3. Business Arising from the Minutes

4. Dean's Remarks

Dean McDonald echoed the Chair's gratitude and thanked the Department of Psychology for hosting Council.

He congratulated the Department of Psychology who in the previous few days had been once again ranked among the top 100 psychology programs in the world and tied for top four in Canada by QS World University Rankings. Given the number of universities in the world and in Canada who offer psychology, being in the top 100, and doing it on a repeated basis is a remarkable achievement. This week the Shanghai Global Ranking of Sport Science Schools and Departments also released their latest rankings. another extraordinary achievement, the School of Kinesiology and Health Science moved up 5 places from 21st last year to 16th place this year in the world, and the best School in Canada.

Dean McDonald congratulated Prof. C. Mallette, who was awarded the Quality Compassionate Caring Award; Prof. S. Walkerley, who won an award for Excellence in Teaching and Prof. G. Percival who received the Clinical Instructor Award from the Council of Ontario University Programs in Nursing.

Dean McDonald congratulated the following faculty members for being appointed as York Research Chairs:

- Prof. J. Elder from Psychology, Tier 1 York Research Chair in Human and Computer Vision
- Prof L. Sergio from Kinesiology and Health Science, Tier 1 York research Chair in Brain Health and Skilled Performance

- Prof. J. Wiess from Psychology, Tier 2 Chair in Autism and Neurodevelopmental Disability.

Dean McDonald noted that Prof. R. Pillai Riddell was awarded a Teaching Award by Faculty of Graduate Studies.

He acknowledged the work of M. Hamadeh and J. Rawana, College Heads, for their continuing excellence and dedication. For example, they jointly wrote and submitted a proposal to the Ontario Ministry of Education worth several hundred thousand dollars to advance student experience and success within the Faculty of Health. The proposal was ranked as the top proposal in the University.

The Dean congratulated Prof. D. Hood for receiving a CIHR grant. Additionally, although the details are still under embargo, we understand that 5 applications from the Faculty of Health will receive funding from SSHRC. This puts us on a course to potentially pass our record 2017-18 external research funding success of \$20 million, which is a 10% increase over our 2016-17 funding total and a 94% increase since 2015-16. Our level of growing success is a function of the quality, innovativeness, and importance of our work and demonstrates why it is important that more colleagues consider submitting research proposals to tri-council agencies and other peer reviewed competitions.

He noted that students in Global Health returned from their Winter 2018 internships and commended the efforts of faculty and staff for setting-up extraordinary opportunities. Our students completed work terms for the WHO in Sri Lanka, the Health Aid Society in Jordan, a health environmental group in Costa Rica, to name a few. He also encouraged faculty to connect with J. Hard

(jlhard@yorku.ca) to discuss connections and research opportunities.

Dean McDonald highlighted that he will visit each academic unit to share and discuss policy documents such as the Integrated Resource Plan and Strategic Plan.

Lastly he acknowledged the CUPE 3903 labour disruption and thanked faculty, staff and students for their continued efforts, cooperation, patience and dedication, as well as the need to maintain respectful and collegial dialogue.

**Report of the
Petitions Committee
of the Faculty of Health Council
May 2018**

ITEM FOR INFORMATION:

Year End Report 2017 – 2018

The Committee members review material via Moodle and note individual decisions prior to weekly in-person meetings. Beginning in January 2018, the Committee also piloted the Zoom Conferencing system to host virtual meetings for members who are unable to attend in-person meetings due to extenuating circumstances.

In 2016-2017, a total of 1063 files were adjudicated. In comparison, a total of 839 files have been adjudicated with 20 petitions currently pending in the same time frame during the 2017-2018 term. This represents an 21.07% overall reduction in petitions from last year. There has also been a 24.8% drop rate in late withdrawal petitions from last year, which may indicate expanded awareness and promotion of the Withdrawn from Courses option, whereby students may take the initiative to opt for a “W” on their record up until the last day of classes.

Even with the W option, the most common petition request is still withdrawal from courses. The Faculty received 558 such petitions in 2017-2018, of which 8% were granted for full removal, 54% granted for withdrawal only (i.e. W) and 38% were refused. The rates in the other categories of petitions have remained consistent reflecting similar numbers as last year.

A new type of petition emerged in 2017-2018, whereby students appealed for a full removal of courses that had been withdrawn (W) via a previous petition. Students shared that the removal of the course was necessary to initiate a financial petition with Student Financial Services. Another common reason was concerns about how the W would be viewed by graduate school admissions committees. (Note: removal of courses from the transcript are considered only on grounds of sufficient documented hardship or non-participation in the course, per the Senate Policy on the Withdrawn from Courses option.)

Beginning in 2018, the Office of Student and Academic Services in collaboration with the Coordinator, Student Academic Petitions, began offering various webinars on petitions-related topics to target audiences as part of their outreach and retention strategy. Webinars will continue to be offered following the release of 2017-2018 final grades and academic decisions.

In March 2018, the Faculty of Health also introduced a third adjudication panel (Panel C), composed of the Associate Dean, Teaching and Learning, the Manager of Student Services in the Faculty of Health, and the Director, Student & Academic Services & Strategic Initiative. Panel C will be mainly tasked with alleviating peak periods (such as the summer months after the release of final grades and academic decisions). Given the newness of the Panel and that academic decisions have not yet been released, its direct impact on assisting with overload has not yet been assessed. Data will be collected, and trends will be noted in future reports.

The Petitions Committee will once again participate in their semi-annual Policy Meeting held in June 2018 to discuss Senate Policies and Guidelines and other key initiatives.

The chart below summarizes petition regulations adjudicated by the Petitions Committee between July 6, 2017 and April 12, 2018, inclusive.
