Autism Diagnostic Observation Schedule
Second Edition (ADOS-2)

DETAILS AND CONTACT
A Zoom link will be sent to participants upon registration.

This workshop will be instructed by Dr. Adam McCrimmon, R.Psych. Dr. McCrimmon is an Associate Professor at the University of Calgary and the Director of the Autism Spectrum Education, Research, and Training (ASERT) lab. He is a certified Independent Trainer for the ADOS-2 and ADI-R.

Please note: The ADOS-2 is a protected measure. This opportunity can only be accessed by members of regulated health professions who are involved in the diagnosis of autism, or students working towards such registration. Interested professionals who would like to register for the workshop can complete the registration form. If you have questions about the workshop, your eligibility to participate in this workshop opportunity, or if you would like to be notified about future ADOS-related workshop opportunities at the Y UPC, please contact us by
e-mail: yupc@yorku.ca | phone: (416) 650-8488

YOUR INVOLVEMENT
• Attend the workshop
• Bring your own ADOS-2 manual (ADOS-2 single-use electronic protocols will be provided)
• Be prepared to watch and score videotaped administrations with a volunteer individual with ASD
• Be prepared to discuss behaviours observed during the demonstration administrations and the coding for each administration with the group

Booster Session
Wednesday, February 1, 2023
9:00AM - 5:00PM EST
Cost: $275 CDN per session
$250 CDN for Graduate Students/York University Faculty & Staff
$225 for York University Graduate Students

This one-day virtual session is designed for professionals who have received previous ADOS-2 training and who would benefit from the opportunity to review administration and coding. This opportunity is ideal for practitioners who may not have administered the ADOS during the pandemic or those who rarely use particular modules. The booster session will review the purpose of the measure, each of the modules and their selection criteria, and the tasks and administration procedures of the modules. This opportunity is open to professionals and graduate students. Participants will be required to follow along with their own manual. Single-use online protocols of each module will be provided to registrants.

Advanced Scoring Session
Thursday, February 9, 2023
9:00AM - 5:00PM EST
Cost: $275 CDN per session
$250 CDN for Graduate Students/York University Faculty & Staff
$225 for York University Graduate Students

This one-day virtual session is designed for professionals who have received previous ADOS-2 training and who use the measure fairly regularly in their practice. The advanced scoring session will involve an in-depth discussion of the nuances of coding, strategies for considering codes, specific details of what behaviour each code is trying to capture, what each number for each code is meant to reflect, and the logic that can be applied to understand the differences between each number on each code. This opportunity is open to professionals and graduate students. Single-use online protocols of each module will be provided to registrants.
