COVID-19 Protocol for Self-disclosure, Screening and Incident Management

Introduction

This protocol provides important updated information and guidance to students, staff, faculty, and managers who are overseeing areas/teams regarding COVID-19 self-disclosure, necessary screening practices and incident management processes.

Screening requirements, and other information such as follow up actions to take in the event that someone becomes symptomatic, are included in the return to campus training, which all staff and faculty members are required to complete before returning to or working on campus. This training is available here. (*Passport York login required.)

York strongly encourages all students, faculty, and staff to download the COVID Alert App available here to further protect yourself and our community.

Screening for Campus Access (Daily)

To protect York’s community members from exposure to COVID-19, the University will have screening processes in place. For additional information on the screening processes, please see Appendix B.

Anyone returning to campus, for any reason (e.g. in person activities, picking up essential items etc.) must complete the screening checklist (Appendix A) every time they come on to campus. Individuals who answer “yes” to any question will not be able to visit our campuses. Students must reach out to OSCR@yorku.ca and York staff/faculty need to advise their manager of their absence and also contact EWB@yorku.ca. Additional information can be found on the YU Better Together site under What You Need to Know.

It is important to note that:

- Screening does not require individuals to submit their checklist to their Manager (Refer to staff/faculty/manager responsibilities for further information.)
- Personal information will not be collected with the tracking of screening answers; if any personal information, including health information, is voluntarily disclosed, it will be treated as confidential and may only be shared with OSCR / HSEWB, if necessary.
- On site in-person screening measures outside of this protocol will be considered only in select areas on an exception basis, using a risk-based approach. In-person screening measures would include non-intrusive, administrative measures, such as requesting the completion of a (non-medical) questionnaire.
The following additional procedures apply to each party at all York campuses and locations:

1. Students
   i. In person activities and accessing campus
      Students coming onto campus for any reason (i.e., in-person labs, pick up items etc.) must complete the screening checklist (Appendix A) each time they visit or attend a campus or York location. The individual leading/organizing the activity must communicate the requirement to students to complete the screening checklist, as stated above.
   
   ii. Students living in residence
      Students scheduled to move into undergraduate residences will be provided a screening checklist prior to moving in for any appropriate arrangements to maintain the health and safety of the live-in community members. Post move in, the mandatory daily screening for students living on campus must be completed every day.
   
   iii. Tenants living in York Apartments
      Tenants scheduled to move into the York Apartments will be provided a screening checklist in advance of the commencement of a lease agreement. Communication will be issued by Housing. If lease holders' answer “yes” to any of the screening questions, mutually agreed arrangements will be made to ensure the health and safety of community members. After moving in, the mandatory daily screening for students living on campus must be completed every day.

2. Staff / Faculty
   Access to campus
   The University’s planning process has identified staff and faculty who are performing essential work and are required to attend campus. Individuals required to attend campus will be asked by their manager (or point person) to complete the screening checklist each day, prior to attending activities on campus. The manager or point person for each department/Faculty will include the screening checklist (Appendix A) in their communications to staff and faculty.
   
   Managers must confirm with all staff/faculty coming on site each day that they have answered ‘no’ to all of the questions. They can either keep a log for their area or request staff/faculty to submit an application for campus access through the Campus Access system and follow instructions for daily screening listed on the page. Records must be kept for 30 days.
   
   If any individual answers “yes” to any questions, they cannot visit our campuses or locations. Staff/faculty must advise their manager of absence and contact EWB@yorku.ca. Additional information can be found on the YU Better together site under What you Need to Know.

3. Visitors, Contractors and Delivery of Goods
   Access to campus is strictly limited. Approved visitors, contractors, and vendors who are permitted to attend York campuses will be notified in advance of their required screening before attending campus activities at York (Appendix A). Letters will be issued by affiliated department(s) to notify of requirements to Contractors/Vendors, as applicable. For visitors,
the York University contact must verify they have completed the screening and have
answered ‘no’ to all screening questions, and must keep record of confirmation for 30 days.

Note: As the COVID-19 situation evolves, what is appropriate for the situation may also change. Contractors/vendors should review and update their health and safety plan regularly in accordance with Health Canada and MLTSD requirements.

