- Listserv of over 700

Value of the TIEDI model

Provides research capacity to the sector:

- Liberating data
- Questions generated by practitioners themselves
- Rapid Response
- User friendly presentation
- Training

Lessons Learned

- Understand the limitations of the available data sources
- Be strategic about who's generating the questions
- Ask strategic questions that available data can shed light on
- Plan ahead - how/who will work with the results to draw out policy/practice implications
