The purpose of this course is to provide an overview of the fundamental aspects of human behaviour in groups of various sizes (from dyads to entire cultures). The investigation of human behaviour in group situations will be investigated from theoretical, empirical, and applied perspectives. The topics that will be explored include issues of group development, performance, and leadership. The course is designed to engage students with the material experientially through the integration of small group activities with lectures and audiovisual presentations.

Objectives: Upon completion of this course students will be able to:

- Understand the basic characteristics of groups and their functions
- Explain the role measurement, research design, and theory play in the scientific study of groups.
- Understand the basic assumptions of social identity theory (construction of the self through groups).
- Understand the impact of personal and situational factors on group formation.
- Conceptualize the construct of cohesion, as well as contrast between the theories/models of group development
- Explain how power processes influence individual and group performance.
- Compare and contrast trait, situational, and interactionist approaches to leadership

Prerequisites: AK/AS/SC/PSYC 1010 6.0 with a minimum grade of C

Required text: Forsyth, D.R. (2013). *Group Dynamics (6th edition)*. Belmont, CA: Thomson-Wadsworth. **Additional materials to be determined by the instructor.**

POLICY FOR MISSED TESTS AND EXAMINATIONS

1. The student must contact the instructor or TA in-person or by e-mail within 48 hours of the examination. Be sure to clearly state your name, student number, course, and a number and time at which you can be reached. If you are unable to contact the course instructor or TA before the exam, subsequent documentation accounting for the delay must be provided.

2. Appropriate documentation verifying the circumstances for the missed examination must be provided prior to arranging the MAKE-UP test. Failure to provide appropriate documentation will result in a grade of F on the missed test.
 - A. Tests or examinations missed on the grounds of medical or mental health circumstances must be supported by an **Attending Physician's statement** or a **statement by a Psychologist or Counsellor**. The statement must include: (i) full name, mailing address and telephone number of the physician; (ii) the nature of the illness and its duration (i.e., specific dates covered); and, (iii) indication of whether the illness and/or medication prescribed would have SERIOUSLY affected the student's ability to study and perform over the period in question. Note: The physician's office may be contacted to verify the information provided.
 - B. Tests or examinations missed on the grounds of non-medical circumstances must be supported by appropriate documentation (i.e., death certificates, obituary notice, automobile accident reports, airline/train/bus ticket/receipts with date of booking on ticket, etc.). Airline/train/bus ticket/receipts for emergency travel must indicate destination, departure and return dates.
3. In the case of a make-up test/exam, the student must be prepared to write within the week following the missed test (a date will be set by the instructor). Although the content to be examined will be the same, the format may or may not follow that of the original test/examination. It is the student's responsibility to check with the instructor or TA as to the date/time of the make-up. A conflict in another course during the time of the make-up is not an acceptable reason for missing the make-up. If a student misses a make-up opportunity for good reasons (see points A and B above), then either the prorating option is applied, or a second and final opportunity for a make-up will be arranged. Missed make-ups must be supported by appropriate documentation (see points A and B above). Failure to provide appropriate documentation will result in a grade of F on the missed test.
