: HH/NURS 1543 2.00, HH/NURS 1532 3.00. Open to: Students in the York-Seneca-Georgian Collaborative BScN Program registered at the campus on which the course is offered. Not open to: BScN students in other York University programs and BScN students enrolled in the collaborative program at campuses other than where the course is being offered. Note: Students need to pass both classroom and both practicum components in order to pass the course. Students must provide their own transportation to practice placements.

HH/NURS 1531 3.00 Anatomy and Physiology I

Introductory anatomy and physiology with an orientation to the body and continuing through the cell to specific body systems. Medical terminology will be introduced to allow a basic understanding of appropriate vocabulary. The interrelationships of body organ systems, homeostasis and the complementarity of structure and function provide the basis for understanding the human body. Course Credit Exclusion(s): HH/KINE 2031 3.00, HH/KINE 3012 3.00. Open to: Students in the York-Seneca-Georgian Collaborative BScN Program registered at the campus on which the course is offered. Not open to: BScN students in other York University programs and BScN students enrolled in the collaborative program at campuses other than where the course is being offered.

HH/NURS 1532 3.00 Anatomy and Physiology II

Integrates anatomy and physiology of specific body systems. The interrelationships of body organ systems, homeostasis and the complementarity of structure and function provide the basis for understanding the human body. Specific body systems will be discussed and information applied to clinical situations. Prerequisite: HH/NURS 1531 3.00. Course Credit Exclusion(s): HH/KINE 2031 3.00, HH/KINE 3012 3.00. Open to: Students in the York-Seneca-Georgian Collaborative BScN Program registered at the campus on which the course is offered. Not open to: BScN students in other York University programs and BScN students enrolled in the collaborative program at campuses other than where the course is being offered.

HH/NURS 1541 2.00 Health and Healing: Wellness Across the Lifespan

Health, wellness and healing from the perspective of Nightingale’s theory are explored. Concepts such as determinants of health, social and cultural diversity, values, beliefs, lifestyle choices, teaching/learning principles, communication skills, and promotion of health across the lifespan are discussed. Open to:
Students in the York-Seneca-Georgian Collaborative BScN Program registered at the campus on which the course is offered. Not open to: BScN students in other York University programs and BScN students enrolled in the collaborative program at campuses other than where the course is being offered.

**HH/NURS 1542 2.00 Health and Healing: Introductory Nursing Skills**

Provides the theoretical basis for basic nursing skills, as well as instruction in their performance and the opportunity to practice in a supervised setting. Open to: Students in the York-Seneca-Georgian Collaborative BScN Program registered at the campus on which the course is offered. Not open to: BScN students in other York University programs and BScN students enrolled in the collaborative program at campuses other than where the course is being offered.

**HH/NURS 1543 2.00 Health and Healing: Health Assessment**

Provides an overview of the theory and instruction in the skills of health assessment using therapeutic communication skills. Students will develop focused assessment skills related to the physical, psychosocial and spiritual aspects of the healthy individual across the lifespan. Prerequisite: HH/NURS1542 2.00. Corequisite: HH/NURS 1521 3.00. Pre/Corequisite: HH/NURS 1532 3.00. Open to: Students in the York-Seneca-Georgian Collaborative BScN Program registered at the campus on which the course is offered. Not open to: BScN students in other York University programs and BScN students enrolled in the collaborative program at campuses other than where the course is being offered.

**HH/NURS 1900 6.00 Health & Healing: Nursing in the Context of Wellness**

Introduces students to the foundation of nursing practice through classroom, laboratory, and practicum settings. A wellness focus frames exploration of lifespan issues. Introduces nursing therapeutics through theory and practice of the fundamental healing arts. Open only to: students enrolled in the 2nd Entry BScN program. Course credit exclusion: None.

**HH/NURS 1950 3.00 Development of Self as Nurse: Foundations Of Nursing: Thinking, Communicating, and Relating**

Introduces students to the discipline of nursing by exploring its evolution, key concepts, processes and obligations. With reference to selected nursing theorists and caring concepts and using experiential learning activities, this course aims to strengthen thinking, communicating and relating in nursing. Open only to: students enrolled in the 2nd Entry BScN program. Course credit exclusion: None.

**HH/NURS 1960 3.00 Development of Self as Nurse: Introduction to the Knowledge of Nursing**

Introduces students to the unique nature of nursing knowledge, explores nursing theoretical perspectives, and multiple patterns of knowing. Clarifies relationships between nursing theoretical works and practice (praxis). Open only to: Students in the 2nd Entry BScN program. Course credit exclusion: None.

**HH/NURS 2000G 30.00 Collaborative Nursing - Georgian**

Second year Nursing at Georgian College.

**HH/NURS 2000S 30.00 Collaborative Nursing - Seneca**

Second year Nursing at Seneca College.

**HH/NURS 2300 3.00 Development of Self as Nurse: Understanding and Interpreting Quantitative Data Analysis in Nursing Research**

Introduces the concepts of quantitative data analysis within the context of nursing research. Focuses on understanding and interpreting research results through examination of nursing research. Examines the fit between research purpose and results, and results and implications for nursing practice. Note: Open only to students in the BScN program. Recommendation: AK/HH/NURS 2300 3.00 be completed prior to or concurrently with AK/HH/NURS 3300 3.00. Course credit exclusion: None.
HH/NURS 2512 3.00 Development of Self as Nurse: Professionhood and Knowledge of Nursing II

Socialization into the profession and discipline of nursing. Exploration of professional organizations and standards. Introduction to nursing theory with emphasis on human science theories and multiple ways of knowing. Initiation into information literacy and its application to nursing/health care. Prerequisite: HH/NURS 1511 2.00. Pre/Corequisite: HH/NURS 2513 3.00. Open to: Students in the York-Seneca-Georgian Collaborative BScN Program registered at the campus on which the course is offered. Not open to: BScN students in other York University programs and BScN students enrolled in the collaborative program at campuses other than where the course is being offered. Note: Students need to pass both the classroom and practical components in order to pass the course. Students must provide their own transportation to practice placements.

HH/NURS 2513 3.00 Development of Self as Nurse: Ethical Ways of Knowing and Caring

Focuses on ethical theories, concepts and issues relevant to nursing practice. Ethical decision making and nursing practice are explored. Ethical aspects of caring/human sciences are explored within the context of the CNO Ethics Practice Standard and CNA Code of Ethics. Prerequisite: HH/NURS 1511 2.00. Pre/Corequisite: HH/NURS 2512 3.00. Course Credit Exclusion(s): HH/NURS 3400 3.00. Open to: Students in the York-Seneca-Georgian Collaborative BScN Program registered at the campus on which the course is offered. Not open to: BScN students in other York University programs and BScN students enrolled in the collaborative program at campuses other than where the course is being offered.

HH/NURS 2522 6.00 Health and Healing: Client-Centred Care of Individuals with Common Health Challenges

Integrates the theoretical and practice components of client-centred nursing in the context of common health challenges. Through classroom and practicum experiences, students expand their knowledge of the therapeutic role of nursing and nursing praxis in situations of these health challenges. Prerequisite: HH/NURS 2522 6.00. Pre/Corequisite: HH/NURS 2534 3.0, HH/NURS 2512 3.0, HH/NURS 2513 3.00. Open to: Students in the York-Seneca-Georgian Collaborative BScN Program registered at the campus on which the course is offered. Not open to: BScN students in other York University programs and BScN students enrolled in the collaborative program at campuses other than where the course is being offered. Note: Students need to pass both the classroom and practical components in order to pass the course. Students must provide their own transportation to practice placements.

HH/NURS 2523 6.00 Health and Healing: Client-Centred Care of Individuals with Complex Health Challenges

Integrates the theoretical and practice components of client-centred nursing in the context of complex health challenges. Through classroom and practicum experiences, students expand their knowledge of the therapeutic role of nursing and nursing praxis in situations of these health challenges. Prerequisite: HH/NURS 2522 6.00. Pre/Corequisite: HH/NURS 2534 3.0, HH/NURS 2512 3.0, HH/NURS 2513 3.00. Open to: Students in the York-Seneca-Georgian Collaborative BScN Program registered at the campus on which the course is offered. Not open to: BScN students in other York University programs and BScN students enrolled in the collaborative program at campuses other than where the course is being offered. Note: Students need to pass both the classroom and practical components in order to pass the course. Students must provide their own transportation to practice placements.

