CHAIR'S CONGRATULATIONS & ANNOUNCEMENTS:

DOUG CRAWFORD - Congratulations to Doug Crawford, who has been awarded a tier 1 Canada Research Chair in Visual-Motor Neuroscience. http://www.chairs.gc.ca

COLLOQUIA:

♦ Departmental Colloquia:

S/P BROWN BAG - On March 12th, we will be visited by Professor John Holmes from the University of Waterloo. Professor Holmes will be presenting his model of risk regulation in regards to romantic relationships. His title and abstract are pasted below. As usual, we will be in 291 BSB at 1pm. Everyone is welcome and encouraged to attend.

ABSTRACT - A model of risk regulation is proposed to explain how people balance the goal of seeking closeness to a romantic partner against the opposing goal of minimizing the likelihood and pain of rejection. The central premise is that confidence in a partner’s positive regard and caring allows people to put self-protection aside and take the risk of seeking dependence and connectedness. The risk regulation system consists of three inter-connected “if-then” contingency rules, one cognitive, one affective, and one behavioral. In detailing how this system operates, the authors describe how general perceptions of a partner’s regard structure the sensitivity of these three “if-then” rules in risky situations within the relationship. The authors then describe the consequences of such situated “if-then” rules for relationship well-being.

RECRUITING UPDATE – Job Talks for the six positions are detailed below. Please try and go to as many as you can. Job talks will be at 10am unless otherwise announced.

DR. ALBERTA POS - is a candidate for the tenure-track clinical position. She will be visiting the Department on Tuesday March 13, 2007. Dr. Pos obtained her PhD in Clinical Psychology in 2006 from York University. She has completed a Post Doc at the Centre for Addiction and Mental Health where she is both an investigator and clinician in the Dialectical behaviour therapy clinic working with borderline patients. Dr. Pos’s main area of interest is psychotherapy process/outcome research.
DR. MARIA MEDVED - is a candidate for the Clinical tenure-track position. She will be visiting the Department on Monday March 12. Dr. Medved received her PhD in Human Development and Applied Psychology from the University of Toronto in 1998. From 1999 to 2002, she was a Staff Psychologist at West Park Healthcare Centre in Toronto. She is currently a tenure-track Assistant Professor at the University of Manitoba in their CPA/APA accredited Clinical Psychology programme. Dr. Medved has published two book chapters and ten journal articles, all of which are first author publications. Her main area of research is how people cope after neurotrauma.

Job Candidates 2007

Clinical I Qualitative/ Psychotherapy position
Dr. Alberta Pos       Tuesday, March 13
Dr. Nnamdi Pole       *Tuesday, March 20

Clinical II Assessment/ Diagnosis position
Dr. Maria Medved      Monday, March 12

Clinical/Developmental I
Dr. Jennine Rawana    *Friday, March 23

Clinical/Developmental II
Dr. Jean-Francois Bureau     Friday, March 16

CVR - Everyone welcome. All talks in 3033 CSE @ 2pm unless otherwise stated (Parentheses indicate non-CVR talk) * indicates CVR talk at unusual time, day or room
Fri March 16, Sue Lederman (Queens) "Crossmodal face recognition."
Fri March 23, Scott Adler (CVR, York) "Search in infants"
Fri March 30, Robert Sekuler (Brandeis) "Human see, human do."
Fri April 6, Kaleem Siddiqi (McGill) TBA
Fri April 13, IAN HOWARD LECTURE Bob Desimone (MIT)
Fri May 25, IAN HOWARD LECTURE Takeo Kanade (Carnegie Mellon)

ORAL DEFENCE:

MA

ALLISON BAIR - March 22, 2007 at 1:00 pm 278 York Lanes.
Title: "The Impact of Interracial Interactions and Racism on Executive Functioning: The Target’s Perspective."
Examining Committee: R. Lalonde, J. Steele, L. Visano, M. Hynie

PhD:

ANNE PLEYDON - March 19, 2007 at 2:00 pm at 278 York Lanes.
Title: ‘Cognitions Related to Peer Aggression in Female Adolescents: A Quantitative and Qualitative Study.’
Examining Committee: F. Weizmann, A. Perry, G. Flett, L. Visano, Y. Bohr, T. Vallancourt

