MPPAL Success Stories

Adrian
Currie

MPPAL class of 2025

➤ I am happy to share that I have been offered a position as **an Energy Supply Advisor with the Fuels Policy and Liaison team in the Energy Supply Policy Division** in the **Ministry of Energy and Mines**. This comes on the heels of completing a four-month co-op term in the Integrated Energy Policy and Research unit in the Strategic Network Planning and Research division of the Ministry. This position builds on my professional experience in environmental advocacy, transportation policy and energy issues involving energy conservation and clean electricity regulations.

➤ I would like to thank my professors, the administrators, and my fellow students in the MPPAL program for helping to prepare me for this position. They provided valuable instruction, guidance, and support in increasing my knowledge and skills for work in the public sector.

As a lifelong environmentalist interested in the ongoing energy transition, this is a welcomed step in my career journey.

Winner of the LA&PS Social Justice Award

Congratulations to [Isatu Barrie](#), winner of the [LA&PS](#) Social Justice Award!

Isatu Barrie is a Political Science student at York University, completing a **certificate in [Public Administration and Law](#)** in the **School of Public Policy and Administration (SPPA)**. Born and raised in the Jane and Finch community, she's passionate about driving meaningful change in underserved communities. Isatu is the co-founder of Beyond Labels, a youth program that helps young people explore identity, leadership, and connection. She's also a visual storyteller and a founder of Lamarana Photography, using her camera to capture the beauty, strength, and culture within her community. Through both her academic work and creative projects, Isatu hopes to build a future in public service that centers on equity, youth voices, and real impact.

Futurpreneur announces 2025 Canadian delegation for the G20 Young Entrepreneurs' Alliance Summit in South Africa

Tunde Omotoye, a graduate student in the MPPAL program, has been selected as part of Canada's 2025 delegation to the G20 Young Entrepreneurs' Alliance (YEA) Summit in Johannesburg, South Africa. This prestigious event brings together young global innovators to shape entrepreneurship policy across G20 nations. Tunde, founder of HumanSquad, will represent Canada's voice on youth entrepreneurship, immigration innovation, and cross-continental collaboration.

MPPAL students receive the opportunity to network at a Canadian Club event: A Decade of Economic Reconciliation: Where We've Been and Where We're Going

Truth and Reconciliation has been a cornerstone of public policy in Canada for the last decade, and on June 4th, students from the MPPAL program were invited to attend a discussion on this very matter. A riveting conversation between Indigenous leaders in business and the non-Indigenous allies who support these causes within prominent Canadian institutions, it was an enlightening event that sparked interest in pursuing these topics further for some of our students. The students were then given an opportunity to speak with the panelists, hear one-on-one insights into the situation in this policy field, and some were even invited to have further discussions over coffee later. This is one of the remarkable strengths of our program - the chance to network with those who are at the forefront of policymaking, helping to inform their own future path in policy.

MPPAL students receive the opportunity to network at a Canadian Club event: A Decade of Economic Reconciliation: Where We've Been and Where We're Going

MPPAL students receive the opportunity to network at yet another Canadian Club event: Outlook on the Canadian Auto Industry: Navigating a New Era of U.S. Tariffs

SPPA Call For Experiential Education Proposals

Help our students learn from you!

SPPA delivers Experiential Education Courses in policy analysis and program evaluation, among others, that have a track record of working with public sector organizations and achieving results. Core experiential learning assignments are featured in **PPAS 4200 Applied Public Policy Analysis** and **PPAS 4310 Program Evaluation**.

In these courses groups of fourth-year students advise on client projects, culminating in presentations and/or reports by end of term in April. Host organizations are consulted on project requirements and interim milestones once their project is selected. Any project costs for these pro bono engagements are nominal.

This initiative offers practical benefits for government, non-profit organizations and SPPA. Students look to learn from the real challenges of project choice, complexity, and management. At the same time, the projects enable host organizations to tackle pressing issues in times of uncertainty and change.

Looking to collaborate with our students on projects? The School of Public Policy and Administration at York University is accepting proposals for student group projects for the 2025-26 academic year.

- › We welcome all government and non-profit organizations to contact us and submit student projects.
- › Please **submit your proposals** at your earliest convenience and no later than **Thursday, August 14, 2025**. If you have questions, please email us at **naomi@yorku.ca** (SPPA's Director, Professor Naomi Couto) and **lapssppa@yorku.ca**.