HH/NURS 2533 3.00 Processes of Human Diseases I

An introduction to human disease that focuses on the fundamental principles of homeostatic mechanisms and how alterations in homeostatic mechanisms disrupt the human body. Overall mechanisms of disease will be studied by systems and have been categorized into concepts. These concepts will be examined for the effect that they produce on the structure and function of the body. Prerequisite: HH/NURS 1532 3.00. Open to: Students in the York-Seneca-Georgian Collaborative BScN Program registered at the campus on which the course is offered. Not open to: BScN students in other York University programs and BScN students enrolled in the collaborative program at campuses other than where the course is being offered.
HH/NURS 2534 3.00 Processes of Human Diseases II

This course builds on Processes of Human Disease I. Continued exploration of the concepts of pathology and the effect on the structure and functioning of the body. Overall mechanisms of disease have been categorized into concepts and these concepts will be examined for the effect that they produce on each of the body systems. Common diseases will be used to illustrate each concept. Prerequisite: HH/NURS 2533 3.00. Open to: Students in the York-Seneca-Georgian Collaborative BScN Program registered at the campus on which the course is offered. Not open to: BScN students in other York University programs and BScN students enrolled in the collaborative program at campuses other than where the course is being offered.

HH/NURS 2544 3.00 Health and Healing: Complex Nursing Skills and Health Assessment

Builds on nursing care skills and health assessment skills developed in Year 1. The classroom and lab components provide an opportunity to integrate theory and practice into more complex nursing care and health assessment skills necessary to provide holistic care. Prerequisite: HH/NURS 1542 2.00, HH/NURS 1543 2.00. Pre/Corequisite: HH/NURS 1532 3.00. Open to: Students in the York-Seneca-Georgian Collaborative BScN Program registered at the campus on which the course is offered. Not open to: BScN students in other York University programs and BScN students enrolled in the collaborative program at campuses other than where the course is being offered.

HH/NURS 2720 3.00 Perspectives on Health and Health Promotion

The focus of this course is on concepts and theories related to health and health promotion for individuals, groups, populations and communities including an emphasis on strategies for encouraging health promoting behaviours. Course credit exclusion: None.

HH/NURS 2730 3.00 Health and Healing: Health Assessment

An overview of the theory and skills of health assessment with an emphasis on the individual.

Prepares students to assess the health of persons with varying health concerns. Offered by internet with 16 hours of on campus lab work. Open only to students enrolled in the Post-RN BScN program. Not open to students enrolled in the 2nd Entry, IEN, or Collaborative BScN programs. Course credit exclusion(s): HH/NURS 1543 2.00, HH/NURS 2544 3.00, HH/NURS 2731 6.00 and HH/NURS 2930 3.00.

HH/NURS 2731 6.00 Health Assessment & Application

An overview of the theory and skills of health assessment with emphasis on the individual. The clinical component of this course provides for guided practice in performing assessments and will be demonstrated in laboratory and clinical practice environments. Prerequisite: HH/NURS 3901 3.00, HH/NURS 3902 3.00. Course credit exclusion(s): HH/NURS 2730 3.00. Open only to: Students enrolled in the Internationally Educated Nurses BScN program. Not open to: Students enrolled in any other BScN program at York. Note: Students must pass both the classroom and practice components of the course to receive a passing grade in the course overall.

HH/NURS 2900 6.00 Health & Healing: Nursing in the Context of Client Centered Care

Examines and enacts client-centred care within the context of caring for individuals and families within their home and rehabilitative settings. Develops an understanding of the experience of illness and healing practices in which clients are the leaders of their care. Prerequisites: AK/HH/NURS 1900 6.00, AK/HH/NURS 1950 3.00, AK/HH/NURS 1960 3.00, AK/HH/NURS 2930 3.00, SC/CHEM 1550 3.00. Corequisites: AK/HH/NURS 2950 2.00, AK/HH/NURS 2960 3.00, SC/CHEM 2550 3.00. Note: Required course for students in the 2nd Entry BScN program. Course credit exclusion: None.

HH/NURS 2930 3.00 Health &Healing: Health Assessment

Provides an overview of the theory and skills of health assessment with emphasis on the individual. Prepares a practitioner who can evaluate persons with varying health concerns. Open only to: Students in the 2nd Entry BScN program. Course credit exclusion: None.
HH/NURS 2950 3.00 Development of Self as Nurse: Introduction to Professional Issues

Introduces professional issues and trends through inquiry into professional responsibility, individual accountability; the roles of professional associations, unions, and regulation. Develops an awareness of the socio-political and economic issues affecting nursing and health care. Open only to students in the 2nd Entry BScN program. Course credit exclusion: None.

HH/NURS 2960 3.00 Health & Healing: Applied Pathophysiology

Focuses on pathophysiological concepts essential to understand major disease processes across the lifespan. Emphasizes specified pathological conditions affecting the functioning of body systems and the recognition of clinical manifestations. Integrates knowledge from nursing with the physical, social, and behavioural sciences. Prerequisites: AK/HH/NURS 1900 3.00, SC/CHEM 1550 3.00. Corequisites: SC/CHEM 2550 3.00, AK/HH/NURS 2900 3.00. Open only to students in the 2nd Entry BScN program. Course credit exclusion: None.

HH/NURS 3010 3.00 Development of Self as Nurse: Nature of Nursing Knowledge

Examines the nature of nursing knowledge. Students critically reflect on the historical, socio-political and philosophic forces influencing nursing knowledge. A variety of conceptual models of nursing are explored as well as their utility for practice. Note 1: Open only to students enrolled in the Post-RN BScN program. Note 2: AK/HH/NURS 3010 3.00 plus AK/HH/NURS 3020 3.00 are equivalent to AK/HH/NURS 3700 6.00. Course credit exclusion: AK/NURS 3700 6.00 (prior to Summer 1997).

HH/NURS 3020 3.00 Development of Self as Nurse: Concepts of Human Healing

Focuses on the acquisition of knowledge and appreciation of the mystery and awe of human healing from the perspective of the human science paradigm. Using methods of concept development, students explore healing concepts and their relationships to nursing theory and practice. Note 1: Open to students enrolled in the Post-RN and Collaborative BScN streams. It is strongly recommended that students complete AK/HH/NURS 3010 3.00 (Post-RN) or AK/HH/NURS 3110 3.00 (Collaborative) prior to or concurrently with AK/HH/NURS 3020 3.00. Note 2: AK/HH/NURS 3010 3.00 plus AK/HH/NURS 3020 3.00 are equivalent to AK/HH/NURS 3700 6.00. Course credit exclusion: AK/NURS 3700 6.00 (prior to Summer 1997).

HH/NURS 3040 3.00 Development of Self as Nurse: Knowledge of Nursing

Focuses on the development of nursing knowledge including philosophic, conceptual and theoretical perspectives. Students examine personal and professional paradigms to explore the relationship between paradigms, models and theories of nursing practice. Note: Open only to students in the Collaborative BScN program. Course credit exclusion: AK/NURS 3110 3.00 (prior to Summer 2002).

HH/NURS 3050 3.00 Development of Self as Nurse: Leadership and Change for Professional Practice

Explores concepts and processes related to professionhood, leadership and change in nursing and health care organizations. Develops understanding of the socio-political context and explores professional obligation, responsibility and accountability. Analyzes leadership and change strategies to enhance professional practice. Course credit exclusions: AK/HH/NURS 3000 3.00 and AK/HH/NURS 4000 3.00.

HH/NURS 3130 3.00 Health and Healing: Promoting Health and Healing with Individuals and Families

Philosophies and theories of health promotion and healing are critically examined. Students explore the meaning of health promotion with individuals in families, within a caring-healing perspective. Course credit exclusion: AK/NURS 3030 3.00 (prior to Summer 2002).