KAREN HARDTKE - March 29, 2007 at 3:00 pm at 278 York Lanes.
Title: “The Story-teller, the Story and Change: A Narrative Exploration of Outcome in Brief Experiential Treatments for Depression.”
Examining Committee: D. Rennie, L. Angus, S. Toukmanian, C. Wien, S. Dion, K. Belicki
CHANTAL ARPIN-CRIBBIE - March 30, 2007 at 10:00 am at 278 York Lanes
Title: “Perfectionism related Cognitions and Psychological Distress: A Randomized Trial Evaluating the Relative Effectiveness of a Web-Based Cognitive Behavioural Intervention Protocol”
Examining Committee: G. Flett, J. Irvine, P. Ritvo, L. Visano, H. Westra, M. Olmsted
GRANTS/AWARDS/FUNDING/SCHOLARSHIPS/FELLOWSHIPS:

YOUNG SCIENTIST RESEARCH FUND AWARDS - CHADD is now taking applications for its Young Scientist Research Fund Awards, a new program to recognize young researchers making contributions to the understanding of AD/HD. Through the Fund, CHADD will support three researchers with an unrestricted cash award of $5,000 each; paid travel and hotel expenses, registration and a meal allowance to the 2006 18th Annual International Conference, where they will be recognized; and a one-year CHADD professional membership. Applicants must be in the process of completing a doctoral degree or must have completed such a degree within the last five years. Research may address any area relevant to AD/HD including, but not limited to: biological/genetic underpinnings of the disorder; treatment efficacy; impact on the individual or family; school or workplace accommodations; social stigma and discrimination; public health; and epidemiology. The awards are funded by Eli Lilly and Company, McNeil Consumer & Specialty Pharmaceuticals and a number of individual donations. Deadline for applications is May 11, 2006. For an application or for more information, email youngscientist@chadd.org.

INTERNATIONAL SOCIETY FOR MENTAL HEALTH ONLINE (ISMHO) - is once again pleased to announce a call for submissions of original student research in the area of online mental health. ISMHO will sponsor (1) $500 cash award and (2) $250 awards, for original research by a student. Eligibility includes studies completed during 2006 and received by the ISMHO Research Committee prior to the deadline date of May 31, 2007. The areas of research may pertain the practice (e.g., treatment, support groups, self-help, etc.), education, online communication, or online behaviour. Criteria for selection include originality, research design, advancement of our understanding in areas of online practice or behaviour, and contribution to future research efforts by identifying and outlining areas needing further empirical and/or theoretical study. Paper may be submitted electronically via e-mail, as a Word document or a .pdf file to: research@ismho.org. For more information about ISMHO visit their website at www.ismho.org.

COLLOQUIA/SEMINARS/PRESENTATIONS:

BARBARA BETCHERMAN DISTINGUISHED VISITORSHIP - Professor Nicola Lacey, Barbara Betcherman Distinguished Visitor, 9-13 March. For complete information visit http://osgoode.yorku.ca/osgeventsmng.nsf/calendar

COMPARATIVE COGNITION IN CONTEXT LECTURE SERIES PRESENTS - Tetsuro Matsuzawa, Kyoto University, Primate Research Institute- “Cognitive Development in Chimpanzees: A Synthesis of Field and Lab Study” March 29, 2007, 5-7 pm Vari Hall B, York University (main campus at Keele) Toronto, ON. The poster for this event can be downloaded at: http://cours.glendon.yorku.ca/~ccic/matsuzawa.pdf

TERRORISM AND THE CITY: URBANISM SINCE 9-11 – YCISS Afternoon Seminar Series. Jason Burke, Researcher, York Centre for International and Security Studies. Terrorism is an ancient phenomenon that in its present form threatening the way of life for people in cities around the world. Jason Burke’s research interests focus on: Effects of terrorism on urban planning, terrorist threat and public space and emergency management schemes for cities. Tuesday 13, March 2007 1:00 pm – 2:30 pm 305 York Lanes York University
This message is for faculty, clinicians, postdocs, interns, and advanced graduate students in neuropsychology from across the GTA. TANG is a forum for presenting neuropsychological talks in an informal setting. For potentially interested people who have not previously attended a TANG meeting, the idea is to have a didactic presentation of neuropsychological theory or research in a social milieu that brings together students and faculty researchers and practitioners working in child or adult neuropsychology. The next meeting this academic year will be held on Tuesday, April 17, 2007 at 6:30 p.m.

