ONTARIO STUDENT
DRUG USE & HEALTH SURVEY

Grades 7 & 8
Online Questionnaire

Form B-ES
INSTRUCTIONS FOR COMPLETING THIS SURVEY

● This health survey will take about 25–30 minutes to complete. It includes questions about alcohol and other drugs, mental health, and general well-being. There is no assumption that students who complete the survey have ever used alcohol or other drugs.

● We will not ask you for your name in this survey. Because your name is not in the survey, we can never identify you or track you. The information you give will be kept completely secret and confidential. Therefore, we ask you to be completely honest and accurate when you answer the questions.

● Please complete this survey on your own. If you do not understand a question, just move on to the next one. If you do not want to answer a question, just move on to the next one. Also, you may stop the survey at any time.

● For each question, please choose the single best answer that is right for you by selecting the circle beside it. If two answers seem right, choose the one that feels more right than the other. Some questions will say “Select all that apply” and for these you can choose more than one answer.
