Course Prerequisite(s): Course prerequisites are strictly enforced
HH/PSYC 1010 6.00 (Introduction to Psychology), with a minimum grade of C.

Psychology Undergraduate Office
Phone: 416-736-5117
Psychology Website: www.psych.yorku.ca

Course Credit Exclusions
Please refer to York Courses Website for a listing of any course credit exclusions. It is the student’s responsibility to be aware of any course credit exclusions. Please be sure to check the Psychology program requirements and/or consult with either the Undergraduate Psychology Department or an academic advisor.

Course Description
This course will introduce students to physical, cognitive, social and emotional development from infancy through adolescence. Discussions will include theory and research in developmental psychology, with an emphasis on how these are applied in the real world.

Learning Outcomes
Upon completion of this course, students should be able to:

1. Demonstrate broad knowledge of psycho-social determinants of development.
2. Describe and evaluate current theory and research in developmental psychology.
3. Understand and interpret principles of developmental psychology in everyday life.
4. Define causes of human development from different perspectives.
Specific Learning Objectives
1. Students will gain knowledge of the different factors (e.g., cultural, biological, cognitive, social and emotional) that impact human development.
2. Students will develop an understanding of how developmental theories may be applied in the real world (e.g., therapeutic interventions).
3. Students will gain awareness of the strengths and limitations in developmental psychology research, as well as reflect on directions for future research and interventions.

Required Text

Please note that the textbook can be purchased in one of three ways:
1. Looseleaf text plus Launchpad (including e-book).
2. Launchpad only with e-book.

*All course information (including announcements and Powerpoints of lectures) will be posted on eClass

Please note that the quizzes are through Launchpad, and you must register using the following link: https://www.macmillanhighered.com/launchpad/siegler6ecanadian/19464573#/launchpad

You must register for Launchpad with your York University email address and ID.

Important Class Culture, Expectations
While not expected whatsoever, some students may choose to disclose personal information during discussions. As well, students may have differing points of view on any given topic. Thus, my expectation is that you show respect for each member of the class by listening to different perspectives in a non-judgmental and open-minded manner.

Final note, please connect with myself or your TA as early as possible if you have any concerns or difficulties so that we may be able to address these in a timely manner and we can help you succeed.

Description of Assignments

Tests and Exam

*Midterm Test 1:* This is an objective test consisting of multiple choice questions. The test will cover information from the assigned text chapters and the lectures.

*Midterm Test 2:* This test will be similar in format to the first test. It will examine material covered after the first test and will not overlap in content.

*Final exam:* This will also include multiple choice and short answer questions and will be based on the material covered over the entire course. The answers will require more detailed understanding of the concepts than those on the first test.

Reflection Papers

Students are to write two reflection papers (2-3 pages double spaced) that are based on connecting a developmental psychology topic discussed in class/within the text to a current societal issue/concern. Here are some examples (though you are welcome to come up with your own topics as well!):

- Impact of the COVID-19 pandemic on the family dynamics and socioeconomic status
- Assessing intelligence and academic achievement after the COVID-19 pandemic
- Virtual versus in-person learning and how these experiences may impact children’s socio-emotional development
- How the Ukraine war may impact children’s development
- Gender development and current societal understanding/acceptance of LGBTQ
- Impact of air pollution on child neurological development

A good way to work on these reflection papers is to start with a clear and concise topic of interest which has sufficient material from the text to guide your reflection. Students are evaluated based on the following:

A. Accurately summarize the material from the textbook/lectures that is relevant to your topic. While students may choose to use external material (e.g., current news articles), it is expected that this material is cited within the text and a full reference is included at the end of the paper.
B. The paper shows good reflection and integration of the material. Students show a good understanding of how the chosen developmental topic may be linked and applied within the current events.

**Weekly On-line Quiz (Launchpad)**
Each week a quiz will be released on Wednesdays at 2:30pm (following our class). The weekly quiz will assess the chapters covered in class and must be completed before the following Monday at 11:30am (start of our class).

Students are given 2 attempts to complete a quiz for the particular chapters/week. Each quiz will comprise of about 30 questions. There are 6 quizzes total (1 for each week’s chapters covered), and the best 5 quizzes are chosen to count toward your grade. Quizzes are open book.

