NOTICE OF MEETING
April 13, 2021
3pm – 4:30pm
via Zoom

AGENDA

1. Call to Order and Approval of Agenda
2. Chair’s Remarks
3. Approval of March 9, 2021 Minutes
4. Inquiries and Communications
   4.1 Senate Synopsis of meetings held on March 25, 2021
5. Business Arising
6. Dean’s Remarks
7. Associate Deans’ and Head of Bethune College Remarks
8. Reports from Science Representatives on Senate Committees
9. Student Caucus Representative Report
10. Reports from Standing Committees of Council
    10.1 Executive Committee
        10.1.1 Vacancies report on the Standing Committees of FSc Council (items for action)
    10.2 Graduate Education Committee (consent agenda items)
    10.3 Curriculum Committee (consent agenda items)
11. Other Business
    11.1 Vote to endorse Faculty of Science 2021-2025 Strategic Plan
1. **Call to Order and Approval of Agenda**
   The Chair of Council, C. Storry, called the meeting to order and the Agenda was adopted with 1 amendment, adding item 11.2 “Notice of Motion for Vote on the endorsement of the Faculty of Science Strategic Plan”.

2. **Chair’s Remarks**
   The Chair of Council, C. Storry welcomed members to the March Faculty Council.

3. **Approval of February 9 2021 Minutes**
   A motion was moved, seconded and carried to approve the Minutes.

4. **Inquiries and Communications**
   4.1 **Senate Synopsis of meetings held on February 25, 2021**
   4.2 **Consultation on Revisions to Policy on Academic Honesty**
   Mike Scheid led a discussion surrounding the changes made to the existing Academic Honesty Policy. Council was advised to review the document, and send him or Sibonile an email if they had any feedback.

5. **Business Arising**
   There was none.

6. **Dean’s Remarks**
   Dean Wang welcomed Faculty Council and wished the women in attendance a Happy International Woman’s Day.

   Coregulations to:
   Professor Eric Hessels has been awarded $3,360,000 from the CFI Innovation Fund for the project Tabletop Probe of PeV-scale new physics.

   Professor Derek Wilson has been awarded almost $2.1 million as principal investigator of a project with Professor Sergey Krylov, Technology-Enhanced Drug Development and Manufacturing (TEnDev): MirrorLab.

   Dean Wang mentioned that York University is offering additional support to Faculty members:
   2. Additional marker and grader support for course deliveries.
   3. Family and medical accommodation measures.

   Dean Wang mentioned that the University’s Addressing Anti-Black racism action plan framework continues, he highlighted several actions the Faculty of Science have put into motion: Establishing a Committee on Equity, Diversity & Inclusivity, participating in the
University wide new postdoctoral fellowship and program for Black and Indigenous post-doc fellows and the Black Faculty Search. He noted these actions will improve Black representation, but more needs to be done.

Dean Wang advised Council that Fall/Winter 2021-22 planning continues. Senate sent Fall Planning Principal Template Guidelines and Senate Executive Announcement on the Fall Planning principals. He noted that all updates and procedures must be guided by Toronto Public Health.

7. Associate Deans’ and Head of Bethune College Remarks
Associate Dean, Faculty Affairs, Gerald Audette reminded Chairs that 2022-23 sabbaticals should be requested by April. If you are near retirement, please advise the Dean’s Office.

Associate Dean, Research & Graduate Education, Jennifer Steeves reported that NSERC summer positions are being ranked within departments, should be confirmed by end of March. Additionally, we are waiting on NSERC results for competitions.

Associate Dean, Students, Mike Scheid asked Almira Mun, Assistant Dean to speak on enrolment: overall up by 6% in 2021-22. Ontario High School applications are up by 16.4%, International & Domestics applications are down by 19% and 6.5% respectively.

8. Reports from Science Representatives on Senate Committees
There were none.

9. Student Caucus Representative Report
The Student Caucus met with Assistant Dean, Almira Mun on March 3 in regards to the new Science Communications Group to provide a regular channel of communications between the student and Faculty of Science. Discussed the possibility of opening the meetings up to other peer and student leaders. The Student Caucus also thanks Dean Wang for providing an in-depth response to their letter.

10. Reports from Standing Committees of Council
10.1 Executive Committee

10.1.1 Vacancies report on the Standing Committees of FSc Council (items for action)
The chair noted that there are several vacancies due to memberships ending in 2021.

10.2 Curriculum Committee (consent agenda items)
All items were passed.

11. Other Business
11.1 Faculty of Science Strategic Plan’s presentation – Dean Wang
Dean Wang presented the 2021-2025 Faculty of Science Strategic Plan. Faculty Council members were encouraged to send validation comments to Melissa Hughes at mehughes@yorku.ca.

11.2 Notice of Motion for Vote on the endorsement of the Faculty of Science Strategic Plan
Dean Wang advised council of the notice of motion to Cote on the endorsement of the 2021-2025 Faculty of Science Strategic Plan at the April 13 Faculty Council meeting.

The Senate of York University

Synopsis

The 674th Meeting of Senate held on Thursday, March 25, 2021 via Zoom

Remarks

The Chair of Senate, Professor Alison Macpherson of the Faculty of Health, welcomed Senators to the meeting and extended a special acknowledgement to all who have been impacted by the pandemic, especially those who have been ill, and those who have lost loved ones.

Comments made by President Lenton included the following:

- a report on the recent release of the 2021 Ontario Budget which is focused on pandemic recovery. Highlights include the government’s commitment to the investment of over $500 million to support healthcare research initiatives undertaken in universities, colleges and academic hospitals, an additional $7 million to help postsecondary students during COVID-19 to increase access to mental health and addiction services, and a new Ontario Jobs Training Tax Credit which would provide up to $2,000 towards eligible training expenses.

- an update that the Ontario government is expanding the Ontario Student Assistance Program (OSAP) to include nearly 600 micro-credential programs. Through this initiative, the province is ensuring loans and grants will be available to more learners looking to rapidly upskill and reskill for the in-demand jobs of today and tomorrow.

- an update on campus planning for fall 2021 and the partial return to campus in September beginning with the gradual reopening of the campus over the summer while keeping consistent with government and public health guidelines and prioritizing the health and safety of the community.

- acknowledgement of the significant challenges for students and faculty in the context of the pandemic in reference to a recent student accommodation matter, and emphasis that York University is committed to upholding and promoting the values of respect, equity, diversity, and inclusion across its campuses and in communications.
The Senate of York University

Synopsis

- acknowledgement of the open letter to the President and the Board of Governors from the York University Fossil Free Campaign advocating for divestment in fossil fuels and York’s leadership, in addition to its investment strategies, in lowering its carbon emissions to advance its institutional Sustainable Development Goals.

- an announcement that in recognition of all the efforts of faculty and units across the university in continuing to advance the priorities of the university in the context of the ongoing impacts of the pandemic, a special York Wellness Day will be instituted on Friday, July 2, to provide an extended 4-day long weekend.

- highlights from the “Kudos” report including three major research projects led by York researchers Professors Eric Hessel, Derek Wilson, and George Zhu, which have received more than $9 million in research infrastructure funding from the Canada Foundation for Innovation (CFI).

The monthly “Kudos” report on the achievements of members of the York community can be accessed with other documentation for the meeting.

Reports

Academic Colleague to the Council of Ontario Universities (COU)

Speaking to the written report included in the agenda, the Academic Colleague to COU, Senator Brenda Spotton Visano, reported on the February COU meetings in which members engaged in conversation with Dr. Alison Flynn, Associate Professor, Department of Chemistry and Biomolecular Sciences, University of Ottawa, on the topic of “Online Learning: Lessons Learned and the Future of Education after the Pandemic.” In addition, a number of updates were provided on policy matters and initiatives under discussion at the provincial level, including the advocacy of the OCAV Micro-credential Working group regarding the Ministry’s emerging micro-credential framework.

Vice-President Research and Innovation Annual Report

Under the auspices of the Academic Policy, Planning and Research Committee, Vice-President Research & Innovation Amir Asif presented the Vice-President Research and Innovation Annual Report.
The Senate of York University

Synopsis

Academic Policy, Planning and Research (APPRC) / Academic Standards, Curriculum and Pedagogy (ASCP)

Speaking to the written report included in the agenda, APPRC Chair Senator Brenda Spotton Visano, reported on joint meeting with ASCP in late February to discuss the academic programming for the Markham Centre Campus, highlighting how the planning is animating the campus vision and focused on providing students a rich experience at the new site. Professor Alice Pitt, Senior Advisor for Markham Academic Strategic Planning, led the discussion.

Approvals

On the recommendation of its Academic Policy, Planning and Research Committee, Senate approved, effective immediately:

- Change in the name of the Department of Communication Studies to the Department of Communication and Media Studies

On the recommendation of its Academic Standards, Curriculum and Pedagogy Committee, Senate approved:

- change in the name of the BA and Honours iBA programs in Communication Studies to Communication and Media Studies, housed within the Faculty of Liberal Arts & Professional Studies, effective FW 2021-2022
- change to the Osgoode Hall Law School Academic Rules governing the Indigenous and Aboriginal Law Requirement for the Osgoode Hall Law School Juris Doctor Program to accommodate a waiver of the requirement in specific circumstances, effective immediately
- changes to the requirements for the Geographic Information Systems (GIS) and Remote Sensing Undergraduate Certificate housed within the Faculty of Environmental and Urban Change, effective FW 2021-2022
- changes to the requirements for the Sustainable Energy Undergraduate Certificate, housed within Faculty of Environmental and Urban Change, effective FW 2021-2022
- amendments to the Senate Policy on Letters of Permission related to the new grading scheme implementation, effective FW2023-2024
The Senate of York University

Synopsis

- amendments to the *Senate Policy and Guidelines on Undergraduate Co-Registration Options with Other Post-secondary Institutions* related to the new grading scheme implementation, effective FW2023-2024
- amendments to the *Undergraduate Certificate Guidelines and Procedures* related to the new grading scheme implementation, effective FW2023-2024

Committee Information Reports

Executive

The Executive Committee’s information items included the following:

- its ongoing monitoring of the impact of the COVID-19 pandemic on academic activities including a decision on online proctoring of examinations and further actions pertaining to the disruption outlined in its written Report
- the Senate consultation process pertaining to the renewal of the President’s term
- the launch of the call for Expressions of Interest in membership on Senate committees and other positions elected by Senate
- its review of the Faculty Council rules and procedures of the School of Arts, Media, Performance & Design, and Glendon.
- the launch of the search for York’s next Chancellor

Academic Policy, Planning and Research (APPRC)

APPRC reported on the following items:

- its ongoing monitoring of UAP Implementation including the spring planning forum session on the UAP teaching priorities focusing on ways to take up Experiential Education opportunities that took place on 11 March 2021.

Academic Standards, Curriculum and Pedagogy (ASCP)

ASCP’s information the following following minor changes that were approved by the Committee, effective FW2021-2022 unless otherwise noted:

The purpose of the Committee on Equity, Diversity & Inclusivity is to provide broad review and leadership to Council on matters of Equity, Diversity, and Inclusivity issues with respect to:
- Tenure and Promotions
- Recruiting and Retention of members from EDI groups
- Approaches to addressing gender bias in the workplace
- Research and engagement with minority groups
- Workload and service contributions of EDI members
- Experiences in Teaching and Learning

The Equity, Diversity, and Inclusivity committee shall consist of:
- Associate Dean, Faculty Affairs (ex officio)
- Associate Dean, Research & Graduate Education (ex officio)
- One primary and one alternate member from each of Biology, Chemistry, Mathematics & Statistics, Physics & Astronomy, and Science & Technology Studies
- Two graduate students or postdoctoral fellows (one primary and one alternate) from any graduate program within the Faculty of Science or Lassonde undergraduate student

2020-2021 FSc Report on vacancies for Senate and FSc Standing Committees
The Faculty of Science Graduate Education Committee has reviewed proposals for Changes to Program/Graduate Diploma Academic Requirements (MSc and PhD) in the Department of Biology and recommends to the Executive Committee that the following changes be submitted to Council for approval.

Details regarding these proposals are included in the working papers of the March 17, 2021, meeting of the Graduate Education Committee, which are on file for your inspection in the Office of the Dean, with the Secretary of the Committee at adminres@yorku.ca

1. Change to Program/Graduate Diploma Academic Requirements – Biology MSc
2. Change to Program/Graduate Diploma Academic Requirements – Biology PhD
Hello GPDs and ADs Grad,

With the recent update at February’s FGS Council meeting (see Item #7) to change FGS Graduate Courses and Grading regulations, I am sending this reminder for the implementation of the new grading scheme (see attached email) to take effect Fall 2023.

To ensure the timely implementation of the new scheme, Faculties/programs are asked to submit academic regulation changes to Senate’s Academic Standards, Curriculum and Pedagogy Committee (ASCP) by no later than April 7, 2021. Proposals are to be brought forward to your anchor Faculty graduate curriculum committees.

The attached Overview of Updates document summarizes the updates and implications. For graduate programs specifically, the addition of B- may potentially impact program-specific regulations (admissions, program requirements) as the current use of B or B+ may now shift due to percentage range updates (B+ = 77-79%; B = 73-76%; B- = 70-72%).

If your graduate program is impacted and changes (if applicable) have not yet been brought forward to your anchor Faculty graduate committee, I am hosting a drop-in over the lunch hour (12:00-1:00pm) tomorrow, February 19 and Monday, February 22 to answer any questions you may have. Please use the following Zoom link: https://yorku.zoom.us/j/6092365749.

Alternatively, you may email me to discuss further or we can set up an individual time to quickly connect over Zoom.

Thank you,
Wes

Wesley Moir

Times Higher Education 2020 Impact Rankings
We recognize that many Indigenous Nations have longstanding relationships with the territories upon which York University campuses are located that precede the establishment of York University. York University acknowledges its presence on the traditional territory of many Indigenous Nations. The area known as Tkaronto has been care taken by the Anishinabek Nation, the Haudenosaunee Confederacy, and the Huron-Wendat. It is now home to many First Nation, Inuit and Métis communities. We acknowledge the current treaty holders, the Mississaugas of the Credit First Nation. This territory is subject of the Dish with One Spoon Wampum Belt Covenant, an agreement to peaceably share and care for the Great Lakes region.

Change to Program/Graduate Diploma Academic Requirements
Proposal Form

The following information is required for all proposals involving a minor modification to program/graduate diploma academic requirements. To facilitate the review/approval process, please use the headings below (and omit the italicized explanations below each heading).

1. Program/Graduate Diploma: Biology MSc

2. Effective Session of Proposed Change(s): Admission requirements for Fall 2023

3. Proposed Change(s) and Rationale

   A description of and rationale for the proposed modification(s) should provide information with respect to each of the following points:

   a) A description of the proposed modification(s) and rationale, including alignment with academic plans.

   Rational is change in York U grading scheme. The new grading scheme will change the definition of B+ from 75-79% to 77-79%, e.g. (B+ = 77-79%; B = 73-76%; B- = 70-72%).

   Admission requirements will be changed to B (73-76%) from the current B+ (75-79%). This is a tiny % change and students in the 73-74% range would be usually be admitted anyway via the non-standard admit paperwork. Students cannot be admitted without first securing a supervisor, so our faculty are already vetting their prospective students using a range of criteria.

   b) An outline of the changes to requirements and the associated learning outcomes/objectives, including how the proposed requirements will support the achievement of program/graduate diploma learning objectives. Additionally, please append the graduate program’s existing learning outcomes as a separate document.

   No change to learning outcomes; this is for admission only

   c) An overview of the consultation undertaken with relevant academic units and an assessment of the impact of the modifications on other programs/graduate diplomas. Where and as appropriate, the proposal must include statements from the relevant program/graduate diplomas confirming consultation/support.

   Change has been approved by the Biology Graduate Committee

   d) A summary of any resource implications and how they are being addressed. Attention should be paid to whether the proposed changes will be supported by a reallocation of existing resources or if new/additional resources are required. If new/additional resources are required, the proposal must include a statement from the relevant Dean(s)/Principal.

   No resource implications.

   e) A summary of how students currently enrolled in the program/graduate diploma will be accommodated.

   Not applicable
4. Calendar Copy

Using the following two-column format, provide a copy of the relevant program/graduate diploma requirements as they will appear in the FGS Calendar - http://gradstudies.yorku.ca/current-students/regulations/program-requirements/.

