**BA Economics** 

"Coming to Glendon was a huge change as I came from a large university campus, but I am very happy I made the switch. I was able to integrate practical learning into my studies with internships and research projects that helped me get experience working with real economic problems in our society. Professors supported me at every stage, and the tight-knit community of students meant I always had someone to talk to. I'll always be grateful to Glendon for how it changed my view on academics and life, but especially that it has set me up for career success!"

### We all need a little help sometimes

Glendon Accessibility, Well-being and Counselling Centre aims to help students develop their personal potential and maximize their university experience. These services include personal counselling, crisis response and support, and accessibility services (including accommodations and alternate exam services)

## English and Linguistics & Language Studies

"Having previously graduated from college, my preference was to stay within a small campus environment. Glendon exceeded my expectations because the smaller classrooms foster connections with professors, who remember my name and engage in meaningful conversations when I ask questions. The familiar faces on campus create a welcoming community, and Frosh week was a fantastic opportunity to make lifelong friends. It makes me feel great about switching gears to pursue a career as an ESL teacher!"

Visit the admission requirements webpage for more details.
