

**Faculty of Health
Department of Psychology
HH/PSYC 2022 3.0 Section A
STATISTICAL METHODS II
Fall 2016**

Instructor and T.A. Information

Instructor: Monique Herbert
Office: 332 BSB
Office Phone: 416-736-2100 x77186
Office Hours: In class and by appointment
Email: herbertm@yorku.ca

T.A.	Charles Leger
Email	charlie9@yorku.ca
Office	BSB072L
Office Hours	Thursdays, 2p.m.

Course Prerequisite(s): Course prerequisites are strictly enforced.

- HH/PSYC 2021 3.00 (Statistical Methods I)

Course Prerequisite or corequisite(s):

- HH/PSYC 1010 6.00 (Introduction to Psychology), with a minimum grade of C when used as a prerequisite.

Course website: [Moodle](#) (please sign up for a Moodle account as soon as possible as course materials and announcements will be posted to this site)

Course Description

A continuation of the study of fundamental concepts and techniques of descriptive and inferential statistics. Topics include correlation, regression, analysis of variance and non-parametric statistics.

Learning Outcomes

Upon completion of this course, students should be able to:

1. Compute and interpret univariate inferential statistics.
2. Recognize limits of conclusions based on inferential statistics.

Specific Learning Objectives

1. Demonstrate the ability to generate statistical hypotheses (i.e., null and alternative) that are applicable to various research situations
2. Demonstrate the ability to compute univariate inferential statistics and interpret and present the results for various research situations (i.e., t tests, ANOVAs)
3. Identify limits of conclusions based on inferential statistics (e.g., statistical vs practical significance)

Required Text

Textbook (hard copy):
Statistics for The Behavioral Sciences, 10th Edition
Frederick J. Gravetter & Larry B. Wallnau
ISBN-10: 1305504917
ISBN-13: 9781305504912

Course Requirements and Assessment

Students are required to complete all assignments, tests, and the final exam in order to receive a grade at the end of the course. The final grade for this course will be based on the components listed below. Please be sure to read my policy on late work, missed tests, or exams.

Assessment	Date of Evaluation (if known)	Weighting
Mini Assignments	Weekly	15%
Test#1	Oct 17	15%
Test#2	Nov 21	15%
Assignment#1	Oct 24	15%
Assignment#2	Dec 05	15%
Final Exam (cumulative)	Dec 7 - 22	25%
Total		100%

Description of Assignments

Mini-Assignments: These assignments will focus on course material covered in class on a given week. These will be available during the lecture period (time permitting) or on Moodle after each lecture.

Tests: Tests will be non-cumulative and cover the material from lectures, readings, and in-class activities preceding the test. The format of the tests will be a mix of multiple-choice and open-ended/short answer questions (e.g., defining concepts or responses to analysis questions).

Assignments: Assignments will provide students with the opportunity to apply the statistical concepts to real-world problems, which will facilitate interpretation and presentation of statistical findings to various audiences subsequent to this course.

Final Exam: The final exam will be cumulative and covers all course material.

Grading as per Senate Policy

The grading scheme for the course conforms to the 9-point grading system used in undergraduate programs at York (e.g., A+ = 9, A = 8, B+ = 7, C+ = 5, etc.). Assignments and tests* will bear either a letter grade designation or a corresponding number grade (e.g. A+ = 90 to 100, A = 80 to 90, B+ = 75 to 79, etc.)

(For a full description of York grading system see the York University Undergraduate Calendar - calendars.students.yorku.ca/2016-2017/academic-and-financial-information/academic-services/grades-and-grading-schemes)

Late Work/Missed Tests or Exams

Students with a documented reason for missing a course test, such as illness, compassionate grounds, etc., which is confirmed by supporting documentation (Attending Physician Statement which can be found at: <http://registrar.yorku.ca/pdf/attending-physicians-statement.pdf>) may request accommodation from the Course Instructor. Further extensions or accommodation will require students to submit a formal petition to the Faculty.

Missed Tests: If you miss a test you will need to provide the following in order to have an opportunity to take a make-up test or receive an appropriate accommodation:*

- (a) An email to me (herbertm@yorku.ca) within 48 hours of the missed test outlining the circumstances for missing the test and
- (b) Formal documentation to verify the circumstances for missing the test (e.g., completed Attending Physician's Statement Form - <http://registrar.yorku.ca/pdf/attending-physicians-statement.pdf>)

***Failure to provide the email and appropriate documentation will result in a 0 for any missed tests.**

Upon receipt of the above documentation you will have two options:

- (1) **one opportunity** to take a make-up tests tests (this will be scheduled at a day and time to be announced by the instructor and may take a different form from the original test)** **
OR
- (2) opt to have the weight of the missed test added to your cumulative final exam

****Note: If you miss your make-up tests option 2 will take immediate effect provided the appropriate documentation was received.**

Missed Final Exam: If you miss your final exam please contact me via email (herbertm@yorku.ca) within 48 hours of the missed exam outlining the circumstances for missing the exam and provide formal documentation to verify the circumstances for missing the exam.

