

DOING DATA ANALYSIS

NAME OF SUBJECT

NAME OF RESEARCHER

QUESTIONS TO BE ANSWERED BY THE RESEARCHER

1. List all the changes you can identify from the first to the follow-up survey.

2. As the researcher, interpret these changes, that is, how would you explain the changes.

QUESTIONS TO BE ANSWERED BY THE SUBJECT

3. As the subject, did the researcher miss any important changes? If so, what?

How would you explain these changes?

4. As the subject, what is your most interesting insight about your skills from looking at the two surveys?

5. Any comment about research based on qualitative surveys?
