

2019-2020 Five Year Incident Category Comparison Report

This report provides annual statistics on the types of service requests and incidents reported to Security Services or identified by Security staff on patrol. These statistics fluctuate from year to year for a variety of reasons, and are influenced by greater community engagement and awareness of the importance of reporting safety incidents, which has increased from 2016 onwards. Other mitigating factors influencing reporting of statistics include major events such as labour disruptions, the pandemic, large scale events on campus etc. The University encourages reporting of incidents and transparency of statistics to ensure robust response and prevention efforts are in place and so that the community feels comfortable reporting.

Please note, the annual figures for some categories of safety incidents listed in this report are very small and in these cases and trends can only be identified if the figures are examined over a longer timeframe.
