

# UNITAR

In September 2019, York University, York Region, York Regional Police and the United Nations Institute for Training and Research (UNITAR) signed a memorandum of understanding to work on projects of mutual interest.

York University is planning to sign an agreement with UNITAR to open the first Canadian CIFAL (International Training Centre for Authorities and Leaders) in February 2020. The focus of the CIFAL Centre at York University will be in the following areas: sustainable development goals, diversity and inclusion, health and development and entrepreneurship and economic development.