HH/NURS 3190 3.00 Introductory Computing for Health Informatics

Introduces computer technology concepts related to hardware, software and communication protocols. Computer lab time will provide for practical experience using a variety of software packages. Computer concepts will be discussed with particular reference to their applicability in health care. Prerequisite: None. Note: This course can be challenged for students with equivalent preparation. Contact
School of Nursing. Course credit exclusion: AK/NURS 1000 3.00 (prior to Summer 2000).

**HH/NURS 3200 3.00 Foundation of Health Informatics**

Examines concepts, principles and processes of information management in health care focusing on the knowledge and skills required for leadership roles in developing and managing new technology. Trends and issues related to computerization in health are critically explored. Prerequisite: AK/HH/NURS 3190 3.00 (formerly AK/HH/NURS 1000 3.00); or AK/AS/SC/COSC 1520 6.00; or AK/ITEC 1010 3.00 and AK/ITEC 1011 3.00; or for students with equivalent preparation, permission of the health informatics certificate coordinator. Course credit exclusion: AK/HH/HLST 2040 3.00.

**HH/NURS 3210 3.00 Societal Implications of Health Informatics**

Focuses on informatics issues which affect quality of life for health care practitioners, clients and families. The impacts of computerization on confidentiality, the client/practitioner relationship, patient care, and health care education, research and administration are critically examined. Prerequisite: AK/HH/NURS 3200 3.00. Course credit exclusion: None.

**HH/NURS 3220 3.00 Educational Strategies for Health Informatics**

Focuses on informatics strategies to develop institutional and community based education programs to communicate health care information in an online globalized community. Students will be required research and develop educational programs using Internet tools. Prerequisite: AK/HH/NURS 3200 3.00. Course credit exclusion: None.

**HH/NURS 3230 3.00 Health Data Management**

Examines issues and trends in health data management and the impact on the human caring experience. Students develop various database applications using basic database development techniques, and develop professional proposals using the systems lifecycle development model and process mapping. Prerequisite: AK/HH/NURS 3200 3.00 or for students with equivalent preparation, permission of the health informatics certificate coordinator. Course credit exclusions: AK/HLST 3320 3.00, AK/ITEC 3220 3.00.

**HH/NURS 3240 3.00 Electronic Data Systems: An Analytical Examination of Human Caring and Technology**

Students explore a range of clinical electronic data systems (EDS) and evaluate their impact on nursing practice and patient/client outcomes. The EDS is evaluated using legal and ethical standards and best practice guidelines for care planning and documentation with clinical cases. Note: Students will need basic computer skills. Course credit exclusion: AK/HH/HLST 3310 3.00.

**HH/NURS 3300 3.00 Development of Self as Nurse: Research and Inquiry**

Explores the research basis of nursing practice. Research methods, including qualitative and quantitative approaches are examined along with methods of analysis. Students develop the ability to critique nursing research and to use research in practice. Prerequisite: AK/HH/NURS 2300 3.00 or for students with equivalent preparation, permission of the course director. AK/HH/NURS 2300 3.00 may also be taken concurrently. Note: Open only to students in the BScN program or for students with equivalent preparation, permission of the director of nursing. Course credit exclusions: AK/ADMS 2300 6.00, AK/NURS 2700 6.00 (prior to Summer 1997).

**HH/NURS 3320 3.00 Qualitative Inquiry & Critical Appraisal**

Provides an understanding of qualitative research and critical appraisal. Focus is on knowledge and skill acquisition regarding critique of published qualitative research. Participation in qualitative research within current student and workplace roles is also a focal point. Prerequisites: AK/HH/NURS 2300 3.00, AK/HH/NURS 3300 3.00 or with equivalent preparation permission of the director of Nursing. Course credit exclusion: None. Open to students in the BScN program.
HH/NURS 3400 3.00 Development of Self as Nurse: Ethical Ways of Knowing and Caring in Nursing

Focuses on an in-depth examination of applied ethical and moral problems, issues and implications in everyday clinical nursing practice. Explores ethical decision making models and moral reasoning relevant to nursing care of clients and their families across the life span. Note: Open only to students in the BScN program, or by permission of the undergraduate director. Course credit exclusion: None.

HH/NURS 3410 3.00 Health and Healing: Enacting Caring Through Competence in Nursing Praxis

Promotes praxis by synthesizing the theory and practice of complex nursing care with multiple ways of being, knowing and doing in nursing. Serves as a pivotal juncture between the “Development of Self as Nurse” and “Health and Healing” curricular threads. Note: Open only to Collaborative BScN students. Course credit exclusion: None.

HH/NURS 3500 3.00 Program Evaluation in Health Care Part I

A blend of theory and practice that provides students with an understanding of the concepts and implementation of program evaluation in health care. Students develop the ability to critique program evaluation reports and develop a proposal to evaluate a program. Prerequisite: For BScN students HH/NURS 3300 3.00 or HH/NURS 2700 6.00. All other students AP/ADMS 2300 6.00 or, for students with equivalent preparation, permission of the undergraduate director. Course credit exclusions: AK/ADMS 3130Q 3.00 (prior to Summer 2001), HH/NURS 4500 3.00, AK/NURS 4500 3.00 (prior to Fall/Winter 2007/2008).

Cross-listed to: AP/ADMS 3720 3.00, HH/NURS 3500 3.00

HH/NURS 3514 3.00 Development of Self as Nurse: Nurse as Leader and Agent of Change

Explores leadership and change theories and applies related concepts and processes to the practice of nursing. Develops understanding of the socio-political context for change, analyzes leadership and change strategies to enhance professional practice and health care. Prerequisite: HH/NURS 2512 3.00. Course Credit Exclusion(s): HH/NURS 3050 3.00. Open to: Students in the York-Seneca-Georgian Collaborative BScN Program registered at the campus on which the course is offered. Not open to: BScN students in other York University programs and BScN students enrolled in the Collaborative program at campuses other than where the course is being offered.

HH/NURS 3524 6.00 Health and Healing: Client Centred Care of Individuals and Families in Child and Mental Health Settings

Emphasizes planning and implementing caring/healing and health promotion activities with culturally diverse individuals and families in child health and mental health settings. A specific human science theory informs the construction and interpretation of client-centred approaches to care in each setting. Integrates current theory drawn from both within and outside of nursing with opportunities for clinical application through practicum placements. Prerequisite: HH/NURS 2523 6.00, HH/NURS 2534 3.00, HH/NURS 2512 3.00, HH/NURS 2513 3.00. Open to: Students in the York-Seneca-Georgian Collaborative BScN Program registered at the campus on which the course is offered. Not open to: BScN students in other York University programs and BScN students enrolled in the collaborative program at campuses other than where the course is being offered. Note: Students need to pass both classroom and both practicum components in order to pass the course. Students must provide their own transportation to practicum placements.

HH/NURS 3600 3.00 Patterns in the Health Experience of Older Persons

Explores theories and practices related to health experiences of older persons. Students will examine their construction of nursing praxis in a variety of social environments by engaging in relationships with older persons through a variety of modalities. Prerequisites: AK/HH/NURS 3010 3.00 or AK/HH/NURS 3040 3.00. Open only to students in the BScN program. Course credit exclusion: None.

HH/NURS 3700 3.00 Transcultural Nursing

Focuses on in-depth exploration and application of transcultural nursing principles in multicultural
nursing care across the life span. Students critically reflect on cultural assessment. The relationship between culture, lived experience of health, health and healing practices is explored. Course credit exclusion: None.

**HH/NURS 3710 3.00 Nurses' Experience in Healthcare Environments**

Explores the lived experience of nurses in diverse healthcare settings. Through reading, dialogue, writing, on-site classes and guest conversations, students will transform their understanding of the experience of working in healthcare reform environments in which stories intermingle. Note: Open only to students in the BScN programs. Course credit exclusion: None.

**HH/NURS 3720 3.00 Nurses as Teachers and Learners**

Provides an opportunity to explore multiple theoretical perspectives on teaching and learning within the context of nursing. Collaborative and Post-RN nursing students will experience and critique various teaching/learning modalities available to promote learning, health and healing with clients and peers. Note: Open only to students in the BScN program. Prerequisites: For students in the Collaborative BScN program, AK/HH/NURS 3040 3.00; for students in the Post-RN BScN program, AK/HH/NURS 3010 3.00. Course credit exclusions: AK/HH/NURS 4720 3.00, AK/NURS 3790D 3.00 (prior to Summer 2003).