Please note: Senate requires that FULL Calendar copy be provided. Please include the entire graduate program/diploma section, not just text that is being revised. Please clearly and visibly indicate how graduate program/graduate diploma information has been changed using strikethrough (left column), bold, underlining, colours, etc. (right column).

Change to Program/Graduate Diploma Academic Requirements
Proposal Form

The following information is required for all proposals involving a minor modification to program/graduate diploma academic requirements. To facilitate the review/approval process, please use the headings below (and omit the italicized explanations below each heading).

1. Program/Graduate Diploma: Biology PhD

2. Effective Session of Proposed Change(s): Admission requirements for Fall 2023

3. Proposed Change(s) and Rationale

The description of and rationale for the proposed modification(s) should provide information with respect to each of the following points:

a) A description of the proposed modification(s) and rationale, including alignment with academic plans.

Rational is change in York U grading scheme. The new grading scheme will change the definition of B+ from 75-79% to 77-79% e.g. new system will be: (B+ = 77-79%; B = 73-76%; B- = 70-72%).

Admission requirements will be changed to B (73-76%) from the current B+ (75-79%). This is a tiny % change and students in the 73-74% range would be usually be admitted anyway via the non-standard admit paperwork. Students cannot be admitted without first securing a supervisor, so our faculty are already vetting their prospective students using a range of criteria.

b) An outline of the changes to requirements and the associated learning outcomes/objectives, including how the proposed requirements will support the achievement of program/graduate diploma learning objectives. Additionally, please append the graduate program’s existing learning outcomes as a separate document.

No change to learning outcomes; this is for admission only

c) An overview of the consultation undertaken with relevant academic units and an assessment of the impact of the modifications on other programs/graduate diplomas. Where and as appropriate, the proposal must include statements from the relevant program/graduate diplomas confirming consultation/support.

Change has been approved by the Biology Graduate Committee

d) A summary of any resource implications and how they are being addressed. Attention should be paid to whether the proposed changes will be supported by a reallocation of existing resources or if new/additional resources are required. If new/additional resources are required, the proposal must include a statement from the relevant Dean(s)/Principal.

No resource implications.

e) A summary of how students currently enrolled in the program/graduate diploma will be accommodated.

Not applicable
4. Calendar Copy

Using the following two-column format, provide a copy of the relevant program/graduate diploma requirements as they will appear in the FGS Calendar - [http://gradstudies.yorku.ca/current-students/regulations/program-requirements/](http://gradstudies.yorku.ca/current-students/regulations/program-requirements/).

Please note: Senate requires that FULL Calendar copy be provided. Please include the entire graduate program/diploma section, not just text that is being revised.

Please clearly and visibly indicate how graduate program/graduate diploma information has been changed using strikethrough (left column), bold, underlining, colours, etc. (right column).

March 2021

The Faculty of Science Curriculum Committee has reviewed proposals for changes to course information and degree requirements and recommends to the Executive Committee that the following changes be submitted to Council for approval.

Details regarding these proposals (and regarding other minor changes to Calendar/Repository course descriptions and prerequisites which were approved by the Committee but are not reported here) are included in the working papers of March 30, 2021, meeting of the Curriculum Committee, which are on file for your inspection in the Office of the Dean, with all members of the Curriculum Committee or by contacting the Secretary of the Committee at tinar@yorku.ca

1.2 BIOL
1.2.1 Change in prerequisite: SC/BIOL 4310 3.0 “Physiology of Circadian Timing”

2.2 GEOG
2.2.1 Change in cross listing and title change: EU/SC GEOG 2340 3.0, EU/SC/GEOG 3340 3.0, EU/SC GEOG 4340 3.0, EU/SC GEOG 3440 3.0, EU/SC GEOG 4440 3.0

2.3 Grading Scheme: Appendix E – For information only – submitted by Associate Dean Prof. Mike Scheid
<table>

<tr>
<td>Date of Submission:</td>
<td>Jan 25, 2021</td>
</tr>
<tr>
<td>Effective Session:</td>
<td>Winter 2022</td>
</tr>
</tbody>
</table>

**Course Title:** Physiology of Circadian Timing

**Type of Change:**
- [X] in pre-requisite(s)/co-requisite(s)
- [ ] in course number/level
- [ ] in credit value
- [ ] in title (max. 40 characters for short title)
- [ ] in Calendar description (max. 40 words or 200 characters)
- [ ] other (please specify):

**Change From:**
Examines the mechanism by which cells generate 24h (circadian) rhythms, how the numerous sites of these cells are coordinated by nerves and hormones and the critical roles of human circadian clocks in health and diseases. Prerequisites: SC/BIOL 2020 4.00 or SC/BIOL 2020 3.00; SC/BIOL 2021 4.00 or SC/BIOL 2021 3.00; SC/BIOL 3060 4.00.

**To:**
Examines the mechanism by which cells generate 24h (circadian) rhythms, how the numerous sites of these cells are coordinated by nerves and hormones and the critical roles of human circadian clocks in health and diseases. Prerequisites: SC/BIOL 2020 4.00 or SC/BIOL 2020 3.00; SC/BIOL 2021 4.00 or SC/BIOL 2021 3.00; SC/BIOL 3060 4.00. One of the following:

(1) SC/BIOL 2020 3.00, SC/BIOL 2021 3.00, and SC/BIOL 3060 4.00
(2) SC/BIOL 2020 3.00, SC/BIOL 2021 3.00, HH/KINE 2011 3.00 and HH/KINE 3012 3.00 OR
(3) HH/SC NRSC 2000 3.00 and HH/SC NRSC 3000 3.00.

(1) SC/BIOL 2020 3.00, SC/BIOL 2021 3.00, and SC/BIOL 3060 4.00
(2) SC/BIOL 2020 3.00, SC/BIOL 2021 3.00, HH/KINE 2011 3.00 and HH/KINE 3012 3.00 OR
(3) HH/SC NRSC 2000 3.00 and HH/SC NRSC 3000 3.00.
**Rationale:** Current pre-reqs are SC/Biol 2020 3.00 (Biochemistry), SC/Biol 2021 3.00 (Cell Biology), and SC/Biol 3060 4.00 (Animal Physiology). SC/Biol 2020 4.00 and SC/Biol 2021 4.00 are no longer offered and are being removed.

A proposal has already been submitted to add the option of HH/SC NRSC 2000 3.00 (Fundamental Molecular and Cellular Neuroscience) and HH/SC NRSC 3000 3.00 (Molecular and Cellular Neurobiology) instead of the existing 3 pre-reqs, to allow Neuroscience students to take this course if they do not have room in their program for Biochem, Cell Biology and Animal Physiology.

This new proposal would add another option to replace SC/Biol 3060 4.00 with HH/Kine 2011 3.00 (Human Physiology I) and HH/Kine 3012 3.00 (Human Physiology II). These two courses cover topics similar to Animal Physiology. The current course director for BIOL4310 has been allowing students to enrol with these pre-reqs, so this proposal will regularize a pre-existing practice.

Note: For course proposals involving cross-listings, integrations and degree credit exclusions, approval from all of the relevant Faculties/department is required.

Note: Since one change (such as a change in year level or credit value) may result in several other changes (e.g., to the course description, evaluation, instruction, bibliography, etc.), please submit as many details as possible. If there are several changes, please feel free to use a New Course Proposal Form in order to ensure that all the required information is included.
Non-Major Modification Program Changes

1. Program: GIS & Remote Sensing Certificate in legacy Department of Geography

2. Degree Designation: Undergraduate Certificate - EUC

3. Type of Modification: (Example: changes to degree / admission requirements) Reduction of certificate core requirement by 6.0 credits; title change; retire BES GIS & Remote Sensing Certificate and minor modification of Geography’s GIS & Remote Sensing Certificate.

4. Effective Date: Sept 2021

5. State what the changes are (Example: increase / decrease to the number of major credits)

We are revising the AP/Geography’s GIS and Remote Sensing Certificate and retiring the ES/BES GIS and Remote Sensing Certificate. Through this, there will be a reduction of core requirement by 9.0 credits: The requirement of GEOG 1000 6.0 or 1400 6.0 and GEOG 2420 3.0 are changed to prerequisites; and replaced with a list of elective courses relevant to the certificate. We are also proposing a title change for certificate, as well as title changes for the core courses.

6. Provide the rationale for the proposed changes that is rooted in the program learning outcomes. With the establishment of the new EUC faculty, the legacy certificates in AP/Geography and ES/BES need to be combined into one certificate. We are retiring the BES GIS/RS certificate and modifying the GEOG GIS/RS certificate. Two main actions are to clean up course offerings (i.e., get rid of cross listings) that are no longer necessary and change the certificate title. The new title is a better reflection of the modified program.

7. Provide an updated mapping of the program requirements to the program learning outcomes to illustrate how the proposed requirements will support the achievement of program learning objectives. See Appendix A for the learning outcomes and mapping.

8. If relevant, summarize the consultation undertaken with relevant academic units, including commentary on the impact of the proposed changes on other programs. Provide individual statements from the relevant program(s) confirming consultation and their support.

We emailed three units on the use of LE/EECS 1530 3.00 Computer Use: Programming; ITEC 1010 3.0 Information and Organizations; ESSE 4220 3.00: Remote Sensing of the Earth’s Surface and ESSE 4230 3.00: Remote Sensing of the Atmosphere as electives (see Appendix B).

9. Describe any resource implications and how they are being addressed (e.g., through a reallocation of existing resources). If new/additional resources are required, provide a statement from the relevant Dean(s)/Principal confirming resources will be in place to implement the changes.

No new additional resources are required. The certificate will be supported by existing staff, Faculty members and resources. By reducing the core requirements by 9.0 credits means that there is more flexibility in student choices and less demand to offer all the core courses for the certificate.

May 11, 2017
10. Provide a summary of how students currently enrolled in the program will be accommodated.

The Geomatics certificate is the most popular certificate from our legacy programs. Currently, we have 36 students enrolled. Given that the changes to the certificate are minor, students who are currently enrolled in either certificate programs will not be impacted because the courses will continue to be offered. Should there be a need, at the course level, students will be accommodated through our existing grand-parented rules effective Fall 2021-Summer 2026. It is assumed that, if necessary, discretion will be used in order to accommodate any students inadvertently disadvantaged by rules implemented by the new Faculty.

11. Provide as an appendix a side-by-side comparison of the existing and proposed program requirements as they will appear in the Undergraduate or Graduate Calendar. See Appendix C.
Appendix A. Geomatics Program Learning Outcomes

I = key ideas, concepts or skills related to LO are introduced
R = reinforced Students are developing and becoming increasingly proficient in demonstrating the learning outcomes; The LO is reinforced with feedback.
M = students master the material by demonstrating the LO with high level of independence and a level of understanding and sophistication expected upon graduation.

Appendix C. Side by Side Calendar

GEOG GIS Certificate

Geographic Information Systems and Remote Sensing

York University students may earn a Certificate in Geographic Information Systems and Remote Sensing concurrent with fulfillment of the requirements of a Bachelor’s Degree.

The Certificate is designed for students to learn theory and techniques of GIS and RS and their applications in urban and natural environments with the aid of the state-of-the-art software packages. Possible job opportunities after obtaining the certificate include various industries such as banks, energy/hydro, environmental planning, mining, real estate, and federal, provincial or municipal governments (e.g., environment, health, natural resources, urban and regional planning). This certificate is open to students concurrently enrolled in any of York University’s undergraduate programs and to students who already hold a BA or BSc degree in Geography or Environmental Science from York University.

In order to be awarded the Certificate in Geographic Information Systems and Remote Sensing, students must achieve and maintain a cumulative grade point average of 6.00 (B) on the York University courses required for that Certificate, and achieve an overall cumulative grade point average of 5.00 (C+) in all courses.

Note: students who have been exempted from the 1000-level requirement may substitute six

EUC Geomatics Certificate

Certificate in Geomatics: Geographic Information Systems and Remote Sensing (24 credits)

Geomatics encompass the art, science and technology involved in collecting, managing and communicating geographically-referenced information. The Certificate prepares students with hands-on technical training. Students develop skills in spatial analysis applications, topographical surveying, geospatial database development, cartographic communication, and project planning and management.

The Certificate in Geomatics: Geographic Information Systems and Remote Sensing (GEOM) may be completed either as a direct entry or concurrently with a Bachelor’s or Honours degree program at York University. Direct entry candidates who previously completed an undergraduate degree in a related field must have a minimum grade point average of 5.00/9.00 (C+). Individuals without an undergraduate degree but who have previous relevant work experience may also apply to the certificate.

Students must register in the certificate program after completing 24 credits. Applications are available from the Office of Student and Academic Services (OSAS) in HNES 137.

To qualify for the certificate, students must complete 24 credits, including:

Prerequisites:

- GEOG 1000 6.0 The world today: an introduction to world geography or GEOG 1401 3.0 Weather and climate or GEOG 1402 3.0 The dynamic earth (or equivalent) and GEOG 2420 3.00 Introductory Statistical Analysis in Geography. Students who have
additional credits which must be approved by the Department of Geography:

- P/GEOG 1000 6.00 Intro to World Geography or AP/GEOG 1400 6.00 Physical Geography (cross-listed to: SC/GEOG 1400 6.00) or AP/GEOG 1410 6.00 Introduction to human geography;
  - AP/GEOG 2340 3.00 (cross-listed to: SC/GEOG 2340 3.00);

- AP/GEOG 2420 3.00 Geoinformatics: Introduction (cross-listed to: SC/GEOG 2420 3.00);

- AP/GEOG 3340 3.00 Geoinformatics GIS I (cross-listed to: SC/GEOG 3340 3.00);

- AP/GEOG 3440 3.00 Geoinformatics: Remote Sensing I (cross-listed to: SC/GEOG 3440 3.00);

- AP/GEOG 4340 3.00 Geoinformatics GIS II (cross-listed to: SC/GEOG 4340 3.00);

- AP/GEOG 4440 3.00 GEOG 4440: Geoinformatics: Remote Sensing II (cross-listed to: SC/GEOG 4440 3.00);

- previously attained/earned post-secondary credentials in the introductory Statistical Analysis in Geography are exempted from this prerequisite.

Core Courses (15 credits) *title changes

- EU/GEOG 2340 3.00 Introduction to Geomatics*

- EU/GEOG 3340 3.00 Fundamentals of Geographic Information Systems (GIS)

- EU/GEOG 3440 3.00 Remote Sensing for Earth Observation

- EU/GEOG 4340 3.00 Spatial analysis and problem solving with Geographic Information Systems (GIS)

- EU/GEOG 4440 3.00 Processing and Analysis of Earth Observation Data

Elective Courses: (9 credits of which 6 credits must be at the 3000 or 4000 level) and students must undertake a geomatics oriented assignment in each electives course verified by the course director.

- GEOG 3380.00 Urban Social Analysis
- ESSE 4220 3.00: Remote Sensing of the Earth's Surface

Additional courses may be considered as electives subject to the pre-approval of the Certificate coordinator.

Graduating with a certificate:
Students in the Geomatics Certificate must maintain a cumulative grade point average of 5.00 (C+) in their degree program and a minimum grade point average of 6.00 (B) in the 24 credits required for the certificate.

Students must apply to Graduate using the Certificate form, which is available on the York University current students website. Certificates will not be conferred until candidates have successfully completed an undergraduate degree program if they are simultaneously enrolled in a degree and a certificate program.

**BES GIS Certificate— to be retired**

CORE (24.00 credits)

ENVS 1000 6.00: Earth in Our Hands

ENVS 2009 3.00: Quantitative Methods in Environmental Studies

ENVS 3520 3.00: Applications of Geographic Information Systems in Environmental Studies

ENVS 3521 3.00: Geoinformatics: Remote Sensing I

ENVS 4520 3.00: Geographical Information Systems Applications in Environmental Studies

ENVS 4521 3.00: Geoinformatics: Remote Sensing II
### Sensing II

Other courses that may be considered as electives are: LE/EECS 1530 3.00 and ES/ENVS 4523 3.00 Systems Thinking in Environmental Studies: Theory and Methodologies

### Minimum Requirements for Multiple Certificates

Students may acquire more than one certificate during the course of their studies provided that at least 18.00 credits in each certificate program are unique to the specific certificate.

