

ENROLLING IN 2ND YEAR COURSES

To begin the process of selecting courses for 2nd year follow the steps below.

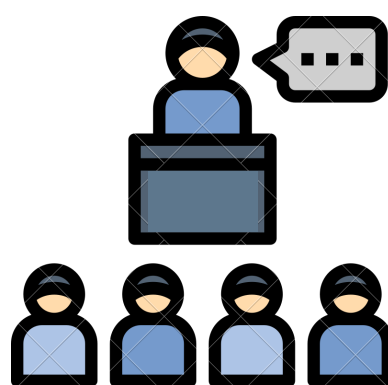

Additional information can be found at:

<https://biology.yorku.ca/undergraduate-program/>

Attend group advising

STEP
01

Group advising sessions are specific to your major and are held in March every year (notifications will be sent out with dates/details).

Research course offerings

STEP
02

Consult [UG Biology handbook + website](#). Select courses based on degree requirements and planned upper year courses to ensure you have the prerequisites.

Find your enrollment window

STEP
03

Log into your YU account and click on the "My enrollment access times" link on the right side of the screen.

Remember this date and enroll as early as possible as courses fill quickly!

Advising appointments

If you have additional questions or would like to book an advising appointment, email biology@yorku.ca. Advising appointments are optional.

STEP
04

Enroll in your courses!

STEP
05

When your enrollment window opens, enroll in your courses!

- Have back-up choices for courses with labs in case your preferred lab section is full.
- Do not enroll in two courses that run at the same time; the Biology office cannot resolve these scheduling conflicts for you.
