

<b>Faculty of Health</b> <b>Faculty Council Meeting</b> <b>March 6, 2013</b> <b>3:00-4:30pm</b> <b>Senate Chamber</b>	
<b>Agenda Item</b>	<b>Notes</b>
Strategic Research Plan –Draft	<p>VPRI Rob Haché welcomed Faculty members. Indicated that the draft SRP has been circulated to the Faculty and invites comments and discussion. Highlighted that have received input and feedback from the Faculty of Health throughout the consultation process and via senior administration and SRP Advisory Committee members from the Faculty, and feels it is reflected in the draft. Reminded Council members that there is a strong commitment to build and invest in our existing research strengths. Within the Plan we have tried to reflect the broad range of health research that goes on both within the Faculty and the significant health research that is conducted outside the Faculty, much of the research being greatly cross-disciplinary. The Plan will be implemented through collegial discussion with Faculties on a continuing basis. R. Haché encouraged Faculties and Units to set expectations for their response to the SRP objectives, and continue to measure progress in research development against the objectives. VPRI, through the suite of research supports, will empower Faculties and Units to respond to the areas for opportunity for the future development of research. Encouraged that Faculty of Health is embarking on a new strategic planning exercise and looks forward to working together to align priorities going forward.</p> <p><u>Comments &amp; Clarifications from Faculty of Health:</u></p> <ul style="list-style-type: none"> <li>-Inquired about how Plan will unfold over the lifespan</li> <li>-Clarified that the objectives contained within the Plan range from short term to longer term</li> <li>-Agreed that broad range of research conducted at York, considerable amounts outside of the Faculty of Health, as the plan represent much interdisciplinary health research appreciated that many health researchers will also see their work represented within other themes and opportunities.</li> <li>-Clarified that we have tried to present an interconnectivity to the research presented</li> </ul> <p>-R. Haché thanked Council for comments and encouraged further feedback to:  <a href="mailto:barbb@yorku.ca">barbb@yorku.ca</a></p>