**HH/NURS 3730 3.00 Lived Praxis in Nursing**

Students will apply knowledge of conceptual models in nursing. The students' experiences serve as the context for exploring and understanding how conceptual models guide both traditional and complementary caring/healing modalities found in practice. Note: Open only to students in the Collaborative BScN program. Prerequisite: AK/HH/NURS 3040 3.00. Course credit exclusion: AK/NURS 3790A 3.00 (prior to Summer 2003).

**HH/NURS 3740 3.00 Health Care Planning for Communities**

This course provides a theoretical and methodological background for health problem analysis and program/service planning at the community and regional levels. Course credit exclusion: AK/ADMS 3130K 3.00 (Prior to Fall 1999)

**HH/NURS 3760 3.00 Embracing Child Rights and Child/Youth Centredness in Canadian Nursing**

Enables nurses to develop a model of nursing practice which values child rights and which partners with children and youth. Child/youth centred nursing is explained within the context of children's lived experiences, Canadian Nursing Ethics and Child Rights. Prerequisites: For students in the Collaborative BScN program, AK/HH/NURS 3040 3.00 and AK/HH/NURS 3300 3.00; for students in the Post-RN BScN program, AK/HH/NURS 3010 3.00 and AK/HH/NURS 3300 3.00. Note: Open only to students in the BScN program; or for other students, permission of the course director. Course credit exclusions: AK/HH/NURS 4760 3.00, AK/NURS 4790G 3.00 (prior to Summer 2003).

**HH/NURS 3770 3.00 Leadership Development: Part I**

This course focuses on nursing management roles and functions, organizational structure and processes and the management of human resources in a variety of health care settings. Prerequisites: For students in the collaborative BScN program, AK/HH/NURS 3040 3.00; for students in the Post-RN BScN program, AK/HH/NURS 3010 3.00. Course credit exclusion: None.

**HH/NURS 3800 3.00 Directed Reading**

Students select an area for extensive reading and writing. Specific areas to be selected in consultation with an appropriate faculty member. Prerequisite: Students must be accepted by a faculty supervisor before they can register in this course. The course transaction form for this course must be submitted with the signature of the supervisor indicating willingness to supervise. Permission of the undergraduate director is also required. Note: Open only to students in the Post-RN BScN program. Course credit exclusion: None.
HH/NURS 3800 6.00 Directed Reading

Students select an area for extensive reading and writing. Specific areas to be selected in consultation with an appropriate faculty member. Prerequisite: Students must be accepted by a faculty supervisor before they can register in this course. The course transaction form for this course must be submitted with the signature of the supervisor indicating willingness to supervise. Permission of the undergraduate director is also required. Note: Open only to students in the Post-RN BScN program. Course credit exclusion: None.

HH/NURS 3900 6.00 Health & Healing: Nursing in the Context of Health Challenges

Integrates the theoretical and practice components of nursing in the context of health challenges. Through classroom and clinical practicum, students expand their knowledge of the therapeutic role of nursing in situations of complex care. Prerequisites: AK/HH/NURS 1900 6.00, AK/HH/NURS 2900 6.00, AK/HH/NURS 2930 3.00. Only open to: students enrolled in the 2nd Entry BScN program. Course credit exclusion: None.

HH/NURS 3901 3.00 Pharmacotherapeutics for Nursing in Ontario

Emphasizes the particulars of therapeutics used in the Canadian health care context. Focuses on pharmacology and specific nursing therapeutic regimens. Examines essential clinical content necessary for safe and competent nursing practice. Open to students admitted to the qualifying pre-session of the Post-RN BScN degree for internationally educated nurses only. Course credit exclusion: None.

HH/NURS 3902 3.00 Providing Culturally Competent Care

Focuses on professional issues necessary for transition to the Canadian workplace. Social, political, and regulatory issues central to nursing in Ontario will be augmented with opportunities to be mentored in the healthcare workplace. Supports preparation of culturally competent practitioners. Open to students admitted to the qualifying pre-session of the Post-RN BScN degree for internationally educated nurses only. Course credit exclusion: None.

HH/NURS 3910 6.00 Health & Healing: Nursing in the Context of Child and Mental Health Care

Involves a critical examination of the concept of human vulnerability and its implications for pediatric and mental health nursing practice. Integrates current theory drawn from both within and outside of nursing with opportunities for clinical application through practicum placements. Prerequisite: AK/HH/NURS 3900 6.00. Corequisite: AK/HH/NURS 3950 3.00. Open only to: students enrolled in the 2nd Entry BScN program. Course credit exclusion: None.

HH/NURS 3950 3.00 Development of Self: Communicating and Relating In Complex Situations

Examines complex communication skills and explores how they influence the nurse’s effectiveness working with client groups, collaborating on interdisciplinary teams and supporting families. Prerequisite: AK/HH/NURS 1950 3.00. Only open to: students enrolled in the 2nd Entry BScN program. Course credit exclusion: None.

HH/NURS 3960 3.00 Health & Healing: Theory Guided Evidence-Based Practice

Provides and overview and evaluation of strategies to critique and facilitate the use of evidence relating to practice within the context of different nursing theories. Examines the role of nursing knowledge, ways of knowing, and patient preference in defining evidenced-based practice. Prerequisite: AK/HH/NURS 1960 3.00 or AK/HH/NURS 3040 3.00 or AK/HH/NURS 3010 3.00. Corequisite: AK/HH/NURS 3300 3.00. Note: Required course for students in the accelerated BScN program, elective course for students in the Post-RN BScN and Collaborative BScN programs. Course credit exclusion: None.

HH/NURS 4000 3.00 Development of Self as Nurse: Innovator and Change Agent

Focuses on the dynamics of nursing and health care with a view to identifying opportunities for change and innovation. Students acquire knowledge and skills associated with change, innovation, entrepreneurship, consulting and leadership. Note: Open only to students in the BScN program. Prerequisites: For students in the Collaborative BScN program, HH/NURS 3040 3.00, HH/NURS 3300 3.00 and HH/NURS
HH/NURS 4100 3.00 Health and Healing: Global Context of Nursing

Focuses on global issues and trends related to present and future scenarios of human and planetary health. Caring, the central concept in nursing, is explored within the global context. Nurses’ roles, responsibilities and actions are examined in relation to the promotion of global health. Note: Open only to students in the BScN program. Prerequisites: For students in the Collaborative BScN program, AK/HH/NURS 3040 3.00, AK/HH/NURS 3300 3.00 and AK/HH/NURS 3400 3.00; for students in the Post-RN BScN program, AK/HH/NURS 3010 3.00, AK/HH/NURS 3300 3.00, AK/HH/NURS 3400 3.00; or permission of the course director. Course credit exclusion: None.

HH/NURS 4110 9.00 Health & Healing: Integrated Nursing Science Practicum

Intensive practice experience in a variety of traditional and non-traditional nursing settings. Synthesizes previous knowledge to help students articulate a framework for professional and clinical practice. This course totals 432 practicum experience hours. Prerequisites: Successful completion of HH/NURS 2300 3.00, HH/NURS 3040 3.00, HH/NURS 3050 3.00, HH/NURS 3300 3.00, HH/NURS 3400 3.00, HH/NURS 3410 3.00, HH/NURS 4120 3.00, HH/NURS 4130 3.00, 6 additional credits at the 3000 or 4000 level in nursing, 9 additional credits at the 3000 or above level outside of nursing. Corequisites: HH/NURS 4110 3.00. Open to: Only students enrolled in the Collaborative BScN program and concurrently enrolled in HH/NURS 4110 9.00. Notes: Students must successfully complete both HH/NURS 4110 9.00 and HH/NURS 4111 3.00 concurrently in order to be recognized with a passing grade or credit in either course.

