

The TIEDI Exchange Forum

Wednesday, June 23rd 2010
Location: York University, Room TBA

Morning session:

Exchange Forum
9:30 a.m. – 12:00 p.m.

The half-day discussion forum will feature three items on the agenda:

- 1) Two of TIEDI's analytical reports will be discussed by the lead authors of the reports, along with reflections from users.
- 2) Different formats for presenting TIEDI's output will be presented for discussion to determine what serves best our partner's needs.
- 3) We will discuss future directions for TIEDI over the coming year to determine how it can best assist community partners.

(Note: we define our partners as any not-for-profit organization that seeks the better integration of immigrants into the workforce of the Greater Toronto Area. This includes community and labour organizations, service agencies, regulators, governments, and employer associations).

To register, please contact Maryse Lemoine at mlemoine@yorku.ca or fill out the form available at: <http://www.yorku.ca/tiedi/doc/EF2010registration.doc>

Afternoon sessions:

Workshop
1:00 p.m. – 3:00 p.m.

This workshop will collect the mapping needs of organizations, focusing on immigration and labour data.

Data will then be mapped at the level of the Toronto Census Metropolitan Area (an area similar to the GTA) and distributed as fact sheets.

Training
1:00 p.m. – 4:00 p.m.

The session will be provided by Peter Pathinather from Statistics Canada and is organized in collaboration with CERIS – The Ontario Metropolis Centre.

This training will show how to find Census data on the Statistics Canada website, focusing on navigating the website. The training will be a demonstration with a few hands-on exercises.

It will also include a 30 minutes optional introduction to the Beyond 20/20 software.