Attendance Reporting

Due to the latency period of COVID-19, if an individual tests positive for COVID-19, the local public health unit will ask York to provide information on where the individual has been, as well as the contact information of any others who may have been exposed. York will track this information and Public Health Units will respond and/or provide direction. Below is a set of guidelines:

Note: At this time, Toronto Public Health has suspended contact tracing and limited, contact management. This work is being conducted by OSCR for students and EWB for staff/faculty.

- Managers must keep track of where staff/faculty have worked (i.e. in what buildings/areas on a given date and time). Reception records and sign-in sheets must be kept up-to-date in case any visitors to an area may need to be notified. HSEWB may also need to contact managers for this information to aid Public Health or contact management efforts.
- The Division of Students and Research/Faculties must track academic in-person activities such as in-class lectures, labs, and research activities (e.g. in what buildings/areas on what dates and times).
- Records must include: name, contact information, date, time of arrival/departure, the reason for a campus visit, rooms/areas visited, the completion of screening, etc.
- Attendance records must always be available on-site and may be required by public health / York for contact tracing management purposes, should there be a case of COVID-19 linked to the campus.
- Attendance records must be updated when any individual is absent, including reasons for any unplanned absences, and noting the reason for absence for staff/faculty.
- Records must be retained for at least one month and discarded in a confidential manner.
- Should patterns or trends emerge (e.g., students and staff/faculty in the same group or cohort absent at the same time or over the course of a few days) managers should reach out to ewb@yorku.ca.

Self-disclosure

In response to any self-disclosure by staff, faculty, students, visitors, or contractors, regarding an illness (COVID-19 or otherwise), the following procedures apply:

1. All disclosures of COVID-19 symptoms and/or testing results and/or other personal health information are strictly confidential, with further process details provided throughout this document.
2. Individuals who are experiencing any of the following listed below or who answer “yes” to any of the screening questions must self-isolate immediately, not attend activities on our campuses or locations, and advise their manager of their absence. Students are to contact: OSCR@yorku.ca and staff/faculty must contact: EWB@yorku.ca, their local Public Health unit (TPH 416-338-7600), Telehealth (1 866-797-0000) and/or their primary care provider (for example, family physician), to receive direction on the necessary next steps.
   i. Those who are experiencing symptoms associated with COVID-19 (not related to getting the COVID-19 vaccine
   ii. Who have travelled outside of Canada* in the last 14 days (including the US)
   iii. Who in the last 14 days have had close physical contact with someone who currently has COVID-19. This includes getting a COVID Alert exposure notification.
   iv. Who in the last 14 days, have had close physical contact with someone who is currently sick with a new cough, fever, difficulty breathing, or other symptoms associated with COVID-19.

*Note: Screening questions will be adjusted per Provincial Public Health guidelines, such as interprovincial travel restrictions and vaccination updates.

3. If the situation warrants, a local public health unit will reach out to York through Health Education & Promotion in the Division of Students and/or Health, Safety and Employee Well-being (HSEWB) for staff/faculty, with further direction. Such directions may include a request for information to enable local the public health unit to complete their investigation. The Local public health unit will also provide necessary instructions directly to individuals if required (i.e., self-isolation, self-monitoring, etc.).

4. If local a public health unit determines that there is a risk to the community, they will work with York directly through the designated department(s), including the release of any communications to the community. Community-based communications are recommended to only take place under the guidance of the local public health unit, OSCR / HSEWB.

5. If there is no assessed risk, a local public health unit will not be in communication with York as per their privacy protocols set forth by the Personal Health Information Protection Act, 2004 (PHIPA).

6. All community members are responsible to keep up-to-date with government and public health advisories and community messages to ensure that they have the most current information.

7. Should anyone choose to disclose that they have tested positive for COVID-19, those individuals should be told to:
   i. Self-isolate, if not already doing so and not to come to our campuses until they are cleared by OSCR / EWB.
   ii. Contact their local public health unit if they have not already been contacted by them directly. Their public health unit will provide them with instructions on public health measures and actions to be taken if required. Public health provides daily contact for symptom monitoring, to assess for symptoms resolution, or to assess for progression of illness. All positive cases are followed until cleared to discontinue isolation. Note: OSCR / EWB will be providing limited case and contact

Page 4 of 14
Revision July 2021
management for the York community due to the current suspension of contact tracing by Toronto Public Health.

iii. Contact your Manager / EWB / OSCR regarding appropriate accommodation, information, and health and wellness resources.