### Residency Requirements

York University’s residency requirement for Undergraduate certificate programs is 18.00 credits for certificate programs requiring up to 36.00 credits, and 50% of
the required credits for certificates comprising more than 36.1 credits. Normally, for Undergraduate certificate programs requiring 18.00 credits or less, all credits are completed at York.
New Grading Schemes: Template for Program and/or Academic Regulation Changes

This template should be used for changes to program and/or academic regulations (e.g. changes to admission, degree and program requirements) resulting from the transition to the new grading schemes effective FW2023-2024.

Once this template has been completed and reviewed by the appropriate Faculty-level governance body/bodies, it should be submitted to ASCP via a MachForm (at the hyperlink) by no later than April 7, 2021.

1. Please select ONE of the two checkboxes below.
☒ A. The changes described below:
   1) consist of a mathematical conversion of GPA requirements from the current to the new grading schemes in accordance with the conversion scales OR
   2) align with the minimum undergraduate thresholds outlined in the Policy on York University Grading Schemes

☐ B. The changes described below do not meet the criteria outlined in A, i.e. they represent a change to GPA requirements that varies from the mathematical conversion and University standard or include elements such as major GPA, course grade or graduation requirements.

If you require clarity about which category is most appropriate, please contact the ASCP Secretary at kwhite1@yorku.ca.

3. Degree Designation: Specialized Honours BA, BSc; Honours BA, BSc; BA, BSc

4. Type of Modification: Changes to program or academic regulations as a result of the transition to the new grading schemes (Additional detail may be added)

5. Effective Date: FW2023-2024

6. Describe the proposed changes to the program or academic regulations. (Not required if A is checked)

7. Provide the rationale for the proposed changes that is rooted in academic standards, fairness to students, and the program learning outcomes. (Not required if A is checked)

8. Summarize the consultation undertaken within the program and with relevant academic or non-academic units, such as the Dean or Principal’s Office and the Office of the University Registrar. (Not required if A is checked)

9. Provide as an appendix a side-by-side comparison of the existing and proposed program requirements as they will appear in the Undergraduate or Graduate Calendar.
Instructions:

- Reproduce only the sections in which GPA changes are being made for the program/certificate/diploma. Please ensure to capture all references to the GPA.
- Reproduce relevant content for all degree options within a program (Specialized Honours, Honours, 90-credit, Honours Minor, etc).
- Denote deletions/changes with strikethrough in the LEFT column and additions/changes with **bold, blue, underlined** type in the RIGHT column.
- An example is provided below for reference.

D. Upper level requirement: a minimum of 18 credits at the 3000 level or above.
E. Additional elective credits, as required for an overall total of at least 90 credits.
F. Standing requirements: a minimum overall grade point average of 1.70 (C-) is required in order to be eligible to graduate with a BSc degree (bachelor program).
G. Not all non-core courses are offered every year.

**Bachelor – Biodiversity and Conservation Stream**

C. Science breadth: satisfied by above requirements.
D. Upper level requirement: a minimum of 18 credits at the 3000 level or above.
E. Additional elective credits, as required for an overall total of at least 90 credits.
F. Standing requirements: a minimum overall grade point average of 1.70 (C-) is required in order to be eligible to graduate with a BSc degree (bachelor program).
G. Not all non-core courses are offered every year.
New Grading Schemes: Template for Program and/or Academic Regulation Changes

This template should be used for changes to program and/or academic regulations (e.g. changes to admission, degree and program requirements) resulting from the transition to the new grading schemes effective FW2023-2024.

Once this template has been completed and reviewed by the appropriate Faculty-level governance body/bodies, it should be submitted to ASCP via a MachForm (at the hyperlink) by no later than April 7, 2021.

1. Please select ONE of the two checkboxes below.
   ☒ A. The changes described below:
   1) consist of a mathematical conversion of GPA requirements from the current to the new grading schemes in accordance with the conversion scales OR
   2) align with the minimum undergraduate thresholds outlined in the Policy on York University Grading Schemes

   ☐ B. The changes described below do not meet the criteria outlined in A, i.e. they represent a change to GPA requirements that varies from the mathematical conversion and University standard or include elements such as major GPA, course grade or graduation requirements.

If you require clarity about which category is most appropriate, please contact the ASCP Secretary at kwhite1@yorku.ca.

2. Program: Science

3. Degree Designation: Honours BSc; BSc

4. Type of Modification: Changes to program or academic regulations as a result of the transition to the new grading schemes (Additional detail may be added).

5. Effective Date: FW2023-2024

6. Describe the proposed changes to the program or academic regulations. (Not required if A is checked)

7. Provide the rationale for the proposed changes that is rooted in academic standards, fairness to students, and the program learning outcomes. (Not required if A is checked)

8. Summarize the consultation undertaken within the program and with relevant academic or non-academic units, such as the Dean or Principal’s Office and the Office of the University Registrar. (Not required if A is checked)

9. Provide as an appendix a side-by-side comparison of the existing and proposed program requirements as they will appear in the Undergraduate or Graduate Calendar.

Instructions:
- Reproduce only the sections in which GPA changes are being made for the program/certificate/diploma. Please ensure to capture all references to the GPA.
- Reproduce relevant content for all degree options within a program (Specialized Honours, Honours, 90-credit, Honours Minor, etc).
- Denote deletions/changes with strikethrough in the LEFT column and additions/changes with bold, blue, underlined type in the RIGHT column.
- An example is provided below for reference.

2. Program: Chemistry

3. Degree Designation:
   Bachelor of Science
   Honours Major Bachelor of Science
   Specialized Honours Bachelor of Science
   Specialized Honours Bachelor of Science – Pharmaceutical and Biological Chemistry Stream

4. Type of Modification: Changes to program or academic regulations as a result of the transition to the new grading schemes

5. Effective Date: FW2023-2024

6. Describe the proposed changes to the program or academic regulations. (Not required if A is checked)

7. Provide the rationale for the proposed changes that is rooted in academic standards, fairness to students, and the program learning outcomes. (Not required if A is checked)

8. Summarize the consultation undertaken within the program and with relevant academic or non-academic units, such as the Dean or Principal’s Office and the Office of the University Registrar. (Not required if A is checked)
9. Provide as an appendix a side-by-side comparison of the existing and proposed program requirements as they will appear in the Undergraduate or Graduate Calendar.

See next page.
Current requirements

Chemistry

Bachelor Program

 [...] F. Standing requirements: a minimum overall grade point average of 4.00 (C) is required in order to be eligible to graduate with a BSc degree (bachelor program).

Specialized Honours Program

 [...] F. Standing requirements: to graduate in a Specialized Honours program requires successful completion of all Faculty requirements and departmental required courses and a minimum cumulative credit-weighted grade point average of 5.50 (B) over all courses completed.

Specialized Honours Program Stream in Pharmaceutical and Biological Chemistry

 [...] F. Standing requirements: To graduate in a Specialized Honours program requires successful completion of all Faculty requirements and departmental required courses and a minimum cumulative credit-weighted grade point average of 5.50 (B) over all courses completed.

Honours Major Program

 [...] F. Standing requirements: to graduate in an Honours program requires successful completion of all Faculty requirements and departmental required courses and a minimum cumulative credit-weighted grade point average of 5.00 (C+) over all courses completed.

Proposed requirements

Chemistry

Bachelor Program

 [...] F. Standing requirements: a minimum overall grade point average of 1.70 (C-) is required in order to be eligible to graduate with a BSc degree (bachelor program).

Specialized Honours Program

 [...] F. Standing requirements: to graduate in a Specialized Honours program requires successful completion of all Faculty requirements and departmental required courses and a minimum cumulative credit-weighted grade point average of 2.70 (B-) over all courses completed.

Specialized Honours Program Stream in Pharmaceutical and Biological Chemistry

 [...] F. Standing requirements: To graduate in a Specialized Honours program requires successful completion of all Faculty requirements and departmental required courses and a minimum cumulative credit-weighted grade point average of 2.70 (B-) over all courses completed.

Honours Major Program

 [...] F. Standing requirements: to graduate in an Honours program requires successful completion of all Faculty requirements and departmental required courses and a minimum cumulative credit-weighted grade point average of 2.00 (C) over all courses completed.
New Grading Schemes: Template for Program and/or Academic Regulation Changes

This template should be used for changes to program and/or academic regulations (e.g. changes to admission, degree and program requirements) resulting from the transition to the new grading schemes effective FW2023-2024.

Please complete this form and return to Wendy Anderson (wanders@yorku.ca) by Monday, March 8.

1. Please select ONE of the two checkboxes below.
   ☒ A. The changes described below:
     1) consist of a mathematical conversion of GPA requirements from the current to the new grading schemes in accordance with the conversion scales OR
     2) align with the minimum undergraduate thresholds outlined in the Policy on York University Grading Schemes

   ☐ B. The changes described below do not meet the criteria outlined in A, i.e. they represent a change to GPA requirements that varies from the mathematical conversion and University standard or include elements such as major GPA, course grade or graduation requirements.

   If you require clarity about which category is most appropriate, please contact the ASCP Secretary at kwhite1@yorku.ca.

2. Program: Neuroscience

3. Degree Designation: (List all degree options within the program): Specialized Honours BSc

4. Type of Modification: Changes to program or academic regulations as a result of the transition to the new grading schemes (Additional detail may be added). Conversion of GPA (mathematical).

5. Effective Date: FW2023-2024

6. Describe the proposed changes to the program or academic regulations. (Not required if A is checked). Prior to the implementation date of the 9.00 to 4.00 GPA changes, we will be submitting a non-major modification proposal (to be implemented Sept 2022) to change the calendar language for the qualifying period and continuation requirements. The non-major modification will be as follows:

Change from:
Qualifying Period: once admitted students will enter a qualifying period. Depending on their pathway (Biology, Kinesiology & Health Science, or Psychology) students must complete their first year curriculum with an overall grade point average (GPA) of at least 7.50 on at least 27 earned credits at the end of first year. Successful completion of the qualifying period requirements will allow students to continue in the BSc Specialized Honour neuroscience program. Students proceeding in the program after the qualifying period are required to maintain the continuation GPA requirement.
Change to:
Qualifying Period: once admitted students will enter a qualifying period. Depending on their pathway (Biology, Kinesiology & Health Science, or Psychology) students must **achieve** an overall grade point average (GPA) of at least **7.00 (B+)** on at least **24** earned credits. Successful completion of the qualifying period requirements will allow students to continue in the BSc Specialized Honour neuroscience program. Students proceeding in the program after the qualifying period are required to maintain the continuation GPA requirement.

For continuation requirement Change from:
Continuation requirement: students must attain a cumulative grade point average of **6.00 (B)** on **30** credits to continue in the program.

Change to:
Continuation requirement: students **proceeding in the program after the qualifying period are required to maintain an overall GPA of 6.00 (B)** to continue in the program.

The existing calendar language are now as described in the “Change to” sections above. The proposed changes for the GPA for this document represented in the calendar copy below is now a direct mathematical calculation.

7. Provide the rationale for the proposed changes that is rooted in academic standards, fairness to students, and the program learning outcomes. **(Not required if A is checked).**

8. Summarize the consultation undertaken within the program and with relevant academic or non-academic units, such as the Dean or Principal’s Office and the Office of the University Registrar. **(Not required if A is checked).**

9. Provide as an appendix a side-by-side comparison of the existing and proposed program requirements as they will appear in the Undergraduate or Graduate Calendar.

Instructions:
- Reproduce only the sections in which GPA changes are being made for the program/certificate/diploma. Please ensure to capture all references to the GPA.
- Reproduce relevant content for all degree options within a program (Specialized Honours, Honours, 90-credit, Honours Minor, etc).
- Denote deletions/changes with strikethrough in the LEFT column and additions/changes with **bold, blue, underlined** type in the RIGHT column.
- An example is provided below for reference.

New Grading Schemes: Template for Program and/or Academic Regulation Changes

This template should be used for changes to program and/or academic regulations (e.g. changes to admission, degree and program requirements) resulting from the transition to the new grading schemes effective FW2023-2024.

Once this template has been completed and reviewed by the appropriate Faculty-level governance body/bodies, it should be submitted to ASCP via a MachForm (at the hyperlink) by no later than April 7, 2021.

1. Please select ONE of the two checkboxes below.
   - ☐ A. The changes described below:
     1) consist of a mathematical conversion of GPA requirements from the current to the new grading schemes in accordance with the conversion scales OR
     2) align with the minimum undergraduate thresholds outlined in the Policy on York University Grading Schemes
   - ☒ B. The changes described below do not meet the criteria outlined in A, i.e. they represent a change to GPA requirements that varies from the mathematical conversion and University standard or include elements such as major GPA, course grade or graduation requirements.

If you require clarity about which category is most appropriate, please contact the ASCP Secretary at kwhite1@yorku.ca.

2. Program: Biochemistry

3. Degree Designation: (List all degree options within the program)
   - Specialized Honours, Biochemistry
   - Honours Major, Biochemistry,
   - Honours Double Major, Biochemistry major
   - Honours Major/Minor, Biochemistry major

4. Type of Modification: Changes to program or academic regulations as a result of the transition to the new grading schemes (Additional detail may be added)

5. Effective Date: FW2023-2024

6. Describe the proposed changes to the program or academic regulations. (Not required if A is checked)

   We are making changes to progression and graduation requirements to improve retention and progression.
7. Provide the rationale for the proposed changes that is rooted in academic standards, fairness to students, and the program learning outcomes. (Not required if A is checked)

Honours major changes – we have removed special requirements for declaration and progression to improve retention and student progression.

Specialized Honours – We have decreased progression requirements to support student retention and progression. We have used a mathematical calculation to maintain the same % average for graduation (see rationale below).

There is a difference between converting a single grade (like 70% or B-) to a grade point, on the one hand, and converting the average of a collection of grade points back to an average letter grade or average percent.

Simple example (current system):
The two grades C+ and B give a gpa of 5.5 if the courses have the same number of credits. What is the corresponding average letter grade or percentage? If you take C+ to mean the midpoint of its % range (67.5%) and B to mean the same (72.5%), then you get a 70% average.

More precisely, given that the actual % grades are unknown because they are not reported;:
C+ = 67.5% +/- 2.5%
B = 72.5% +/- 2.5%
Avg = 70% +/- 2.5%/sqrt(2) = 70% +/- 1.8%
In general, a collection of N letter grades averaging to a gpa of 5.5 represents an average percentage of 70% +/- 2.5%/sqrt(N) or a barebones B. We have therefore converted the GPA of 5.5 to a GPA of 2.7 (B-) in the new system.

Summarize the consultation undertaken within the program and with relevant academic or non-academic units, such as the Dean or Principal’s Office and the Office of the University Registrar. (Not required if A is checked)

Both Biology and Chemistry departments were consulted and have approved the changes. Science Academic Services and the Dean’s office have been notified.

8. Provide as an appendix a side-by-side comparison of the existing and proposed program requirements as they will appear in the Undergraduate or Graduate Calendar.

Instructions:
• Reproduce only the sections in which GPA changes are being made for the program/certificate/diploma. Please ensure to capture all references to the GPA.
• Reproduce relevant content for all degree options within a program (Specialized Honours, Honours, 90-credit, Honours Minor, etc).
• Denote deletions/changes with strikethrough in the LEFT column and additions/changes with bold, blue, underlined type in the RIGHT column.
• An example is provided below for reference.
F. Standing requirements: To declare Honours requires successful completion of at least 24 credits, a minimum cumulative credit-weighted grade point average of 5.00 (C+) over all science courses completed, and a minimum cumulative credit-weighted grade point average of 4.25 over all courses completed.

To proceed in each year of the Honours program requires a minimum cumulative credit-weighted grade point average of 5.00 (C+) over all science courses completed, and a minimum cumulative credit-weighted overall grade point average as specified in the Academic Standards section of the Faculty of Science Regulations Governing Undergraduate Degree Requirements section.

To graduate in Honours biochemistry requires successful completion of all Faculty requirements and all required program courses, a minimum cumulative credit-weighted grade point average of 5.00 (C+) over all science (SC) courses completed, and a minimum cumulative credit-weighted grade point average of 5.00 (C+) over all courses completed.

Biochemistry, Specialized Honours

F. Standing requirements: To declare Honours requires successful completion of at least 24 credits, a minimum cumulative credit-weighted grade point average of 5.50 (B) over all science courses completed, and a minimum cumulative credit-weighted grade point average of 4.25 over all courses completed.

