Guests: R. Bishop, F. Clarke, J. Hard, L. Sadhwani, S. Whitaker.

1. Chair's remarks

Chair N. Richardson welcomed Council members and reminded Council members and guests to sign the attendance book and note dates and time of upcoming Council meetings. She also encouraged faculty to contribute to future Media Briefs by informing F. Clarke of upcoming events, research, publications etc.

2. Minutes of the Meeting January 10, 2018

Professor H. Edgell moved, seconded by Professor M. Dastjerdi, that the minutes of the January 10, 2018 meeting of Council be approved.

The motion carried.

3. Business Arising from the Minutes

There was no business arising from the minutes.

4. Dean's Remarks

Dean McDonald noted that three more early career investigators have recently won awards for their work. He also noted that the Faculty of Health has already obtained \$19 million in research funding this year and is on its way to reaching \$20 million before the end of the fiscal year. This represents the highest ever amount of research funding and is a significant increase over the approximately \$14 million the Faculty received in 2015-16.

Dean McDonald acknowledged that York University and CUPE 3903 negotiations are underway and highlighted that the University has offered to resolve outstanding issues through arbitration. Additional information and updates can be obtained from [CUPE 3903](#).

Focusing on enrolments, Dean McDonald noted that the Faculty is extremely close to meeting its enrolment target for 2017-2018. He noted that the Faculty has done well with recruiting international undergraduate students. However, masters targets are not as strong.

Overall, Health has seen an increase of 13% in applications where York University is the prospective student's first choice. Moving forward, the Faculty aims to grow international undergraduate and graduate students, as well as a small increase in domestic undergraduate enrolments related to new or expanded programs in global health, critical disabilities, athletic therapy, and neuroscience.

Dean McDonald noted that the Faculty of Health was given permission to undertake 18 hiring searches. One search has already been successful; 3 searches have failed; and remaining searches are in various stages of completion. He thanked members of hiring committees for their work, dedication and commitment.

In terms of the Faculty budget, Dean McDonald highlighted that the Faculty is projecting a surplus for the current fiscal year. This is largely due to a one time only exemption from contributing to a University fund, and not having to use much of the Faculty's enrolment contingency as expected. He will be recommending to the Provost that the surplus be carried over to next year in order to cover inflation costs, renew faculty complement, fill vacant staff positions, create teaching fellows, create an indigenous elder in residence, and pay for some modest infrastructure upgrades.

Dean McDonald highlighted that plans, documents and proposals are underway to secure major donations. If successful, donations may fund research chairs, graduate students, etc. He thanked faculty, students and staff for their continued dedication and commitment to excellence as achievements can be shared with prospective donors.

Dean McDonald noted that the Executive and Planning Committee has been discussing ways of indigenizing the Faculty, including some Faculty Council protocols. The Committee will be consulting with Indigenous Leaders at York for advice on how Health can go beyond a land acknowledgement. Options might include creating and elder in residence, and inviting the elder to share stories to help us better understand the history, perspectives and ideas of First Nations, Inuit and Metis.

In closing, the Dean noted that plans to renovate Stong College remain in place; however, the Faculty has to be sensitive to the process because another academic unit have to move before renovations can commence. He also stated that renovations to the Farquharson Life Sciences Building will continue over the summer and are scheduled to conclude Fall 2018. Finally, he briefly shared ideas on

how we might address long term space needs within the Faculty.

5. Open Access and Data Steering Committee Update

Professor C. Ardern, J. Kirchner and A. Kosavic presented Open Access and Data Steering Committee Update. Presenters noted that information will focus on Open Access.

The Open Access and Data Steering Committee was created in June 2016 after Tri-Council Agencies announced that all peer-reviewed journal articles resulting from Tri-agency funding must be available via open access within 12 months of initial publication.

The Open Access and Data Steering Committee aims to raise awareness, create educational material relevant to open access and propose a pan-University framework which would align with Tri-agency policy requirements.

Members circulated and reviewed the "Draft Yorku Open Access Policy" and highlighted the value of establishing norms and expectations arounds rights of authors and users.

It was recommended that faculty and other researcher affiliates deposit scholarship in a trusted open access repository such as Yorkspace (or its equivalent) through a non-exclusive licence.

Faculty members were encouraged to review the FAQ and draft policy documents from the [Open Access and Open Data Steering Committee website](#) and attend upcoming Townhall meetings (tentatively scheduled for March 2018). Similarly, comments and questions about the Committee's work and/or Draft policy can be sent to oa-contacts@yorku.ca.

