In accordance with Section I of the Residence Occupancy Agreement, and specifically the following language therein: *York University Housing & Conference Services reserves the right to amend or terminate this Occupancy Agreement, or delay occupancy, at the University's option, in the event that: (1) the University determines, in its sole discretion, that it is prudent or necessary to do so for reasons of public health or resident safety*, York University will now require students living in residence during the 2021-2022 academic year to be vaccinated against COVID-19.

Public health experts have established that vaccines are a safe and effective way to protect individuals and those around them from serious illness due to COVID-19. The measure will apply to all undergraduate residences on the Keele and Glendon campuses beginning this fall.

Students should have their first shot prior to their move-in date, with York strongly recommending they receive it at least 14 days before moving in. Those who are unable to get vaccinated before moving in will have two weeks following their move-in date to receive their first dose, with the university helping to facilitate access to vaccines, subject to supply.

Any student who cannot be vaccinated on medical grounds or other grounds recognized by the Ontario Human Rights Code can request an exemption.

Students are asked to keep all emails, receipts and records pertaining to their vaccination so that they can confirm their vaccination status. All personal information provided, including information regarding being vaccinated, will be handled in compliance with the Freedom of Information and Protection of Privacy Act.

Specific information about the required proof of vaccination, whom it must be submitted to, as well as its use and storage will be provided by email. All information will be collected, used and stored in compliance with York's obligations pursuant to the Freedom of Information and Protection of Privacy Act.

All students living in residence must also receive their second dose of an approved vaccine as soon as reasonably practicable, and in any event by not later than a deadline to be determined by York based on the recommendation of public health authorities; and must provide proof that they have done so. Students who have not received their first or second vaccine dose as required and who have not been granted an exemption as the result of an accommodation will not be permitted to

live in residence and their residence contract will be terminated.

Requests for accommodation should be made as soon as possible and must be made in advance of a student's move-in date. Specific information on how to request accommodation will be provided by email. The completion of an accommodation form will be required.

York has the right to modify or revoke this COVID-19 Vaccination Policy at any time by reason of a change in circumstances or as may be required by provincial government or public health directives.