To proceed in each year of the Specialized Honours program requires a minimum cumulative credit-weighted grade point average of 5.50 (B) over all science courses completed, and a minimum cumulative credit-weighted overall grade point average as specified in the Academic Standards section of the Faculty of Science Regulations Governing Undergraduate Degree Requirements section.

To graduate in Specialized Honours biochemistry requires successful completion of all Faculty requirements and all required program courses, a minimum cumulative credit-weighted grade point average of 5.50 (B) over all science (SC) courses completed, and a minimum cumulative credit-weighted grade point average of 5.00 (C+) over all courses completed.

Biochemistry, Specialized Honours

F. Standing requirements: To declare Specialized Honours requires successful completion of at least 24 credits, a minimum cumulative credit-weighted grade point average of 2.3 (C+) over all science (SC) courses completed.

To proceed in each year of the Specialized Honours program requires a minimum cumulative credit-weighted grade point average of 2.3 (C+) over all science (SC) courses completed, and a minimum cumulative credit-weighted overall grade point average as specified in the Academic Standards section of the Faculty of Science Regulations Governing Undergraduate Degree Requirements section.

To graduate in Specialized Honours biochemistry requires successful completion of all Faculty requirements and all required program courses, a minimum cumulative credit-weighted grade point average of 2.7 (B-) over all science (SC) courses completed, and a minimum cumulative credit-weighted grade point average of 2.00 (C) over all courses completed.
credit-weighted grade point average of 5.00 (C+) over all courses completed.
New Grading Schemes: Template for Program and/or Academic Regulation Changes

This template should be used for changes to program and/or academic regulations (e.g. changes to admission, degree and program requirements) resulting from the transition to the new grading schemes effective FW2023-2024.

Once this template has been completed and reviewed by the appropriate Faculty-level governance body/bodies, it should be submitted to ASCP via a MachForm (at the hyperlink) by no later than April 7, 2021.

1. Please select ONE of the two checkboxes below.
   ☐ A. The changes described below:
      1) consist of a mathematical conversion of GPA requirements from the current to the new grading schemes in accordance with the conversion scales OR
      2) align with the minimum undergraduate thresholds outlined in the Policy on York University Grading Schemes

   ☒ B. The changes described below do not meet the criteria outlined in A, i.e. they represent a change to GPA requirements that varies from the mathematical conversion and University standard or include elements such as major GPA, course grade or graduation requirements.

If you require clarity about which category is most appropriate, please contact the ASCP Secretary at kwhite1@yorku.ca.

2. Program: Biology, iBSc Biology, Environmental Biology

3. Degree Designation: (List all degree options within the program)
   
   Bachelor Biology
   
   Specialized Honours Biology
   
   Specialized Honours Biology, Biotechnology Stream
   
   Specialized Honours Biology, Biomedical Science Stream
   
   Honours Major, Biology
   
   Honours Major, Biology, Biomedical Science Stream
   
   Honours Major/Minor, Biology Major
   
   Honours Major/Minor, Biology Major, Biomedical Science Stream
   
   Honours Minor, Biology
   
   iBSc Biology Specialized Honours
4. Type of Modification: Changes to program or academic regulations as a result of the transition to the new grading schemes

5. Effective Date: FW2023-2024

6. Describe the proposed changes to the program or academic regulations. (Not required if A is checked)

Proposed changes are in keeping with current requirements, which add a major GPA requirement for Honours programs. The GPA change maintains same minimum average GPA on the major.

7. Provide the rationale for the proposed changes that is rooted in academic standards, fairness to students, and the program learning outcomes. (Not required if A is checked)

As this is not a change in degree requirements no rationale is required (rationale was previously approved).

8. Summarize the consultation undertaken within the program and with relevant academic or non-academic units, such as the Dean or Principal’s Office and the Office of the University Registrar. (Not required if A is checked)

Consulted Associate Dean, Students and was approved by department.

9. Provide as an appendix a side-by-side comparison of the existing and proposed program requirements as they will appear in the Undergraduate or Graduate Calendar.

Instructions:
- Reproduce only the sections in which GPA changes are being made for the program/certificate/diploma. Please ensure to capture all references to the GPA.
- Reproduce relevant content for all degree options within a program (Specialized Honours, Honours, 90-credit, Honours Minor, etc).
- Denote deletions/changes with strike-through in the LEFT column and additions/changes
with **bold, blue, underlined** type in the RIGHT column.

- An example is provided below for reference.

</table>

**Bachelor Program**

A. General education:

- non-science requirement: 12 credits;
- mathematics: SC/MATH 1505 6.00, or six credits from SC/MATH 1013 3.00, SC/MATH 1014 3.00, SC/MATH 1025 3.00;
- computer science: LE/EECS 1520 3.00 or LE/EECS 1530 3.00 or LE/EECS 1540 3.00;
- foundational science: one of SC/CHEM 1000 3.00 and SC/CHEM 1001 3.00 (prerequisites for SC/Biol 2020 3.00 and SC/CHEM 2020 3.00); SC/PHYS 1410 6.00; SC/PHYS 1420 6.00; SC/PHYS 1010 6.00; SC/ISCI 1310 6.00; SC/PHYS 1411 3.00 and SC/PHYS 1412

A. General education:

- non-science requirement: 12 credits;
- mathematics: SC/MATH 1505 6.00, or six credits from SC/MATH 1013 3.00, SC/MATH 1014 3.00, SC/MATH 1025 3.00;
- computer science: LE/EECS 1520 3.00 or LE/EECS 1530 3.00 or LE/EECS 1540 3.00;
- foundational science: one of SC/CHEM 1000 3.00 and SC/CHEM 1001 3.00 (prerequisites for SC/Biol 2020 3.00 and SC/CHEM 2020 3.00); SC/PHYS 1410 6.00; SC/PHYS 1420 6.00; SC/PHYS 1010 6.00; SC/ISCI 1310 6.00; SC/PHYS 1411 3.00 and SC/PHYS 1412
3.00; SC/PHYS 1421  
3.00 and SC/PHYS 1422  
3.00; SC/PHYS 1011  
3.00 and SC/PHYS 1012 3.00; SC/ISCI 1301 3.00 and SC/ISCI 1302 3.00.

B. Major requirements:

- the program core specified above (24 credits);
- additional credits from biology courses, as required for an overall total of at least 46 credits from biology courses, including at least 12 credits at the 3000 level or above.

C. Science breadth: 24 credits in science disciplines outside the major, of which three credits must be at the 2000 level or above. 15 of these 24 credits are satisfied by the General Education requirement.

D. Upper level: a minimum of 18 credits at the 3000 level or above.

E. Additional elective credits, as required, for an overall total of 90 credits.

F. Standing requirements: a minimum overall grade point average of 4.00 (C) is required in order to be eligible to graduate with a BSc degree (bachelor program).

Honours Programs

Specialized Honours Program

Students may follow a stream in biology, biomedical science or biotechnology.

A. General education:

- non-science requirement: 12 credits;
- mathematics: SC/MATH 1505 6.00, or six credits from SC/MATH 1013 3.00, SC/MATH 1014 3.00, SC/MATH 1025 3.00;

3.00; SC/PHYS 1421  
3.00 and SC/PHYS 1422  
3.00; SC/PHYS 1011  
3.00 and SC/PHYS 1012 3.00; SC/ISCI 1301 3.00 and SC/ISCI 1302 3.00.

B. Major requirements:

- the program core specified above (24 credits);
- additional credits from biology courses, as required for an overall total of at least 46 credits from biology courses, including at least 12 credits at the 3000 level or above.

C. Science breadth: 24 credits in science disciplines outside the major, of which three credits must be at the 2000 level or above. 15 of these 24 credits are satisfied by the General Education requirement.

D. Upper level: a minimum of 18 credits at the 3000 level or above.

E. Additional elective credits, as required, for an overall total of 90 credits.

F. Standing requirements: a minimum overall grade point average of 1.70 (C-) is required in order to be eligible to graduate with a BSc degree (bachelor program).

Honours Programs

Specialized Honours Program

Students may follow a stream in biology, biomedical science or biotechnology.

A. General education:

- non-science requirement: 12 credits;
- mathematics: SC/MATH 1505 6.00, or six credits from SC/MATH 1013 3.00, SC/MATH 1014 3.00, SC/MATH 1025 3.00;
- **computer science:** LE/EECS 1520 3.00 or LE/EECS 1530 3.00 or LE/EECS 1540 3.00;
- **foundational science:** one of SC/CHEM 1000 3.00 and SC/CHEM 1001 3.00 (prerequisites for SC/BIOL 2020 3.00 and SC/CHEM 2020 3.00); SC/PHYS 1410 6.00; SC/PHYS 1420 6.00; SC/PHYS 1010 6.00; SC/ISCI 1310 6.00; SC/PHYS 1411 3.00 and SC/PHYS 1412 3.00; SC/PHYS 1421 3.00 and SC/PHYS 1422 3.00; SC/PHYS 1011 3.00 and SC/PHYS 1012 3.00; SC/ISCI 1301 3.00 and SC/ISCI 1302 3.00.

Note that the biomedical science and biotechnology streams require specific courses (see below).

### B. Major requirements:

#### Biology Stream

- The program core, as specified above (24 credits);
- SC/BIOL 3100 2.00, SC/BIOL 4000 8.00 or SC/BIOL 4000 3.00;
- additional credits from biology courses, as required for an overall total of at least 68 credits from biology courses, including at least 18 credits at the 3000 or higher level, of which at least 12 credits are at the 4000 level.

#### Biomedical Science Stream

- SC/CHEM 1000 3.00 and SC/CHEM 1001 3.00;
- one of SC/PHYS 1410 6.00; SC/PHYS 1420 6.00; SC/PHYS 1010 6.00; SC/ISCI 1310 6.00; SC/PHYS 1411 3.00 and SC/PHYS 1412 3.00; SC/PHYS 1421 3.00 and SC/PHYS 1422 3.00; SC/PHYS 1011 3.00 and SC/PHYS 1012 3.00; SC/ISCI 1301 3.00 and SC/ISCI 1302 3.00.

Note that the biomedical science and biotechnology streams require specific courses (see below).
1301 3.00 and SC/ISCI 1302 3.00; HH/PSYC 1010 6.00;

- SC/BIOL 1000 3.00 and SC/BIOL 1001 3.00; SC/BIOL 2020 3.00; SC/BIOL 2021 3.00; SC/BIOL 2040 3.00; SC/BIOL 2070 3.00; SC/CHEM 2020 3.00 and SC/CHEM 2021 3.00; a minimum of one of SC/BIOL 2030 4.00 or SC/BIOL 2060 3.00; SC/BIOL 3100 2.00; SC/BIOL 4000 8.00 or SC/BIOL 4000 3.00;

- a minimum of nine credits chosen from the following courses: SC/BIOL 3060 4.00; SC/BIOL 3070 4.00; SC/BIOL 3110 3.00; SC/BIOL 3130 3.00; SC/BIOL 3150 4.00; SC/BIOL 3155 3.00; SC/BIOL 4010 3.00;

- additional biology credits from the following courses, as required, for an overall total of 68 biology credits: SC/BIOL 2010 4.00, SC/BIOL 2030 4.00, SC/BIOL 2060 3.00, SC/BIOL 3010 3.00, SC/BIOL 3060 4.00, SC/BIOL 3070 4.00, SC/BIOL 3071 3.00, SC/BIOL 3110 3.00, SC/BIOL 3120 3.00, SC/BIOL 3130 3.00, SC/BIOL 3140 4.00, SC/BIOL 3150 4.00, SC/BIOL 3155 3.00, SC/BIOL 4010 3.00, SC/BIOL 4020 3.00, SC/BIOL 4030 3.00, SC/BIOL 4061 3.00, SC/BIOL 4110 4.00, SC/BIOL 4141 3.00, SC/BIOL 4150 3.00, SC/BIOL 4151 3.00, SC/BIOL 4155 3.00, SC/BIOL 4200 3.00, SC/BIOL 4220 4.00, SC/BIOL 4270 3.00, SC/BIOL 4285 3.00, SC/BIOL 4290 4.00, SC/BIOL 4310 3.00, SC/BIOL 4320 3.00, SC/BIOL 4350 4.00, SC/BIOL 4360 3.00, SC/BIOL 4370 3.00, SC/BIOL 4380 3.00, SC/BIOL 4410 3.00, SC/BIOL 4450 4.00, SC/BIOL 4510 3.00;

- within the 68 biology credits, at least 18 credits must be at the 3000 level

1301 3.00 and SC/ISCI 1302 3.00; HH/PSYC 1010 6.00;

- SC/BIOL 1000 3.00 and SC/BIOL 1001 3.00; SC/BIOL 2020 3.00; SC/BIOL 2021 3.00; SC/BIOL 2040 3.00; SC/BIOL 2070 3.00; SC/CHEM 2020 3.00 and SC/CHEM 2021 3.00; a minimum of one of SC/BIOL 2030 4.00 or SC/BIOL 2060 3.00; SC/BIOL 3100 2.00; SC/BIOL 4000 8.00 or SC/BIOL 4000 3.00;

- a minimum of nine credits chosen from the following courses: SC/BIOL 3060 4.00; SC/BIOL 3070 4.00; SC/BIOL 3110 3.00; SC/BIOL 3130 3.00; SC/BIOL 3150 4.00; SC/BIOL 3155 3.00; SC/BIOL 4010 3.00;

- additional biology credits from the following courses, as required, for an overall total of 68 biology credits: SC/BIOL 2010 4.00, SC/BIOL 2030 4.00, SC/BIOL 2060 3.00, SC/BIOL 3010 3.00, SC/BIOL 3060 4.00, SC/BIOL 3070 4.00, SC/BIOL 3071 3.00, SC/BIOL 3110 3.00, SC/BIOL 3120 3.00, SC/BIOL 3130 3.00, SC/BIOL 3140 4.00, SC/BIOL 3150 4.00, SC/BIOL 3155 3.00, SC/BIOL 4010 3.00, SC/BIOL 4020 3.00, SC/BIOL 4030 3.00, SC/BIOL 4061 3.00, SC/BIOL 4110 4.00, SC/BIOL 4141 3.00, SC/BIOL 4150 3.00, SC/BIOL 4151 3.00, SC/BIOL 4155 3.00, SC/BIOL 4200 3.00, SC/BIOL 4220 4.00, SC/BIOL 4270 3.00, SC/BIOL 4285 3.00, SC/BIOL 4290 4.00, SC/BIOL 4310 3.00, SC/BIOL 4320 3.00, SC/BIOL 4350 4.00, SC/BIOL 4360 3.00, SC/BIOL 4370 3.00, SC/BIOL 4380 3.00, SC/BIOL 4410 3.00, SC/BIOL 4450 4.00, SC/BIOL 4510 3.00;

- within the 68 biology credits, at least 18 credits must be at the 3000 level
or higher, of which at least 12 credits must be at the 4000 level. This must also include a minimum of seven credits from 3000 level or higher biology courses with an associated laboratory component.

Biotechnology Stream

- SC/CHEM 1000 3.00 and SC/CHEM 1001 3.00; SC/PHYS 1410 6.00;
- one of SC/PHYS 1410 6.00; SC/PHYS 1420 6.00; SC/PHYS 1010 6.00; SC/ISCI 1310 6.00; SC/PHYS 1411 3.00 and SC/PHYS 1412 3.00; SC/PHYS 1421 3.00 and SC/PHYS 1422 3.00; SC/PHYS 1011 3.00 and SC/PHYS 1012 3.00; SC/ISCI 1301 3.00 and SC/ISCI 1302 3.00.
- SC/BIOI 1000 3.00 and SC/BIOI 1001 3.00, SC/BIOI 2020 3.00, SC/BIOI 2021 3.00, SC/BIOI 2040 3.00, SC/BIOI 2060 3.00, SC/BIOI 2070 3.00 and both SC/CHEM 2020 3.00 and SC/CHEM 2021 3.00;
- SC/CHEM 2080 4.00; SC/CHEM 3070 3.00 or SC/CHEM 3071 3.00 or SC/CHEM 4050 3.00; SC/CHEM 3080 4.00;
- SC/BIOI 3100 2.00; SC/BIOI 3110 3.00; SC/BIOI 3130 3.00; SC/BIOI 3140 4.00; SC/BIOI 3150 4.00;
- SC/BIOI 4000 8.00 or SC/BIOI 4000 3.00; SC/BIOI 4290 4.00;
- a minimum of 9 credits chosen from the following courses in lists A and B, with a minimum of six credits chosen from list A.
  - List A: SC/BIOI 3010 3.00, SC/BIOI 3120 3.00, SC/BIOI 3155 3.00, SC/BIOI 4020 3.00, SC/BIOI 4030 3.00, SC/BIOI 4061 3.00, SC/BIOI 4285 3.00;
  - List B: SC/BIOI 3010 3.00, SC/BIOI 3120 3.00, SC/BIOI 3155 3.00, SC/BIOI 4020 3.00, SC/BIOI 4030 3.00, SC/BIOI 4061 3.00, SC/BIOI 4285 3.00;

or higher, of which at least 12 credits must be at the 4000 level. This must also include a minimum of seven credits from 3000 level or higher biology courses with an associated laboratory component.