**SPEAKER:** Brenda Spiegler (Hospital for Sick Children)

**TOPIC:** Surviving Childhood Cancer: The Cost of Cure

**FORMAT:** wine and cheese (BYOB) followed by the talk (around 7:30), followed by discussion with coffee and dessert

**COST:** between $5 and $10 (depends on costs and number of attendees)

**PLACE:** home of Jill Rich (610 Castlefield Avenue, Toronto, 4 blocks north of Eglinton, 1 block east of Bathurst)

**RSVP:** jbr@yorku.ca (Jill Rich)

---

**C.G. JUNG FOUNDATION PRESENTS** – “Individuation in a consumer society: Acquiring versus becoming / Tom Kelly (Jungian Analyst). Friday 16 March 2007, 8-10 pm. Seeley Hall, Trinity College, 6 Hoskin Avenue, Toronto

Tickets Available at the Door: Members and Students: $13; Non-Members: $17

For further information, call the Jung Foundation: 416-961-9767

---

**CONFERENCES:**

**GRADUATE WOMEN’S STUDIES STUDENT ASSOCIATION SYMPOSIUM YORK UNIVERSITY**

**MAY 2-3, 2007** - Call for Abstracts Submission Deadline Extended: March 16, 2007!

The Graduate Women’s Studies Student Association (GWSSA) invites members of the York graduate student body to the fourth annual GWSSA Symposium: “Graduate Students Sharing Research: Bridging, Gifting, and Well-Being”.

Abstracts should not exceed 250 words and should include clearly identifiable keywords. Other guidelines and application forms are available on our website: [www.yorku.ca/gwssa/symposium.html](http://www.yorku.ca/gwssa/symposium.html)

Submissions should be emailed to gwssasymp@yorku.ca

Successful applicants will be notified by Monday, March 26, 2007

For further details on the conference including presenter information, learning objectives, registration process and fees, please visit our website at: [www.sickkids.ca/cpad/](http://www.sickkids.ca/cpad/)

or contact Rachel Marten-Delaney, Conference Administrator at: rachel.marten@sickkids.ca

**WORKSHOPS/PROFESSIONAL DEVELOPMENT:**

Computational Neuroscience is now identified as an established field. In this field we seek to understand how the brain and nervous system compute. This challenging endeavour requires both theory and experiment, and thus it is a highly interdisciplinary field involving mathematics, physics, physiology, computer science, biology, engineering, psychology, and so on.

This event occurs as a pre-meeting Satellite to the Annual Computational Neuroscience
meeting being held in Toronto from July 8 – 12, 2007. (see www.cnsorg.org for further details). Registration is free, however there are a limited number of spaces available so please register early.
www.fields.utoronto.ca/programs/scientific/07-08/neuroscience/

MISCELLANEOUS:

BLACK FEDORA - Would anyone be able to donate a black fedora for a friend in Cuba? He is a dancer and greatly admires the black fedora/Al Capone style hat, like the ones Michael Jackson used to wear back in the 80s. I have not had any luck at Goodwill, vintage stores or regular stores, so hopefully someone will have their old Grandpa’s hat in a cupboard somewhere. If you can’t retire to a Caribbean island, at least let the hat have a happy retirement! Thanks, and please contact Barbara Thurston (bthurst@yorku.ca) at x 66253 or by email. Muchas gracias, amigos!

