Course Description

This course enhances students' professionalism and communication skills through teaching, class discussion, assignments and reflective learning experiences. Students will reflect upon and learn to manage their own learning as well as become socialized into the norms, customs and ideologies of academic psychology – preparing them to develop identities as graduate students. Students will develop the capacity to present themselves in a competent and professional manner in interviews, graduate school applications, personal statements and in formal academic contexts. Students will discuss CPA and APA ethic statements and develop professional integrity. Student will learn and practice various forms of communication within academic psychology such as: oral presentations, written journal articles, academic posters and fellowship applications.

Students will develop their knowledge, skills, critical thinking and self-reflection through oral presentations, writing, reflection papers, and peer mentoring/feedback. In addition, students will be taught about how to secure positions within research labs and more general networking skills and academic professionalism.

This course will involve 1) an experiential education research placement (working in a research lab) and 2) opportunities to serve as a writing coach to more junior undergraduate students within the department of psychology in addition to 3) regular class time (2-3 hours/week for 12 weeks over the course of the fall and winter terms). The goal of the research placement is to offer an additional professional developmental and

experiential education opportunity to students in the specialized honours stream. Students will be provided with guidance on how to secure a research placement opportunity, and will be strongly encouraged to secure a research placement with a full-time faculty member in the Department of Psychology with whom they may ultimately want to pursue their thesis. This will provide students with the opportunity to apply the professional skills that they have been developing through this course and to more generally enhance their research skills.

Academic Integrity for Students

York University takes academic integrity very seriously; please familiarize yourself with [Information about the Senate Policy on Academic Honesty](#).

It is recommended that you review Academic Integrity information [SPARK Academic Integrity modules](#). These modules explain principles of academic honesty.

Test Banks

The offering for sale of, buying of, and attempting to sell or buy test banks (banks of test questions and/or answers), or any course specific test questions/answers is not permitted in the Faculty of Health. Any student found to be doing this may be considered to have breached the Senate Policy on Academic Honesty. In particular, buying and attempting to sell banks of test questions and/or answers may be considered as “Cheating in an attempt to gain an improper advantage in an academic evaluation” (article 2.1.1 from the Senate Policy) and/or “encouraging, enabling or causing others” (article 2.1.10 from the Senate Policy) to cheat.

Electronic Devices During a Test/Examination

Electronic mobile devices of any kind are not allowed during a test or examination. Students are required to turn off and secure any electronic mobile device in their bag which is to be placed under the chair while a test/exam is in progress. Any student observed with an electronic device during a test/exam may be reported to the Undergraduate Office for a potential breach of Academic Honesty.

Academic Accommodation for Students with Disabilities

While all individuals are expected to satisfy the requirements of their program of study and to aspire to do so at a level of excellence, the university recognizes that persons with disabilities may require reasonable accommodation to enable them to do so. The [York University Accessibility Hub](#) is your online stop for accessibility on campus. The [Accessibility Hub](#) provides tools, assistance and resources. Policy Statement.

Policy: York University shall make reasonable and appropriate accommodations and adaptations in order to promote the ability of students with disabilities to fulfill the academic requirements of their programs.

The nature and extent of accommodations shall be consistent with and supportive of the integrity of the curriculum and of the academic standards of programs or courses. Provided that students have given sufficient notice about their accommodation needs, instructors shall take reasonable steps to accommodate these needs in a manner consistent with the guidelines established hereunder.