Biotechnology Stream

- SC/CHEM 1000 3.00 and SC/CHEM 1001 3.00; SC/PHYS 1410 6.00;
- one of SC/PHYS 1410 6.00; SC/PHYS 1420 6.00; SC/PHYS 1010 6.00; SC/ISCI 1310 6.00; SC/PHYS 1411 3.00 and SC/PHYS 1412 3.00; SC/PHYS 1421 3.00 and SC/PHYS 1422 3.00; SC/PHYS 1011 3.00 and SC/PHYS 1012 3.00; SC/ISCI 1301 3.00 and SC/ISCI 1302 3.00.
- SC/BIOI 1000 3.00 and SC/BIOI 1001 3.00, SC/BIOI 2020 3.00, SC/BIOI 2021 3.00, SC/BIOI 2040 3.00, SC/BIOI 2060 3.00, SC/BIOI 2070 3.00 and both SC/CHEM 2020 3.00 and SC/CHEM 2021 3.00;
- SC/CHEM 2080 4.00; SC/CHEM 3070 3.00 or SC/CHEM 3071 3.00 or SC/CHEM 4050 3.00; SC/CHEM 3080 4.00;
- SC/BIOI 3100 2.00; SC/BIOI 3110 3.00; SC/BIOI 3130 3.00; SC/BIOI 3140 4.00; SC/BIOI 3150 4.00;
- SC/BIOI 4000 8.00 or SC/BIOI 4000 3.00; SC/BIOI 4290 4.00;
- a minimum of 9 credits chosen from the following courses in lists A and B, with a minimum of six credits chosen from list A.
  - List A: SC/BIOI 3010 3.00, SC/BIOI 3120 3.00, SC/BIOI 3155 3.00, SC/BIOI 4020 3.00, SC/BIOI 4030 3.00, SC/BIOI 4061 3.00, SC/BIOI 4285 3.00;
• List B: **SC/BIOL 3160 4.00** (SC/BIOL 2010 4.00 is a prerequisite), **SC/BIOL 4010 3.00, SC/BIOL 4040 3.00, SC/BIOL 4150 3.00, SC/BIOL 4151 3.00, SC/BIOL 4160 3.00, SC/BIOL 4270 3.00, SC/BIOL 4370 3.00, SC/BIOL 4510 3.00;

• additional biology credits as required for an overall total of at least 57 biology credits, including at least 12 credits at the 4000 level.

C. Science breadth: a total of 24 credits in science disciplines outside the major, of which three credits must be at the 2000 level or above. 15 of these 24 credits are satisfied by the General Education requirement. In the biomedical science and biotechnology streams, this requirement is fully satisfied by the above requirements.

D. Upper level: a minimum of 42 credits at the 3000 level or above.

E. Additional elective credits, as required, for an overall total of 120 credits.

F. Standing requirements: to declare Specialized Honours requires successful completion of at least 24 credits, a minimum cumulative credit-weighted grade point average of **5.00** (C+) over all courses completed and a minimum cumulative credit-weighted grade point average of **6.00** (B) over all biology courses completed.

To proceed in each year of a Specialized Honours program requires a minimum cumulative credit-weighted grade point average of **5.00** (C+) over all courses completed and a minimum cumulative credit-weighted grade point average of **6.00** (B) over all biology courses completed.
To graduate in a Specialized Honours program requires successful completion of all Faculty requirements and departmental required courses, a minimum cumulative credit-weighted grade point average of 6.00 (B) over all biology courses completed, and a minimum cumulative credit-weighted grade point average of 5.00 (C+) over all courses completed.

Honours Major Program (BSc)

In addition to the Biology Honours Major, students may follow a stream in biomedical science.

Biology Honours Major

A. General education:

- non-science requirement: 12 credits;
- mathematics: SC/MATH 1505 6.00, or six credits from SC/MATH 1013 3.00, SC/MATH 1014 3.00, SC/MATH 1025 3.00;
- computer science: LE/EECS 1520 3.00 or LE/EECS 1530 3.00 or LE/EECS 1540 3.00;
- foundational science: one of SC/CHEM 1000 3.00 and SC/CHEM 1001 3.00 (prerequisites for SC/BIOL 2020 3.00 and SC/CHEM 2020 3.00); SC/PHYS 1410 6.00; SC/PHYS 1420 6.00; SC/PHYS 1010 6.00; SC/ISCI 1310 6.00; SC/PHYS 1411 3.00 and SC/PHYS 1412 3.00; SC/PHYS 1421 3.00 and SC/PHYS 1422 3.00; SC/PHYS 1011 3.00 and SC/PHYS 1012 3.00; SC/ISCI 1301 3.00 and SC/ISCI 1302 3.00.

Note that the biomedical science stream requires specific courses (see below).

B. Major requirements:

To graduate in a Specialized Honours program requires successful completion of all Faculty requirements and departmental required courses, a minimum cumulative credit-weighted grade point average of 2.70 (B-) over all biology courses completed, and a minimum cumulative credit-weighted grade point average of 2.00 (C) over all courses completed.

Honours Major Program (BSc)

In addition to the Biology Honours Major, students may follow a stream in biomedical science.

Biology Honours Major

A. General education:

- non-science requirement: 12 credits;
- mathematics: SC/MATH 1505 6.00, or six credits from SC/MATH 1013 3.00, SC/MATH 1014 3.00, SC/MATH 1025 3.00;
- computer science: LE/EECS 1520 3.00 or LE/EECS 1530 3.00 or LE/EECS 1540 3.00;
- foundational science: one of SC/CHEM 1000 3.00 and SC/CHEM 1001 3.00 (prerequisites for SC/BIOL 2020 3.00 and SC/CHEM 2020 3.00); SC/PHYS 1410 6.00; SC/PHYS 1420 6.00; SC/PHYS 1010 6.00; SC/ISCI 1310 6.00; SC/PHYS 1411 3.00 and SC/PHYS 1412 3.00; SC/PHYS 1421 3.00 and SC/PHYS 1422 3.00; SC/PHYS 1011 3.00 and SC/PHYS 1012 3.00; SC/ISCI 1301 3.00 and SC/ISCI 1302 3.00.

Note that the biomedical science stream requires specific courses (see below).

B. Major requirements:
### Biology stream
- The program core, as specified above (24 credits);
- additional credits from biology courses, as required, for an overall total of at least 51 credits from biology courses, including at least 18 credits at the 3000 or higher level, of which at least 12 credits are at the 4000 level.

### Biomedical Science Stream
- **SC/CHEM 1000 3.00** and **SC/CHEM 1001 3.00**;
- one of **SC/PHYS 1410 6.00**; **SC/PHYS 1420 6.00**; **SC/PHYS 1010 6.00**; **SC/ISCI 1310 6.00**; **SC/PHYS 1411 3.00** and **SC/PHYS 1412 3.00**; **SC/PHYS 1421 3.00** and **SC/PHYS 1422 3.00**;
- **SC/PHYS 1011 3.00** and **SC/PHYS 1012 3.00**; **SC/ISCI 1301 3.00** and **SC/ISCI 1302 3.00**; **HH/PSYC 1010 6.00**;
- **SC/BIOL 1000 3.00** and **SC/BIOL 1001 3.00**, **SC/BIOL 2020 3.00**, **SC/BIOL 2021 3.00**, **SC/BIOL 2040 3.00**, **SC/BIOL 2070 3.00**, **SC/CHEM 2020 3.00** and **SC/CHEM 2021 3.00**; a minimum of one of **SC/BIOL 2030 4.00** or **SC/BIOL 2060 3.00**;
- a minimum of nine credits chosen from the following courses: **SC/BIOL 3060 4.00**; **SC/BIOL 3070 4.00**; **SC/BIOL 3100 2.00**; **SC/BIOL 3110 3.00**; **SC/BIOL 3130 3.00**; **SC/BIOL 3150 4.00**; **SC/BIOL 3155 3.00**; **SC/BIO 4010 3.00**;
- additional biology credits from the following courses, as required, for an overall total of 51 biology credits: **SC/BIOL 2010 4.00**, **SC/BIOL 2030 4.00**, **SC/BIO 2060 3.00**, **SC/BIO 3010 3.00**, **SC/BIO 3060 4.00**, **SC/BIO 3070 4.00**, **SC/BIO 3071 3.00**, **SC/BIO 3072 3.00**.

- within the 51 biology credits at least 18 credits must be at the 3000 level or higher, of which at least 12 credits must be at the 4000 level. This must also include a minimum of seven credits from 3000 level or higher biology courses with an associated laboratory component.

C. Science breadth: a total of 24 credits in science disciplines outside the major, of which three credits must be at the 2000 level or above. 15 of these 24 credits are satisfied by the General Education requirement. In the biomedical science stream this requirement is fully satisfied by the above requirements.

D. Upper level: 42 credits at the 3000 level or above.

E. Additional elective credits, as required, for an overall minimum total of 85 credits from science disciplines (including the major) and an overall total of 120 credits.
F. Standing requirements: to graduate in an Honours program requires successful completion of all Faculty requirements and departmental required courses, a minimum cumulative credit-weighted grade point average of 5.00 (C+) over all biology courses completed, and a minimum cumulative credit-weighted grade point average of 2.00 (C) over all courses completed.

Honours Double Major Program

All Honours BSc degree candidates should consult departmental advisers as early as possible concerning course requirements for particular Honours Double Major programs. Possible subject combinations for Honours Double Major BSc degree programs are listed under Undergraduate Degree Programs in the Faculty of Science Undergraduate Degree and Certificate Programs section. Students should consult with a departmental advisor to plan their studies in order to meet the requirements for both majors and their prerequisites.

A. General education:

- non-science requirement: 12 credits;
- mathematics: SC/MATH 1505 6.00, or six credits from SC/MATH 1013 3.00, SC/MATH 1014 3.00, SC/MATH 1025 3.00;
- computer science: LE/EECS 1520 3.00 or LE/EECS 1530 3.00 or LE/EECS 1540 3.00;
- foundational science: one of SC/CHEM 1000 3.00 and SC/CHEM 1001 3.00 (prerequisites for SC/BIOL 2020 3.00 and SC/CHEM 2020 3.00); SC/PHYS 1410 6.00; SC/PHYS 1420 6.00; SC/PHYS 1010 6.00; SC/ISCI 1310 6.00; SC/PHYS 1411 3.00 and SC/PHYS 1412 3.00; SC/PHYS 1421 3.00 and SC/PHYS 1422 3.00; SC/PHYS 1011

**B. Major requirements:**
- SC/BIOL 1000 3.00 and SC/BIOL 1001 3.00;
- at least 12 credits from 2000-level biology courses in the program core;
- additional credits from biology courses, as required for an overall total of at least 42 credits from biology courses, including at least 18 credits at the 3000 level or above, of which at least 12 credits are at the 4000 level;
- the course requirements for the second major.

**C. Science breadth:** a total of 24 credits in science disciplines outside the major, of which three credits must be at the 2000 level or above. 15 of these 24 credits are satisfied by the General Education requirement. Satisfied if the other major is another science discipline.

**D. Upper level:** 42 credits at the 3000 level or above.

**E. Additional elective credits,** as required for an overall total of 120 credits.

**F. Standing requirements:** to graduate in an Honours program requires successful completion of all Faculty requirements and departmental required courses, a minimum cumulative credit-weighted grade point average of 5.00 (C+) over all biology courses completed, and a minimum cumulative credit-weighted grade point average of 5.00 (C+) over all courses completed.

**Honours Major/Minor Program**

An Honours Major in biology may be combined with an Honours Minor in another subject area in an Honours Major/Minor BSc
Students may follow a stream within the Honours Major/Minor program in Biomedical Science (stream requirements are listed under the Biology Honours Major program). This stream may be combined with other approved science minors.

A. General education:

- non-science requirement: 12 credits;
- mathematics: SC/MATH 1505 6.00, or six credits from SC/MATH 1013 3.00, SC/MATH 1014 3.00, SC/MATH 1025 3.00;
- computer science: LE/EECS 1520 3.00 or LE/EECS 1530 3.00 or LE/EECS 1540 3.00;
- foundational science: one of SC/CHEM 1000 3.00 and SC/CHEM 1001 3.00 (prerequisites for SC/BIOL 2020 3.00 and SC/CHEM 2020 3.00); SC/PHYS 1410 6.00; SC/PHYS 1420 6.00; SC/PHYS 1010 6.00; SC/ISCI 1310 6.00; SC/PHYS 1411 3.00 and SC/PHYS 1412 3.00; SC/PHYS 1421 3.00 and SC/PHYS 1422 3.00; SC/PHYS 1011 3.00 and SC/PHYS 1012 3.00; SC/ISCI 1301 3.00 and SC/ISCI 1302 3.00.

B. Major requirements:

**Biology stream**

- the program core as specified above (24 credits);
- additional credits from biology courses, as required, for an overall total of at least 51 credits from biology courses, including at least 18 credits at the 3000 or higher level, of
which at least 12 credits are at the 4000 level.

- The course requirements for the minor.

Honours Minor

• SC/BIOL 1000 3.00 and SC/BIOL 1001 3.00;
• at least 12 credits from biology courses at the 2000 level;
• at least nine credits from biology courses at the 3000 or higher level, including at least three credits at the 4000 level;
• additional credits from biology courses at the 2000 or higher level, as required for an overall total of at least 30 credits from biology courses.

Note: it is recommended that students interested in cell biology, genetics, molecular biology and biochemistry take the following courses: SC/BIOL 1000 3.00 and SC/BIOL 1001 3.00, SC/CHEM 1000 3.00, SC/CHEM 1001 3.00, SC/BIOL 2020 3.00, SC/BIOL 2021 3.00, SC/BIOL 2040 3.00, SC/BIOL 2070 3.00, SC/CHEM 2020 3.00 and SC/CHEM 2021 3.00, plus a minimum of nine additional credits from biology courses at the 3000 or higher level. For other areas of interest, students are advised to choose their 2000-level biology courses wisely, based on the prerequisites for the courses they wish to take at the 3000 or higher level. Check the course outlines in this publication for course prerequisites.

International Bachelor of Science

All Honours iBSc degree candidates must complete an international component in addition to the normal requirements of biology and the BSc. For further information about the international Bachelor of Science, refer to the International Bachelor of Arts and International Bachelor of Science in the

## Specialized Honours in Biology (Honours iBSc)

### A. General education:
- **non-science requirement:** 12 credits (may be satisfied in whole or part by courses in the international component);
- **mathematics:** SC/MATH 1505 6.00, or six credits from SC/MATH 1013 3.00, SC/MATH 1014 3.00, SC/MATH 1025 3.00;
- **computer science:** LE/EECS 1520 3.00 or LE/EECS 1530 3.00 or LE/EECS 1540 3.00;
- **foundational science:** one of SC/CHEM 1000 3.00 and SC/CHEM 1001 3.00 (prerequisites for SC/BIOL 2020 3.00 and SC/CHEM 2020 3.00); SC/PHYS 1410 6.00; SC/PHYS 1420 6.00; SC/PHYS 1010 6.00; SC/ISCI 1310 6.00; SC/PHYS 1411 3.00 and SC/PHYS 1412 3.00; SC/PHYS 1421 3.00 and SC/PHYS 1422 3.00; SC/PHYS 1011 3.00 and SC/PHYS 1012 3.00; SC/ISCI 1301 3.00 and SC/ISCI 1302 3.00.