8. Any record of disclosure should only be kept in the appropriate offices (e.g. Division of students/HSEWB) and not circulated/shared elsewhere.

9. In the event that an individual who has received an exposure notification alert on the Health Canada COVID Alert App, they should be directed to contact their local public health unit (TPH 416-338-7600), follow their directions, seek testing and self-isolate, according to the Covid-19 self isolation class order, regardless of test results.

   i. If the individual tests positive they must self-isolate and follow the direction of public health.

   ii. If the individual receives a negative test result, they must self-isolate, according to the Covid-19 self isolation class order.

10. We rely on each other to play an active role in reducing the spread of Covid-19 by following the latest public health guidance, including requirements to stay home and self-isolate if you are sick, stay two metres apart, wear a mask or face covering in indoor spaces, wash your hands and self-monitor for symptoms.

Additional protocols must be followed by the parties below:

**Staff and Faculty Disclosure - Manager Responsibilities**

i. If a voluntary disclosure is made, the manager is to instruct the individual to follow the direction outlined in the Self-Disclosure section of this document.

ii. Where staff/faculty members test positive for COVID-19, there is no obligation to report this information to the Manager; however, if staff/faculty are working on campus they are required to report any hazards that pose a risk to the health and safety of others in the workplace. Any questions about fitness to return to work should be directed to EWB’s confidential email EWB@yorku.ca.

iii. Managers are to treat any disclosure as strictly confidential and advise the individual to stay home (or go home).

iv. Due to the sensitivity of information surrounding such disclosures, managers (including Faculty) are not to share the disclosure within their work areas (as directed in Community Update #18). Notifying other employees of self disclosures (or possible exposures) without the direction and guidance of local public health units/ EWB, does not fall within a department’s scope of responsibility. Doing so can increase confusion, sharing of misinformation, risk for misguidance, breach of privacy, and decreased levels of trust between York, health authorities and impacted individual(s).

v. Managers are required to provide available accommodation (advice may be sought from EWB) and/or direct employees to Health, Safety and Well-Being (HSEWB) via email at ewb@yorku.ca for further advice as it relates to workplace health, safety and accommodation, and return to work.
Student Disclosure - Faculty Administrative Staff or Instructor Responsibilities

i. Any disclosure made to Faculty administrative staff or instructor is voluntary. If a voluntary disclosure is made, the student should be instructed to follow the direction provided in the self-disclosure protocol outlined above. Such disclosures are to be treated as strictly confidential and the individual should be advised to stay in their residence or stay at home.
   a. Self-isolate, if not already doing so and not to come to our campuses until cleared by their local public health unit
   b. Contact OSCR@yorku.ca and their local public health unit if they have not already been contacted by them directly.

ii. Provide individuals with the appropriate course information, accommodation provisions, and health and wellness resources. Disclosures are not to be circulated or shared.

Visitor and Contractor Disclosures

i. If a contractor or vendor makes a disclosure, it shall be treated as strictly confidential. The individual who receives the disclosure will provide the name and business information to Health, Safety and Employee Well-Being, who will follow up with the contractor/vendor and contact Public Health for direction as needed. If the contractor/vendor has had close contact with individuals in the York Community, EWB and/or OSCR will contact manage. Incident management protocols as outlined in the coming section will be followed as applicable to the circumstances.

Additional Protocols for Live-In Community Members

All community members living on campus must self-disclose the following:

i. Those who are experiencing symptoms associated with COVID-19 (not related to getting the COVID-19 vaccine)

ii. Who have travelled outside of Canada* in the last 14 days (including the US)

iii. Who in the last 14 days have had close physical contact with someone who currently has COVID-19. This includes getting a COVID Alert exposure notification.

iv. Who in the last 14 days, have had close physical contact with someone who is currently sick with a new cough, fever, difficulty breathing, or other symptoms associated with COVID-19.

*Note: Screening questions will be adjusted per Provincial Public Health guidelines, such as interprovincial travel restrictions and vaccination updates.