YORK CVR VISION SCIENCE SUMMER SCHOOL
- The Centre for Vision Research at York University in Toronto is pleased to announce a one-week, all-expense-paid undergraduate summer school on the topic of vision science. The program will run May 20-26, 2007. The program includes talks and demonstrations by CVR faculty on current research topics in vision science, as well as hands-on projects in CVR laboratories. The curriculum reflects the wide range of active research areas at CVR, which includes basic research on vision in humans, animals, and machines, as well as applied topics such as virtual reality and visual perception in low-gravity environments. The program will accept 20 undergraduate students who are interested in pursuing a career in scientific research. The program provides on-campus accommodations, breakfast and lunch each day, a closing banquet, and reimbursement for transportation costs. Speakers include James Elder, Mazyar Fallah, Laurence Harris, Denise Henriques, Michael Jenkin, Richard Murray, David Regan, Jennifer Steeves, Laurie Wilcox, Hugh Wilson, and others.

For further information, see the summer school website, including the lecture schedule, at www.cvr.yorku.ca/summer, or write to Jennifer Steeves (steeves@yorku.ca). To apply, send one reference letter, a transcript (unofficial transcripts are fine), and a statement of up to 150 words explaining why you would like to participate in the program. Applications may be sent by email to Richard Murray (rfm@yorku.ca), or by regular mail to Richard Murray, Centre for Vision Research, York University, 4700 Keele Street, CSEB 0009, Toronto, M3J 1P3. The application deadline is March 15, and applicants will be notified of decisions by April 1.
VOLUNTEER AND PAID APPLIED OPPORTUNITIES:

PART-TIME WORK FOR 1ST AND 2ND YEAR STUDENTS - Excellent work/experience opportunity available to all first or second year Psychology, Linguistics and Neuroscience degree students. Training provided. Flexible part-time hours (10-15 hrs/week).

Must have:
- experience working with children
- dedicated, compassionate, enthusiastic, reliable, responsible
- willing to learn and follow instructions/curriculum
- a clear voice and clear speech articulation
- minimum 12 month commitment

Three openings available. Position located in Markham. For more information, please call (416) 879-2439.

POSITIONS:

WORK, STRESS, AND HEALTH PROGRAM - MOOD AND ANXIETY PROGRAM AT THE CENTRE FOR ADDICTION AND MENTAL HEALTH - Psychometrist

Position Description:
The Work, Stress, and Health Program (WSHP) at the Centre for Addiction and Mental Health (CAMH) is seeking applications for part-time psychometrists to provide clinical assessment primarily with one or more anxiety disorders. The Work, Stress, and Health Program is a specialized service providing assessment and outpatient treatment for individuals with post-traumatic stress disorder and other psychiatric disorders that are the result of industrial accidents and workplace related assaults. As a member of a multidisciplinary team, you will provide evidence-based psychological assessments in a challenging clinical environment.

Qualifications:
The successful candidate will possess a Master's degree in Psychology, with a background in the field of anxiety disorders and psychological assessment. Experience in the administration of psychological assessments, including objective self-report instruments and structured diagnostic interviewing is required; experience with the SCID, MMPI-2, and PAI would be seen as an asset. Some experience in assessing both malingering and symptom exaggeration, along with experience in pain assessment, would also be seen as an asset. Excellent interpersonal skills and the ability to work effectively in a dynamic team environment are important. The successful candidate will also possess excellent organization and communication skills and can work effectively within deadlines. The capacity to work with clients of diverse ethnoracial and cultural backgrounds is required. Proficiency in a second language and bilingualism (English/French) is an asset.

Please forward your résumé to:
Ms. Chalie Franco, Manager Work, Stress and Health Program,
455 Spadina Avenue, Suite 200
Toronto, Ontario M5S 2G8
Fax: (416) 971-7172
Email: chalie_franco@camh.net

The Mobile Crisis Worker is a member of the multidisciplinary team providing crisis service for children under the age of sixteen years, residing in the Toronto and surrounding area. The Mobile Crisis Support Worker has psychiatric backup available at all times.

Responsibilities include:
- being readily available and responsive to all telephone requests for service pertaining to adolescents from the i.e. families, mental health professionals or youth support system
- obtaining clear information about the presenting situation an the participant
- where appropriate, providing as soon as possible, a mobile crisis intervention and assessment
of the youth and the ability of their support system to manage the young person safely.
- Developing a plan of intervention in consultation with the on-call psychiatrist.
- Formulating and supporting short-term treatment strategies in conjunction with the youth's primary agency.
- Monitoring or clarifying the crisis outcome and providing any further assistance in meeting care dispositions.

