

Dr Jane Colwell  
York Grant Workshop 2024

I hold a MHMS degree from Queensland University in Australia, a PhD degree from University of Waterloo and completed two Postdoctoral Fellowships at Western.

I worked at the University of Waterloo facilitating grant applications for faculty members in the Social Sciences and at Guelph University developing Institutional CFI grant submissions. For the past 20 years I have worked as a freelance grant writer for academic and non-profit clients.

I have worked on applications from Western, McGill, Guelph, York, Toronto, Centennial College, Ryerson, Lakehead, Queens and several non-profit organizations.

Most recently I have been involved with the Grant workshops at York University conducting grant workshops for Insight Grants, Insight Development Grants, Partnership Development Grants, Discovery Grants and New Frontiers Research grants.

Additionally, I have worked directly with multiple faculty from several Universities on their grant applications (eg SSHRC Strategic Grants, Discovery Grants, Partnership Grants, Alliance Grants, Climate Mitigation, Connections Grants, Canada Research Chair Applications, and other strategic grants for other various funders).

I have worked on successful grants from multiple disciplines and funders. For summer 2024 I'd like to work with faculty from the Social Science and Humanities on Insight or Insight Development Grants.

I'm also available from December to May 2025 for individual faculty applications from all disciplines.