### B. Major requirements:
- the program core as specified above (24 credits);
- SC/BIOL 3100 2.00;
- SC/BIOL 4000 8.00 or SC/BIOL 4000 3.00;
- additional credits from biology courses, as required for an overall total of at least 62 credits from biology courses, including at least 18 credits at the 3000 or higher level, of which at least 12 credits are at the 4000 level.
In addition, the following must be completed for the international component:

- a minimum of 12 credits of language study in one of the languages offered at York University;
- a minimum of 12 credits of non-science courses with an international component (refer to sample list of courses in the section on international degrees), which will also serve to meet the non-science requirement of the general education component;
- an additional six credits of language study or non-science international component courses, for a total of 30 credits;
- one to two exchange terms abroad as a full-time student at an institution with which York University has a formal exchange agreement.

C. Science breadth: 24 credits in science disciplines outside the major, of which three credits must be at the 2000 level or above. 15 of these 24 credits are satisfied by the above requirements.

D. Upper level: a minimum of 42 credits at the 3000 level or above.

E. Additional elective credits, as required, for an overall total of 120 credits.

F. Standing requirement: to declare Specialized Honours requires successful completion of at least 24 credits, a minimum cumulative credit-weighted grade point average of 5.00 (C+) over all courses completed and a minimum cumulative credit-weighted grade point average of 6.00 (B) over all biology courses completed.

To proceed in each year of a Specialized Honours program requires a minimum cumulative credit-weighted grade point average of 2.00 (C) over all courses completed and a minimum cumulative credit-weighted grade point average of 2.70 (B-) over all biology courses completed.
average of 5.00 (C+) over all courses completed and a minimum cumulative credit-weighted grade point average of 6.00 (B) over all biology courses completed.

To graduate in a Specialized Honours program requires successful completion of all Faculty requirements and departmental required courses, a minimum cumulative credit-weighted grade point average of 6.00 (B) over all biology courses completed, and a minimum cumulative credit-weighted grade point average of 5.00 (C+) over all courses completed.

Honours Major Program (iBSc)

Students may follow a stream within the Honours Major program in biomedical science.

A. General education:

- non-science requirement: 12 credits (may be satisfied in whole or part by courses in the international component).
- mathematics: SC/MATH 1505 6.00, or six credits from SC/MATH 1013 3.00, SC/MATH 1014 3.00, SC/MATH 1025 3.00;
- computer science: LE/EECS 1520 3.00 or LE/EECS 1530 3.00 or LE/EECS 1540 3.00;
- foundational science: one of SC/CHEM 1000 3.00 and SC/CHEM 1001 3.00 (prerequisites for SC/BIOL 2020 3.00 and SC/CHEM 2020 3.00); SC/PHYS 1410 6.00; SC/PHYS 1420 6.00; SC/PHYS 1010 6.00; SC/ISCI 1310 6.00; SC/PHYS 1411 3.00 and SC/PHYS 1412 3.00; SC/PHYS 1421 3.00 and SC/PHYS 1422 3.00; SC/PHYS 1011 3.00 and SC/PHYS 1012 3.00; SC/ISCI 1301 3.00 and SC/ISCI 1302 3.00.

average of 2.00 (C) over all courses completed and a minimum cumulative credit-weighted grade point average of 2.70 (B-) over all biology courses completed.

To graduate in a Specialized Honours program requires successful completion of all Faculty requirements and departmental required courses, a minimum cumulative credit-weighted grade point average of 2.70 (B-) over all biology courses completed, and a minimum cumulative credit-weighted grade point average of 2.00 (C) over all courses completed.

Honours Major Program (iBSc)

Students may follow a stream within the Honours Major program in biomedical science.

A. General education:

- non-science requirement: 12 credits (may be satisfied in whole or part by courses in the international component).
- mathematics: SC/MATH 1505 6.00, or six credits from SC/MATH 1013 3.00, SC/MATH 1014 3.00, SC/MATH 1025 3.00;
- computer science: LE/EECS 1520 3.00 or LE/EECS 1530 3.00 or LE/EECS 1540 3.00;
- foundational science: one of SC/CHEM 1000 3.00 and SC/CHEM 1001 3.00 (prerequisites for SC/BIOL 2020 3.00 and SC/CHEM 2020 3.00); SC/PHYS 1410 6.00; SC/PHYS 1420 6.00; SC/PHYS 1010 6.00; SC/ISCI 1310 6.00; SC/PHYS 1411 3.00 and SC/PHYS 1412 3.00; SC/PHYS 1421 3.00 and SC/PHYS 1422 3.00; SC/PHYS 1011 3.00 and SC/PHYS 1012 3.00; SC/ISCI 1301 3.00 and SC/ISCI 1302 3.00.
### B. Major requirements:

#### Biology stream

- the program core as specified above (24 credits);
- additional credits from biology courses, as required, for an overall total of at least 45 credits from biology courses (42 credits if SC/CHEM 2020 3.00 and SC/CHEM 2021 3.00 are chosen in the core);

#### Biomedical Science Stream (iBSc)

- **SC/CHEM 1000 3.00** and **SC/CHEM 1001 3.00**;
- one of **SC/PHYS 1410 6.00**; **SC/PHYS 1420 6.00**; **SC/PHYS 1411 3.00** and **SC/PHYS 1412 3.00**; **SC/PHYS 1421 3.00** and **SC/PHYS 1422 3.00**; **SC/PHYS 1010 3.00** and **SC/ISCI 1301 3.00** and **SC/ISCI 1302 3.00**; **HH/PSYC 1010 6.00**;
- **SC/Biol 1000 3.00** and **SC/Biol 1001 3.00**, **SC/Biol 2020 3.00**, **SC/Biol 2021 3.00**, **SC/Biol 2040 3.00**, **SC/Biol 2070 3.00**, **SC/CHEM 2020 3.00** and **SC/CHEM 2021 3.00**; a minimum of one of **SC/Biol 2030 4.00** or **SC/Biol 2060 3.00**;
- a minimum of nine credits chosen from the following courses: **SC/Biol 3060 4.00**; **SC/Biol 3070 4.00**; **SC/Biol 3110 3.00**; **SC/Biol 3130 3.00**; **SC/Biol 3150 4.00**; **SC/Biol 3155 3.00**; **SC/Biol 4010 3.00**;
- additional biology credits from the following courses, as required, for an overall total of 42 biology credits: **SC/Biol 2010 4.00**, **SC/Biol 2030 4.00**, **SC/Biol 2060 3.00**, **SC/Biol 3010 3.00**, **SC/Biol 3060 4.00**, **SC/Biol 3070**

### B. Major requirements:

#### Biology stream

- the program core as specified above (24 credits);
- additional credits from biology courses, as required, for an overall total of at least 45 credits from biology courses (42 credits if SC/CHEM 2020 3.00 and SC/CHEM 2021 3.00 are chosen in the core);

#### Biomedical Science Stream (iBSc)

- **SC/CHEM 1000 3.00** and **SC/CHEM 1001 3.00**;
- one of **SC/PHYS 1410 6.00**; **SC/PHYS 1420 6.00**; **SC/PHYS 1010 6.00**; **SC/ISCI 1310 6.00**; **SC/PHYS 1411 3.00** and **SC/PHYS 1412 3.00**; **SC/PHYS 1421 3.00** and **SC/PHYS 1422 3.00**; **SC/PHYS 1011 3.00** and **SC/PHYS 1012 3.00**; **SC/ISCI 1301 3.00** and **SC/ISCI 1302 3.00**; **HH/PSYC 1010 6.00**;
- **SC/Biol 1000 3.00** and **SC/Biol 1001 3.00**, **SC/Biol 2020 3.00**, **SC/Biol 2021 3.00**, **SC/Biol 2040 3.00**, **SC/Biol 2070 3.00**, **SC/CHEM 2020 3.00** and **SC/CHEM 2021 3.00**; a minimum of one of **SC/Biol 2030 4.00** or **SC/Biol 2060 3.00**;
- a minimum of nine credits chosen from the following courses: **SC/Biol 3060 4.00**; **SC/Biol 3070 4.00**; **SC/Biol 3110 3.00**; **SC/Biol 3130 3.00**; **SC/Biol 3150 4.00**; **SC/Biol 3155 3.00**; **SC/Biol 4010 3.00**;
- additional biology credits from the following courses, as required, for an overall total of 42 biology credits: **SC/Biol 2010 4.00**, **SC/Biol 2030 4.00**, **SC/Biol 2060 3.00**, **SC/Biol 3010 3.00**, **SC/Biol 3060 4.00**, **SC/Biol 3070**

</table>

- **Within the 42 biology credits at least 18 credits must be at the 3000 level or higher, of which at least 12 credits must be at the 4000 level.** This must also include a minimum of seven credits from 3000 level or higher biology courses with an associated laboratory component.

In addition, the following must be completed for the international component:

- A minimum of 12 credits of language study in one of the languages offered at York University;
- A minimum of 12 credits of non-science courses with an international component (refer to sample list of courses in the section on international degrees), which will also serve to meet the non-science requirement of the general education component;
- An additional six credits of language study or non-science international study.
component courses, for a total of 30
• one to two exchange terms abroad
  as a full-time student at an
  institution with which York
  University has a formal exchange
  agreement.

C. Science breadth: 24 credits in science
  disciplines outside the major, of which three
  credits must be at the 2000 level or above.
  15 of these 24 credits are satisfied by the
  above requirements.

D. Upper level: a minimum of 42 credits at
  the 3000 level or above.

E. Additional elective credits, as required,
  for an overall total of 85 credits from science
  disciplines (including the major) and an
  overall total of 120 credits.

F. Standing requirements: to graduate in an
  Honours program requires successful
  completion of all Faculty requirements and
  departmental required courses, a minimum
  cumulative credit-weighted grade point
  average of 5.00 (C+) over all biology courses
  completed, and a minimum cumulative
  credit-weighted grade point average of 5.00
  (C+) over all courses completed.

Honours Major/Minor Program (iBSc)

Students may follow a stream within the
Honours Major/Minor program in
biomedical science (stream requirements
are listed under the Biology Honours Major
program). This stream may be combined
with other approved science minors.

A. General Education:

• non-science requirement: 12 credits
  (may be satisfied in whole or part by
courses in the international
  component);
### Mathematics
- SC/MATH 1505 6.00, or six credits from SC/MATH 1013 3.00, SC/MATH 1014 3.00, SC/MATH 1025 3.00;
- Computer science: LE/EECS 1520 3.00 or LE/EECS 1530 3.00 or LE/EECS 1540 3.00
- Foundational science: one of SC/CHEM 1000 3.00 and SC/CHEM 1001 3.00 (prerequisites for SC/BIOL 2020 3.00 and SC/CHEM 2020 3.00); SC/PHYS 1410 6.00; SC/PHYS 1420 6.00; SC/PHYS 1411 3.00 and SC/PHYS 1412 3.00; SC/PHYS 1421 3.00 and SC/PHYS 1422 3.00; SC/PHYS 1011 3.00 and SC/PHYS 1012 3.00; SC/ISCI 1301 3.00 and SC/ISCI 1302 3.00.

### Computer Science
- LE/EECS 1520 3.00 or LE/EECS 1530 3.00 or LE/EECS 1540 3.00

### Foundational Science
- SC/PHYS 1410 6.00; SC/PHYS 1420 6.00; SC/PHYS 1411 3.00 and SC/PHYS 1412 3.00; SC/PHYS 1421

### B. Major requirements:

#### Biology stream
- The program core as specified above (24 credits);
- Additional credits from biology courses, as required, for an overall total of at least 45 credits from biology courses (42 if SC/CHEM 2020 3.00 and SC/CHEM 2021 3.00 are chosen in the core), including at least 18 credits at the 3000 or higher level, of which at least 12 credits are at the 4000 level;
- The course requirements for the minor.

#### Biomedical science stream
- SC/CHEM 1000 3.00 and SC/CHEM 1001 3.00;
- One of SC/PHYS 1410 6.00; SC/PHYS 1420 6.00; SC/PHYS 1411 3.00 and SC/PHYS 1412 3.00; SC/PHYS 1421

### B. Major requirements:

#### Biology stream
- The program core as specified above (24 credits);
- Additional credits from biology courses, as required, for an overall total of at least 45 credits from biology courses (42 if SC/CHEM 2020 3.00 and SC/CHEM 2021 3.00 are chosen in the core), including at least 18 credits at the 3000 or higher level, of which at least 12 credits are at the 4000 level;
- The course requirements for the minor.

#### Biomedical science stream
- SC/CHEM 1000 3.00 and SC/CHEM 1001 3.00;
- One of SC/PHYS 1410 6.00; SC/PHYS 1420 6.00; SC/PHYS 1411 3.00 and SC/PHYS 1412 3.00; SC/PHYS 1421
3.00 and SC/PHYS 1422
3.00; SC/PHYS 1011
3.00 and SC/PHYS 1012 3.00; SC/ISCI 1301 3.00 and SC/ISCI 1302 3.00; HH/PSYC 1010 6.00;
SC/BIOI 1000 3.00 and SC/BIOI 1001 3.00, SC/BIOI 2020 3.00, SC/BIOI 2021 3.00, SC/BIOI 2040 3.00, SC/BIOI 2070 3.00, SC/CHEM 2020 3.00 and SC/CHEM 2021 3.00; a minimum of one of SC/BIOI 2030 4.00 or SC/BIOI 2060 3.00;
a minimum of nine credits chosen from the following courses: SC/BIOI 3060 4.00, SC/BIOI 3070 4.00, SC/BIOI 3110 3.00, SC/BIOI 3130 3.00, SC/BIOI 3150 4.00, SC/BIOI 3155 3.00, SC/BIOI 4010 3.00;
additional biology credits from the following courses, as required, for an overall total of 42 biology credits: SC/BIOI 2010 4.00, SC/BIOI 2030 4.00, SC/BIOI 2060 3.00, SC/BIOI 3010 3.00, SC/BIOI 3060 4.00, SC/BIOI 3070 4.00, SC/BIOI 3100 2.00, SC/BIOI 3110 3.00, SC/BIOI 3120 3.00, SC/BIOI 3130 3.00, SC/BIOI 3140 4.00, SC/BIOI 3150 4.00, SC/BIOI 3155 3.00, SC/BIOI 4000 3.00, SC/BIOI 4000 8.00, SC/BIOI 4010 3.00, SC/BIOI 4020 3.00, SC/BIOI 4030 3.00, SC/BIOI 4061 3.00, SC/BIOI 4110 4.00, SC/BIOI 4141 3.00, SC/BIOI 4150 3.00, SC/BIOI 4151 3.00, SC/BIOI 4155 3.00, SC/BIOI 4200 3.00, SC/BIOI 4220 4.00, SC/BIOI 4270 3.00, SC/BIOI 4285 3.00, SC/BIOI 4290 4.00, SC/BIOI 4310 3.00, SC/BIOI 4320 3.00, SC/BIOI 4350 4.00, SC/BIOI 4360 3.00, SC/BIOI 4370 3.00, SC/BIOI 4380 3.00 and SC/PHYS 1422
3.00; SC/PHYS 1011 3.00 and SC/PHYS 1012 3.00; SC/ISCI 1301 3.00 and SC/ISCI 1302 3.00; HH/PSYC 1010 6.00;
SC/BIOI 1000 3.00 and SC/BIOI 1001 3.00, SC/BIOI 2020 3.00, SC/BIOI 2021 3.00, SC/BIOI 2040 3.00, SC/BIOI 2070 3.00, SC/CHEM 2020 3.00 and SC/CHEM 2021 3.00; a minimum of one of SC/BIOI 2030 4.00 or SC/BIOI 2060 3.00;
a minimum of nine credits chosen from the following courses: SC/BIOI 3060 4.00, SC/BIOI 3070 4.00, SC/BIOI 3110 3.00, SC/BIOI 3130 3.00, SC/BIOI 3150 4.00, SC/BIOI 3155 3.00, SC/BIOI 4010 3.00;
additional biology credits from the following courses, as required, for an overall total of 42 biology credits: SC/BIOI 2010 4.00, SC/BIOI 2030 4.00, SC/BIOI 2060 3.00, SC/BIOI 3010 3.00, SC/BIOI 3060 4.00, SC/BIOI 3070 4.00, SC/BIOI 3100 2.00, SC/BIOI 3110 3.00, SC/BIOI 3120 3.00, SC/BIOI 3130 3.00, SC/BIOI 3140 4.00, SC/BIOI 3150 4.00, SC/BIOI 3155 3.00, SC/BIOI 4000 3.00, SC/BIOI 4000 8.00, SC/BIOI 4010 3.00, SC/BIOI 4020 3.00, SC/BIOI 4030 3.00, SC/BIOI 4061 3.00, SC/BIOI 4110 4.00, SC/BIOI 4141 3.00, SC/BIOI 4150 3.00, SC/BIOI 4151 3.00, SC/BIOI 4155 3.00, SC/BIOI 4200 3.00, SC/BIOI 4220 4.00, SC/BIOI 4270 3.00, SC/BIOI 4285 3.00, SC/BIOI 4290 4.00, SC/BIOI 4310 3.00, SC/BIOI 4320 3.00, SC/BIOI 4350 4.00, SC/BIOI 4360 3.00, SC/BIOI 4370 3.00, SC/BIOI 4380
In addition, the following must be completed for the international component:

- a minimum of 12 credits of language study in one of the languages offered at York University;
- a minimum of 12 credits of non-science courses with an international component (refer to sample list of courses in the section on international degrees), which will also serve to meet the non-science requirement of the general education component;
- an additional six credits of language study or non-science international component courses, for a total of 30 credits;
- one to two exchange terms abroad as a full-time student at an institution with which York University has a formal exchange agreement.

