

WHY CAN'T I ENROLL IN THAT COURSE?!

1

YOUR ENROLMENT WINDOW IS NOT OPEN YET

To determine when your enrollment window is log into your YU account and click on the my "My enrollment access times" link on the right side of the screen. If no dates appear, contact the Registrar's Office at 416-872-YORK (9675)

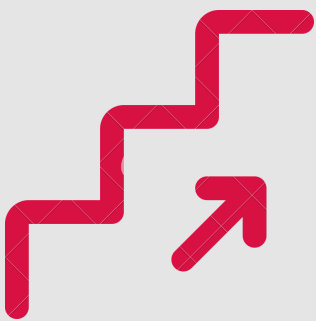

2

THE COURSE IS FULL

Once enrollment windows open, courses fill up quickly. Be sure to keep track of your date and have alternate options for courses before your window opens. For a list of courses click [here](#).

For courses with labs, ensure that you have several alternate options as lab sections cannot be over-enrolled.

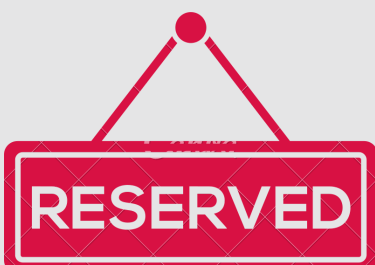

3

YOU DO NOT HAVE THE PREREQUISITE COURSES

Many upper year courses assume that you have taken prerequisite (prereq) courses. These prereq courses ensure that you have the knowledge needed to be successful in future courses.

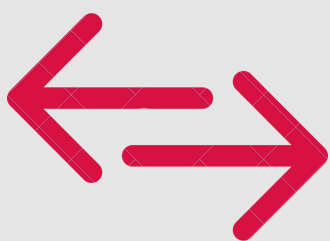

Prereqs are **strongly enforced** by the Biology Department.

4

THE COURSE HAS RESERVED SPACES

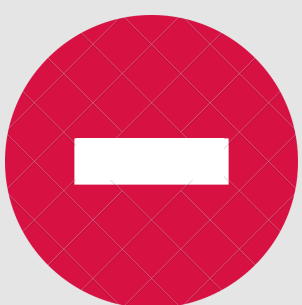

Spaces in a course may be reserved for students in specific programs or year levels. For example, spaces in BIOL 1000 are initially reserved for newly accepted students. Unused reserved spaces may be released to eligible students after the reserve has been lifted.

5

YOUR TRANSFER CREDITS ARE NOT RECOGNIZED BY THE ENROLMENT SYSTEM

Transfer credits may be awarded to students who have taken comparable courses at other institutions. If you do have transfer credits as prerequisites, email biology@yorku.ca so that an enrolment window can be opened for you (provided there is space in the course you are trying to enroll in).

6

YOU HAVE A FINANCIAL OR ADVISING BLOCK

You will not be able to access the enrolment system until these blocks are cleared. Advising blocks are removed once you have spoken with an [Academic Advisor](#). For financial blocks, contact [Student Financial Services](#).