Students and residence employees who reside in undergraduate residence buildings have shared washrooms and therefore cannot completely self-isolate without additional services and supports. In these circumstances, York will facilitate the necessary supports and services to meet self-isolation requirements where they arise in such buildings.
To that end, the following additional protocols are followed:

1. The Office of Student Community Relations (OSCR) is the point of contact for any live-in community members that self-disclose. Individuals will also be advised to contact Toronto Public Health for instructions on next steps.

2. OSCR will provide a personal point of contact and support to live-in community members in self-isolation. Access to this information will be limited to OSCR. Any action required to be taken will be provided to respective units on a need-to-know basis (e.g. food services, housing, custodial services, security), while limiting any personal information and health information shared.

Incident Management

Public Health and Contact Tracing

The responsibility for contact tracing for reportable communicable diseases normally falls to local public health units. To combat the spread of COVID-19, public health traces those persons who have had “close contact” with a person who has tested positive for the virus. The criteria for close or direct contact varies slightly by jurisdiction, but York University follows definitions established by Toronto Public Health.

Where cases may exceed the Toronto Public Health unit’s capacity to conduct contact tracing, it may be suspended. If/when contact tracing is not conducted by the public health unit, York’s EWB and Division of Students implements limited case and contact management processes (for students, staff and faculty who have been on campus) to protect and promote the health and safety of our community members. This is conducted by completing a risk assessment and taking measures to protect confidentiality when contacting individuals. Staff/faculty who have concerns about possible exposures, or have had a positive test result, should contact Employee Well-Being, and students who have concerns about possible exposures, or have had a positive test result should contact the Division of Students and Research/Faculties.

Campus Incidents

With a focus on health and safety measures to prevent the spread of COVID-19 on campuses and other York locations, the University will take strict precautions (universal practices) related to an incident involving any individual (e.g., staff, student, contractor, visitor). In this case, it means that an individual with COVID-19 like symptoms will be treated as potentially having COVID-19.

If any individual presents with COVID-19 like symptoms while in a York facility, the following steps will be taken:

1. Confirm the well-being of any individual by ensuring they:
   - Keep a minimum distance of 2 meters from others, if possible
• If the individual is very ill and requires urgent care, call 911 and then call Security for assistance at ext. 33333 or directly at 416–736–5333.
• If they do not require urgent care, ensure they are wearing a mask/face covering, direct them to What You Need to Know on the YUBetterTogether website to learn more about the next steps, including contacting public health for advice regarding getting tested. Tell them to go home immediately using some form of private transportation (i.e., own transportation, individual ride sharing services). This information should be noted as listed in the Attendance Reporting section above.
• If the symptomatic individual cannot go home immediately, separate them from others in a designated room until they can leave, and:
  • Gather contact information from any individuals who assisted with the incident
  • Ensure physical distancing can be maintained in rooms
  • Ask individual(s) and staff attending to them to wear masks (if tolerated).
  • Ideally, the designated room should have a handwashing sink. If this is not possible, ensure that alcohol-based hand sanitizer (70-90% alcohol concentration) is widely available in these areas.
  • Provide tissues to the symptomatic individual to help support respiratory etiquette.
  • Ensure these individuals have access to designated washrooms separate from other staff/students.
  • If possible, open outside doors and windows to increase air circulation in the area.
  • Ask if the individual requires assistance. If so, call Security at ext. 33333 or directly at 416-736-5333
  • Consider the number of responders necessary, by asking:
    o Do you need to be there?
    o Is this respectful to the individual (e.g. privacy considerations)?
    o Follow the above steps if person cannot proceed home immediately.

• Contain/limit access to the area where possible and supervise the individual until they can go home, to their residence or when first responders are on site.
• Avoid direct contact with the individual (e.g. touching, standing close), by stand beside the person, not across from them
• Avoid passing items; if necessary, disinfect any objects passed between yourself and ill individual and avoid touching your face
• Wash hands thoroughly afterwards
• If any exposure to bodily fluids, wash exposed area(s) with soap and water, and launder your clothing when you get home. If your clothing is soiled, speak to your manager about what to do
• Advise and follow the instructions of first responders on site (e.g. EMS, York Security) and, where applicable, Public Health
• Contact Facilities Services at ext. 22401 to perform cleaning and disinfection of the area after individuals have left for academic buildings. For all other areas, continue to follow existing processes.