6. Report of the Executive and Planning Committee

On behalf of the Executive and Planning Committee, Dean McDonald noted that processes to fill vacancies on Standing Committees of Council were underway in Schools/Department. Members were encouraged to connect with their nominating committee for additional information.

There was a call for nominations for the vacant position of Chair of Council from July 1, 2018 to June 30, 2019. No nominations were made from the floor. This position will remain vacant until filled.

There was a call for nominations for the vacant position of Vice-Chair of Council from July 1, 2018 to June 30, 2020. The first year would be served as Vice-Chair and the second year would be served as Chair. No nominations were made from the floor. This position will remain vacant until filled.

There was a call for nominations for the vacant position of an “at-large” seat on the Executive and Planning Committee from July 1, 2018 to June 30, 2020. It was noted that H. Jenkin, Department of Psychology, is a continuing member and the two ‘at large’ members shall not be from the same School/Department. No nominations were made from the floor. This position will remain vacant until filled.

There was a call for nominations for the vacant position of an “at-large” seat on the Petitions Committee from July 1 2018 to June 30, 2020. It was noted that H. Tamim, School of Kinesiology and Health Science, is a continuing member and the two ‘at large’ members shall not be from the same School/Department. No nominations were made from the floor. This position will remain vacant until filled.

There was a call for nominations for the vacant position of Health Senator from July 1, 2018 to June 30, 2021. No nominations were made from the floor. This position will remain vacant until filled.

There was a call for nominations for the vacant position on Senate Sub-Committee on Honorary Degrees and Ceremonials, from July 1, 2018 to June 30, 2021. No nominations were made from the floor. This position will remain vacant until filled.

Members were encouraged to submit nominations to Lavina Sadhwani by Friday, February 23, 2018.

7. Senator’s Report

Senator Edgell noted that President Lenton addressed questions and comments about negotiations between the University and CUPE 3903 and addressed concerns about the connection between the Chamber of Commerce and the Council of Ontario Universities.

Senator Edgell encouraged members to review the Senate Policy on Academic Accommodations for Students’ Religious Observances and noted that students can submit a “Religious Accommodation Agreement – Final Examinations” form at least 21 days prior to the start of the official examination period to arrange an alternative examination date. Similarly, members were encouraged to review the Senate Policy on Sessional Dates and the Scheduling of Examinations.

She noted that the title of “College Master” has changed to “College Head”.

Senator Edgell noted that Strategic Mandate Agreement (SMA) 2 has been posted online and discussions regarding SMA 3 are underway. She also encouraged

faculty to attend the Forum of Ideas on Thursday, February 8, 2018 from 2:00 to 4:00pm in the Scott Library Collaboratory.

The Senate Committee on Academic Policy, Planning and Research received a preliminary progress report to plan for the creation of a new Faculty, which was approved, in principle, by Senate in June 2017.

The Senate Committee on Academic Standards, Curriculum and Pedagogy is working on a new framework to implement a new grading scheme, which was approved, in principle, by Senate in November 2017.

8. Other Business

There was no other business.

The meeting was adjourned.

**Report of the
Faculty of Health Council
March 2018**

ITEM FOR ACTION:

1. Proposal for changes to the Bachelor of Health Studies Degree Programs

The Curriculum Committee recommends that Council approves the minor changes to BHS programs housed in the School of Health Policy and Management, Faculty of Health, as set out in the proposal below, effective FW 2018-2019

Rationale:

The course substitutes for HH/HLST 2300 6.00 are no longer appropriate. In HH/HLST 2300 6.00, students learn how to use SPSS statistical software to conduct statistical tests. HH/HLST 2300 6.00 is a prerequisite for HH/HLST 4200 6.00 which extensively uses SPSS in the second half of the full year course. As such, students who have taken the approved kinesiology or psychology course substitutes rather than HH/HLST 2300 6.00 are at a disadvantage and the HH/HLST 4200 6.00 instructor needs to spend extra time helping students that do not have SPSS background. To ensure that all students are well equipped to succeed in HH/HLST 4200 6.00, removing the kinesiology and psychology course substitutes for HH/HLST 2300 6.00 is the best course of action.

The following additional changes represent recent changes to courses in the degree programs:

- AP/ADMS 2300 6.00 is no longer offered by the School of Administrative Studies nor is it cross-listed to HH/HLST 2300 6.00
- HH/HLST 1000 6.00 has not been offered by the School of Health Policy and Management since 2008 and is now retired.
- A change in course level for HH/HLST 2060 3.00 to HH/HLST 3060 3.00
