## REVIEW & APPROVAL

### Introduction

Purchases at York should be made through Sm@rtBuy.

Sm@rtBuy is York's online procurement system that streamlines the purchasing process, thereby allowing significant time savings for faculty and staff.

Figure 1: York's Purchasing Process

Sm@rtBuy is an integrated web-based marketplace for procurement activities that allows for the creation of Purchase Orders (PO), change requests and supplier invoices for the following types of purchase requests:

- *Catalogue Purchase Requisitions* – Created for quick shop items for goods that can be purchased from existing supplier Catalogues.
- *Non-Catalogue Purchase Requisitions* – Created for goods or services that are not available on supplier Catalogues.
- *Change Order Requests for Sm@rtBuy Non-Catalogue Purchase Orders* – Created to request for changes on a PO after it has been issued to a vendor. The Change Order Request function is not available for Catalogue Purchase Requisitions; If the order has been placed and a change is required, the Requisitioner / Shopper must advise the supplier directly or contact smartbuy@yorku.ca for assistance.
- *Limited Tendering & Non-Application Form* – This form is used when a purchase has an exemption from multiple quotes or a competitive bid process.

A Purchasing Requisition (PR) for a good or service **must** be completed...

- for all non-exempt purchase orders above \$25,000, or
- when a purchase order is required by a vendor.
- **Note:** A P.O. is a contract between the University and a vendor outlining the terms and conditions (either standard or negotiated) for the purchase of goods or services.

For more information, please refer to the [Procurement Policy and Procedures](#).

This document, **Your Online Purchase Request Process Job Aid (Review & Approval)** provides step-by-step instructions to follow when you are reviewing and approving a non-Catalogue purchase that requires a PO. The intention is for you to access the request through Sm@rtBuy and walk through the Review & Approval process steps provided in this document while completing the steps simultaneously, online.

For more information on Catalogue purchases, please refer to: [Sm@rtBuy Training Manual](#).

## Review and Approve a Purchase Requisition or Invoice

Once a Shopper / Requisitioner submits a Purchase Requisition in Sm@rtBuy, it must be reviewed and approved before being dispatched to the vendor. After the Shopper / Requisitioner confirms receipt of the good or service, you will then be asked to review and approve the associated invoice.

The steps you follow will be the same; the only difference is whether you are looking at a requisition or an invoice.