Additional Steps for On-Campus Exposure/Workplace Incidents:
• Staff and faculty members should not, under any circumstances, attend campus or other York location if the answers to any of the screening questions were ‘yes’. Staff/faculty must advise their manager of absence and contact EWB@yorku.ca. Additional information can be found on the YU Better together site under What you Need to Know.
• Should an employee become ill when on campus, their manager must notify EWB@yorku.ca In addition, for staff/faculty:
  o If a staff/faculty member tests positive and claims COVID-19 was acquired in the course of their duties, the workplace incident investigation and reporting process (WIR) is to be initiated, including WIR completion.
  o EWB will initiate contact and case management. Should the case be determined to be workplace transmission, EWB will report to Workplace Safety and Insurance Board (WSIB) and HSEWB will report it to Toronto Public Health and the Ministry of Labour, Skills, Training and Development (MLTSD), as required.

Process for Live-in Community Incidents:
• Students reporting to not pass screening must be instructed to self-isolate in their room until supports have been activated.
• The Office of Student Community Relations (OSCR) is to be contacted as an immediate student touch point for further assessment and direction.
• If students are not in a fully contained residence (e.g. a single dwelling, private bathroom), OSCR is to arrange for their relocation to a designated self-isolation site.
• Students and those assisting must be masked during the relocation effort.
• Applicable environmental cleaning and sanitation is to be activated (e.g. assigned washroom utilities, shared/common spaces.)
• Food services and waste removal is to be activated while students are in self-isolation.
• If public health advises the student to be tested, coordination of transportation will be required if the individual does not have access to a private vehicle. The transportation protocol is to be followed in this instance.
• York will provide the necessary information to Toronto Public Health.

Additional Information
For further clarification on the Protocol, review the FAQ on Self Disclosure, Screening and Incident Management Protocol. For an overview of the contact management process, please see Appendix C for staff/faculty. For students, visit YU Better Together https://yubettertogether.info.yorku.ca/covid-19-case-status/
Appendix A: COVID-19 Screening Checklist

This checklist provides basic information only. It is not intended to take the place of medical advice, diagnosis, or treatment.

As you know, the COVID-19 situation continues to evolve quickly. Given this situation, we are screening for potential risks of COVID-19 with everyone who may be entering our campuses to ensure the safety and well-being of our community.

Screening questions

1. Do you have any of the following symptoms? If symptoms of a mild headache, tiredness, sore muscles or joints occur within 48 hours after getting a vaccine, select “No” and continue to wear a mask or face covering, or PPE as required, when at work. If your symptoms last longer than 48 hours or worsen, stay home, self-isolate and get tested. Choose any or all symptoms that are new, worsening, and not related to other known causes or conditions:

   - Fever (feeling hot to the touch, having a temperature of 37.8 degrees Celsius/100.4 Degrees Fahrenheit or higher)
   - Chill
   - New onset of cough
   - Worsening chronic cough
   - Croup (barking cough)
   - Shortness of breath
   - Difficulty breathing
   - Difficulty swallowing
   - Sore throat
   - Headache that is unusual or long lasting (not related to getting a COVID-19 vaccine in the last 48 hours)
   - Decrease or loss of sense of taste or smell
   - Unexplained fatigue/malaise (not related to getting a COVID-19 vaccine in the last 48 hours)
   - Muscle aches/joint pain (not related to getting a COVID-19 vaccine in the last 48 hours)
   - Nausea/vomiting, diarrhea, abdominal pain
   - Runny nose/nasal congestion without other known cause
   - Pink eye (conjunctivitis)
   - Falling down often

□ Yes
□ No

2. Have you traveled outside Canada within the last 14 days AND been advised to quarantine per the federal quarantine requirements?* (If exempt from federal quarantine requirements, select “No.”)

□ Yes
□ No
3. In the last 14 days, have you been in close physical contact** with someone who currently has COVID-19? This includes getting a COVID-19 Alert exposure notification.
- Yes
- No

4. Has a doctor, health care provider (i.e., Telehealth), or public health told you that you should currently be isolating (staying at home)?
- Yes
- No

If you have answered YES to any one of the questions, you are not to attend activities at any of York University’s campuses/locations. Refer to ‘What you need to know’ on YU Better Together for the next steps.