Job Opportunities

Position	Description
<u>Auditor General - Legislative Assembly of British Columbia, Victoria, BC</u>	The Auditor General is an officer of the Legislature appointed as set out in the Auditor General Act (the “Act”). As a non-partisan officer of the Legislature, the Auditor General is independent from the executive branch of government, and reports and is accountable to the Legislative Assembly. The Auditor General’s work assists the Legislative Assembly to fulfill its role in holding the executive branch of government accountable. The Auditor General carries out the duties and powers set out in the Act, which includes conducting financial and performance audits and tabling those reports with the Legislative Assembly prior to the public release of audit, information, and examination reports.
<u>Director, Corporate Affairs - Ontario Health</u>	Reporting directly to the Chief Communications and Corporate Affairs Officer, the Director, Corporate Affairs plays a pivotal leadership role in shaping Ontario Health’s relationships and communications—publicly, with government and other partners, and within the healthcare system. This is a rare opportunity for an experienced and strategic communicator to have an impact while building relationships that matter: with patients, policymakers, media and health system partners across Ontario.
<u>Medical Imaging Research and PET Technologist - University Health Network</u>	Join Medical Imaging at UHN, one of the largest academic medical imaging departments in Canada! Our cutting-edge digital technology and dedicated team prioritize patient care and exceptional image quality. The molecular imaging team is comprised of medical radiation technologists, radio pharmacists, radiologists, cardiologists and physicians who all work together to provide the best patient care. As the first department in Ontario to use Radium-223 to treat prostate cancer, a preceptorship program was developed for other Ontario hospitals to implement Radium treatment programs. The PET imaging department performs the highest number of PET scans in Ontario. UHN is one of three sites in southern Ontario to perform PET Rubidium myocardial scans. Be part of our journey to shape the future of medical imaging through innovation, groundbreaking research, education, and excellence in patient care. UHN is committed to ongoing education and quality assurance initiatives and is fully affiliated with the University of Toronto and the Michener Institute of Education.

Job Opportunities

Position	Description
<u>IPAC Board of Directors 2025-2026 Call for Expression of Interest - IPAC</u>	On behalf of the IPAC Nominations Committee, it is my pleasure to invite nominations for candidates to serve on the 2025–2026 IPAC National Board of Directors. We are currently seeking candidates who wish to support and promote excellence in public administration across Canada and globally by serving on the National Board of Directors. The role of Board members is to advise, govern, oversee policy and direction, and assist with the leadership and general promotion of the Institute to support the organization's mission and needs. Appointments are for one-year terms, which may be renewed up to a maximum of three consecutive terms, pending approval of the Board.
<u>Director, Cyber and IT Risk Framework Policy and Standards - Royal Bank of Canada</u>	The Director, Cyber and Technology Risk Framework and Standards will be responsible for providing leadership and direction over the bank's suite of cyber and technology policies and standards by providing challenge and oversight on their design and implementation within a well-defined and communicated framework to mitigate risk to RBC. Responsibilities include maintaining the framework; managing a comprehensive cyber & technology governance roadmap and the supporting pipeline and schedule; providing subject matter experts with appropriate guidance to ensure that policies and standards are developed and documented in a manner that follows RBC requirements and that supports other policies and standards as required; and ensuring that changes are effectively communicated by responsible parties to allow implementation and compliance.
<u>President & CEO - Ocean Networks Canada, Victoria, BC</u>	Reporting to the ONC Board of Directors, the President and CEO provides the vision, strategic direction and leadership to achieve ONC's scientific and societal goals. Responsible for ensuring quality service, safe operations and the successful implementation of ONC's strategic plan, the President and CEO mitigates risks while positioning ONC as a global leader in ocean research. Key responsibilities include maintaining and evolving ONC's world-class scientific capabilities, advancing ocean-based climate solutions, managing relationships with funders, government officials, and continuing to grow and foster strong linkages with the University of Victoria, as well as relevant researchers and partners worldwide.

Job Opportunities

Position	Description
<u>Compliance Coordinator - Reconomy Connect</u>	RLG is a provider of consultative Environmental Compliance Management (ECM) services for extended producer responsibility (EPR) on a global scale. The data services and environmental compliance team works with producers to deliver: EPR assessments of their legal obligations' province by province, data management and reporting services, audit support and technology product offerings such as an ECM manager. Additionally, as new regulation emerges there is significant amount of research required to support the proper implementation of the program for RLG and our clients. Reverse Logistics Group (RLG) is seeking a Compliance Coordinator to expand our environmental compliance solutions with a focus on producers.
<u>Director, Market, Counterparty Credit, Liquidity and Model Risk Policy - Royal Bank of Canada</u>	Reporting to the Managing Director, Market, Counterparty Credit, Liquidity and Model Risk Policy, you will provide senior level advice and support for the provision of governance and risk oversight with responsibility for the development, maintenance and communication of market, counterparty credit, liquidity and model risk as well as other relevant risk policy documents, including Standing Orders, and related governance artifacts throughout RBC group wide. You will lead the development of policies that support the management of risk with a focus on capital markets activities and portfolios through the implementation of "best practice" measures. The incumbent will ensure effective communication of risk management policies to the relevant businesses and control functions and provide training to RBC personnel as required.
<u>Senior Associate, Product Research & Strategy - BMO Financial Group</u>	The Senior Associate, Product Research & Strategy, will be responsible for the research, analysis, and communication of trends and product development activity within the investment industry and to assist with recommendations and proposals of product activity for BMO GAM. Specifically, the Senior Associate will cover ETFs and mutual funds, where they are expected to become an expert on industry, competitor and fund flows and developments within the category. To this extent, the Senior Associate will build and communicate these insights to other stakeholders at BMO GAM. Additionally, the Associate will be a key input into how BMO GAM can launch innovative products that fit client needs across different distribution channels. The Senior Associate will work closely with his colleagues and the Director, Product Research & Strategy, in delivering this work.