HH/NURS 4111 3.00 Health & Healing: Integrated Nursing Science Theory

Synthesizes previous knowledge to help students articulate a framework for professional and clinical practice and apply to an intensive practice experience in a variety of traditional and non-traditional nursing settings. This course is equivalent to 36 classroom contact hours. Prerequisites: Successful completion of HH/NURS 2300 3.00, HH/NURS 3040 3.00, HH/NURS 3050 3.00, HH/NURS 3300 3.00, HH/NURS 3400 3.00, HH/NURS 3410 3.00, HH/NURS 4100 3.00, HH/NURS 4120 3.00, HH/NURS 4130 3.00, 6 additional credits at the 3000 or 4000 level in nursing, 9 additional credits at the 3000 or above level outside of nursing. Corequisite: HH/NURS 4110 9.00. Open only to students enrolled in the Collaborative BScN program and concurrently enrolled in HH/NURS 4110 9.00. Notes: Students must successfully complete both HH/NURS 4110 9.00 and HH/NURS 4111 3.00 concurrently in order to be recognized with a passing grade or credit in either course.

HH/NURS 4120 6.00 Health and Healing: Community as Partner

This course focuses on the community as partner. The student develops knowledge and skills related to caring for the community. The roles, concepts, and theories of community health and healing will be compared, analyzed, and applied in practice. A practicum of 144 hours over the semester provides opportunity for praxis. Prerequisites: Collaborative BScN students: AK/HH/NURS 3040 3.00, AK/HH/NURS 3300 3.00, AK/HH/NURS 3400 3.00, AK/HH/NURS 3410 3.00, AK/HH/NURS 3130 3.00 and AK/HH/NURS 3300 3.00, or AK/HH/NURS 2700 6.00, or AK/ADMS 2300 6.00, or for students with equivalent preparation, permission of the director of nursing. Post-RN Integrated NP students: AK/HH/NURS 3010 3.00, AK/HH/NURS 3400 3.00, AK/HH/NURS 3130 3.00 and AK/HH/NURS 3300 3.00, or AK/HH/NURS 2700 6.00, or AK/ADMS 2300 6.00, or for students with equivalent preparation, permission of the director of Nursing. Post-RN Integrated NP students: AK/HH/NURS 3010 3.00, AK/HH/NURS 3400 3.00, AK/HH/NURS 3130 3.00 and AK/HH/NURS 3300 3.00, or AK/HH/NURS 2700 6.00, or AK/ADMS 2300 6.00, or for students with equivalent preparation, permission of the director of Nursing. Course credit exclusion: AK/NURS 4140 6.00 (prior to Summer 2005).
HH/NURS 4130 3.00 Health and Healing: Living Client-Centred Care

Examines and enacts the emerging paradigm of client-centred care, in which clients are respected as the leaders of their care. Students experience and critique how health care cultures are reflected in practice with individuals and families in complex care situations. Note: AK/HH/NURS 4130 3.00 open only to students in the Post-RN BScN program with prerequisite AK/HH/NURS 3010 3.00. Course credit exclusions: AK/HH/NURS 4130 6.00, AK/NURS 3790B 3.00 (prior to Summer 2003).

HH/NURS 4130 6.00 Health and Healing: Living Client-Centred Care

Examines and enacts the emerging paradigm of client-centred care, in which clients are respected as the leaders of their care. Students experience and critique how health care cultures are reflected in practice with individuals and families in complex care situations. If the grade for the practicum component is fail then the overall final course grade is F. Course credit exclusions: AK/HH/NURS 4130 3.00, AK/NURS 3790B 3.00 (prior to Summer 2003).

HH/NURS 4131 6.00 Client Centered Care in the Canadian Context

Focuses on the care of patients and families within complex care situations using a client and family centred approach. Utilizes practice experience in Ontario healthcare settings to highlight essential competencies necessary for nursing practice in Canada. Open to: Students admitted to the qualifying pre-session of the Post-RN BScN degree for internationally educated nurses only. Course credit exclusion: None.

HH/NURS 4140 3.00 Health and Healing: Promoting the Health of Communities

Focuses on community health nursing practice in promoting the health of communities. Examines historical and conceptual foundations for practice; the community health nurse's role in: influencing health policy development; promoting health across the lifespan, in various settings and for vulnerable populations. (formerly AK/NURS 4700 6.00) Prerequisite: AK/HH/NURS 3010 3.00, AK/HH/NURS 3020 3.00, AK/HH/NURS 3130 3.00 and AK/HH/NURS 3300 3.00, or AK/HH/NURS 2700 6.00, or AK/ADMS 2300 6.00, or for students with equivalent preparation, permission of the undergraduate director. Students must directly contact the practicum coordinator and course director 60 days prior to the start of the course to negotiate the practicum.

HH/NURS 4140 6.00 Health and Healing: Promoting the Health of Communities

Focuses on community health nursing practice in promoting the health of communities. Examines historical and conceptual foundations for practice; the community health nurse's role in: influencing health policy development; promoting health across the lifespan, in various settings and for vulnerable populations. (formerly AK/HH/NURS 4700 6.00) Prerequisites: AK/HH/NURS 2300 3.00; AK/HH/NURS 3010 3.00; AK/HH/NURS 3020 3.00; AK/HH/NURS 3130 3.00; AK/HH/NURS 3300 3.00 or AK/HH/NURS 2700 6.00 or AK/ADMS 2300 6.00; AK/HH/NURS 3400 3.00; or for students with equivalent preparation, permission of the director of nursing. Students must directly contact the practicum coordinator and course director 60 days prior to the start of the course to negotiate the practicum. Course credit exclusion: AK/NURS 4700 6.00 (prior to Summer 2002).

HH/NURS 4150 6.00 Advanced Nursing Science Practicum

The synthesis of practice, theory, insights and experiences from all other courses in the program. The primary learning outcome is nursing praxis which is the interrelationship and integration of theory and practice. Prerequisite: 90 credits including AK/HH/NURS 4700 6.00 (and its prerequisites). Students must directly contact the course coordinator 60 days prior to the start of the course to arrange the practicum.
Note: This is a one term course with a clinical practicum equivalent to 18 hours per week for 12 weeks. Open only to students in the Post-RN BScN program. Course credit exclusion: AK/HH/NURS 4780 6.00 (prior to Summer 2002).

HH/NURS 4200 3.00 Applied Health Informatics Research
Provides the opportunity to integrate theory and practice to develop increased competence in informatics. Students and faculty plan individualized research. The course includes both seminars and self-directed research. Prerequisite: AK/HH/NURS 3200 3.00. Course credit exclusion: None.

HH/NURS 4210 3.00 Privacy and Security Principles and Applications in Health Care
Examines privacy and security principles as they apply to health care information management. Explores the concepts of privacy impact assessment and the effects of current federal and provincial legislation on the health care system. Course credit exclusion: None.

HH/NURS 4310 3.00 Applied Nursing Research
Allows students who have completed their course work to design and carry out a major project under the supervision of a faculty adviser and present the results to their student and faculty colleagues. Prerequisite: 60 credits including AK/HH/NURS 3300 3.00, or AK/HH/NURS 2700 6.00, or AK/ADMS 2300 6.00 or, for students with equivalent preparation, permission of the undergraduate director. Students must be accepted by a faculty supervisor before they can register in this course. The course transaction form for this course must be submitted with the signature of the supervisor indicating willingness to supervise. Permission of the undergraduate director is also required. Note: Open only to students in the Post-RN BScN program. Course credit exclusion: AK/HH/NURS 4310 3.00.

HH/NURS 4320 3.00 Qualitative Inquiry & Critical Appraisal
Provides an understanding of qualitative research and critical appraisal. Focus is on knowledge and skill acquisition regarding critique of published qualitative research. Participation in qualitative research within current student and workplace roles is also a focal point. Prerequisites: AK/HH/NURS 2300 3.00, AK/HH/NURS 3300 3.00 or with equivalent preparation permission of the director of Nursing. Course credit exclusions: None. Open to students in the BScN program.