**Grading as per Senate Policy**
The grading scheme for the course conforms to the 9-point grading system used in undergraduate programs at York (e.g., A+ = 9, A = 8, B+ = 7, C+ = 5, etc.). Assignments and tests* will bear either a letter grade designation or a corresponding number grade (e.g. A+ = 90 to 100, A = 80 to 89, B+ = 75 to 79, etc.)
For a full description of York grading system see the York University Undergraduate Calendar – [Grading Scheme for 2021-22](#).

**Missed Tests/Midterm Exams/Late Assignment**
For any missed quiz or late assignment, students MUST complete the following online form which will be received and reviewed in the Psychology undergraduate office. At this time, due to COVID-19 an Attending Physician’s Statement (APS) is not required, however, a reason for missing an evaluated component in the course must be provided.
[HH PSYC: Missed Tests/Exams Form](#). Failure to complete the form within 48 hours of the original deadline will result in a grade of zero for the missed quiz or late assignment.

**Academic Integrity for Students**
York University takes academic integrity very seriously; please familiarize yourself with Information about the [Senate Policy on Academic Honesty](#).

It is recommended that you review Academic Integrity by completing the Academic Integrity Tutorial and Academic Honesty Quiz.

**Academic Accommodation for Students with Disabilities**
While all individuals are expected to satisfy the requirements of their program of study and to aspire to do so at a level of excellence, the university recognizes that persons with disabilities may require reasonable accommodation to enable them to do so. The university encourages students with disabilities to register with [Student Accessibility Services (SAS)](#) to discuss their accommodation needs as early as possible in the term to establish the recommended academic accommodations that will be communicated to Course Directors as necessary. **Please let myself and your TA know as early as possible in the term if you anticipate requiring academic accommodation so that we can discuss how to consider your accommodation needs within the context of this course. Remember, I am here to help and will do my best to create a supportive atmosphere that enables all of us to learn in our own ways.**

Excerpt from Senate Policy on Academic Accommodation for Students with Disabilities

1. Pursuant to its commitment to sustaining an inclusive, equitable community in which all members are treated with respect and dignity, and consistent with applicable accessibility legislation, York University shall make reasonable and appropriate
accommodations in order to promote the ability of students with disabilities to fulfill the academic requirements of their programs. This policy aims to eliminate systemic barriers to participation in academic activities by students with disabilities.

All students are expected to satisfy the essential learning outcomes of courses. Accommodations shall be consistent with, support and preserve the academic integrity of the curriculum and the academic standards of courses and programs. For further information please refer to: York University Academic Accommodation for Students with Disabilities Policy.

Student Campus Resources Learning Skills Services
Calumet and Stong Colleges aim to support the success of Faculty of Health students through a variety of free programs throughout their university career:

- **Orientation** helps new students transition into university, discover campus resources, and establish social and academic networks.
- **Peer Mentoring** connects well-trained upper-year students with first year and transfer students to help them transition into university.
- **Course Representative Program** aims to build the leadership skills of its Course Reps while contributing to the academic success and resourcefulness of students in various Faculty of Health classes.
- **Peer Assisted Study Sessions (P.A.S.S.)** involve upper-level academically successful and well-trained students who facilitate study sessions in courses that are known to be historically challenging.
- **Peer Tutoring** offers one-on-one academic support by trained Peer Tutors.
- Calumet and Stong Colleges also support students’ Health & Wellness, leadership and professional skills development, student/community engagement and wellbeing, career exploration, Indigenous Circle, awards and recognition, and provide opportunities for students to work and/or volunteer.
- For additional resources/information about our student success programs, please visit the Calumet College website, email scchelp@yorku.ca, and/or follow on Instagram and Facebook.

Mental Health
This pandemic aside, being a university student, you may experience a range of mental health challenges that may get in the way of your personal and academic goals. Here are some important resources that may help guide you to mental health support through York University and beyond:

- Student Counselling & Development: York’s campus mental health services: https://counselling.students.yorku.ca/
- Good2Talk: https://good2talk.ca/
- Wellness Together: https://www.wellnesstogether.ca/en-CA
- Toronto Distress Centre: http://www.dcopt.com/
- For a list of crisis support services and distress lines: https://www.camh.ca/en/health-info/crisis-resources
