

A BENEFIT TO SUPPORT BFO-TORONTO

# Enduring Love: Transforming Loss

“Mothers’ experiences of living and transforming  
with the loss of their babies”

**Bereaved Families of Ontario-Toronto**  
**presents...** a film that explores the meaning of  
infant loss as experienced by grieving mothers.

This research-based documentary highlights the common experiences of four mothers after the loss of their babies, including receiving and giving help, the agony of their loss, appreciating the acknowledgement of their child by others, personal growth, the importance of mothering children who grieve and mourn, the abiding presence of their deceased baby, creating touchstones and the acceptance of the death while celebrating a life and the ongoing connections.