HH/NURS 4460 3.00 Understanding and Experiencing Suffering: Praxis as Attunement and Engagement
Explores suffering as part of the human condition and the meaning for nurses and other health professionals of experiencing and witnessing suffering. Drawing upon philosophical constructs, theories, autobiographical accounts, and professional narratives, this course explores meaning-making and healing relational practices. Integrated with: AK/HH/NURS 5560 3.00. Prerequisites for BScN students: Completion of 3000 level courses or permission of course director. Open to BScN and MScN students. Course credit exclusion: None.
HH/NURS 4500 3.00 Program Evaluation in Health Care Part I

A blend of theory and practice that provides students with an understanding of the concepts and implementation of program evaluation in health care. Students develop the ability to critique program evaluation reports and develop a proposal to evaluate a program. Prerequisite: For BScN students HH/NURS 3300 3.00 or HH/NURS 2700 6.00. All other students AP/ADMS 2300 6.00 or, for students with equivalent preparation, permission of the undergraduate director. Course credit exclusions: AP/ADMS 3720 3.00, AK/ADMS 3130Q 3.00 (prior to Summer 2001), HH/NURS 3500 3.00, AK/NURS 3500 3.00 (prior to Fall/Winter 2007/2008).

HH/NURS 4510 3.00 Program Evaluation in Health Care Part II

An opportunity for students to further their knowledge of the methodology of program evaluation through practical experience in completing a program evaluation and assessing a program evaluation done by another student. Prerequisite: AP/ADMS 3720 3.00 or AP/ADMS 4770 3.00 or HH/NURS 3500 3.00 or HH/NURS 4500 3.00. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisite: AK/ADMS 3720 3.00 or AK/ADMS 4770 3.00 or AK/HH/NURS 3500 3.00 or AK/HH/NURS 4500 3.00. Course credit exclusion: AK/ADMS 4780 3.00.

Cross-listed to: AP/ADMS 4780 3.00, HH/NURS 4510 3.00

HH/NURS 4516 3.00 Development of Self as Nurse: Advanced Professional Issues

Prepares students for transitioning into the workforce by examining the context of nursing practice within the Canadian health care system, analyzing current workplace and professional issues which influence nurses' roles in health care, and developing skills related to seeking employment. Prerequisite: HH/NURS 3514 3.0. Pre/Corequisite: HH/NURS 4525 6.00, HH/NURS 4526 6.00. Course Credit Exclusion(s): HH/NURS 4710 3.00. Open to: Students in the York-Seneca-Georgian Collaborative BScN Program registered at the campus on which the course is offered. Not open to: BScN students in other York University programs and BScN students enrolled in the Collaborative program at campuses other than where the course is being offered.

HH/NURS 4520 3.00 Pathophysiology for the Nurse Practitioner

Builds on knowledge of basic anatomy and physiology emphasizing pathophysiology relevant to advanced nursing practice. Students study pathogenesis, etiologies and clinical manifestations of diseases in adults and children commonly encountered in primary health care. Prerequisite: Open only to BScN students in the Primary Care Nurse Practitioner option or certificate. Course credit exclusion: None.

HH/NURS 4526 6.00 Health and Healing: Client Centred Care of Individuals and Families in Homes and Acute Settings

Integrates the theoretical and practice components of family/client-centred nursing care with clients' experiencing acute or chronic health challenges. Through classroom and practicum experiences, students expand their knowledge of the therapeutic role of nursing care of individuals and families in homes and acute care settings. Prerequisite: HH/NURS 3524 6.00. Pre/Corequisite: HH/NURS 3514 3.00, HH/NURS 3515 3.00. Open to: Students in the York-Seneca-Georgian Collaborative BScN Program registered at the campus on which the course is offered. Not open to: BScN students in other York University programs and BScN students enrolled in the Collaborative program at campuses other than where the course is being offered. Note: Students need to pass both classroom and both practicum components in order to pass the course. Students are responsible for their own transportation to and from practice placements.

HH/NURS 4530 3.00 Nurse Practitioner Roles and Responsibilities

Focuses on the examination of roles and responsibilities of the primary health care nurse practitioner in enhancing the health and health services of individuals, families and communities. Prerequisite: Open only to BScN students in the Primary Care Nurse Practitioner option or certificate. Course credit exclusion: None.

HH/NURS 4540 4.00 Therapeutics in Primary Health Care I
Focuses on the development of knowledge, skills and competencies required by nurse practitioners in management health and illness situations in primary health care. An emphasis is placed on advanced therapeutic counseling as well as pharmacologic and healing therapeutics. Prerequisites/corequisites: AK/HH/NURS 4520 3.00 and AK/HH/NURS 4550 3.00. Open only to Post-RN BScN or BScN students in the Primary Health Care Nurse Practitioner certificate. Course credit exclusion: None.

HH/NURS 4541 4.00 Therapeutics in Primary Health Care II

Builds on the knowledge and skills of therapeutics acquired in AK/HH/NURS 4540 3.00. Prerequisites: AK/HH/NURS 4540 3.00 and AK/HH/NURS 4560 3.00. Open only to Post-RN BScN or BScN students in the Primary Health Care Nurse Practitioner certificate. Course credit exclusion: None.

HH/NURS 4550 4.00 Advanced Health Assessment and Diagnosis I

Focuses on the development of advanced health assessment, diagnostic reasoning and clinical decision-making skills for nurses in primary care. An emphasis is placed on the holistic health of individuals, families and communities. Prerequisites/corequisites: AK/HH/NURS 4520 3.00. Open only to Post-RN BScN or BScN students in the Primary Health Care Nurse Practitioner certificate. Course credit exclusion: None.

HH/NURS 4551 4.00 Advanced Health Assessment and Diagnosis II

Builds on knowledge and skills acquired in AK/HH/NURS 4550 3.00 to further advance health assessment and diagnostic reasoning within the primary health care context. Prerequisite: AK/HH/NURS 4550 3.00. Open only to Post-RN BScN or BScN students in the Primary Health Care Nurse Practitioner certificate. Course credit exclusion: None.

HH/NURS 4560 14.00 Nurse Practitioner Integrated Practicum

An intensive experience to foster the integration of theory and practice. It includes both seminars and clinical practice in a primary health care setting which may be urban, rural or semi-rural. Prerequisite: Successful completion of all courses in the BScN program. Open only to BScN students in the Primary Care Nurse Practitioner option or certificate. Course credit exclusion: None.

HH/NURS 4600 3.00 Patterns in the Health Experience of Older Persons

Explores theories and practices related to health experiences of older persons. Students will examine their construction of nursing praxis in a variety of social environments by engaging in relationships with older persons through a variety of modalities. Prerequisites: AK/HH/NURS 3010 3.00 or AK/HH/NURS 3040 3.00. Open only to students in the BScN program.

HH/NURS 4610 3.00 Human Experience of Chronic Health Challenges

Focus on human experience of living with chronic health challenges from perspectives of individuals, their families and caregivers, and the health care system. Explores personal accounts and reflections. Analyzes concepts, theories and relevant literature. Discussion focuses on current relevant issues. Note: Open only to students in the BScN program. Prerequisites: For students in Collaborative BScN program, AK/HH/NURS 3040 3.00 and AK/HH/NURS 3300 3.00; for students in Post-RN BScN program, AK/HH/NURS 3040 3.00 and AK/HH/NURS 3300 3.00; or for students with equivalent preparation, permission of the course director. Course credit exclusion: AK/NURS 4790A 3.00 (prior to Summer 2003).

HH/NURS 4620 3.00 Women’s Health and Women’s Health Movements: Critical Perspectives

Through a collaborative learning environment, students will critically analyze issues affecting women's health/health care including pathologization, medicalization, women healers, women's mental health, body image, environmental and occupational health, sexuality, violence, diversity and societal marginalization, gender roles and women's health research. Note: Open only to students in the BScN program or with permission of the undergraduate director. Course credit exclusion: AK/NURS 4790C 3.00 (prior to Summer 2003).
HH/NURS 4630 3.00 Philosophy of Nursing

Examines the underlying assumptions, values and beliefs linked with various theoretical, research and practice perspectives in nursing. Students critique nursing discourse on the human-universe-health process in relation to various philosophical traditions, while developing a personal philosophy of nursing. Prerequisites: For students in Collaborative BScN program, AK/HH/NURS 3040 3.00 and AK/HH/NURS 3300 3.00; for students in Post-RN BScN program, AK/HH/NURS 3040 3.00 and AK/HH/NURS 3300 3.00; or for students with equivalent preparation, permission of the course director. Note: Open only to students in the BScN program. Course credit exclusion: AK/NURS 4790E 3.00 (prior to Summer 2003).

