

# HyFlex Times

Summer 2022 Issue One, May 20 2022

## Top Story

Welcome to the HyFlex pilot project! For colleagues who are new to this pilot, HyFlex Times is a bi-weekly/monthly resource guide for HyFlex teaching and learning at York. For returning colleagues of this pilot, welcome back!

In this newsletter, we include

- Latest news and updates on HyFlex teaching and learning at York
- Strategies and tips to promote successful student learning in a HyFlex course
- How-to guides on technical tools and equipment
- Success stories and lessons learned from our piloting colleagues
- Contact information for technical and pedagogical support
- A space to share your experience, feedback, and concerns.

Hyflex Times is a publication by Teaching Commons in collaboration with the Learning Technology Services, the Office of AVP Teaching and Learning, and University Information Technology.

## Big Ideas

Are you new to teaching in HyFlex mode? Are you wondering how you could be better prepared to plan and teach a HyFlex course at York?

The Columbia Center for Teaching and Learning at Columbia University in the City of New York has comprehensive resources on HyFlex teaching and learning basics that you might find useful.

[Hybrid/HyFlex Teaching & Learning](#)

## Toolbox

If you are new to teaching HyFlex courses at York or are new to the York HyFlex Classrooms, please save these two comprehensive how-to resources.

- [Using technology for HyFlex teaching](#)
- [HyFlex Classrooms](#)

Many students and teaching assistants might also be new to HyFlex teaching and learning. They also need guidance and clear expectations to perform successfully in HyFlex courses. Here are some of the best resources to help you guide students and TAs in your HyFlex courses.

- Resources for students
  - [Student Information on the HyFlex Teaching and Learning Pilot \(York University\)](#)
  - [HyFlex Student Guide \(Carleton University\)](#)
  - [Sample Remote Learning Student Expectations \(Grand Valley State University\)](#)
- Resources for TAs
  - [TA Guide for HyFlex \(Livestream\) Classes](#)
  - [Discussion Questions for a HyFlex TA and Instructor](#)

## Snapshots from the Trenches

In this podcast, Dr. Andréa Brus, an assistant professor and the program director for health information technology at Waubensee community college, shares her journey teaching in HyFlex mode. She discusses what she is working on, what is being improved, and offers some helpful advice to other instructors.