C. Science breadth: a total of 24 credits in science disciplines outside the major, of which three credits must be at the 2000 level or above. On the biology stream, 15 of these 24 credits are satisfied by the General Education requirement. In the biomedical science stream this requirement is fully satisfied by the above requirements.

</tr>
</tbody>
</table>

**Important note:** some major/minor combinations will require students to complete more than 120 credits. Students are advised to consult minor requirements as early as possible and to plan their program of study in consultation with an academic adviser and the iBSc supplemental calendar. Courses taken to meet requirements of the minor can also count as international component and/or non-science requirements for the BSc General Education Requirement. In fact, in order to complete the degree requirements within the minimum number of credits some double counting will be necessary. Minors that can, with appropriate planning, be completed with the biology major within 120 credits include African studies, culture and expression, East Asian studies, environmental studies, European studies, geography, German studies, French studies, history, international development studies, Italian culture, Italian studies, Latin American and Caribbean studies, Portuguese studies, psychology, race, ethnicity and indigeneity, South Asian studies and Spanish.
ENVIRONMENTAL BIOLOGY

Program Core

The program core (35 or 36 credits) is defined as:

- SC/Biol 1000 3.00 and SC/Biol 1001 3.00;
- SC/ENVB 2050 4.00;
- SC/Biol 2060 3.00;
- SC/Biol 2070 3.00 or SC/Biol 2010 4.00; SC/Biol 2030 4.00 (both SC/CHEM 2020 3.00 and SC/CHEM 2021 3.00 may replace one of the two 4 credit biology courses);
- additional courses as required for a total of at least 18 2000-level credits chosen from the following:
  - SC/Biol 2010 4.00,
  - SC/Biol 2020 3.00 (cross-listed to: SC/BCHM 2020 3.00),
  - SC/Biol 2021 3.00 (cross-listed to: SC/BCHM 2021 3.00),
  - SC/Biol 2030 4.00,
  - SC/Biol 2040 3.00,
  - SC/Biol 2070 3.00,
  - SC/CHEM 2020 3.00,
  - SC/CHEM 2021 3.00;
- SC/ENVB 3001 2.00 (cross-listed to: SC/Biol 3001 2.00) or SC/ENVB 3001 3.00 (cross-listed to: SC/Biol 3001 3.00);
- SC/ENVB 3170 3.00;
- SC/ENVB 4245 3.00 (cross-listed to: SC/Biol 4245 3.00);
- SC/Biol 4255 3.00 (cross-listed to: EU/Envs 4111 3.00).

Note: both SC/CHEM 1000 3.00 and SC/CHEM 1001 3.00 are required as prerequisites for SC/Biol 2020 3.00 and SC/CHEM 2020 3.00 if they are chosen in the program core.
### Bachelor Program

#### A. General education:

- **non-science requirement:** 12 credits. [EU/ENVS 1000 6.00](#) is recommended for students interested in taking additional environmental studies courses;
- **mathematics:** [SC/MATH 1505 6.00](#) or six credits from [SC/MATH 1013 3.00](#), [SC/MATH 1014 3.00](#), [SC/MATH 1025 3.00](#);
- **computer science:** [LE/EECS 1520 3.00](#) or [LE/EECS 1530 3.00](#) or [LE/EECS 1540 3.00](#);
- **foundational science:** one of [SC/CHEM 1000 3.00](#) and [SC/CHEM 1001 3.00](#) (prerequisites for [SC/BIOL 2020 3.00](#) and [SC/CHEM 2020 3.00](#)); [SC/PHYS 1410 6.00](#); [SC/PHYS 1420 6.00](#); [SC/PHYS 1010 6.00](#); [SC/ISCI 1310 6.00](#) and [SC/PHYS 1411 3.00](#) and [SC/PHYS 1412 3.00](#) and [SC/PHYS 1421 3.00](#) and [SC/PHYS 1422 3.00](#) and [SC/PHYS 1011 3.00](#) and [SC/PHYS 1012 3.00](#) and [SC/ISCI 1301 3.00](#) and [SC/ISCI 1302 3.00](#).

#### B. Major requirement:

- the program core, as specified above (35 or 36 credits);
- additional credits from the following list of courses for an overall total of at least 42 credits from environmental biology and biology courses of which at least 12 credits are at the 3000 or higher level:
  - [SC/ENVB 3002 2.00](#) (cross-listed to: [SC/BIOL 3002 2.00](#)),
  - [SC/ENVB 3002 3.00](#) (cross-listed to: [SC/BIOL 3002 3.00](#)),
  - [SC/BIOL 3150 4.00](#),
  - [SC/BIOL 3200 3.00](#),
  - [SC/ENVB 3170 3.00](#),
  - [SC/ENVB 3002 2.00](#) (cross-listed to: [SC/BIOL 3002 2.00](#)),
  - [SC/ENVB 3002 3.00](#) (cross-listed to: [SC/BIOL 3002 3.00](#)),
  - [SC/BIOL 3150 4.00](#),
  - [SC/BIOL 3200 3.00](#),
  - [SC/ENVB 3170 3.00](#),
C. Science breadth: 24 credits in science disciplines outside the major, of which three credits must be at the 2000 level or above. 21 of these 24 credits are satisfied by the above requirements.

D. Upper level: a minimum of 18 credits at the 3000 level or above.

E. Additional elective credits, as required, for an overall total of 90 credits.

F. Standing requirements: a minimum overall grade point average of 1.70 (C-) is required in order to be eligible to graduate with a BSc degree (bachelor program).
Honours Programs

Honours Major Program

A. General education:

- non-science requirement: 12 credits. EU/ENVS 1000 6.00 is recommended for students interested in taking additional environmental studies courses;
- mathematics: SC/MATH 1505 6.00 or six credits from SC/MATH 1013 3.00, SC/MATH 1014 3.00, SC/MATH 1025 3.00. (Note: students intending to combine environmental biology with applied mathematics, chemistry, computer science, earth and atmospheric science, mathematics, mathematics for education, physics and astronomy or statistics should not take SC/MATH 1505 6.00.);
- computer science: LE/EECS 1520 3.00 or LE/EECS 1530 3.00 or LE/EECS 1540 3.00;
- foundational science: one of SC/CHEM 1000 3.00 and SC/CHEM 1001 3.00 (prerequisites for SC/BIOL 2020 3.00 and SC/CHEM 2020 3.00); SC/PHYS 1410 6.00; SC/PHYS 1420 6.00; SC/PHYS 1010 6.00; SC/ISCI 1310 6.00; SC/PHYS 1411 3.00 and SC/PHYS 1412 3.00; SC/PHYS 1421 3.00 and SC/PHYS 1422 3.00; SC/PHYS 1011 3.00 and SC/PHYS 1012 3.00; SC/ISCI 1301 3.00 and SC/ISCI 1302 3.00.

Note: both SC/CHEM 1000 3.00 and SC/CHEM 1001 3.00 are required as prerequisites for SC/BIOL 2020 3.00 and SC/CHEM 2020 3.00 in the program core.
B. Major requirements:

- The program core as specified above (35 or 36 credits);
- **SC/ENVB 4700 3.00**;
- additional credits from the following list of courses for an overall total of at least 51 credits from environmental biology and biology courses, including at least 18 credits at the 3000 or higher level, of which at least 12 credits must be at the 4000 level:
  - **SC/ENVB 3002 2.00** (cross-listed to: **SC/BIOL 3002 2.00**),
  - **SC/ENVB 3002 3.00** (cross-listed to: **SC/BIOL 3002 3.00**),
  - **SC/BIOL 3150 4.00**,
  - **SC/BIOL 3200 3.00**,
  - **SC/ENVB 3250 4.00** (cross-listed to: **SC/BIOL 3250 4.00**),
  - **SC/ENVB 3270 3.00** (cross-listed to: **SC/BIOL 3270 3.00**),
  - **SC/ENVB 3280 4.00** (cross-listed to: **SC/BIOL 3280 4.00**),
  - **SC/ENVB 3290 4.00** (cross-listed to: **SC/BIOL 3290 4.00**),
  - **SC/BIOL 3500 3.00** (cross-listed to: **EU/GEOG 3500 3.00, SC/GEOG 3500 3.00**),
  - **SC/ENVB 4000 3.00** or **SC/ENVB 4000 8.00**,
  - **SC/BIOL 4085 4.00**,
  - **SC/ENVB 4095 3.00** (cross-listed to: **SC/BIOL 4095 3.00**),
  - **SC/ENVB 4200 3.00**,
  - **SC/ENVB 4230 4.00** (cross-listed to: **SC/BIOL 4230 4.00**),
  - **SC/ENVB 4250 3.00** (cross-listed to: **SC/BIOL 4250 3.00**),
  - **SC/ENVB 4265 3.00** (cross-listed to: **SC/BIOL 4265 3.00**),
  - **SC/BIOL 4305 3.00**,
  - **SC/BIOL 4390 3.00**,
  - **SC/BIOL 4710 3.00**;
- **SC/GEOG 1400 6.00**.
C. Science breadth: 24 credits in science disciplines outside the major, of which three credits must be at the 2000 level or above. 21 of these 24 credits are satisfied by the above requirements.

D. Upper level: a minimum of 42 credits at the 3000 level or above.

E. Additional elective credits, as required, for an overall minimum total of 85 credits from science disciplines (including the major) and an overall total of 120 credits.

F. Standing requirements: to graduate in an Honours program requires successful completion of all Faculty requirements and departmental required courses, a minimum cumulative credit-weighted grade point average of 5.00 (C+) over all environmental biology and biology courses completed, and a minimum cumulative credit-weighted grade point average of 5.00 (C+) over all courses completed.

Honours Double Major Program

All BSc Honours degree candidates should consult departmental advisors as early as possible concerning course requirements for particular Honours Double Major programs. Possible subject combinations for BSc Honours Double Major degree programs are listed in the Undergraduate Degree and Certificate Programs section of the Faculty Rules.

A. General education:

- non-science requirement: 12 credits. EU/ENVS 1000 6.00 is recommended for students interested in taking additional environmental studies courses:
- mathematics: SC/MATH 1505 6.00 or six credits from SC/MATH 1013 3.00, SC/MATH 1014 3.00, SC/MATH 1025 3.00. (Note: students intending
to combine environmental biology with applied mathematics, chemistry, computer science, earth and atmospheric science, mathematics, mathematics for education, physics and astronomy or statistics should not take SC/MATH 1505 6.00.

- computer science: LE/EECS 1520 3.00 or LE/EECS 1530 3.00 or LE/EECS 1540 3.00;
- foundational science: one of SC/CHEM 1000 3.00 and SC/CHEM 1001 3.00 (prerequisites for SC/BIOL 2020 3.00 and SC/CHEM 2020 3.00); SC/PHYS 1410 6.00; SC/PHYS 1420 6.00; SC/PHYS 1010 6.00; SC/ISCI 1310 6.00; SC/PHYS 1411 3.00 and SC/PHYS 1412 3.00; SC/PHYS 1421 3.00 and SC/PHYS 1422 3.00; SC/PHYS 1011 3.00 and SC/PHYS 1012 3.00; SC/ISCI 1301 3.00 and SC/ISCI 1302 3.00.

B. Major requirements:

- SC/BIOL 1000 3.00 and SC/BIOL 1001 3.00;
- SC/ENVB 2050 4.00;
- SC/BIOL 2060 3.00;
- any two of:
  - SC/BIOL 2010 4.00,
  - SC/BIOL 2020 3.00,
  - SC/BIOL 2021 3.00,
  - SC/BIOL 2030 4.00,
  - SC/BIOL 2040 3.00,
  - SC/BIOL 2070 3.00.
  - Both SC/CHEM 2020 3.00 and SC/CHEM 2021 3.00 may replace one of these two biology courses.
- SC/ENVB 3001 2.00 or SC/ENVB 3001 3.00;
- additional credits from the following list of courses for an overall total of at least 42 credits from
environmental biology and biology courses, including at least 18 credits at the 3000 or higher level, of which at least 12 credits must be at the 4000 level:

- SC/ENVB 3002 2.00 (cross-listed to: SC/Biol 3002 2.00),
- SC/ENVB 3002 3.00 (cross-listed to: SC/Biol 3002 3.00),
- SC/Biol 3150 4.00,
- SC/ENVB 3170 3.00,
- SC/Biol 3200 3.00,
- SC/ENVB 3250 4.00 (cross-listed to: SC/Biol 3250 4.00),
- SC/ENVB 3270 3.00 (cross-listed to: SC/Biol 3270 3.00),
- SC/ENVB 3280 4.00 (cross-listed to: SC/Biol 3280 4.00),
- SC/ENVB 3290 4.00 (cross-listed to: SC/Biol 3290 4.00),
- SC/Biol 3500 3.00 (cross-listed to: EU/GEOG 3500 3.00, SC/GEOG 3500 3.00),
- SC/ENVB 4000 3.00 or SC/ENVB 4000 8.00,
- SC/Biol 4085 4.00,
- SC/ENVB 4095 3.00 (cross-listed to: SC/Biol 4095 3.00),
- SC/ENVB 4200 3.00,
- SC/ENVB 4230 4.00 (cross-listed to: SC/Biol 4230 4.00),
- SC/ENVB 4245 3.00 (cross-listed to: SC/Biol 4245 3.00),
- SC/ENVB 4250 3.00 (cross-listed to: SC/Biol 4250 3.00),
- SC/ENVB 4255 3.00,
- SC/ENVB 4265 3.00 (cross-listed to: SC/Biol 4265 3.00),
- SC/Biol 4305 3.00,
- SC/Biol 4390 3.00,
- SC/ENVB 4700 3.00 (cross-listed to: SC/Biol 4700 3.00),
- SC/Biol 4710 3.00

C. Science breadth: 24 credits in science disciplines outside the major, of which three credits must be at the 2000 level or above.
15 of these 24 credits are satisfied by the above requirements. Satisfied if the second major is another science discipline.

D. Upper level: a minimum of 42 credits at the 3000 level or above.

E. Additional elective credits, as required, for an overall total of 120 credits.

F. Standing requirements: to graduate in an Honours program requires successful completion of all Faculty requirements and departmental required courses, a minimum cumulative credit-weighted grade point average of 5.00 (C+) over all environmental biology and biology courses completed, and a minimum cumulative credit-weighted grade point average of 5.00 (C+) over all courses completed.

Honours Major/Minor Program

An Honours Major in environmental biology may be combined with an Honours Minor in another subject area in a BSc Honours Major/Minor degree program. Possible subject combinations are listed in the Undergraduate Degree and Certificate Programs section of the Faculty Rules.

