

Milena Basciano

I graduated in 2023 with an Honours Bachelor of Public Administration with a specialization in policy analysis. I've always loved helping plan the School of Public Policy and Administration's incredible events and initiatives, and did so throughout my undergraduate career by serving on the Public Policy and Administration Student Association. I knew I'd miss out if I wasn't in on the action this year! I am currently a part of the 2023-24 cohort of interns of the Ontario Legislature Internship Programme, where I get to assist back-bench Members of Provincial Parliament and experience the inner workings of the Ontario Legislature. I am honoured to share my insights with, learn from, and to be a part of SPPA's esteemed alumni network.
