

Applying TIEDI's Knowledge Mobilization Model to Immigrant Cities in Canada

Steven Tufts

Department of Geography, York University

Presentation to the 14th National Metropolis Conference

March 2012, Toronto, Ontario

TIEDI Model in other contexts

City Size	DATA	ACADEMICS	COMMUNITY
MTV	Available but dated	Multiple Universities	Mature Settlement Service Sector
Other CMAs(e.g., Hamilton, Ottawa)	More limited	Single Universities	Expanding Services
Smaller Centres	Very limited	Community College, Small universities	Limited Service Provider Community

TIEDI beyond Toronto: Some Issues

1. To Compare or Not Compare
2. Dated Data
3. Scale of analysis and small numbers problems
4. Community capacities
5. Infrastructural support
