Nursing

Master of Science in Nursing (MScN)

The MScN program's mission is built upon three foci: advanced practice, teaching-learning, and leadership. As a community of teachers and learners, we constantly strive to improve the health and well-being of individuals, families and communities through excellence in research and teaching. We believe in education that is accessible, progressive and offered in different formats, which prepares our students to achieve professional and scholarly excellence.

Details of Degree

- Coursework Only OR Thesis, (5 terms), Part-time available

The Program Believes That:

- All people have the capacity and right to make choices about their ways of living and their health.
- Nursing education should focus on the creative, integrative and expressive forms of caring-healing enacted in nursing practice.
- Nurses have a professional and ethical responsibility to influence, advocate and support healthy public policy and progressive institutional practices.
