Members of the Robarts Centre are kept up-to-date on current scholarly events and research being conducted across the country, and they are eligible for our smaller grants and funding opportunities.

- Faculty Associates -Tenure-stream, contract, and retired members of York faculty
- Research Associates -Postdoctoral fellows connected to the Centre, post-PhD fellows without fellowships, York graduate students and post-PhD scholars. Scholars who have completed a PhD may apply (with sponsorship from a Faculty Associate at the Robarts Centre) to become a Research Associate for a two-year term. Research Associates are expected to share their perspective during their period of affiliation during Robarts Centre events.
- Visiting Fellows: Scholars with academic positions in other institutions; including researchers from other institutions in the Toronto area who may be working on a Robarts-related project for a specific time period no more than one academic year
- External Associate: Scholars and community members who collaborate with at least one Faculty Associate of the Centre, and whose work actively support the public outreach and engagement missions of the Centre.
