

Herbert Carnegie

The Philosopher

E D U C A T I O N

*"I strive to achieve the depth of the
Carnegie Creed for me, To serve this land
well and ace my possibilities.
So I stretch forth my hand,
To bring you up,
To inspire the courage to claim"*

Dr. Carnegie was a trail blazer. His vision of justice and fair play produced a remarkable code of ethics, the Future ACES Philosophy, also called the Future Aces Creed.

Herb wanted us students to develop the self-awareness and self-confidence that will enable us to take control of our lives and to use our abilities in a positive way. The Future Aces Creed encourages everyone to act responsibly.
