

Career Interviews: Educational Developer

Kalaivani Rajalingam

*EDST 4999- Experience, Inquire, Contribute II:
Inquiry Project with Dr. Popovic*

*Poster posted on the EDST 4999 resource website:
<https://www.yorku.ca/edu/4999/educational-developer-in-he/>*

Introduction

- An opportunity to engage in learning about educational studies in context
- Understanding education in society, specifically by partners in community
- Using all the info to create a helpful resource for prospective high school students/ BA students

Strengths

- Gain insight into various educational roles, specifically, educational developer
- Talking with more than one educational developer to discuss their journey
- Learning real-time advice and tips from community partners

Conducting Interview Experience

Difficulties

- Organizing times that works for the team and for interviewees
- Limited time to conduct interviews with the interviewees

End Result/Lesson Learned

- A poster that explains all the aspects of becoming an educational developer
- Grew our knowledge of different roles, just like educational developer
- Opened our eyes to the perspective of education and the various setting it takes place within society
