

Here is our draft agenda, and a few asks re: feedback, a brief survey on Census statistical tables, and three reminders.

Our Face to Face (FTF) December 6th meeting at Ryerson is fast approaching. As you will recall from last December, we have enough for a full day FTF this year! Please take a look at the draft agenda below and send your comments to me by this Friday morning, Nov. 25th. Please let me know what you think of the draft agenda, additional topics, and your preferences for **RDM strategies agenda items**: option 1 – specific topics, see 14,a and 14,b, or option 2 – a broad discussion, see 14,c?

Please complete the eight (8) question survey: <http://fluidsurveys.com/s/CensusTables/> on **Finding and using Census Tables: (born–print and born–digital) ... the best of, gaps, and members' projects and interests?** The deadline is Wednesday, November 30th. Thank you, this will provide valuable direction for agenda item 7 below.

Just three reminders as soon as possible to please:

[Register here](#) as soon as possible, if you have not done so. This is very important to us in order that Kevin can provide adequate meeting space at Ryerson for our Community.

[Send in your round table \(site\) report](#). Your information will be very helpful for information sharing and to help with our Community's reporting to OCUL. As Michael mentioned, A) this might include collection and description, outreach, reference and instruction, RDM, etc., and B) We will also assess the merits of this activity and (1) whether we should do so again in the future, and, (2) if information collected in this exercise should be shared outside of the face-to-face meeting. No information will be circulated beyond ODC before then.

Confirm your preference for a booked lunch location, versus lunch on your own?

Thank you to all who support our meeting facilities, registration and coordinating our site reports.

DRAFT AGENDA, ODC Face to Face meeting, December 6th, 9:00 – 4:45, Ryerson University

1. **Welcome and Introductions** (10 minutes)