HH/NURS 4640 3.00 Integrative and Expressive Forms of Caring

Processes such as art, poetry, story telling, puppetry, movement, sound and music are explored hands on as integrative and expressive forms of caring in nursing praxis. Prerequisites: For students in Collaborative BScN program, AK/HH/NURS 3040 3.00, AK/HH/NURS 3300 3.00, AK/HH/NURS 3400 3.00; AK/HH/NURS 3410 3.00; for students in Post-RN BScN program, AK/HH/NURS 3010 3.00, AK/HH/NURS 3300 3.00, AK/HH/NURS 3400 3.00 and recommend AK/HH/NURS 3020 3.00. Note: Open only to student in BScN program; or for other students, with permission of the course director or for students who have taken AK/HH/NURS 4790E 3.00. Course credit exclusion: AK/NURS 4790I 3.00 (prior to Summer 2003).

HH/NURS 4710 3.00 The Canadian Health Care System

The components of the Canadian health care system; roles played by governments, professional organizations; contemporary issues of cost control; organization and delivery of health services. Prerequisite: For BScN students HH/NURS 3300 3.00 or HH/NURS 2700 6.00; for students in other programs AP/ADMS 2300 6.00 or equivalent or permission of the course director. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisite: For BScN students HH/NURS 3300 3.00 or HH/NURS 2700 6.00; for students in other programs AK/ADMS 2300 6.00 or equivalent or permission of the course director. Course credit exclusions: AK/NURS 4710 3.00 (prior to F/W 2008), AK/ADMS 4710 3.00.

Cross-listed to: AP/ADMS 4710 3.00, HH/NURS 4710 3.00

HH/NURS 4720 3.00 Nurses as Teachers and Learners

Provides an opportunity to explore multiple theoretical perspectives on teaching and learning within the context of nursing. Collaborative and post-RN nursing students will experience and critique various teaching/learning modalities available to promote learning, health and healing with clients and peers. Note: Open only to students in the BScN program. Prerequisites: For students in the Collaborative BScN program, AK/HH/NURS 3040 3.00; for students in the Post-RN BScN program, AK/HH/NURS 3010 3.00. Course credit exclusions: AK/HH/NURS 3720 3.00, AK/NURS 3790D 3.00 (prior to Summer 2003), AK/NURS 4790D 3.00 (prior to Summer 2003).

HH/NURS 4730 3.00 Consultation: Theory and Practice

This course focuses on the concepts and theories of consultation with an emphasis on application in practice. Students have an opportunity to examine personal consultation styles and become familiar with current issues in consultation practice in health care settings. Prerequisites: 78 credits including AK/HH/NURS 2700 6.00 (AK/ADMS 2300 6.00), or, for students with equivalent preparation, permission of the undergraduate director. Open only to Honours students. Course credit exclusion: AK/ADMS 3130M 3.00 (prior to Summer 1993).

HH/NURS 4750 3.00 Current Issues for Health Care Professionals

This course examines the concept of professionalism, the role of professional associations in the health care field, ethical and legal issues facing health care professionals, and current legislation governing health care professionals. Prerequisites: 60 credits. Note: Not open to students in the collaborative BScN program. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: 60 credits. Note: Not open to students in the collaborative BScN program. Course credit exclusion: AK/ADMS 4750 3.00.
Cross-listed to: AP/ADMS 4750 3.00, HH/NURS 4750 3.00

HH/NURS 4760 3.00 Child Rights and Child/Youth Centredness in Canadian Nursing

Enables nurses to develop a model of nursing practice which values child rights and which partners with children and youth. Child/youth centred nursing is explained within the context of children's lived experiences, Canadian nursing ethics and child rights. Note 1: Open only to students in the BScN program or for other students with permission of the undergraduate director. Note 2: Fieldwork is required. Course credit exclusions: AK/HH/NURS 3760 3.00, AK/HH/NURS 4790G 3.00 (prior to Summer 2003).

HH/NURS 4770 3.00 Leadership Development: Part II

This course provides an in depth look at some of the key nursing management roles and functions required to manage human resources and to monitor and evaluate organizational, group and individual effectiveness in a variety of health care settings. Prerequisite: AK/HH/NURS 3700 3.00 or equivalent; or permission of the course director. Course credit exclusion: None.

HH/NURS 4800 3.00 Directed Reading

An independent reading course in which students select one or two areas for extensive reading and writing. Specific areas are to be selected in consultation with an appropriate faculty member. Prerequisites: 78 credits including AK/HH/NURS 2700 6.00 (AK/ADMS 2300 6.00), AK/HH/NURS 4710 3.00 and AK/HH/NURS 4750 3.00, and permission of the undergraduate director. Open only to Atkinson nursing majors. Note: Students must be accepted by a faculty supervisor before they can register in this course. The course transaction form for such a course must be submitted with a note from the supervisor stating his or her willingness to perform this task. Permission of the undergraduate director is also required. Course credit exclusion: None.

HH/NURS 4800 6.00 Directed Reading

An independent reading course in which students select one or two areas for extensive reading and writing. Specific areas are to be selected in consultation with an appropriate faculty member. Prerequisites: 78 credits including AK/HH/NURS 2700 6.00 (AK/ADMS 2300 6.00), AK/HH/NURS 4710 3.00 and AK/HH/NURS 4750 3.00, and permission of the undergraduate director. The course transaction form for such a course must be submitted with a note from the supervisor stating his or her willingness to perform this task. Permission of the undergraduate director is also required. Course credit exclusion: None.

HH/NURS 4900 9.00 Health & Healing: Integrated Nursing Science Practicum

Intensive practice experience in a variety of traditional and non-traditional nursing settings. Synthesizes previous knowledge to help students articulate a framework for professional and clinical practice. This course totals 432 practicum experience hours. Prerequisites: Successful completion of SC/CHEM 1550 3.00, SC/CHEM 2550 3.00, HH/NURS 1900 6.00, HH/NURS 1950 3.00, HH/NURS 1960 3.00, HH/NURS 2900 6.00, HH/NURS 2930 3.00, HH/NURS 2950 3.00, HH/NURS 2960 3.00, HH/NURS 3300 3.00, HH/NURS 3400 3.00, HH/NURS 3410 3.00, HH/NURS 3900 6.00, HH/NURS 3910 6.00, HH/NURS 3950 3.00, HH/NURS 3960 3.00, HH/NURS 4000 3.00, HH/NURS 4100 3.00, HH/NURS 4120 6.00, 6 credits of inside nursing electives. Corequisites: HH/NURS 4901 3.00. Open to: Only students enrolled in the 2nd Entry BScN program and concurrently enrolled in HH/NURS 4901 3.00. Note: Students must successfully complete both HH/NURS 4900 9.00 and HH/NURS 4901 3.00 concurrently in order to be recognized with a passing grade or credit in either course.
HH/NURS 4901 3.00 Health & Healing: Integrated Nursing Science Theory

Synthesizes previous knowledge to help students articulate a framework for professional and clinical practice and apply to an intensive practice experience in a variety of traditional and non-traditional nursing settings. This course is equivalent to 36 classroom contact hours. Prerequisites: Successful completion of SC/CHEM 1550 3.00, SC/CHEM 2550 3.00, HH/NURS 1900 6.00, HH/NURS 1950 3.00, HH/NURS 1960 3.00, HH/NURS 2900 6.00, HH/NURS 2930 3.00, HH/NURS 2950 3.00, HH/NURS 2960 3.00, HH/NURS 3300 3.00, HH/NURS 3400 3.00, HH/NURS 3410 3.00, HH/NURS 3900 6.00, HH/NURS 3910 6.00, HH/NURS 3950 3.00, HH/NURS 3960 3.00, HH/NURS 4000 3.00, HH/NURS 4100 3.00, HH/NURS 4120 6.00, 6 credits of inside nursing elective. Corequisite: HH/NURS 4900 9.00. Open to: Only students enrolled in the 2nd Entry BScN program and concurrently enrolled in HH/NURS 4900 9.00. Notes: Students must successfully complete both HH/NURS 4900 9.00 and HH/NURS 4901 3.00 concurrently in order to be recognized with a passing grade or credit in either course.

