

AI Use: Review and Reflection

(to be submitted with your assignment)

Student Name: _____

Assignment: _____

Date: _____

This reflection is designed to help you use AI tools thoughtfully and ensure that your final work is accurate, clear, and your own.

1. Did you use AI tools for this assignment?

- No
- Yes

If yes, describe how you used AI tools in completing this assignment (e.g., what part of the assignment and for what purpose):

2. Identify one or two specific pieces of information or ideas from AI output that you checked.

- **What did you verify?**
- **Where did you verify it? (e.g., lecture, textbook, academic source)**

3. Describe at least one change you made after reviewing AI-generated content. What did you change, and why? (e.g., correcting an error, improving clarity, adding nuance, integrating course concepts)

4. Describe one specific limitation, omission, or error you noticed in the AI-generated content.

5. How did you decide what to keep, revise, or discard from the AI output? (e.g., based on accuracy, relevance to the assignment, or alignment with course concepts)

6. Did using AI change how you planned, researched, drafted, or revised this assignment? Explain briefly.
