

Nawang Yanga

Planetary Health Research Assistant

Dahdaleh Institute for Global Health Research 2019/2020

I did...

- Created a database of the prevalence of communicable diseases in major subtropical and tropical nations
- Created a table of climatic variables of diarrheal diseases based on previous literature
- Conducted a literature review on the effect of climate change on diarrheal diseases in Nepal

I learned...

- How important it is to study and understand the impacts of climate change on human health
- How hard it is to do independent research
- To be hopeful about achieving global health equity

I plan to...

- Attend McMaster University to complete my MA in Health and Aging Studies
- Independently study climate change and health
- Further my literature review on the impacts of climate change on diarrheal diseases in Nepal
