

Doors Open Markham

For a second year in a row, Yspace participated in Doors Open Markham, which took place on September 7th, 2019. Doors Open gives the public a chance to explore new spaces that are typically closed to them or charge an admission fee, which is waived during the event.

This year, Yspace showcased its startups, including eight food and beverage vendors that are part of the new food accelerator program, to more than **150** guests that toured the space during the event.