HH/NURS 4910 3.00 Introduction to Child and Mental Health Nursing Care in Ontario

Provides an overview of child health and mental health nursing in Ontario. Explores essential nursing knowledge through the provision of two, 6-week components. Involves a critical examination of key concepts, drawing upon current theory from within and outside of nursing. Prerequisites: AK/HH/NURS 4131 6.00. Course credit exclusions: None. Note: Open only to students enrolled in the BScN for Internationally Educated Nurses.
RESOURCES AND STUDENT LIFE

Nursing Resource Centre (NRC)

Location: Rms. 303, 304 HNES Building
Phone: 416-736-2100, ext. 33176
E-mail: nrc@yorku.ca

The Nursing Resource Centre (NRC) is where nursing students can use a variety of resources to support their learning needs. This 5,000-square-foot space serves 900 nursing students and is divided into two unique spaces: the Nursing Skills Lab, located in 304 HNES (Monday to Friday, 8:30am to 4:30pm unless otherwise posted), and the Computer Simulation Lab, located in 303 HNES (Monday to Friday, 8:30am to 4:30pm).

General Guidelines

- **Professional responsibility:** Anyone using the NRC is expected to behave with the courtesy and respect consistent with the philosophy of the Nursing program and the profession.
- **Dress code:** Uniforms are required in the NRC, as per course policy. Students are expected to maintain a neat, professional appearance and to dress for safety, comfort, ease of mobility and asepsis.
- **Food and drinks:** Food and drinks (except bottled water) are prohibited in all the NRC labs.
- **Holidays:** The NRC will be closed on holidays recognized and observed by the University.

NRC Nursing Skills Lab (Rm. 304, HNES)

The Nursing Skills Lab is a simulated hospital environment that has been created to support nursing students with their clinical skill development.

The NRC is equipped with simulation mannequins, adult mannequins with heart/lung sound capability, pediatric mannequins, a birthing mannequin, a variety of neonate mannequins and a collection of anatomical training models. Virtual IV and necessary medical equipment and supplies provide students with an adjunct to their clinical placement learning.

NRC Computer Simulation Lab (Rm. 303, HNES)

The Computer Simulation Lab has 24 workstations and access to all the computer services normally available through York. It provides the opportunity for students to develop clinical decision-making and critical-thinking skills through interactive simulation exercises.

Rooms B02 and B14 in the HNES building also house computers that students can access.

NRC A/V Resources

Students can sign out audiovisual resource materials, which are available Monday to Friday, 8:30am to 4:30pm, from the practicum assistants in Rm. 301E, HNES. Students must leave their YU card when signing out material.

The audiovisual resources can be viewed ONLY in the computer simulation lab and are NOT to be taken home.

If the practicum assistants are unavailable to support this process, please access these resources through one of the practicum coordinators in the NRC.

Clubs and Organizations

Nursing Student Association at York (NSAY)

NSAY is the nursing student organization at York. It is elected by nursing students.

**Mission statement:** To foster personal and professional growth through an authentic way of being in an open, collaborating environment that values caring, innovation, solidarity, integrity and respect.

To provide a sense of community for all BScN students at York campus and partner sites

To provide holistic support to all nursing students through peer mentoring and to create opportunities for improving the student experience while enrolled in the York University Nursing programs.
To get involved, please contact the executives:

B27, HNES Building
4700 Keele Street
Toronto, ON M3J 1P3
416-736-2100, ext. 77011
E-mail: nsay@yorku.ca
Web site: www.yorku.ca/NURS/

Faculty of Health Student Caucus (FHSC)

The Faculty of Health Student Caucus (FHSC) is a student-led organization representing all the students in the Faculty. It also implements activities and events involving the entire University community. The FHSC acts as a unifying body for all the student clubs and organizations within the Faculty of Health.

Members become an integral part of representing their peers through supportive discussions and debates that help determine the future of the Faculty's academic and social situation. They benefit by having a chance to meet other undergraduates in the same Faculty. In addition, they will also have a chance to incorporate and work with other organizations (both in and out of the Faculty of Health) to help grow York's community, and expand its opportunities to improve the Faculty of Health further. Members work very closely with the Faculty of Health staff to obtain guidance and to be informed of all the University's amazing opportunities and offerings.

The FHSC is growing rapidly, and we welcome any new members! If you would like to become a general member, please visit www.yorku.ca/healthsc for an application. You can also pick up a hard copy of the Student Caucus Nomination Form from the Office of the Dean, Faculty of Health, 442A HNES.

If you have any questions and/or concerns, send an e-mail to fhscsec@yorku.ca or drop by our office at 126 Calumet.

Stong College

One of the unique and special features of York is the internal college system, a University tradition that only a handful of Canada’s leading universities have adopted. The college system originated some 600 years ago at Oxford and Cambridge Universities in England.

Please check the Stong College Web site frequently for news, events, activities, services, awards etc.: www.yorku.ca/stong.

The colleges on campus all have areas designated as student space. Some of these places are equipped with comfortable seating, computers, tables and wireless access. You can meet with friends or classmates, conduct study groups, finish-up homework and surf the Web.

All students pursuing the BScN degree are affiliated with Stong College.

College Web sites can be found on the Student Life section of the Current Students Web site: www.yorku.ca/yorkweb/currentstudents/studentlife

To get involved, please contact the executives:

**Academic Support**

**The Writing Centre** ([www.yorku.ca/laps/writ](http://www.yorku.ca/laps/writ))

The Writing Centre offers individual instruction in all aspects of writing. Students can make a one-on-one appointment or attend one of the various workshops. The goal of instruction is to improve the student's ability to write effectively in a range of academic situations.

**Online Tutorials for Students**

The York University Libraries and the Centre for the Support of Teaching offer the following online tutorials for students. Each tutorial includes a self-test, which allows students to assess their understanding of the topic.

**The Academic Integrity Tutorial** ([www.yorku.ca/tutorial/academic_integrity/](http://www.yorku.ca/tutorial/academic_integrity/))

The Academic Integrity Tutorial is designed to help you learn about issues of academic integrity. It explores plagiarism and related matters with case examples and positive strategies you can use to improve your academic efforts and avoid committing an academic offense as outlined in York’s Senate Policy on Academic Honesty. This tutorial takes about 30 to 40 minutes to complete.

**The Web Research Tutorial** ([www.yorku.ca/webclass/](http://www.yorku.ca/webclass/))

The Web Research Tutorial helps you to learn more about how to use publicly accessible Web sites for research, from understanding what kind of information is freely available on the Web to what kinds of search tools and techniques will help you get useful results, and how to evaluate critically and document properly what you find.

**Pre-writing Strategies** ([www.yorku.ca/tutorial/prewriting/](http://www.yorku.ca/tutorial/prewriting/))

The Pre-writing Strategies online tutorial presents ideas and techniques for getting started on essay-writing assignments, including strategies for understanding your assignment, exploring your own ideas about a topic, gathering ideas from readings, organizing rough notes and developing a thesis. The tutorial now includes an online quiz.

**Libraries** ([www.library.yorku.ca/](http://www.library.yorku.ca/))

York has 12 libraries and more than 15 other resource centres. Please visit their Web site to learn more about their collections, resources, services and locations. For more specific information related to the Nursing program, you can visit the Web site at [www.library.yorku.ca/ccm/rg/im/NURSING](http://www.library.yorku.ca/ccm/rg/im/NURSING).

You can also contact Angela Hamilton, the nursing librarian. Her office is located in 102K, Steacie Science & Engineering Building. Her contact phone number is 416-736-2100, ext. 33927, and her e-mail address is adh@yorku.ca.

**Important Dates and Deadlines**

The important dates and deadlines contain important information relevant to each term; in them, you will find classes and exams start/end dates, reading/co-curricular week, add/drop deadlines, holidays, University closings and more.

Sessional and financial deadlines can be found at [www.registrar.yorku.ca/importantdates](http://www.registrar.yorku.ca/importantdates).
