* as of March 26, 2008

Did you know?

“ 78% of all first-year students received renewable scholarships, awards or bursaries in Fall 2007. ”

Summer School

Students attending summer school are encouraged to submit midterm grades to the Office of the Registrar as soon as they are available.

Community Service Hours

Students are encouraged to complete their community service hours by the end of the last day of secondary school classes.

Calculation of Secondary Averages

All programs require a minimum admission average which may change, depending on the number of applicants. A second average is considered for students applying to the following programs:

- Computer Science – average of math courses (70%).
- Nursing – average of chemistry and biology (75%).
- Engineering – average of all science and math courses except biology (74%).
- Science – average of all attempted science and math courses excluding data management (70%).
- Forensics – average of all required science and math courses (70%).

January Admissions

The university will make offers of admission for students wishing to begin studies in most, if not all programs, based on space availability.

Upgrading of Courses

The highest grade is used in the calculation. Students who have completed their secondary school diploma and choose to upgrade courses following their diploma and apply for admission to the following fall entrance semester with the University of Windsor will still be eligible for automatic entrance awards. Students who have completed their secondary school diploma and are away from school for the fall and winter semesters will not be eligible for entrance awards.

Admission Update for IB Students

The University of Windsor may grant advanced standing for students who enter the university with an International Baccalaureate diploma. For admission to first year: Full diploma must be completed with passes in six subjects with at least three at the Higher Level and with a grade total of at least 24 and no mark less than 4. In addition, the candidates must meet the prerequisites specific to the faculty to which they are seeking admission. For transfer credit: IBD applicants who have successfully completed the full diploma with a grade total of 28 or more (exclusive of additional points which may be awarded for the successful completion of the Extended Essay and Theory of Knowledge) may be granted a general elective course credit, depending on program selection, for each Higher Level subject completed with a score of 5 (80-89%) or better, for a maximum of 4 general elective course credits.

Residence

Residence is guaranteed for all first-year students who have applied and have submitted the \$500 deposit by the deadline of May 28, 2008.

Scholarships & Awards

Entrance Scholarship Program

75% - 100%	Renewable Residence Award of \$4,000 (\$500 x 8 terms)

Outstanding Scholars Award

85% - 89.9%	\$6,000 Outstanding Scholars Award \$6,000 academic appointment in area of study
90% - 94.9%	\$8,000 Outstanding Scholars Award \$6,000 academic appointment in area of study
95% - 100%	\$10,000 Outstanding Scholars Award \$6,000 academic appointment in area of study

Students need to maintain an 11.0 average to retain their scholarships.

The University of Windsor offers an entrance award program to students entering directly from Canadian high schools. Some of these awards recognize academic achievement and/or extracurricular involvement, and some assist students with financial need. No matter what the student's academic interests are, he/she will automatically be considered for our entrance scholarship program when applying to the University of Windsor. Offers will be based on the average of his/her best six final and mid-term grades available in May, using Grade 12 U/M courses.

There are also many competition awards that students may apply for, as well as the Community Scholars Award and Entrance Bursary. For additional details, check out our on-line award search at www.uwindsor.ca/sis (log on with student ID and PAC, or as a "Guest").

Students may consider majoring in or combining his/her major with one of the following Outstanding Scholars Program areas of study:

- Bachelor of Arts & Science Program
- Chemistry
- Classics
- Computer Science
- Earth Sciences
- Economics
- Engineering
- Environmental Studies
- French
- Labour Studies
- Mathematics and Statistics
- Modern Languages
- Music
- Philosophy
- Physics
- Women's Studies

Designed for top students with potential to become leaders in their academic fields, this program provides mentoring and the opportunity to work closely with faculty on academic projects, as well as up to \$16,000 in awards and appointments.

For further information on awards, please call the Student Awards Office at (519) 253-3000, ext. 3311, or e-mail award1@uwindsor.ca