Add/Drop Deadlines

For a list of all important dates please refer to: [Important Dates](#)

Important dates	Fall (F)	Year (Y)	Winter (W)
Last date to add a course without permission of instructor (also see Financial Deadlines)	Sept. 21	Sept. 21	Jan. 18
Last date to add a course with permission of instructor (also see Financial Deadlines)	Oct. 5	Oct. 19	Feb. 1
Last date to drop a course without receiving a grade (also see Financial Deadlines)	Nov. 11	Feb. 10	March 10
Course Withdrawal Period (withdraw from a course and receive a "W" on the transcript – see note below)	Nov. 12 - Dec. 5	Feb. 11 - Apr. 5	March 11 - Apr. 5

Information on Plagiarism Detection

Turnitin will be used to detect any evidence of plagiarism.

Electronic Device Policy

Students who wish to use an electronic device (e.g., tablets, laptops) during class time are asked to do so only for course-related purposes. See also policy on use of electronic mobile devices during tests and exams.

Attendance Policy

Students are expected to attend all classes as weekly class activities builds on the previous week's material. In the event that a student is unable to attend a class please send an email to the instructor/TA informing them about your absence either prior to the class or within 48 hours after the missed class.

Academic Integrity for Students

York university takes academic integrity very seriously, please visit [an overview of Academic Integrity at York University](#) from the Office of the Vice-President Academic.

The following links will assist you in gaining a better understanding of academic integrity and point you to resources at York that can help you improve your writing and research skills:

- [Information about the Senate Policy on Academic Honesty](#)
- [Online Tutorial on Academic Integrity](#)
- [Information for Students on Text-Matching Software: Turnitin.com](#)
- [Beware! Says who? A pamphlet on how to avoid plagiarism](#)
- [Resources for students to help improve their writing and research skill](#)

Test Banks:

The use of test banks is not permitted in this course and may be considered a potential breach of academic honesty. This includes but is not limited too; buying or selling test banks.

Electronic Devices During a Test/Examination:

Electronic mobile devices of any kind are not allowed during a test or examination. Students are required to turn off and secure any electronic mobile device in their bag which is to be placed under the chair while a test/exam is in progress. Any student observed with an electronic devise during a test/exam may be reported to the Undergraduate Office for a potential breach of Academic Honesty.

Academic Accommodation for Students with Disabilities:

While all individuals are expected to satisfy the requirements of their program of study and to aspire to do so at a level of excellence, the university recognizes that persons with disabilities may require reasonable accommodation to enable them to do so. The [York University Accessibility Hub](#) is your online stop for accessibility on campus. The [Accessibility Hub](#) provides tools, assistance and resources. Policy Statement

Policy: York University shall make reasonable and appropriate accommodations and adaptations in order to promote the ability of students with disabilities to fulfill the academic requirements of their programs.

The nature and extent of accommodations shall be consistent with and supportive of the integrity of the curriculum and of the academic standards of programs or courses.

Provided that students have given sufficient notice about their accommodation needs, instructors shall take reasonable steps to accommodate these needs in a manner consistent with the guidelines established hereunder.

For Further Information please refer to: [York university academic accommodation for students with disabilities policy](#)

Course Schedule:

<i>Week</i>	<i>Date</i>	<i>Topic</i>	<i>Chapters</i>
1	Sep 12	<i>Review of major statistical concepts</i>	1 - 8
2	Sep 19	<i>Introduction to Analysis of Variance</i>	12
3	Sep 26	<i>Introduction to Analysis of Variance</i>	12
4	Oct 03	<i>Two- Factor Analysis of Variance (Independent Measures)</i>	14
	Oct 10	No Class: Thanksgiving	
5	Oct 17	Test#1 (15%)	
6	Oct 24	<i>Repeated-Measures Analysis of Variance</i> Assignment #1 Due (15%)	13
7	Oct 31	<i>Correlation</i>	15
8	Nov 07	Introduction to Regression	16
	Nov 11	Last date to drop a course without receiving a grade	
9	Nov 14	Introduction to Regression	16
10	Nov 21	Test#2 (15%)	
11	Nov 28	<i>Biomial Test</i> <i>Techniques for Ordinal Data (Overview)</i> Assignment #2 Due (15%)	17 Appendix E
12	Dec 05	<i>Overall Course Review (prep for cumulative final)</i>	
	Dec 7-22	Fall Exam (cumulative) – 25%