**Qualifications:**
- MSW With 2 years experience, a BSW or a Bachelor's degree in a relevant field with at least 5 years experience.
- Working knowledge of individual assessment techniques, family dynamics, social support systems, and familiarity with psychiatric disturbances.
- Ability to work independently and as part of a multi-disciplinary team.
- Available to work flexible hours within a rotating schedule including days, evenings, and weekends.
- A vehicle and a valid driver's license.

**Contact by:** Fax, (416) 363-7945
Lesley Edge, Co-ordinator of the Crisis Support Team
Youthdale Treatment Centres

**UNIVERSITY OF VICTORIA, DEPARTMENT OF PSYCHOLOGY** - The Clinical Psychology Graduate Program is now posting a job opening for a Psychometry Instructor. The Psychometry Instructor's primary responsibility will be to provide instruction and supervision to clinical psychology graduate students enrolled in a variety of clinical psychology graduate-level assessment courses, with an emphasis on cognitive and neuropsychological assessment. The focus of the instruction and supervision is on the acquisition of knowledge and expertise in the administration and scoring of psychological tests. The Psychometry Instructor will complete these duties under the direction of Clinical Psychology faculty associated with the psychological assessment courses in which the students are enrolled. The Psychometry Instructor will be working in the Department of Psychology's Psychology Clinic on campus, which is a training facility for Clinical Psychology graduate students. Students learn to administer and score psychological tests to both volunteers and to child, adolescent and adult clients referred from the community. The incumbent will become a member of the Professional Employees Association.

The successful candidate will have a Master's in Psychology, or have an equivalent combination of education, training and experience (e.g. B.A or B.Sc. in Psychology with work experience). The successful candidate will have training and experience in the administration and scoring of a wide variety of psychometric tests, particularly cognitive and neuropsychological assessment.

**SALARY:** $25,646 to $28,865 per annum, plus performance range. This is a part-time (0.6 FTE) appointment. The University also offers a comprehensive benefits package.

Please submit an application package that includes your resume, a letter detailing background experience and a list of psychological tests in the psychometry repertoire as well as the names of three references to:
Employment Services, Human Resources
University of Victoria
P.O. Box 1700, Sedgewick "Vandekerkhove" Wing
Victoria, BC V8W 2Y2
Fax (250) 721-8094 no later than March 29, 2007, quoting competition number 7062.
UNIVERSITY OF VICTORIA - The School of Public Administration invites candidates to apply for two tenure stream positions at the Assistant Professor level and Assistant/Associate Professor level to teach and conduct research in the following areas:

1. Applied Economic Policy and/or Quantitative Analysis & Methods
2. Strategic Management and/or Public Policy Design & Implementation

They are interested in applicants with one or more areas of substantive expertise such as human resource management, nonprofit management, environment, natural resources, etc. One of the two positions is subject to final funding approval from the University.

Applicants should have training in one or more disciplinary or professional fields such as public policy and administration, economics, political science, management, geography, planning, applied statistics, or other relevant disciplines. Applicants should have a Ph.D., or be near completion.

Application Deadline: 2 April, 2007

For further information on these opportunities, please see our website at: [http://web.uvic.ca/padm/careers/index.htm](http://web.uvic.ca/padm/careers/index.htm)

GEROPSYCHOLOGY CLINICAL POSTDOCTORAL POSITION - Centre Psychology Group, a private practice in State College, PA, is offering a position beginning September 1, 2007. This position will provide clinical hours and supervision to qualify for the Pennsylvania Psychology License. Experiences include nursing home consultation, neuropsychological assessment, individual psychotherapy and family therapy. Applicants must have completed their doctoral program and an APA approved internship, with a focus on gerontology, and have training in administering neuropsychological instruments. Salary is $37,000, with medical insurance provided. Position begins September 1, 2007. Please send vita to either Judy M. Zarit, Ph.D., or Michael M. Keil, Ph.D. at Centre Psychology Group, 1993 Cato Avenue, State College, PA 16801, or cenpsych@yahoo.com For more information visit the following website: [http://www.hhdev.psu.edu/hdfs](http://www.hhdev.psu.edu/hdfs)

CANADIAN APPRENTICESHIP FORUM - Researcher Position. The Canadian Apprenticeship Forum – Forum canadien sur l'apprentissage (CAF-FCA) is a not-for-profit organization that promotes and supports the apprenticeship training and education systems in Canada. For information about the CAF-FCA, please refer to the following website at [www.caf-fca.org](http://www.caf-fca.org).

