YORK UNIVERSITÉ UNIVERSITY

OFFICIAL UNIVERSITY PARTNER
OF THE TORONTO RAPTORS

Amazing things happen when diverse communities work together to create positive change. Together, we are making things right for our communities, our planet and our future.

A place where knowledge is made.

Graduate study is a challenge like no other – inviting you to explore the past, interrogate the present, and create the future. Inevitably, these discoveries bring about new self-discovery along the way. In graduate school, your perception becomes more acute, your judgment both sharper and more balanced. You'll have the opportunity to feed your curiosity, your imagination, your creativity and your collaboration as good ideas and promising thoughts blossom into complex, analytical, original solutions. Across the master's, doctoral, and postdoctoral levels of expertise, York graduate students and postdoctoral fellows specialize in discerning crucial issues and problems, deconstructing their component pieces, and creating novel and necessary solutions. The result is a vibrant and creative community of scholarly conversation, and a home for eager minds. Come and join us!

Land Acknowledgment

York University recognizes that many Indigenous Nations have longstanding relationships with the territories upon which York University campuses are located that precede the establishment of York University. York University acknowledges its presence on the traditional territory of many Indigenous Nations. The area known as Tkaronto has been care taken by the Anishinabek Nation, the Haudenosaunee Confederacy, and the Huron-Wendat. It is now home to many First Nations, Inuit and Métis communities. We acknowledge the current treaty holders, the Mississaugas of the Credit First Nation. This territory is subject of the Dish with One Spoon Wampum Belt Covenant, an agreement to peaceably share and care for the Great Lakes region.

A Space for Everyone

York's campuses foster an environment where innovative thinking thrives and meaningful professional and personal connections are formed. Here, you'll discover a supportive community, a sense of belonging, and spaces—both academic and social—that will become integral to your graduate experience.

"I am interested in the use of non-traditional mediums and unorthodox methods in the visual arts as a display of resilience, act of resistance, and way of learning and empowerment. I plan to use Arts-Based Research with racialized youth in my urban priority neighbourhood to engage with matters of mental health, emotional well-being, and identity."