If you have answered NO to all questions and confirmed with your manager through established processes (e.g., Campus Access), you have passed the screening and can enter the campus/location. Note: If you are observed displaying any Covid-19 related symptoms after being granted access, you will be **required** to leave immediately.

**While on campus, you are expected to:**
- Maintain a physical distance of 2 metres from others,
- Practice frequent hand hygiene, and
- Practice respiratory etiquette by coughing and sneezing into your sleeve
- Wear a mask or face covering in all enclosed spaces
- Wear eye protection (e.g., face shield) in addition to a mask or face covering if within 2 meters of someone else.

*If you travelled outside Canada in the last 14 DAYS:*
- You should stay home and self-isolate for 14 days, even if you test negative. Your household members should stay home except for essential reasons while you are self-isolating.
- If you are exempted from federal quarantine as per Group Exemptions, Quarantine Requirements under the Quarantine Act, you do not need to isolate and your household does not need to stay home.
- If you have symptoms, even if you are exempted from federal quarantine, you should get tested and your household members should self-isolate until your test is negative.

Close physical contact**
You may be considered a close contact if:
- You were within two metres/six feet of a person who is positive for COVID-19, with or without a mask, for approximately 15 minutes or more (or brief interactions adding to 15 minutes or more), OR
• You had direct contact with a person who is positive for COVID-19 while they coughed or sneezed, OR
• You live in the same home as someone who has COVID-19, OR
• You are working in Healthcare (e.g. Nurse), providing care to the individual without wearing the appropriate personal protective equipment, OR
  You received a notification on the COVID Alert app that you may have been exposed to a positive Covid-19 case

APPENDIX B: Screening for Campus Access (daily)

To protect York’s community members from exposure to COVID-19, the University will be following both passive and active screening processes. For example:

• **Passive screening**: includes notices and instructions on the website and posted signage.
  o **Notice on website(s)**: York’s website(s) will include a notice to visitors that they are not to attend our campuses/York locations if they answer positively on with respect to any of the criteria listed in the Screening Checklist (Appendix A).
  o **Door entrances**: All campus entry points will have appropriate signage posted to reflect screening requirements for individuals to access campuses.

• **Active screening**: screening which is done through a form of outreach and includes communicating the screening requirements and screening checklist directly to individuals.
Appendix C: York University COVID-19 Staff/Faculty Contact Management Flowchart

York University COVID-19 Staff and Faculty Case Management Process

All members of our community are asked to monitor their health for COVID-19 symptoms and to complete the COVID-19 Screening Checklist every time before coming on campus. Staff and faculty are to confirm with their manager that they have answered ‘no’ to all questions before coming on campus. Staff and faculty who think they may have COVID-19 symptoms should stay home, self-isolate, and complete Ontario’s self assessment tool or contact their local Public Health Authority for next steps. Staff/faculty who have answered ‘yes’ to any of the other questions on the Screening Checklist should refer to YUBetter Together What You Need to Know.

If you have symptoms, have been advised that you are a close contact of someone who has tested positive for COVID-19, or receive a positive test result, immediately contact Employee Well-Being (EWB@yorku.ca). Managers who are notified by a member of their team that they are experiencing COVID-19 symptoms or have tested positive, please advise them not to attend campus and to contact Employee Well-Being. Please notify EWB@yorku.ca that they will be doing so.

ACRONYMS:
OSCR: The Office of Student Community Relations
EWB: Employee Wellbeing
CPR: COVID-19 Planning Response
HR: Human Resources
LR: Labor Relations
EWB contacts relevant individual to provide assistance and identify close contacts. Completes other investigation as required.

EWB communicates with close contacts of relevant individual within 24 hours and provides notification and further guidance, liaising with public health as required.

EWB advises relevant individual's manager of their fitness to work and offers further guidance as required.

EWB informs OSCR, CPR, AVP HR, LR, Director of HSEWB of potential exposure on campus, as required.

HSEWB liaises with department regarding any required sanitization procedures.

EWB provides assistance to the relevant department regarding any required communication.

EWB continues to case manage all COVID-19 cases until staff/faculty cleared to return to work/campus.

EWB communicates with relevant individuals and manager to advise on clearance to return to work/campus.

FS schedules and implements sanitization as needed.
