Minor Change Description

1. What is the proposed change?
2. How does this change affect the program?

In the "Culture, Medicine, and Health" Certificate, in addition to ANTH 2330 6.00, "Anthropology and Infectious Diseases," we would like to add ANTH 2170 6.00, "Sex, Gender, and the Body" as one of the two 2000 level courses that will be counted towards the credit requirements for the Certificate. This will be consistent with the Minor in Medical Anthropology. Adding ANTH 2170 6.00 will provide students more options and also allow us to mount courses for the Certificate when the faculty members are on sabbaticals.

Academic Rationale

1. How does this change clarify requirements or options for students?
2. How does this change contribute to program identity or coherence?
3. How does the change affect the program's effectiveness at preparing students to meet the program learning outcomes?

This does not change the academic rationale of the Certificate program
