Why student services is helpful for students

1

Creates a school community of inclusion, dignity, multicultural awareness and compassion

2

A collaborative support system that helps each student reach their academic and personal potential
3

Students are able to address any needs without fear of discrimination

---

Student services sarisfies the passion and students by helping students find their way through life

"You can always start with Volunteering, Intern or Part time in Student Service on the campus, which helps build social network and accumulate experience"

Student Services

by: Qianyi, Zihan, Kaela, Mirna, Irish

WHAT SERVICES ARE STUDENT SERVICES

Special Education

- works with students with individual education plans (IEP)
- helps those students who have specific learning disabilities
- leads individual and small group instruction

Psychology

- helps perform physiological evaluations
- assist in student placements where appropriate
- help with intervention assistance

Speech and Hearing

- monitor and evaluate students speech and language needs
- provides therapy for students

English as a Second Language

- helping students learn to speak, read and write in English
- work with students privately in their office or in the classroom

Requirements

- No specific education or work background needed
- A degree is necessary
- Master of education and administration
- a good foundation to work in management level
- having student affairs/leader background is vital
- understanding and applying student leadership development theory is important

Skills Required

- Communication skills
- Being an excellent listener
- Being comfortable connecting with different students daily
- Being comfortable with using different types of technologies
- Being able to adapt to the environment quickly
- Being able to work in person and online.

Opportunities & Challenges

- Working with different students and learning about their experiences
- Making a difference in students' lives and leading them to the right path
- Seeing students grow and succeed.
- learning various ways of using technologies.

Challenges:

- The number of students is very large compared to the number of employees in the student services=, which makes it challenging to help all students.
- It is challenging to connect to all students and follow up with them, due to a large number of students.
- working with man staff and building a relationship with them.