CAF is looking for a researcher to work on a range of interesting and important research initiatives. This is an opportunity to take responsibility for the overall design and management of large-scale continuous research initiatives that are complex and often demanding. As an integral member of the CAF-FCA research team, you will be expected to: take responsibility for the design and management of research projects; coordinate and undertake ad hoc survey research; compile and analyze raw data; and write reports.

Reporting to the Executive Director, the researcher is responsible for the overall design and management of major large-scale research initiatives. This includes the development and implementation of the proper methodology to develop such projects, as well as the analysis and reporting of the research findings. He/she is expected to take a leading role within CAF, and in negotiations with external clients, over matters relating to survey design, operations, funding and outputs. He/she is required to make substantial contributions to the preparation and presentation of proposals for new research initiatives. The researcher may need to coach, develop and supervise more junior staff that are either working as part of the project team or designing and managing other projects. He/she will
need excellent project management skills including budgeting and matrix management of other staff working on the project. **ESSENTIAL SKILLS:** have an in-depth knowledge of research methods and 3 to 5 years practical experience in research initiatives; have the ability to grasp specialized subject matter quickly, be confident in handling numerical data, and be able to present findings in written papers clearly and accurately; be skilled at project management and have proven staff management skills.

Compensation and benefits
Salary: Commensurate with experience & qualifications
Benefit plan: Comprehensive health, dental, LTD, etc. (3-month waiting period) (50-50 split with employer)
12 month contract with possibility of an extension
If this opportunity is of interest to you please contact Ms. Karen Peters by e-mail at kpeters@goodwinassociates.ca

**UNIVERSITY OF ALBERTA**
Two post-doctoral research positions are available at the University of Alberta. One is with the Victoria Longitudinal Study, a large-scale longitudinal study of health, cognitive, and neurocognitive aging (directed by Roger Dixon). The other is with the Cognitive, Affective, and Clinical Neuroscience Laboratory (directed by Florin Dolcos). Interested candidates may apply to one or both labs. In the latter case, it may be possible to develop creative, complementary, and collaborative training and research opportunities. The two positions are described briefly below, and key links to pertinent websites are listed. Contact either or both directors for further information.

**POST-DOCTORAL POSITION WITH THE VLS,** Department of Psychology: The Victoria Longitudinal Study has been funded continuously by the National Institute on Aging for 17 years. Post-doctoral fellows engage in mutually interesting aging research concerning health, medications, cognition, biomarkers, neurocognitive status, neuropsychological characteristics, and awareness or affect. Longitudinal data collection continues, and the protocol is enhanced regularly. A broad range of classic and new topics are available for postdoctoral research, and numerous VLS collaborators may be available to participate. Contact rdixon@ualberta.ca for further information.

**POST-DOCTORAL POSITION IN THE COGNITIVE, AFFECTIVE, AND CLINICAL NEUROSCIENCE LABORATORY,** Department of Psychiatry and Centre for Neuroscience:
Projects investigating the neural correlates of affective-cognitive interactions, using functional neuroimaging tools, will focus on the following two main directions:
1. Basic Research investigating the neural mechanisms underlying the impact of emotion on cognition in healthy groups. This direction focuses on identifying the mechanisms that are responsible for the enhancing (e.g., enhanced memory for emotional events) and the impairing (e.g., enhanced susceptibility to emotional distraction) effects of emotion on cognitive functions.
2. Translational Research investigating the role of individual differences in mediating the impact of emotion on cognition. This direction focuses on identifying the neural circuitry responsible for differential ability to experience, regulate, and remember emotions associated with age-, gender-, and personality-related differences, in both healthy and clinical cohorts (i.e., mood and anxiety disorders). Contact Dr. Florin Dolcos (fdolcos@duke.edu or fdolcos@ualberta.ca) for further information.