A. General education:

- non-science requirement: 12 credits. EU/ENVS 1000 6.00 is recommended for students interested in taking additional environmental studies courses:
- mathematics: SC/MATH 1505 6.00 or six credits from SC/MATH 1013 3.00, SC/MATH 1014 3.00, SC/MATH 1025 3.00. (Note: students intending to combine environmental biology with applied mathematics, chemistry, computer science, earth and atmospheric science, mathematics, mathematics for education, physics and astronomy or
B. Major requirements:

- the program core as specified above (35 to 36 credits);
- SC/ENVB 4700 3.00;
- additional credits from the following list of courses for an overall total of at least 51 credits from environmental biology and biology courses, including at least 18 credits at the 3000 or higher level, of which at least 12 credits must be at the 4000 level:
  - SC/ENVB 3002 2.00 (cross-listed to: SC/Biol 3002 2.00),
  - SC/ENVB 3002 3.00 (cross-listed to: SC/Biol 3002 3.00),
  - SC/Biol 3150 4.00,
  - SC/Biol 3200 3.00,
  - SC/ENVB 3250 4.00 (cross-listed to: SC/Biol 3250 4.00),
  - SC/ENVB 3270 3.00 (cross-listed to: SC/Biol 3270 3.00),
  - SC/ENVB 3280 4.00 (cross-listed to: SC/Biol 3280 4.00),
  - SC/ENVB 3290 4.00 (cross-listed to: SC/Biol 3290 4.00),
- SC/ENVB 3290 4.00 (cross-listed to: SC/Biol 3290 4.00),
- SC/ENVB 3290 4.00 (cross-listed to: SC/Biol 3290 4.00),
- SC/ENVB 3290 4.00 (cross-listed to: SC/Biol 3290 4.00),
- SC/ENVB 3290 4.00 (cross-listed to: SC/Biol 3290 4.00),
- SC/ENVB 3290 4.00 (cross-listed to: SC/Biol 3290 4.00),
- SC/ENVB 3290 4.00 (cross-listed to: SC/Biol 3290 4.00),
C. Science breadth: 24 credits in science disciplines outside the major, of which three credits must be at the 2000 level or above. 21 of these 24 credits are satisfied by the above requirements. Satisfied if the minor is another science discipline.

D. Upper level: a minimum of 42 credits at the 3000 level or above.

E. Additional elective credits, as required, for an overall total of 120 credits.

F. Standing requirements: to graduate in an Honours program requires successful completion of all Faculty requirements and departmental required courses, a minimum cumulative credit-weighted grade point average of 5.00 (C+) over all environmental biology and biology courses completed, and a minimum cumulative credit-weighted grade point average of 5.00 (C+) over all courses completed.

C. Science breadth: 24 credits in science disciplines outside the major, of which three credits must be at the 2000 level or above. 21 of these 24 credits are satisfied by the above requirements. Satisfied if the minor is another science discipline.

D. Upper level: a minimum of 42 credits at the 3000 level or above.

E. Additional elective credits, as required, for an overall total of 120 credits.

F. Standing requirements: to graduate in an Honours program requires successful completion of all Faculty requirements and departmental required courses, a minimum cumulative credit-weighted grade point average of 2.00 (C) over all environmental biology and biology courses completed, and a minimum cumulative credit-weighted grade point average of 2.00 (C) over all courses completed.

Honours Minor
An Honours minor in environmental biology may be combined with an Honours major in another subject area. Possible subject combinations are listed in the Undergraduate Degree and Certificate Programs section of the Faculty Rules.

- **SC/Biol 1000 3.00** and **SC/Biol 1001 3.00**;
- **SC/Envb 2050 4.00**;
- **SC/Biol 2060 3.00**;
- any two of:
  - both **SC/CheM 2020 3.00** and **SC/CheM 2021 3.00** may substitute for one of these two biology courses.
- **SC/Envb 3001 2.00** (cross-listed to: **SC/Biol 3001 2.00**) or **SC/Envb 3001 3.00** (cross-listed to: **SC/Biol 3001 3.00**);
- additional credits from the following list of courses for an overall total of at least nine credits from environmental biology and biology courses at the 3000 or 4000 level:
  - **SC/Envb 3002 2.00** (cross-listed to: **SC/Biol 3002 2.00**), **SC/Envb 3002 3.00** (cross-listed to: **SC/Biol 3002 3.00**), **SC/Biol 3150 4.00**, **SC/Envb 3170 3.00**, **SC/Biol 3200 3.00**, **SC/Envb 3250 4.00** (cross-listed to: **SC/Biol 3250 4.00**), **SC/Envb 3270 3.00** (cross-listed to: **SC/Biol 3270 3.00**), **SC/Envb 3280 4.00** (cross-listed to: **SC/Biol 3280 4.00**), **SC/Envb 3290 4.00** (cross-listed to: **SC/Biol 3290 4.00**), **SC/Envb 3290 4.00** (cross-listed to: **SC/Biol 3290 4.00**), **SC/Envb 3290 4.00** (cross-listed to: **SC/Biol 3290 4.00**).
- additional credits from the above listed environmental biology and biology courses at the 2000 or higher level, as required for an overall total of at least 30 environmental biology or biology credits.
New Grading Schemes: Template for Program and/or Academic Regulation Changes

This template should be used for changes to program and/or academic regulations (e.g. changes to admission, degree and program requirements) resulting from the transition to the new grading schemes effective FW2023-2024.

Once this template has been completed and reviewed by the appropriate Faculty-level governance body/bodies, it should be submitted to ASCP via a MachForm (at the hyperlink) by no later than April 7, 2021.

1. Please select ONE of the two checkboxes below.
   ☒ A. The changes described below:
   1) consist of a mathematical conversion of GPA requirements from the current to the new grading schemes in accordance with the conversion scales OR
   2) align with the minimum undergraduate thresholds outlined in the Policy on York University Grading Schemes

   ☐ B. The changes described below do not meet the criteria outlined in A, i.e. they represent a change to GPA requirements that varies from the mathematical conversion and University standard or include elements such as major GPA, course grade or graduation requirements.

If you require clarity about which category is most appropriate, please contact the ASCP Secretary at kwhite1@yorku.ca.

2. Program: Science and Technology Studies

3. Degree Designation: (List all degree options within the program) Majors and Minors

4. Type of Modification: Changes to program or academic regulations as a result of the transition to the new grading schemes (Additional detail may be added) TBD

5. Effective Date: FW2023-2024

6. Describe the proposed changes to the program or academic regulations. (Not required if A is checked)

7. Provide the rationale for the proposed changes that is rooted in academic standards, fairness to students, and the program learning outcomes. (Not required if A is checked)

8. Summarize the consultation undertaken within the program and with relevant academic or non-academic units, such as the Dean or Principal’s Office and the Office of the University Registrar. (Not required if A is checked)

9. Provide as an appendix a side-by-side comparison of the existing and proposed program requirements as they will appear in the Undergraduate or Graduate Calendar.

Instructions:
- Reproduce only the sections in which GPA changes are being made for the program/certificate/diploma. Please ensure to capture all references to the GPA.
- Reproduce relevant content for all degree options within a program (Specialized Honours, Honours, 90-credit, Honours Minor, etc).
- Denote deletions/changes with strikethrough in the LEFT column and additions/changes with **bold, blue, underlined** type in the RIGHT column.
- An example is provided below for reference.

Science for the Future
Faculty of Science Strategic Plan 2021–2025

Fostering discovery.
Engaging community.
Inspiring futures.
Preamble: Contingency mechanism
This strategic plan represents our forward-looking approach to the next five years (2021–2025). In 2021, there remains considerable uncertainty regarding the global COVID-19 pandemic and the return to in-person learning on university campuses. As the pandemic continues to evolve, it is possible that a further extension to online learning will be required. In this scenario, the Faculty of Science will pivot to a contingency plan focused on remote learning and support for research, strengthening its online teaching and learning capabilities and investing significant resources into e-learning and technology enhancement.

Vision
Fostering discovery. Engaging community. Inspiring futures.

Mission
The Faculty of Science is a hub of research and teaching excellence, fostering scientific discovery and tackling global challenges to create positive change in our world. Our students learn from leading scientists and benefit from a contemporary curriculum and hands-on opportunities, enabling their transition to impactful careers. Our researchers collaborate and engage globally and here at home, enhancing our academic excellence, diversity, and our capacity to build a better future for everyone. Our dedicated, service-oriented staff allow our Faculty community to flourish.
Strategic Priority:

TEACHING & LEARNING

GOAL
Provide students with a high-quality education and the knowledge, skills, and credentials they desire to successfully transition into rewarding and impactful careers.

INITIATIVES

1 Deliver high-quality academic programs in high-demand fields that reflect the aspirations of students; meet or exceed University-established enrolment targets for both domestic and international students.

2 Identify and target geographic markets for international enrolment growth; create strategic initiatives that promote and position the Faculty of Science as a preferred collaborator and partner on the international stage.

3 Develop and promote high-quality, leading-edge curriculum that will differentiate the Faculty of Science, such as:
   a. In-demand programs that correspond directly to societal needs.
   b. In-demand micro-credentials, certificate programs, and professional degrees that enhance employability.
   c. Increased intra- and inter-faculty collaborative programs.
   d. Optimized online and blended in-person/online courses and programs to diversify learning.
   e. Advancement of academic programming at the forthcoming Markham campus.

4 Excel in teaching through pedagogical excellence and innovation; support and acknowledge faculty members’ pedagogical efforts.
   a. Promote teaching excellence through training, workshops, and engagement with all faculty members, working with the Committee on Teaching and Learning (CoTL) and the Teaching Commons.
   b. Encourage and promote avenues for constructive and impactful learning evaluations.

5 Promote alignment of course learning outcomes, teaching and learning activities, and assessments, to be confirmed in curriculum reviews. Improve communication between Dean’s Office and departments regarding the outcomes of curriculum reviews and implementation. Promote and support curricular mapping of programs within each unit.

6 Recognize teaching excellence through internal and external award nominations and celebration of these achievements; track nominations and awards at department and Faculty levels.
Strategic Priority:

RESEARCH

GOAL

Foster research excellence through recruitment and retention, recognition, and support of world-class faculty and trainees, combined with a targeted focus on existing and emerging areas of research excellence, making the Faculty a hub of cutting-edge research and innovation in both fundamental and applied areas. Promote impactful, research-intensive culture across the Faculty.

INITIATIVES

1. Identify research strengths and areas of concentration to leverage and grow, such as those that:
   a. Align with the UN’s Sustainable Development Goals and tackle key societal challenges.
   b. Are global, diverse, and collaborative.

2. Substantially increase external research funding compared to 2015–2020 average levels from diversified sources including government, industry, foundations, and philanthropy, in part by supporting strategic/team applications (e.g., CFI, ORF, NFRF-T, CREATE, Genome Canada) and potential commercialization opportunities.
   a. Encourage formation of Organized Research Units to help support these endeavours.
   b. Encourage engagement by all faculty in research activities.

3. Raise the number, visibility, and impact of research chair appointments with a view to strengthening and building research clusters in the aforementioned areas.

4. Promote our research successes to key audiences to reinforce their relevance to our community; track and measure the impacts of these promotional efforts.
   a. Support researchers’ engagement in public outreach efforts to communicate their research to broader audiences, including industry and policymakers.

5. Support and centrally track research awards, enabling more faculty across all ranks to receive major internal (e.g., President’s Research Excellence Award) and external research awards and honours (e.g., FRSC, NSERC McDonald Fellowships, Sloan Fellowships, CIFAR Global Scholar Awards).

6. Expand research connections and partnerships with industry and government – locally, nationally, and internationally.

7. Optimize and strengthen our internal research support mechanisms for researchers and students.
   a. Keep research infrastructure competitive and develop sustainable models for maintenance and support of centralized and shared equipment, including YSciCore (our core facility for microscopy, nuclear magnetic resonance, and mass spectrometry).
   b. Provide enhanced personalized grant and award development support.

Strategic Priority:

**STUDENT EXPERIENCE & SUCCESS**

**GOAL**

Using a student-focused lens, provide supports that enhance our students’ experience in the Faculty of Science and facilitate their success during their time with us and beyond.

**INITIATIVES**

1. Consistently measure and improve student satisfaction, performance, and retention using validated tools.

2. Improve quality and efficiency of undergraduate advising and support:
   a. Measure and improve quality, consistency, and response time of advising across departments and the Faculty.
   b. Improve quality, accessibility, and organization of Faculty of Science online resources and contact channels for current and prospective students.

3. Enhance experiential learning opportunities and access to career paths:
   a. Increase co-op, experiential learning, research, and industry mentorship opportunities; create experiential education experiences available to all science majors.
   b. Create mechanisms to support faculty interaction and engagement with industry.
   c. Create a science alumni network for mentorship, networking, and career opportunities for students and recent graduates.
   d. Expand opportunities for research (e.g., summer research awards) and experiential learning (e.g., Mitacs placements, co-op programs) for students at all levels.

4. Establish new undergraduate and graduate scholarships/awards and bursaries for both domestic and international students; increase support to help students identify and apply to available scholarships and bursaries, including external awards.

5. Support and work with Faculty of Graduate Studies and other relevant Faculties/partners to offer professional development opportunities for postdoctoral fellows and graduate students.

6. Initiate partnerships and collaborations to leverage the GTA entrepreneurial ecosystem (e.g., MaRS, ventureLAB, other incubators/accelerators) and existing university resources (e.g., YSpace) to help prepare our students for the job market and open opportunities to entrepreneurial career paths.

7. Ensure that diversity and accessibility are reflected in curricula and program offerings:
   a. Create more opportunities for all students to have international exchange and field course experiences.
   b. Add and improve existing supports to ensure a supportive and equitable educational and cultural environment for all students.
   c. Improve accessibility and accommodations for students with disabilities.
Strategic Priority:
ORGANIZATIONAL EXCELLENCE

GOAL
Make the Faculty of Science an enabling, empowering, and inclusive community that attracts and retains high-quality faculty, staff, researchers, and students. Encourage and promote individual excellence as well as collaboration and teamwork.

INITIATIVES

1 Implement the principles of Equity, Diversity and Inclusion (EDI) in every aspect of the Faculty of Science community; increase and improve communication surrounding related goals and initiatives.

2 Incorporate accessibility fully into our planning, keeping in mind the requirements under the Accessibility for Ontarians with Disabilities Act for all public and private institutions to be fully accessible by 2025.

3 Actively support the mental and physical wellbeing of faculty, researchers, staff, and students by supporting, promoting, and increasing awareness around the university’s mental and physical health resources.

4 Implement Dean’s Space Strategy Taskforce Report to strategically manage our Faculty’s space needs; upgrade and create spaces for students, teaching, research, and services that are welcoming, collaborative, accessible, and help attract and retain students, faculty, researchers, and staff.

5 Support the ongoing professional development of our faculty, researchers, and staff with resources and programming, and communication of available supports.

6 Promote a culture of community, collaboration, and celebration of our successes within the Faculty:
   a. Provide more opportunities for faculty, researchers, staff, and students to give input and feedback for improvement to all aspects of our Faculty.
   b. Support and facilitate Faculty-wide events/programs that promote intellectual and social interactions across disciplines and departments, and between students, faculty, staff, and researchers.
   c. Solicit, support, and track nominations for awards and honours for faculty, staff, researchers, students, and alumni to celebrate their contributions to our success.

7 Enhance transparency and communication surrounding Faculty governance, operation, and key metrics to encourage and support strategic decision-making by all members of the Faculty.
Strategic Priority:

REPUTATION, ENGAGEMENT & OUTREACH

GOAL

Promote the Faculty of Science effectively to key audiences both within and outside of York University. Offer innovative outreach programs that raise the profile, reputation, and impact of the Faculty of Science.

INITIATIVES

1 Develop a strategic and comprehensive communications plan targeted to Faculty of Science constituencies and stakeholders, including: Prospective and current students; decision makers (parents/guardians); faculty and staff; alumni and recent grads; industry; government/funders; prospective and current donors, and internal/external media.

2 Raise the profile of the Faculty by promoting its research, teaching, student, and alumni successes both internally within the university and externally to media and the public. Offer supports to enable this, including:
   a. Communications, social media, and marketing resources and best practices for faculty, researchers, and staff.
   b. Raising awareness of and encouraging participation in communications/media training offered by central communications.

3 Continue to serve and engage the wider community through innovative outreach programs including:
   a. Continuation and expansion of programs for children/youth, high school students, teachers, and the general public.
   b. Identification of and outreach to underrepresented communities.
   c. Opportunities for the general public to directly engage with Faculty of Science research and faculty members.
   d. International engagement and outreach programs in identified target markets.

4 Foster alumni connectivity and new alumni engagement opportunities to expand our reach and profile.

5 Work with York University’s Advancement team to increase efforts and outcomes of philanthropic activities.
