

# Herbert Carnegie

The Philosopher

## “My Future is Now”

Herb first wrote the Future Aces Creed for himself as a guideline for how he wanted to live his life. He then realized this Creed could help others and, after using the Creed in his hockey school, he and his wife Audrey and daughter Bernice introduced it to schools in the Toronto area. He personally spoke at numerous school assemblies and graduations, educating his audience to make positive choices in their lives. Today the Creed touches the lives of thousands of students each year.