Job Opportunities

Position	Description
<u>Policy Analyst – Ontario College of Teachers</u>	Reporting to the Manager of Policy and Governance, the Policy Analyst will primarily work on legislative, regulatory and operational programs and projects that have cross-College and profession-wide impacts. Supported by strong research, strategic policy analysis, project management and stakeholder relations skills, this position plays a critical role in operationalizing significant enhancements in the regulation of the teaching profession.
<u>Government Relations Advisor - City of Mississauga</u>	The role is responsible for the development and execution of the City's government advocacy agenda, including working across the corporation to develop priorities and strategies. This position will be required to work in a hybrid work arrangement (work from home and some work in the office). Our offices are located at Mississauga City Hall, 300 City Centre Drive, Mississauga.
<u>Senior Advisor, International Relations (Telework/Hybrid) – CBC News</u>	As Senior Advisor, International Relations, you will support the Executive Director, Policy and International Relations, and work closely with the entire Corporate Development management team as well as with individuals across the Organization. You will contribute to an interesting and important range of projects and initiatives, including international conferences and agreements with Public Service Media (PSM) organizations in other jurisdictions.
<u>Research Data Analyst MAP: Systems and Marginalization - Unity Health Toronto</u>	Unity Health Toronto is looking for a person who is interested in Research Data Analyst MAP: Systems and Marginalization. The successful applicant will be responsible for advanced quantitative analyses, including statistical analysis of epidemiological data, further developing and testing a dynamic compartmental epidemiological model of opioid use, and using the model for health policy and economic evaluation. The goal of the projects is to generate evidence that advances health policies which improve the health of people who use drugs. Proficiency with statistical software, exceptional organizational skills, and the ability to learn new methods quickly are required in this position. Advanced knowledge of the R statistical programming language is required; preference will be given to applicants who are also proficient in Stata, Python, and web-based programming.

Job Opportunities

Position	Description
<u>Senior Analyst, Regulatory Compliance - Mastercard</u>	At Mastercard we are committed to the highest standards of ethics and integrity. Ethics and Compliance are at the core of our company values and are essential to both the personal success of every Mastercard employee and to the success of the company. The Senior Analyst, Regulatory Compliance, will be responsible for strengthening, extending and sustaining a successful compliance program for Mastercard's operations in Canada. The role will identify and implement best practices in regulatory compliance. The successful candidate will support regulatory compliance activities and will work cross-functionally with their Mastercard colleagues including Regulatory, Legal, People and Capability, Finance, Franchise, Treasury, Public Policy, Privacy/Data Usage, Global Ethics and Compliance, Internal Audit and account teams in Canada.
<u>Senior Corporate Planning Advisor – Government of Canada</u>	You are a strategic thinker and collaborative advisor with a passion for strategic planning in a complex, fast-paced environment. You thrive on translating big-picture goals into actionable plans and meaningful performance insights which resonate with staff across the organization. With a deep understanding of government planning, you provide expert guidance that helps senior leaders make informed decisions. You are skilled at navigating relationships across all levels of an organization, and you bring clarity and structure to evolving priorities. Adaptable, analytical, and resourceful—you're the person people turn to when they need a trusted partner to align plans and deliver with purpose.
<u>Senior Policy Counsel/Senior Policy Advisor - CIRO/OCRI</u>	Reporting to the Director, Business Conduct Policy, the Senior Policy Counsel or Senior Policy Advisor is a member of the Member Regulation Policy Team (MRP) and is responsible for the development, drafting, review and approval of policy applicable to both investment dealers and mutual fund dealers. The Senior Policy Counsel or Senior Policy Advisory also participates in the other operational and day-to-day work of MRP.
<u>Senior Analyst, Business Processes, Controls and Compliance - BMO Financial Group</u>	The Senior Analyst, Business Processes, Controls and Compliance will be responsible to oversee Market Risk compliance program as a 2b function. As part of the Market Risk Governance team in the second line of defense, the Senior Analyst will maintain the Market Risk PRC, manage the regulatory inventory and critically assess the unit's internal controls. The individual will require to collaborate with various stakeholders within 1st and 2nd line of defense.
